ALTERNATIVE DISPUTE RESOLUTION (ADR) INFORMATION PACKAGE**

[CRC 3.221 Information about Alternative Dispute Resolution]

For additional ADR information and forms visit the Court ADR web application at www.lasuperiorcourt.org (click on ADR).

The plaintiff shall serve a copy of this Information Package on each defendant along with the complaint (Civil only).

What is ADR:

Alternative Dispute Resolution (ADR) is the term used to describe all the other options available for settling a dispute which once had to be settled in court. ADR processes, such as arbitration, mediation, neutral evaluation (NE), and settlement conferences, are less formal than a court process and provide opportunities for parties to reach an agreement using a problem-solving approach.

There are many different kinds of ADR. All of them utilize a "neutral", an impartial person, to decide the case or help the parties reach an agreement.

Mediation:

In mediation, a neutral person called a "mediator" helps the parties try to reach a mutually acceptable resolution of the dispute. The mediator does not decide the dispute but helps the parties communicate so they can try to settle the dispute themselves. Mediation leaves control of the outcome with the parties.

Cases for Which Mediation May Be Appropriate

Mediation may be particularly useful when parties have a dispute between or among family members, neighbors, or business partners. Mediation is also effective when emotions are getting in the way of resolution. An effective mediator can hear the parties out and help them communicate with each other in an effective and nondestructive manner.

Cases for Which Mediation May Not Be Appropriate

Mediation may not be effective if one of the parties is unwilling to cooperate or compromise. Mediation also may not be effective if one of the parties has a significant advantage in power over the other. Therefore, it may not be a good choice if the parties have a history of abuse or victimization.

Arbitration:

In arbitration, a neutral person called an "arbitrator" hears arguments and evidence from each side and then decides the outcome of the dispute. Arbitration is less formal than a trial, and the rules of evidence are often relaxed. Arbitration may be either "binding" or "nonbinding." *Binding arbitration* means that the parties waive their right to a trial and agree to accept the arbitrator's decision as final. *Nonbinding arbitration* means that the parties are free to request a trial if they do not accept the arbitrator's decision.

Cases for Which Arbitration May Be Appropriate

Arbitration is best for cases where the parties want another person to decide the outcome of their dispute for them but would like to avoid the formality, time, and expense of a trial. It may also be appropriate for complex matters where the parties want a decision-maker who has training or experience in the subject matter of the dispute.

Cases for Which Arbitration May Not Be Appropriate

If parties want to retain control over how their dispute is resolved, arbitration, particularly binding arbitration, is not appropriate. In binding arbitration, the parties generally cannot appeal the arbitrator's award, even if it is not supported by the evidence or the law. Even in nonbinding arbitration, if a party requests a trial and does not receive a more favorable result at trial than in arbitration, there may be penalties.

Neutral Evaluation:

In neutral evaluation, each party gets a chance to present the case to a neutral person called an "evaluator." The evaluator then gives an opinion on the strengths and weaknesses of each party's evidence and arguments and about how the dispute could be resolved. The evaluator is often an expert in the subject matter of the dispute. Although the evaluator's opinion is not binding, the parties typically use it as a basis for trying to negotiate a resolution of the dispute.

Cases for Which Neutral Evaluation May Be Appropriate

Neutral evaluation may be most appropriate in cases in which there are technical issues that require special expertise to resolve or the only significant issue in the case is the amount of damages.

Cases for Which Neutral Evaluation May Not Be Appropriate

Neutral evaluation may not be appropriate when there are significant personal or emotional barriers to resolving the dispute.

Settlement Conferences:

Settlement conferences may be either mandatory or voluntary. In both types of settlement conferences, the parties and their attorneys meet with a judge or a neutral person called a "settlement officer" to discuss possible settlement of their dispute. The judge or settlement officer does not make a decision in the case but assists the parties in evaluating the strengths and weaknesses of the case and in negotiating a settlement. Settlement conferences are appropriate in any case where settlement is an option. Mandatory settlement conferences are often held close to the date a case is set for trial.

Case No. _____

COMPLAINT FOR INJUNCTIVE
RELIEF AND CIVIL PENALTIES

Health & Safety Code §25249.5, et seq.

17
18 Plaintiff Environmental Research Center brings this action in the interests of the
19 general public and, on information and belief, hereby alleges:

20 INTRODUCTION

21 1. This action seeks to remedy Defendant(s)' continuing failure to warn thousands
22 of consumers in California that they are being exposed to lead, a substance known to the State
23 of California to cause cancer, birth defects and other reproductive harm. Defendant(s)
24 manufactures, packages, distributes, markets, and/or sells in California certain herbal products
25 including Ultra Herbal Allergy Aid Capsules, Natural Herbals Decaffeinated Green Tea
26 Extract, Camellia Sinesis, Korean Ginseng Panax Ginseng, Natural Herbals Eyebright

1 Euphrasia Officinalis, Ultra Trim Protein Powder 16oz., Super Sterol Protein Complex 90
2 Tablets, Psyllium Herbal Aide 100 Gelatin Capsules, Herbal Amino-Trim 90 Tablets and
3 Herbal Cal-Aid 100 Tablets containing lead (the "PRODUCTS").

4 2. Lead and lead compounds (hereinafter, the "LISTED CHEMICALS") are
5 substances known to the State¹ of California to cause cancer, birth defects and other
6 reproductive harm.

7 3. The use and/or handling of the PRODUCTS causes exposures to the LISTED
8 CHEMICALS at levels requiring a "clear and reasonable warning" under California's Safe
9 Drinking Water and Toxic Enforcement Act of 1986, Health & Safety Code ("H&S Code")
10 §25249.5, *et seq.* (also known as "Proposition 65"). Defendant(s) has failed to provide the
11 health hazard warnings required by Proposition 65.

12 4. Defendant(s)' continued manufacturing, packaging, distributing, marketing
13 and/or sales of the PRODUCTS without the required health hazard warnings, causes
14 individuals to be involuntarily and unwittingly exposed to levels of the LISTED CHEMICALS
15 that violate Proposition 65.

16 5. Plaintiff seeks injunctive relief enjoining Defendant(s) from the continued
17 manufacturing, packaging, distributing, marketing and/or sales of the PRODUCTS in
18 California without provision of clear and reasonable warnings regarding the risks of cancer,
19 birth defects and other reproductive harm posed by exposure to the LISTED CHEMICALS
20 through the use and/or handling of the PRODUCTS. Plaintiff seeks an injunctive order
21 compelling Defendant(s) to bring its business practices into compliance with Proposition 65 by
22 providing a clear and reasonable warning to each individual who has been and who in the
23 future may be exposed to LISTED CHEMICALS from the use of the PRODUCTS. Plaintiff
24 also seeks an order compelling Defendant(s) to identify and locate each individual person who
25 in the past has purchased the PRODUCTS, and to provide to each such purchaser a clear and
26 _____

¹ All statutory and regulatory references herein are to California law, unless otherwise specified.

1 reasonable warning that the use of the PRODUCTS will cause exposures to the LISTED
2 CHEMICALS.

3 6. In addition to injunctive relief, Plaintiff seeks an assessment of civil penalties to
4 remedy Defendant(s)' failure to provide clear and reasonable warnings regarding exposures to
5 the LISTED CHEMICALS.

6 JURISDICTION AND VENUE

7 7. This Court has jurisdiction over this action pursuant to California Constitution
8 Article VI, Section 10, which grants the Superior Court "original jurisdiction in all causes
9 except those given by statute to other trial courts." The statute under which this action is
10 brought does not specify any other basis for jurisdiction.

11 8. This Court has jurisdiction over Defendant(s) because, based on information
12 and belief, Defendant(s) is a business having sufficient minimum contacts with California, or
13 otherwise intentionally availing itself of the California market through the distribution and sale
14 of the PRODUCTS in the State of California to render the exercise of jurisdiction over it by the
15 California courts consistent with traditional notions of fair play and substantial justice.

16 9. Venue in this action is proper in the Los Angeles Superior Court because the
17 Defendant has violated California law in the County of Los Angeles.

18 PARTIES

19 10. PLAINTIFF Environmental Research Center ("PLAINTIFF") is a corporation
20 organized under California's Corporation Law. ERC is dedicated to, among other causes,
21 reducing the use and misuse of hazardous and toxic substances, consumer protection, worker
22 safety and corporate responsibility.

23 11. ERC is a person within the meaning of H&S Code §25118 and brings this
24 enforcement action in the public interest pursuant to H&S Code §25249.7(d).

25 12. Defendant VITAMIN POWER INCORPORATED, is a corporation organized
26 under the laws of the State of New York and a person doing business within the meaning of
H&S Code §25249.11 with an office at 39 Saint Marys Pl., Freeport, NY – 11520.

1 requirement one year later and was therefore subject to the "clear and reasonable" warning
2 requirements of Proposition 65 beginning on February 27, 1988. (27 California Code of
3 Regulations ("CCR") §25000, *et seq.*; H&S Code §25249.5, *et seq.*)

4 19. On October 1, 1992, the State of California officially listed the chemicals lead
5 and lead compounds as chemicals known to cause cancer. Lead and lead compounds became
6 subject to the warning requirement one year later and were therefore subject to the "clear and
7 reasonable" warning requirements of Proposition 65 beginning on October 1, 1993. (27 CCR §
8 25000, *et seq.*; H&S Code §25249.6, *et seq.*)

9 20. PLAINTIFF is informed and believes, and based on such information and belief
10 alleges the PRODUCTS have been distributed and/or sold to individuals in California without
11 clear and reasonable warning since at least August 17, 2007. The PRODUCTS continue to be
12 distributed and sold in California without the requisite warning information.

13 21. As a proximate result of acts by DEFENDANT(S), as a person in the course of
14 doing business within the meaning of Health & Safety Code §25249.11, individuals throughout
15 the State of California, including in the County of Los Angeles, have been exposed to the
16 LISTED CHEMICALS without clear and reasonable warning. The individuals subject to the
17 violative exposures include normal and foreseeable users of the PRODUCTS, as well as all
18 other persons exposed to the PRODUCTS.

19 22. At all times relevant to this action, DEFENDANT(S) has knowingly and
20 intentionally exposed the users and/or handlers of the PRODUCTS to LISTED CHEMICALS
21 without first giving a clear and reasonable warning to such individuals.

22 23. Individuals using or handling the PRODUCTS are exposed to the LISTED
23 CHEMICALS in excess of the "maximum allowable daily" and "no significant risk" levels
24 determined by the State of California, as applicable, within the meaning of H&S Code
25 §25249.10(c).

26 24. At all times relevant to this action, DEFENDANT(S) has, in the course of doing
business, failed to provide individuals using and/or handling the PRODUCTS with a clear and

1 reasonable warning that the PRODUCTS expose individuals to the LISTED CHEMICALS.

2 25. The PRODUCTS continue to be distributed and sold in California without the
3 requisite clear and reasonable warning.

4
5 **FIRST CAUSE OF ACTION**

6 (Injunctive Relief for Violations of Health and Safety Code § 25249.5, *et seq.* concerning
7 the PRODUCTS described in PLAINTIFF's August 17, 2010 and January 14, 2011 60-
8 Day Notice of Violation)

9 **Against All DEFENDANT(S) and DOES**

10 26. PLAINTIFF realleges and incorporates by reference Paragraphs 1 through 25,
11 inclusive, as if specifically set forth herein.

12 27. On August 17, 2010 and January 14, 2011, PLAINTIFF sent a 60-Day Notice of
13 Proposition 65 violations to the requisite public enforcement agencies, and to all
14 DEFENDANTS ("Notices") collectively attached hereto as Exhibit A. The Notices were issued
15 pursuant to, and in compliance with, the requirements of H&S Code §25249.7(d) and the
16 statute's implementing regulations regarding the notice of the violations to be given to certain
17 public enforcement agencies and to the violator. The notice given included, *inter alia*, the
18 following information: the name, address, and telephone number of the noticing individual; the
19 name of the alleged violator; the statute violated; the approximate time period during which
20 violations occurred; and descriptions of the violations, including the chemicals involved, the
21 routes of toxic exposure, and the specific product or type of product causing the violations, and
22 was issued as follows:

23 a. DEFENDANT(S) and the California Attorney General were provided
24 copies of the Notice by Certified Mail.

25 b. DEFENDANT(S) was provided a copy of a document entitled "The Safe
26 Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A
Summary," which is also known as Appendix A to Title 27 of CCR
§25903.

c. The California Attorney General was provided with a Certificate of Merit

1 by the attorney for the noticing party, stating that there is a reasonable
2 and meritorious case for this action, and attaching factual information
3 sufficient to establish a basis for the certificate, including the identify of
4 the persons consulted with and relied on by the certifier, and the facts
5 studies, or other data reviewed by those persons, pursuant to H&S Code
6 §25249.7(h) (2).

7 28. The appropriate public enforcement agencies have failed to commence and
8 diligently prosecute a cause of action under H&S Code §25249.5, *et seq.* against
9 DEFENDANT(S) based on the allegations herein.

10 29. By committing the acts alleged in this Complaint DEFENDANT(S) at all times
11 relevant to this action, and continuing through the present, has violated H&S Code §25249.6 by,
12 in the course of doing business, knowingly and intentionally exposing individuals who use or
13 handle the PRODUCTS set forth in the Notices to the LISTED CHEMICALS, without first
14 providing a clear and reasonable warning to such individuals pursuant to H&S Code §§ 25249.6
15 and 25249.11(f).

16 30. By the above-described acts, DEFENDANT(S) has violated H&S Code §
17 25249.6 and is therefore subject to an injunction ordering DEFENDANT(S) to stop violating
18 Proposition 65, to provide warnings to all present and future customers and to provide
19 warnings to DEFENDANT(S)' past customers who purchased or used the PRODUCTS
20 without receiving a clear and reasonable warning.

21 31. An action for injunctive relief under Proposition 65 is specifically authorized by
22 Health & Safety Code §25249.7(a).

23 32. Continuing commission by DEFENDANT(S), of the acts alleged above will
24 irreparably harm the citizens of the State of California, for which harm they have no plain,
25 speedy, or adequate remedy at law.

26 Wherefore, PLAINTIFF prays judgment against DEFENDANT(S), as set forth
hereafter.

1 studies, or other data reviewed by those persons, pursuant to H&S Code
2 §25249.7(h) (2).

3 35. The appropriate public enforcement agencies have failed to commence and
4 diligently prosecute a cause of action under H&S Code §25249.5, *et seq.* against
5 DEFENDANT(S) based on the allegations herein.

6 36. By committing the acts alleged in this Complaint, DEFENDANT(S) at all times
7 relevant to this action, and continuing through the present, has violated H&S Code §25249.6 by,
8 in the course of doing business, knowingly and intentionally exposing individuals who use or
9 handle the PRODUCTS set forth in the Notices to the LISTED CHEMICALS, without first
10 providing a clear and reasonable warning to such individuals pursuant to H&S Code §§ 25249.6
11 and 25249.11(f).

12 37. By the above-described acts, DEFENDANT(S) is liable, pursuant to H&S Code
13 §25249.7(b), for a civil penalty of \$2,500 per day per violation for each unlawful exposure to a
14 LISTED CHEMICAL from the PRODUCTS.

15 Wherefore, PLAINTIFF prays judgment against DEFENDANT(S), as set forth
16 hereafter.

17 **THE NEED FOR INJUNCTIVE RELIEF**

18 38. PLAINTIFF realleges and incorporates by this reference Paragraphs 1 through
19 37, as if set forth below.

20 39. By committing the acts alleged in this Complaint, DEFENDANT(S) has caused
21 irreparable harm for which there is no plain, speedy or adequate remedy at law. In the absence
22 of equitable relief, DEFENDANT(S) will continue to create a substantial risk of irreparable
23 injury by continuing to cause consumers to be involuntarily and unwittingly exposed to the
24 LISTED CHEMICALS through the use and/or handling of the PRODUCTS.

25 **PRAYER FOR RELIEF**

26 Wherefore, PLAINTIFF accordingly prays for the following relief:

A. a preliminary and permanent injunction, pursuant to H&S Code §25249.7(b),

1 enjoining DEFENDANT(S), its agents, employees, assigns and all persons acting in concert or
2 participating with DEFENDANT(S), from distributing or selling the PRODUCTS in California
3 without first providing a clear and reasonable warning, within the meaning of Proposition 65,
4 that the users and/or handlers of the PRODUCTS are exposed to the LISTED CHEMICALS.

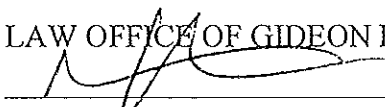

5 B. an injunctive order, pursuant to H&S Code §25249.7(b), compelling
6 DEFENDANT(S) to identify and locate each individual who has purchased the PRODUCTS
7 since August 17, 2007, and to provide a warning to such person that the use of the
8 PRODUCTS will expose the user to chemicals known to cause cancer, birth defects, and other
9 reproductive harm.

10 C. an assessment of civil penalties pursuant to Health & Safety Code §25249.7(b),
11 against Defendant in the amount of \$2,500 per day for each violation of Proposition 65;

12 D. an award to PLAINTIFF of its reasonable attorneys fees and costs of suit
13 pursuant to California Code of Civil Procedure §1021.5, as PLAINTIFF shall specify in further
14 application to the Court; and,

15 E. such other and further relief as may be just and proper.

Re: Notice of Violations of Health & Safety Code Section 25249.6

Dear Addressees:

The Environmental Research Center ("ERC"), the noticing entity, is a non-profit California corporation, located at 5694 Mission Center Road, #199, San Diego, CA 92108; Tel. (619) 309-4194. ERC's mission is to help safeguard the public from health hazards that impact families, workers, and the environment. ERC is dedicated to reducing the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility. Through this Notice of Violation, ERC seeks to reduce the public's exposure from lead that is contained in the products identified below.

This letter constitutes notification that **Vitamin Power Incorporated**, located at 39 Saint Marys Pl Freeport, NY - 11520, violated the warning requirement of Proposition 65, the Safe Drinking Water and Toxic Enforcement Act (commencing with Section 25249.5 of the California Health & Safety Code).

In particular, Vitamin Power Incorporated has manufactured, marketed, distributed, and/or sold products that have exposed and continue to expose numerous individuals within California to lead. The primary route of exposure has been oral through ingestion. On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead as chemical known to cause cancer.

Vitamin Power Incorporated is exposing people to lead from the following products:

Vitamin Power Ultra Herbal Allergy Aid Capsules

Vitamin Power Natural Herbals Decaffeinated Green Tea Extract Camellia Sinesis

Vitamin Power Natural Herbals Korean Ginseng Panax Ginseng

Vitamin Power Natural Herbals Eyebright Euphrasia Officinalis

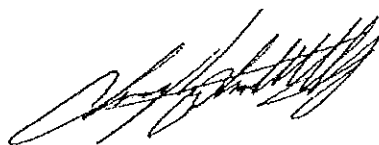

Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to certain listed chemicals. Vitamin Power Incorporated is in violation of Proposition 65 because it failed to provide a warning to persons using these products that they are being exposed to lead. The method of warning should be a warning that appears on the product's label. Vitamin Power Incorporated has failed to give such a warning.

Proposition 65 requires that notice of violation be given sixty days before a citizen enforcement suit is filed. With this letter, ERC gives notice of the violation to Vitamin Power Incorporated and the appropriate governmental authorities. This notice covers all violations of Proposition 65 involving Vitamin Power Incorporated currently known to ERC from the information now available. ERC may continue to investigate other products that may reveal further violations. A summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, has been provided to Vitamin Power Incorporated along with this letter.

Based on the allegations in this notice, ERC intends to file a citizen enforcement action against Vitamin Power Incorporated unless the company agrees in an enforceable written instrument to resolve this matter prior to suit being filed. ERC remains open to resolving its grievances short of formal litigation. Such resolution will avoid both further unwarned consumer exposures to lead and expensive and time consuming litigation.

Please direct all questions concerning this notice to ERC's attorney, Karen A. Evans, 4218 Biona Pl., San Diego, CA 92116, telephone no.: 619-640-8100, e-mail: kaevans1@cox.net.

Sincerely,

Chris Heptinstall

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the Office of Environmental Health Hazard Assessment, the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and its implementing regulations (see citations below) for further information. Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 22 of the California Code of Regulations, Sections 12000 through 14000.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Governor's List." Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer, or birth defects or other reproductive harm. This list must be updated at least once a year. Over 550 chemicals have been listed as of May 1, 1996. Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving those chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical. The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Exposures are exempt from the warning requirement if they occur less than twelve months after the date of listing of the chemical.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Discharges are exempt from this requirement if they occur less than twenty months after the date of listing of the chemical.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. The law exempts:

Governmental agencies and public water utilities. All agencies of the federal, State or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees.

Exposures that pose no significant risk of cancer. For chemicals that are listed as known to the State to cause cancer ("carcinogens"), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "no significant risk" levels for more than 250 listed carcinogens. Exposures that will produce

no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause birth defects or other reproductive harm ("reproductive toxicants"), a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level (NOEL)," divided by a 1,000-fold safety or uncertainty factor. The "no observable effect level" is the highest dose level which has not been associated with an observable adverse reproductive or developmental effect. Discharges that do not result in a "significant amount" of the listed chemical entering into any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not enter any drinking water source, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" or "no observable effect" test if an individual were exposed to such an amount in drinking water.

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys (those in cities with a population exceeding 750,000). Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. A notice must comply with the information and procedural requirements specified in regulations (Title 22, California Code of Regulations, Section 12903). A private party may not pursue an enforcement action directly under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice. A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court of law to stop committing the violation.

CERTIFICATE OF MERIT

Health and Safety Code Section 25249.7 (d)

I, Karen A. Evans hereby declare:

1. This Certificate of Merit accompanies the Notice of Violation in which it is alleged that the party identified in the Notice has violated Health and Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.
2. I am the attorney for the noticing party Environmental Research Center (“ERC”). ERC is dedicated to reducing the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees and encouraging corporate responsibility. The Notice of Violation alleges that the party identified has exposed persons in California to lead from products that it manufactures and distributes. Please refer to the Notice of Violation for additional details regarding the alleged violations.
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the alleged exposure to the listed chemical that is the subject of the action. In particular, I have reviewed the resulting data from the laboratory that conducted the testing to determine the concentration of lead in the products identified in the Notice of Violation and I have relied on the testing results. The testing was conducted by a reputable testing laboratory with substantial experience in testing for lead. These facts, studies or other data derived through this investigation overwhelmingly demonstrate that the party identified in the Notice of Violation exposes persons to lead through oral exposure (ingestion).
4. Based on my consultation with persons of appropriate experience, the results of the laboratory testing, as well as published studies on lead, it is clear that there is sufficient evidence that human exposures exist from exposure to the products from the noticed party.

August 17, 2010

Page 6

Furthermore, as a result of the above, I have concluded that there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.

5. The copy of this Certificate of Merit served on the California Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health & Safety Code Section 25249.7 (h) (2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies or other data reviewed by those persons.

Re: Notice of Violation against Vitamin Power Incorporated for Violation of California Health & Safety Code Section 25249.6

Dear Prosecutors:

The Environmental Research Center ("ERC"), the noticing entity is a California corporation whose mission is to safeguard the public from health hazards that impact families, workers and the environment. ERC is dedicated to reducing the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees and encouraging corporate responsibility. ERC is located at 5694 Mission Center Road, # 199, San Diego, CA 92108. Tel. (619) 309-4194, Executive Director: Chris Heptinstall. Through this Notice of Violation, ERC seeks to reduce exposure to the public from lead that is contained in the named products manufactured and distributed by Vitamin Power Incorporated.

This letter constitutes notification that Vitamin Power Incorporated, located at 39 Saint Mary's Place, Freeport, NY 11520, has violated the warning requirement of Proposition 65, the Safe Drinking Water and Toxic Enforcement Act (commencing with section 25249.5 of the Health and Safety Code).

In particular, this Company has manufactured and distributed products that have exposed and continue to expose numerous individuals within California to lead. Lead was listed pursuant to Proposition 65 as a chemical known to cause developmental toxicity, and male and female reproductive toxicity on February 27, 1987. Lead was listed pursuant to Proposition 65 as a carcinogen on October 1, 1992. The time period of these violations commenced one year after the listed dates above, at least since January 14, 2008, as well as every day since the products were introduced in the California marketplace, and will continue every day until clear and reasonable warnings are provided to purchasers and users.

The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and recommended use of these products by consumers. Accordingly, the primary route of exposure for consumers has been oral through ingestion, but may also occur through the inhalation and/or dermal contact route of exposure.

Vitamin Power Incorporated is exposing people to lead from the following products:

Vitamin Power Inc. Ultra Trim Protein Powder 16 oz.
Vitamin Power Inc. Super Sterol Protein Complex 90 Tablets
Vitamin Power Inc. Psyllium Herbal Aide 100 Gelatin Capsules
Vitamin Power Inc. Herbal Amino-Trim 90 Tablets
Vitamin Power Inc. Herbal Calm-Aid 100 Tablets

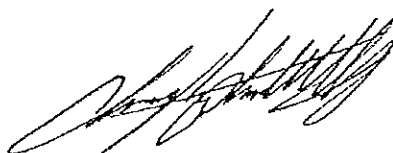

Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to certain listed chemicals. Vitamin Power Incorporated is in violation of Proposition 65 because the Company failed to provide a warning to persons using their products that they are being exposed to lead. (22 C.C.R. section 12601.) While in the course of doing business, the company is knowingly and intentionally exposing people to lead without first providing clear and reasonable warning. (Health and Safety Code section 25249.6.) The method of warning should be a warning that appears on the product's label. 22 C.C.R. section 12601 (b)(1) (A).

Proposition 65 requires that notice and intent to sue be given to a violator 60-days before the suit is filed. With this letter, ERC gives notice of the alleged violation to the noticed party and the appropriate governmental authorities. This notice covers all violations of Proposition 65 that are currently known to ERC from information now available. ERC may continue to investigate other products that may reveal further violations. A summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, and referenced as Appendix A, has been provided to the noticed party.

Based on the allegations set forth in this Notice, ERC intends to file a citizen enforcement action against Vitamin Power Incorporated unless it agrees in an enforceable written instrument to: instrument to: (1) recall or reformulate the listed products so as to eliminate further unwarned exposures to the identified chemicals; and (2) pay an appropriate civil penalty. Consistent with the public interest goals of Proposition 65, ERC is interested in seeking a constructive resolution to this matter. Such resolution will avoid both further unwarned consumer exposures to the identified chemicals and expensive and time consuming litigation.

Please direct all questions concerning this notice to ERC's attorney, Gideon Kracov, 801 S. Grand Ave., 11th Fl., Los Angeles, CA 90017, 213-629-2071, gk@gideonlaw.net.

Sincerely,

Chris Heptinstall
