SUMMONS (CITACION JUDICIAL)

SUM-100

NOTICE TO DEFENDANT:

(AVISO AL DEMANDADO):

SOUTHERN CALIFORNIA GAS CO.; SEMpra ENERGY; PACIFIC ENTERPRISES; and DOES 1-100, inclusive

FOR COURT USE ONLY (SOLO PARA USO DE LA CORTE)

CONFORMED COPY OF ORIGINAL FILED

Los Angeles Superior Court

JAN 11 2007

John A. Clark, Executive Officer/Clerk

By Daniel Garcia, Deputy

YOU ARE BEING SUED BY PLAINTIFF:

(LO ESTÁ DEMANDANDO EL DEMANDANTE):

ENVIRONMENTAL LAW FOUNDATION, Individually and in the public interest

You have 30 CALENDAR DAYS after this summons and legal papers are served on you to file a written response at this court and have a copy served on the plaintiff. A letter or phone call will not protect you. Your written response must be in proper legal form if you want the court to hear your case.

There are other legal requirements. You may want to call an attorney right away. If you do not know an attorney, you may want to call an attorney referral service. If you cannot afford an attorney, you may be eligible for free legal services from a nonprofit legal services program.

Tiene 30 DÍAS DE CALENDARIO después de que le entreguen esta citación y papeles legales para presentar una respuesta por escrito en esta corte y hacer que se entregue una copia al demandante. Una carta o una llamada telefónica no lo protegen. Su respuesta por escrito tiene que estar en formato legal correcto si desea que procesen su caso en la corte. Es posible que haya un formulario que usted pueda usar para su respuesta. Puede encontrar estos formularios de la corte y más información en el Centro de Ayuda de las Cortes de California (www.courtinfo.ca.gov/selfhelp/espanol), en la biblioteca de leyes de su condado o en la corte que le quede más cerca. Si no puede pagar la cuota de presentación, pida al secretario de la corte que le dé un formulario de exención de pago de cuotas. Si no presenta su respuesta a tiempo, puede perder el caso por incumplimiento y la corte lo podrá quitar su sueldo, dinero y bienes sin más advertencia. Hay otros requisitos legales. Es recomendable que llame a un abogado inmediatamente. Si no conoce a un abogado, puede llamar a un servicio de remisión a abogados. Si no puede pagar a un abogado, es posible que cumpla con los requisitos para obtener servicios legales gratuitos de un programa de servicios legales sin fines de lucro. Puede encontrar estos grupos sin fines de lucro en el sitio web de California Legal Services (www.lawhelpcalifornia.org), en el Centro de Ayuda de las Cortes de California, (www.courtinfo.ca.gov/selfhelp/espanol) o poniéndose en contacto con la corte o el colegio de abogados locales.

The name and address of the court is: (El nombre y dirección de la corte es): SUPERIOR COURT OF THE STATE OF CALIFORNIA COUNTY OF LOS ANGELES 111 N. Hill Street Los Angeles, CA 90012 Central Judicial District

CASE NUMBER: (Número del Caso): BC364555

The name, address, and telephone number of plaintiff's attorney, or plaintiff without an attorney, is: (El nombre, la dirección y el número de teléfono del abogado del demandante, o del demandante que no tiene abogado, es): CHRISTOPHER P. RIDOUT (SBN 143931) (213) 626-0571 Rose, Klein & Marias LLP 801 S. Grand Avenue, 11th Floor Los Angeles, CA 90017-4645

DATE: JAN 11 2007 (Fecha)

JOHN A. CLARKE, CLERK

CONFIRMED COPY
OF ORIGINAL FILED
Los Angeles Superior Court

JAN 11 2007

John A. Clark, Executive Officer/Clerk
By D. Garcia, Deputy

1 Plaintiff Environmental Law Foundation (hereinafter "Plaintiff" or "ELF") brings this
2 action on its own behalf and in the public interest, and hereby alleges as follows:
3

4 **INTRODUCTION**
5

6 1. In California, water is our most precious natural resource. Unfortunately,
7 Defendants are contaminating or are threatening to contaminate protected sources of
8 drinking water with chemicals that are known to cause cancer and birth defects. These
9 actions violate California's Safe Drinking Water and Toxic Enforcement Act ("Proposition
10 65"). Health and Safety Code § 25249.5, *et. seq.*

11 2. Defendants operate Southern California Gas Company's underground
12 natural gas storage facility ("facility"), which is located in the Playa del Rey region of Los
13 Angeles. See Exhibit 1. The natural gas is stored in a partially depleted oilfield that is
14 located approximately 6,000 feet below ground level. Therein, the stored natural gas
15 mixes with the remaining crude oil from the oilfield and the gas becomes enriched with
16 Benzene, Toluene and Ethylbenzene ("BTEX"), chemicals known by the State of
17 California to cause cancer and birth defects.

21 ///
22 ///
23 ///
24 ///
25 ///
26 ///
27 ///
28 ///

1 3. The underground reservoir is connected to the surface by over 200 wells¹.
2 This action concerns twelve of those Wells, located in Playa del Rey and Marina del Rey
3 areas in Los Angeles.² The Wells were drilled in the 1920's and 1930's and extend the
4 6,000 feet from the reservoir to the surface level. In their path, they intersect the Ballona,
5 Silverado and Gage Aquifers³, which are protected sources of drinking water under the
6 Los Angeles Region's Water Quality Control Plan or "Basin Plan". As these 70 year old
7 Wells deteriorate, they develop cracks and leaks and BTEX is released from the Wells.
8 The BTEX then migrates upward to the surface, contaminating or threatening to
9 contaminate the aquifers.

10 4. Defendants have not only failed to prevent their gas from leaking from the
11 reservoir to the surface, they have been unable to prevent the gas from migrating
12 laterally underground to reach additional Wells. The conditional use permit that
13 authorizes this facility expressly requires that the company confine the gas to a section of
14 the underground reservoir that measures approximately 240 acres. See Exhibit 2.
15 However, the company stores the gas under extremely high pressure and, consequently,
16 the gas has migrated laterally far beyond the 240 acre footprint to an area that measures
17 roughly 2,000 acres. See Exhibit 3. In fact, natural gas has migrated to many Wells that
18 are located beyond the 240 acre footprint identified in its permit, including most if not all
19 of the Wells at issue in this action. See Exhibit 4.

20 ///

21 ///

22

23 ¹ For the purposes of this complaint, "Wells" is defined as all types of wells that are owned by or
24 are under the responsibility of the Defendants, including those that were used to extract oil, dry wells,
25 wells that are or have been used for the facility's natural gas operations (i.e., injection, extraction and
26 monitoring), and all well-associated equipment.

27 ² The specific Wells that are subject to this complaint are Wells 13-1, 23-1, 29-1, 29-2, Champ 1,
28 Hisey 1, Joyce 1, Lor Mar 1, Merrill 1, O&M 1, Samarkand 1 and Troxel 1.

³ Wells 13-1, 23-1, 29-1, 29-2, Champ 1, Hisey 1, Joyce 1, Lor Mar 1, Merrill 1, O&M 1 and
Samarkand 1 intersect the Silverado and Gage Aquifers. Well Troxel 1 intersects the Silverado and
Ballona Aquifers.

1 **B. THE DEFENDANTS**

2 8. Defendant SOUTHERN CALIFORNIA GAS COMPANY ("SoCalGas") is a
3 California corporation with its principal place of business in San Diego, California.
4 SoCalGas provides natural gas and electricity to California customers from the Central
5 Valley to the Mexican border. SoCalGas is the nation's largest natural gas distribution
6 utility, serving 19.8 million consumers in more than 500 communities in Central and
7 Southern California. SoCalGas owns and operates four underground storage facilities in
8 Southern California. This action concerns the Playa Del Rey Storage Facility located at
9 8141 Gulana Ave., Playa Del Rey, California 90293.

10 9. Defendant SEMPRA ENERGY ("Sempra") is a California corporation with
11 its principal place of business in San Diego, California. Sempra is an energy services
12 holding company that was created in 1998 by a merger of Los Angeles-based Pacific
13 Enterprises, the parent company of SoCalGas and Enova Corporation, the parent
14 company of San Diego Gas & Electric. Sempra, a member of the S&P 500, serves the
15 largest customer base of any energy utility in the United States. It sells natural gas and
16 provides electricity and related products and services to more than twenty-nine (29)
17 million consumers in the United States, Europe, Canada, Mexico, South America and
18 Asia.

19 10. Defendant PACIFIC ENTERPRISES ("PacEnt") is a California corporation
20 with its principal place of business in San Diego, California. PacEnt, once a predecessor
21 of Sempra, was founded in 1886 as Pacific Lighting. It purchased several small gas
22 manufacturing and distribution companies in California, which ultimately became
23 SoCalGas. In 1941, PacEnt introduced a new system for storing natural gas in large
24 holding tanks - underground storage.

25 11. The true names and capacities of Defendants sued herein under California
26 Code of Civil Procedure § 474 as DOE Defendants 1 through 100, inclusive, are
27 presently unknown to Plaintiff, who therefore sues these Defendants by such fictitious
28 names. Each of the fictitiously named Defendants is responsible in some manner for the

1 conduct alleged herein and for the injuries suffered by the general public. Plaintiff will
2 seek to amend this Complaint and include these Doe Defendants' true names and
3 capacities when they are ascertained, and after they have been properly given notice
4 under Proposition 65.

5 12. Each named Defendant and DOE Defendants 1 through 100 (collectively
6 "Defendants") herein has employed ten (10) or more persons at all times relevant to this
7 action, and thus each is a "person in the course of doing business" within the meaning of
8 the Act. Health and Safety Code § 25249.11.

9 13. When, in this Complaint, reference is made to any act of the Defendants,
10 such shall be deemed to mean that the officers, directors, agents, employees, or
11 representatives of the Defendants committed or authorized such acts, or failed and
12 omitted to adequately supervise or properly control or direct their employees while
13 engaged in the management, direction, operation or control of the affairs of the
14 Defendants, and did so while acting within the scope of their employment or agency.

15 14. When, in this Complaint, reference is made to any act by a Defendant or
16 Defendants, such allegations and reference shall also be deemed to mean the acts and
17 failures of each Defendant acting individually, jointly and severally.

18 JURISDICTION AND VENUE

19
20
21 15. This Court has jurisdiction over all causes of action asserted herein
22 pursuant to California Constitution, Article VI, Section 10, because this case is a cause
23 not given by statute to other trial courts. This Court also has jurisdiction over this action
24 pursuant to Health & Safety Code § 25249.7, which allows enforcement of violations of
25 Proposition 65 in any Court of competent jurisdiction.

26 16. This Court has jurisdiction over Defendants named herein because they are
27 California corporations, corporations authorized to do business in California and
28 registered with the California Secretary of State, do sufficient business with sufficient

1 minimum contacts in California, or otherwise intentionally avail themselves of the
2 California market through the processing, sale and distribution of natural gas and
3 electricity in California, to render the exercise of jurisdiction over Defendants by the
4 California courts consistent with traditional notions of fair play and substantial justice.

5 17. Venue is proper in this Court because the discharges or releases occurred
6 in Los Angeles County. Furthermore, venue is proper in this Court under Health and
7 Safety Code § 25249.7.

8 18. With respect to violations of Health and Safety Code § 25249.5, *et seq.*, on
9 October 11, 2006, pursuant to Health and Safety Code § 25249.7, Plaintiff served
10 appropriate Notices of Violations of Proposition 65 to each of the named Defendants.
11 The Notices of Violation of Proposition 65 were also served to the California Attorney
12 General, the Los Angeles County District Attorney, and the Los Angeles City Attorney.
13 Each Notice of Violation included a Certificate of Service by Mail and a document entitled
14 "The State Drinking Water & Toxic Enforcement Act of 1986 (Proposition 65) A
15 Summary." Health and Safety Code § 25249.7(d).

16 19. None of these public prosecutors have commenced or is diligently
17 prosecuting an action against the violations alleged herein.

18
19 **STATUTORY AND REGULATORY BACKGROUND**
20

21 20. The Safe Drinking Water and Toxic Enforcement Act of 1986 is an initiative
22 statute that was placed before the California electorate as "Proposition 65". It was
23 approved by the voters by nearly a two-to-one margin. Health and Safety Code
24 § 25249.5, *et seq.*

25 ///

26 ///

27 ///

28 ///

1 21. Health and Safety Code § 25249.5 absolutely prohibits any business from
2 contaminating California's drinking water supplies. Section 25249.5 provides:

3 No person in the course of doing business shall knowingly
4 discharge or release a chemical known to the state to cause
5 cancer or reproductive toxicity into water or onto or into land
6 where such chemical passes or probably will pass into any
7 source of drinking water. . .

8 22. Proposition 65 establishes a procedure by which the Governor lists
9 chemicals known to the state to cause cancer or reproductive toxicity. Health and Safety
10 Code § 25249.8. Pursuant to this authority, on February 27, 1987, Benzene was listed
11 as a known carcinogen. On December 26, 1997, Benzene was also listed as a known
12 reproductive toxicant. On January 1, 1991, Toluene was listed as a known reproductive
13 toxicant. On June 11, 2004, Ethylbenzene was listed as a known carcinogen. Each of
14 these chemicals became subject to the prohibitions under Health and Safety Code
15 § 25249.5 twenty months after they were listed. Health and Safety Code § 25249.9(a).

16 23. Under Proposition 65, a "source of drinking water" is defined as a present
17 source of drinking water or water that is identified in a water quality control plan or "Basin
18 Plan" as being suitable for domestic or municipal uses. Health and Safety Code
19 § 25249.11(d). Moreover, "water" is defined to include both surface and ground water,
20 pursuant to 22 CCR § 12102(w). The State Water Resources Control Board Resolution
21 No. 88-63 states that "[a]ll surface and ground waters of the State are considered to be
22 suitable, or potentially suitable, for municipal or domestic water supply and should be so
23 designated by the Regional Boards." In accordance with this policy, the Los Angeles
24 Regional Water Quality Control Board designated the West Coast sub-basin and the
25 Santa Monica sub-basin, which contain the Ballona, Silverado, and Gage Aquifers, as
26 having existing beneficial use for domestic drinking water.

27 24. Violations of Proposition 65 may be enforced by any person in the public
28 interest, after providing a 60-day notice of the violations to the Attorney General, District
29 Attorney, City Attorney and the alleged violator. Health and Safety Code
30 § 25249.7(d)(1). Remedies include injunctive relief to prevent actual or threatened

1 violations, and penalties of up to \$2,500 per day per violation. Health and Safety Code
2 § 25249.7(a) and (b).

4 FACTUAL BACKGROUND

6 **A. THE PLAYA DEL REY FACILITY**

7 25. Defendants operate the Southern California Gas Company, which is
8 located in the Playa del Rey region of Los Angeles and supplies natural gas to California
9 customers. The facility is located in a highly developed and populated residential section
10 of Los Angeles. The facility operates an import, storage, transfer and delivery system of
11 natural gas. Part of the operations include the underground storage of natural gas, for
12 which it uses a partially depleted oilfield located approximately 6,000 feet below ground
13 level. The reservoir is connected to the surface by over 200 Wells, which were drilled in
14 the 1920's and 1930's in order to retrieve the oil. Approximately 30% of the original oil
15 from the oilfield was depleted. In 1942, as part of the national war effort, the Federal
16 government allowed the reservoir to be converted into an underground storage facility for
17 natural gas. The oilfield is located under a thick layer of cap rock (a low permeable layer
18 of rock). It was believed that the cap rock would prevent the gas from leaking to the
19 surface, even though it had been punctured over 200 times when the Wells were
20 originally drilled. This belief was based on the assumption that the Wells would not leak.

21 26. Currently, pipelines deliver natural gas from Texas and Oklahoma to the
22 Playa del Rey facility. The imported natural gas is compressed and placed under
23 significant pressure in order to inject it into the underground reservoir. As the reservoir is
24 only partially depleted of crude oil, it has a high concentration of aromatic and volatile
25 organic compounds, including Benzene, Toluene and Ethylbenzene, chemicals that the
26 State of California recognizes as carcinogens and reproductive toxicants. When the
27 natural gas is injected underground under high pressure, it mixes with the crude oil from
28 the reservoir, becomes enriched with BTEX.

1 27. The twelve Wells that are subject to this action were drilled in the 1930's
2 using equipment and materials of the day. These 70 year old Wells have deteriorated
3 over time and have developed cracks and leaks. When leaks in the Wells develop, the
4 leaks allow BTEX to be released from the Well casings and into the soil and rock
5 formations that surround the Wells. The BTEX then moves vertically toward the surface,
6 passing into or threatening to pass into the Ballona, Silverado and Gage Aquifers, and
7 contaminating or threatening to contaminate these protected sources of drinking water.

8 28. Moreover, under the conditional use permit issued by the City of Los
9 Angeles Planning Commission, the company is required to confine the gas in the
10 reservoir to an area that measures approximately 240 acres. However, because the
11 company stores the gas under such high pressure, the gas has migrated outside of the
12 240 acre footprint and spans across an area that is roughly 2,000 acres. In fact, tests
13 have detected BTEX around the heads of Wells that are located outside of the 240 acre
14 footprint, including most if not all of the Wells at issue in this action, indicating that the
15 gas has not only migrated laterally, but that the Wells themselves leak.

16
17 **B. THE WELLS**

18 29. This action concerns releases or discharges from twelve (12) individual
19 Wells. Each of these Wells has and continues to discharge or release BTEX, which pass
20 or probably will pass into sources of drinking water in violation of Health and Safety Code
21 § 25249.5. The surface location of each of the Wells is located on a lot which the
22 Defendants are in the process of selling, presumably for more residential development.

23 30. Well "13-1" is located in Playa del Rey, which is within the City and County
24 of Los Angeles, California. Well 13-1 was drilled in 1935 to a depth of approximately
25 6,400 feet and it intersects the Silverado and Gage Aquifers. Well 13-1 was operated
26 periodically until it was abandoned in 1992.

27 ///

28 ///

1 31. Well "23-1" is located in Playa del Rey, which is within the City and County
2 of Los Angeles, California. Well 23-1 was drilled in 1935 to a depth of approximately
3 6,500 feet, and it intersects the Silverado and Gage Aquifers. Well 23-1 was abandoned
4 in 1940, but in 1955 it was reworked and operated periodically until it was re-abandoned
5 in 1993.

6 32. Well "29-1" is located in Playa del Rey, which is within the City and County
7 of Los Angeles, California. Well 29-1 was drilled in 1935 to a depth of approximately
8 6,200 feet, and it intersects the Silverado and Gage Aquifers. Well 29-1 was abandoned
9 in 1941, but in 1956 it was reworked and operated periodically until it was re-abandoned
10 in 1994.

11 33. Well "29-2" is located in Playa del Rey, which is within the City and County
12 of Los Angeles, California. Well 29-2 was drilled in 1936 to a depth of approximately
13 6,300 feet, and it intersects the Silverado and Gage Aquifers. Well 29-2 was operated
14 until it was abandoned in 1994.

15 34. Well "Champ 1" is located in Playa del Rey, which is within the City and
16 County of Los Angeles, California. Champ 1 was drilled in 1935 to a depth of
17 approximately 6,900 feet, and it intersects the Silverado and Gage Aquifers. Champ 1
18 was abandoned in 1937, and re-abandoned in 1958.

19 35. Well "Hisey 1" is located in Playa del Rey, which is within the City and
20 County of Los Angeles, California. Hisey 1 was drilled in 1935 to a depth of
21 approximately 6,500 feet, and it intersects the Silverado and Gage Aquifers. Hisey 1 was
22 abandoned in 1939, but in 1956 it was reworked and operated periodically until it was re-
23 abandoned in 1992.

24 36. Well "Joyce 1" is located in Playa del Rey, which is within the City and
25 County of Los Angeles, California. Joyce 1 was drilled in 1935 to a depth of
26 approximately 6,700 feet, and it intersects the Silverado and Gage Aquifers. Joyce 1
27 was abandoned in 1941, but in 1956 it was reworked and operated until it was re-
28 abandoned in 1993.

1 37. Well "Lor Mar 1" is located in Playa del Rey, which is within the City and
2 County of Los Angeles, California. Lor Mar 1 was drilled in 1935 to a depth of
3 approximately 6,800 feet and it intersects the Silverado and Gage Aquifers. Lor Mar 1
4 was abandoned in 1936, but in 1956 it was reworked and operated until it was re-
5 abandoned in 1992.

6 38. Well "Merrill 1" is located in Playa del Rey, in the City and County of
7 California. Merrill 1 was drilled in 1935 to a depth of approximately 6,200 feet, and it
8 intersects the Silverado and Gage Aquifers. Merrill 1 was abandoned in 1942, but in
9 1956 it was reworked and operated periodically until it was re-abandoned in 1992.

10 39. Well "O&M 1" is located in Playa del Rey, which is within the City and
11 County of Los Angeles, California. O&M 1 was drilled in 1935 to a depth of
12 approximately 6,600 feet, and it intersects the Silverado and Gage Aquifers. O&M 1 was
13 abandoned in 1936 and it was re-abandoned in 1956.

14 40. Well "Samarkand 1" is located in Playa del Rey, which is within the City and
15 County of Los Angeles, California. Samarkand 1 was drilled in 1939 to a depth of
16 approximately 6,400 feet, and it intersects the Silverado and Gage Aquifers. Samarkand
17 1 was abandoned in 1992.

18 41. Well "Troxel 1" is located in Marina del Rey, which is within the City and
19 County of Los Angeles, California. Troxel 1 was drilled in 1930 to a depth of
20 approximately 5,900 feet, and it intersects the Ballona and Silverado Aquifers. Troxel 1
21 was abandoned in 1993, but required re-abandonment in 1994.

22
23 **C. DEFENDANTS' KNOWLEDGE OF THE LEAKING STORAGE WELLS**

24 42. Defendants have known that there were and are continuing to be leaks of
25 BTEX from each of the subject Wells. This activity has resulted in the continuous
26 discharge or release of chemicals known to cause cancer and birth defects into water or
27 into or onto land where the chemicals pass or probably will pass into sources of drinking
28 water.

1 48. Proposition 65 defines a "source of drinking water" as surface or ground
2 water that is a present source of drinking water or that is identified in a water quality
3 control plan as being suitable for domestic or municipal uses. Health and Safety Code
4 § 25249.11(d); 22 California Code of Regulations ("CCR") § 12102(w). The State Water
5 Resources Control Board Resolution No. 88-63 states that "[a]ll surface and ground
6 waters of the State are considered to be suitable, or potentially suitable, for municipal or
7 domestic water supply and should be so designated by the Regional Boards." In
8 accordance with this policy, the Los Angeles Regional Water Quality Control Board
9 designated the West Coast sub-basin and the Santa Monica sub-basin, which contain
10 the Ballona, Silverado and Gage Aquifers, as supporting existing beneficial uses for
11 domestic drinking water.

12 49. Defendants are "person[s] in the course of doing business", as that phrase
13 is defined under Health and Safety Code § 25249.11, because they are businesses with
14 ten (10) or more employees.

15 50. Defendants know and have known that discharges or releases of BTEX
16 from each Well have and continue to occur.

17 51. Proposition 65 provides that any person "violating or threatening to violate"
18 the statute may be enjoined in any court of competent jurisdiction. Health and Safety
19 Code § 25249.7. In addition, violators are liable for civil penalties of up to \$2,500 per day
20 per violation, recoverable in a civil action. *Id.*, § 25249.7(b). By the described acts,
21 Defendants are liable for a civil penalty of up to \$2,500 per day per for each discharge or
22 release of BTEX from each Well described in each Cause of Action. *Id.*, § 25249.7(b).

FIRST CAUSE OF ACTION

**Violations of California Health and Safety Code § 25249.5, et seq.
(Against All Defendants, as to Well 13-1)**

52. Plaintiff incorporates by reference all of the above paragraphs as if fully set forth herein.

53. Defendants own Well 13-1. Well 13-1 has and continues to discharge or release BTEX, chemicals known to the State of California to cause cancer and/or birth defects. These chemicals are discharged or released through leaks in Well 13-1 and migrate vertically towards the surface through the Well casing or natural points of least resistance in the rock and soil which surround the Well. BTEX passes or probably will pass into the Silverado and Gage Aquifers, which are protected sources of drinking water.

54. Therefore, Defendants in the course of doing business knowingly discharged or released BTEX, chemicals known to cause cancer and/or birth defects, into water or onto or into land where these chemicals pass or probably will pass into a source of drinking water, in violation of Health and Safety Code § 25249.5.

SECOND CAUSE OF ACTION

**Violations of California Health and Safety Code § 25249.5, et seq.
(Against All Defendants, as to Well 23-1)**

55. Plaintiff incorporates by reference all of the above paragraphs as if fully set forth herein.

56. Defendants own Well 23-1. Well 23-1 has and continues to discharge or release BTEX, chemicals known to the State of California to cause cancer and/or birth defects. These chemicals are discharged or released through leaks in Well 23-1 and migrate vertically towards the surface through the Well casing or natural points of least

///
///

1 resistance in the rock and soil which surround the Well. BTEX passes or probably will
2 pass into the Silverado and Gage Aquifers, which are protected sources of drinking
3 water.

4 57. Therefore, Defendants in the course of doing business knowingly
5 discharged or released BTEX, chemicals known to cause cancer and/or birth defects,
6 into water or onto or into land where these chemicals pass or probably will pass into a
7 source of drinking water, in violation of Health and Safety Code § 25249.5.

8
9 **THIRD CAUSE OF ACTION**

10 **Violations of California Health and Safety Code § 25249.5, et seq.**
11 **(Against All Defendants, as to Well 29-1)**

12 58. Plaintiff incorporates by reference all of the above paragraphs as if fully set
13 forth herein.

14 59. Defendants own Well 29-1. Well 29-1 has and continues to discharge or
15 release BTEX, chemicals known to the State of California to cause cancer and/or birth
16 defects. These chemicals are discharged or released through leaks in Well 29-1 and
17 migrate vertically towards the surface through the Well casing or natural points of least
18 resistance in the rock and soil which surround the Well. BTEX passes or probably will
19 pass into the Silverado and Gage Aquifers, which are protected sources of drinking
20 water.

21 60. Therefore, Defendants in the course of doing business knowingly
22 discharged or released BTEX, chemicals known to cause cancer and/or birth defects,
23 into water or onto or into land where these chemicals pass or probably will pass into a
24 source of drinking water, in violation of Health and Safety Code § 25249.5.

FOURTH CAUSE OF ACTION

**Violations of California Health and Safety Code § 25249.5, et seq.
(Against All Defendants, as to Well 29-2)**

61. Plaintiff incorporates by reference all of the above paragraphs as if fully set forth herein.

62. Defendants own Well 29-2. Well 29-2 has and continues to discharge or release BTEX, chemicals known to the State of California to cause cancer and/or birth defects. These chemicals are discharged or released through leaks in Well 29-2 and migrate vertically towards the surface through the Well casing or natural points of least resistance in the rock and soil which surround the Well. BTEX passes or probably will pass into the Silverado and Gage Aquifers, which are protected sources of drinking water.

63. Therefore, Defendants in the course of doing business knowingly discharged or released BTEX, chemicals known to cause cancer and/or birth defects, into water or onto or into land where these chemicals pass or probably will pass into a source of drinking water, in violation of Health and Safety Code § 25249.5.

FIFTH CAUSE OF ACTION

**Violations of California Health and Safety Code § 25249.5, et seq.
(Against All Defendants, as to Well Champ 1)**

64. Plaintiff incorporates by reference all of the above paragraphs as if fully set forth herein.

65. Defendants own Well Champ 1. Well Champ 1 has and continues to discharge or release BTEX, chemicals known to the State of California to cause cancer and/or birth defects. These chemicals are discharged or released through leaks in Well Champ 1 and migrate vertically towards the surface through the Well casing or natural points of least resistance in the rock and soil which surround the Well. BTEX passes or

///

1 probably will pass into the Silverado and Gage Aquifers, which are protected sources of
2 drinking water.

3 66. Therefore, Defendants in the course of doing business knowingly
4 discharged or released BTEX, chemicals known to cause cancer and/or birth defects,
5 into water or onto or into land where these chemicals pass or probably will pass into a
6 source of drinking water, in violation of Health and Safety Code § 25249.5.

7

8

SIXTH CAUSE OF ACTION

9

**Violations of California Health and Safety Code § 25249.5, et seq.
(Against All Defendants, as to Well Hisey 1)**

10

11 67. Plaintiff incorporates by reference all of the above paragraphs as if fully set
12 forth herein.

13

14 68. Defendants own Well Hisey 1. Well Hisey 1 has and continues to
15 discharge or release BTEX, chemicals known to the State of California to cause cancer
16 and/or birth defects. These chemicals are discharged or released through leaks in Well
17 Hisey 1 and migrate vertically towards the surface through the Well casing or natural
18 points of least resistance in the rock and soil which surround the Well. BTEX passes or
19 probably will pass into the Silverado and Gage Aquifers, which are protected sources of
20 drinking water.

21

22 69. Therefore, Defendants in the course of doing business knowingly
23 discharged or released BTEX, chemicals known to cause cancer and/or birth defects,
24 into water or onto or into land where these chemicals pass or probably will pass into a
25 source of drinking water, in violation of Health and Safety Code § 25249.5.

26 ///

27 ///

28 ///

///

///

1 probably will pass into the Silverado and Gage Aquifers, which are protected sources of
2 drinking water.

3 75. Therefore, Defendants in the course of doing business knowingly
4 discharged or released BTEX, chemicals known to cause cancer and/or birth defects,
5 into water or onto or into land where these chemicals pass or probably will pass into a
6 source of drinking water, in violation of Health and Safety Code § 25249.5.

7

8

NINTH CAUSE OF ACTION

9

**Violations of California Health and Safety Code § 25249.5, et seq.
(Against All Defendants, as to Well Merrill 1)**

10

11 76. Plaintiff incorporates by reference all of the above paragraphs as if fully set
12 forth herein.

13 77. Defendants own Well Merrill 1. Well Merrill 1 has and continues to
14 discharge or release BTEX, chemicals known to the State of California to cause cancer
15 and/or birth defects. These chemicals are discharged or released through leaks in Well
16 Merrill 1 and migrate vertically towards the surface through the Well casing or natural
17 points of least resistance in the rock and soil which surround the Well. BTEX passes or
18 probably will pass into the Silverado and Gage Aquifers, which are protected sources of
19 drinking water.

20 78. Therefore, Defendants in the course of doing business knowingly
21 discharged or released BTEX, chemicals known to cause cancer and/or birth defects,
22 into water or onto or into land where these chemicals pass or probably will pass into a
23 source of drinking water, in violation of Health and Safety Code § 25249.5.

TENTH CAUSE OF ACTION

**Violations of California Health and Safety Code § 25249.5, et seq.
(Against All Defendants, as to Well O&M 1)**

79. Plaintiff incorporates by reference all of the above paragraphs as if fully set forth herein.

80. Defendants own Well O&M 1. Well O&M 1 has and continues to discharge or release BTEX, chemicals known to the State of California to cause cancer and/or birth defects. These chemicals are discharged or released through leaks in Well O&M 1 and migrate vertically towards the surface through the Well casing or natural points of least resistance in the rock and soil which surround the Well. BTEX passes or probably will pass into the Silverado and Gage Aquifers, which are protected sources of drinking water.

81. Therefore, Defendants in the course of doing business knowingly discharged or released BTEX, chemicals known to cause cancer and/or birth defects, into water or onto or into land where these chemicals pass or probably will pass into a source of drinking water, in violation of Health and Safety Code § 25249.5.

ELEVENTH CAUSE OF ACTION

**Violations of California Health and Safety Code § 25249.5, et seq.
(Against All Defendants, as to Well Samarkand 1)**

82. Plaintiff incorporates by reference all of the above paragraphs as if fully set forth herein.

83. Defendants own Well Samarkand 1. Well Samarkand 1 has and continues to discharge or release BTEX, chemicals known to the State of California to cause cancer and/or birth defects. These chemicals are discharged or released through leaks in Well Samarkand 1 and migrate vertically towards the surface through the Well casing or natural points of least resistance in the rock and soil which surround the Well. BTEX

///

1 passes or probably will pass into the Silverado and Gage Aquifers, which are protected
2 sources of drinking water.

3 84. Therefore, Defendants in the course of doing business knowingly
4 discharged or released BTEX, chemicals known to cause cancer and/or birth defects,
5 into water or onto or into land where these chemicals pass or probably will pass into a
6 source of drinking water, in violation of Health and Safety Code § 25249.5.

7
8 **TWELFTH CAUSE OF ACTION**

9 **Violations of California Health and Safety Code § 25249.5, *et seq.***
10 **(Against All Defendants, as to Well Troxel 1)**

11 85. Plaintiff incorporates by reference all of the above paragraphs as if fully set
12 forth herein.

13 86. Defendants own Well Troxel 1. Well Troxel 1 has and continues to
14 discharge or release BTEX, chemicals known to the State of California to cause cancer
15 and/or birth defects. These chemicals are discharged or released through leaks in Well
16 Troxel 1 and migrate vertically towards the surface through the Well casing or natural
17 points of least resistance in the rock and soil which surround the Well. BTEX passes or
18 probably will pass into the Silverado and Ballona Aquifers, which are protected sources
19 of drinking water.

20 87. Therefore, Defendants in the course of doing business knowingly
21 discharged or released BTEX, chemicals known to cause cancer and/or birth defects,
22 into water or onto or into land where these chemicals pass or probably will pass into a
23 source of drinking water, in violation of Health and Safety Code § 25249.5.

Partnership and corporate governance (21)
 Other petition (not specified above) (43)

2. This case is is not complex under rule 3.400 of the California Rules of Court. If the case is complex, mark the factors requiring exceptional judicial management:

- a. Large number of separately represented parties
- b. Extensive motion practice raising difficult or novel issues that will be time-consuming to resolve
- c. Substantial amount of documentary evidence
- d. Large number of witnesses
- e. Coordination with related actions pending in one or more courts in other counties, states, or countries, or in a federal court
- f. Substantial postjudgment judicial supervision

3. Type of remedies sought (check all that apply):

- a. monetary
- b. nonmonetary; declaratory or injunctive relief
- c. punitive

4. Number of causes of action (specify):

5. This case is is not a class action suit.

6. If there are any known related cases, file and serve a notice of related case (You may use form CM-015.)

Date: January 11, 2007

CHRISTOPHER P. RIDOUT (SBN 143931)

CASE NUMBER

BC364555

**CIVIL CASE COVER SHEET ADDENDUM AND STATEMENT OF LOCATION
(CERTIFICATE OF GROUNDS FOR ASSIGNMENT TO COURTHOUSE LOCATION)**

This form is required pursuant to LASC Local Rule 2.0 in all new civil case filings in the Los Angeles Superior Court.

Item I. Check the types of hearing and fill in the estimated length of hearing expected for this case:

JURY TRIAL? YES CLASS ACTION? YES LIMITED CASE? YES TIME ESTIMATED FOR TRIAL 20 HOURS/ DAYS

Item II. Select the correct district and courthouse location: (4 steps - If you checked "Limited Case", skip to Item III, Pg. 4):

Step 1: After first completing the Civil Case Cover Sheet Form, find the main civil case cover sheet heading for your case in the left margin below, and, to the right in Column A, the Civil Case Cover Sheet case type you selected.

Step 2: Check one Superior Court type of action in Column B below which best describes the nature of this case.

Step 3: In Column C, circle the reason for the court location choice that applies to the type of action you have checked.

For any exception to the court location, see Los Angeles Superior Court Local Rule 2.0.

Applicable Reasons for Choosing Courthouse Location (See Column C below)

1. Class Actions must be filed in the County Courthouse, Central District.
2. May be filed in Central (Other county, or no Bodily Injury/Property Damage).
3. Location where cause of action arose.
4. Location where bodily injury, death or damage occurred.
5. Location where performance required or defendant resides.
6. Location of property or permanently garaged vehicle.
7. Location where petitioner resides.
8. Location wherein defendant/respondent functions wholly.
9. Location where one or more of the parties reside.
10. Location of Labor Commissioner Office.

Step 4: Fill in the information requested on page 4 in Item III; complete Item IV. Sign the declaration.
