8 Attorneys for Plaintiff Environmental Research Center

9
10 **SUPERIOR COURT OF THE STATE OF CALIFORNIA**
11 **COUNTY OF ALAMEDA**

12 **ENVIRONMENTAL RESEARCH CENTER,**
13 **a California non-profit corporation**
14 **Plaintiff,**
15 **vs.**
16 **INNERLIGHT HOLDINGS, INC and DOES**
17 **1-100**
18 **Defendants.**

CASE NO. RG13705001
FIRST AMENDED COMPLAINT FOR
INJUNCTIVE AND DECLARATORY
RELIEF AND CIVIL PENALTIES
[Miscellaneous Civil Complaint (42)]
Proposition 65, Health & Safety Code
Section 25249.5 et seq.]

19
20 Plaintiff Environmental Research Center hereby alleges:

21 **I**
22 **INTRODUCTION**

23 1. Plaintiff Environmental Research Center (hereinafter "Plaintiff" or "ERC") brings this
24 action as a private attorney general enforcer and in the public interest pursuant to Health & Safety
25 Code section 25249.7, subdivision (d). This complaint seeks injunctive and declaratory relief and
26 civil penalties to remedy Defendant Innerlight Holdings, Inc. and Does 1-100 (hereinafter
27 "Innerlight")'s failure to warn consumers that they have been exposed to lead from several of
28 Innerlight's nutritional health products. Lead is a chemical known to the State of California to

1 cause cancer, birth defects and other reproductive harm. Based on the Safe Drinking Water and
2 Toxic Enforcement Act of 1986 (Health & Safety Code section 25249.5 *et seq.*) also known as
3 "Proposition 65," businesses with ten or more employees must provide a "clear and reasonable
4 warning" prior to exposing persons to these chemicals.

5 II

6 PARTIES

7 2. Plaintiff ERC is a California non-profit corporation dedicated to, among other causes,
8 helping safeguard the public from health hazards by reducing the use and misuse of hazardous and
9 toxic chemicals, facilitating a safe environment for consumers and employees and encouraging
10 corporate responsibility.

11 3. Defendant Innerlight is a business that manufactures, distributes and/or sells nutritional
12 health products that have exposed users to lead in the State of California within the relevant statute
13 of limitations period. These "Covered Products" are InnerLight Inc. 000117 Men's Formula,
14 InnerLight 000240 SuperGreens, InnerLight Inc. 000115 Women's Formula, InnerLight Inc.
15 000135 Paracide, InnerLight 000230 SuperGreens, InnerLight Worldwide Inc. Earth Essence
16 Montmorillonite Clay Powder, InnerLight 000130 Fibrada Plus, InnerLight Inc. 000113 Adrenal
17 Plus, InnerLight Inc. 000104 Spectrazyme, InnerLight 000089 Lymphatica A-Plus, InnerLight Inc.
18 000073 Orthoplex II, InnerLight Inc. Sagrada Plus, and InnerLight Inc. Lung Plus. Innerlight is a
19 company subject to Proposition 65 as it employs ten or more persons.

20 4. Defendants Does 1-100, are named herein under fictitious names, as their true names and
21 capacities are unknown to ERC. ERC is informed and believes, and thereon alleges, that each of
22 said Does is responsible, in some actionable manner, for the events and happenings hereinafter
23 referred to, either through said Defendant's conduct, or through the conduct of its agents, servants or
24 employees, or in some other manner, causing the harms alleged by ERC in this complaint. When
25 said true names and capacities of Does are ascertained, ERC will seek leave to amend this complaint
26 to set forth the same.

III

JURISDICTION AND VENUE

5. This Court has jurisdiction pursuant to California Constitution Article VI, Section 10 because this case is a cause not given by statute to other trial courts.

6. The Complaint is based on allegations contained in a Notice of Violation dated January 18, 2013, served on the California Attorney General, other public enforcers and Innerlight. A true and correct copy of the Notice of Violation is attached as Exhibit A. More than 60 days have passed since the Notice of Violation was mailed and no public enforcement entity has filed a complaint in this case.

7. This Court is the proper venue for the action because the causes of action have arisen in the County of Alameda where some of the violations of law have occurred. Furthermore, this Court is the proper venue under Code of Civil Procedure section 395.5 and Health & Safety Code section 25249.7.

IV

STATUTORY BACKGROUND

A. Proposition 65

8. The Safe Drinking Water and Toxic Enforcement Act of 1986 is an initiative statute passed as "Proposition 65" by an overwhelming majority vote of the people in November of 1986.

9. The warning requirement of Proposition 65 is contained in Health & Safety Code section 25249.6, which provides:

No person in the course of doing business shall knowingly and intentionally expose any individual to a chemical known to the state to cause cancer or reproductive toxicity without first giving clear and reasonable warning to such individual, except as provided in Section 25249.10.

10. Implementing regulations for Proposition 65 define expose as "to cause to ingest, inhale, contact via body surfaces or otherwise come into contact with a listed chemical." An individual may come into contact with a listed chemical through water, air, food, consumer products and any other environmental exposure as well as occupational exposures." (Cal. Code Regs., tit. 27, § 25102, subd. (i).)

1 11. In this case, the exposures at issue are caused by consumer products. Implementing
2 regulations for Proposition 65 define a consumer product exposure as “ an exposure which results
3 from a person’s acquisition, purchase, storage, consumption, or other reasonably foreseeable use of
4 a consumer good, or any exposure that results from receiving a consumer service.” (Cal. Code
5 Regs., tit. 27, § 25602, subd. (b).)

6 12. Whenever a clear and reasonable warning is required under Health & Safety Code
7 section 25249.6, the “method employed to transmit the warning must be reasonably calculated
8 considering the alternative methods available under the circumstances, to make the warning
9 message available prior to exposure.” (Cal. Code Regs., tit. 27, § 25601.) The warning requirement
10 may be satisfied by a warning that appears on a product’s label or other labeling, shelf labeling,
11 signs, a system of signs, public advertising identifying the system and toll-free information services,
12 or any other, system, that provides clear and reasonable warnings. (Cal. Code Regs., tit. 27, §
13 25603.1, subd. (a)-(d).)

14 13. Proposition 65 establishes a procedure by which the State is to develop a list of
15 chemicals “known to the State to cause cancer or reproductive toxicity.” (Health & Safety Code,
16 § 25249.8.) There is no duty to provide a clear and reasonable warning until 12-months after the
17 chemical was published on the State list. (Health & Safety Code, § 25249.10, subd. (b).) Lead
18 was listed as a chemical known to the State of California to cause developmental toxicity in the
19 fetus and male and female reproductive toxicity on February 27, 1987. Lead was listed as a
20 chemical known to the State of California to cause cancer on October 1, 1992. (Cal. Code Regs., tit.
21 27, § 27001.)

22 14. The Maximum Allowable Dose Level for lead as a chemical known to cause
23 reproductive toxicity is 0.5 micrograms per day. (Cal. Code Regs., tit. 27, § 25805.) The No
24 Significant Risk Level for lead as a carcinogen is 15 micrograms per day. (Cal. Code Regs., tit.
25 27, § 25705.)

26 15. Proposition 65 may be enforced by any person in the public interest who provides
27 notice sixty days before filing suit to both the violator and designated law enforcement officials.
28 The failure of law enforcement officials to file a timely complaint enables a citizen suit to be filed

1 pursuant to Health & Safety Code section 25249.7, subdivisions (c) and (d).

2 16. Proposition 65 provides that any person "violating or threatening to violate" Proposition
3 65 may be enjoined in any court of competent jurisdiction. (Health & Safety Code, § 25249.7,
4 subd. (a).) To "threaten to violate" means "to create a condition in which there is a substantial
5 probability that a violation will occur." (Health & Safety Code, § 25249.11, subd. (e).)
6 Furthermore, violators are subject to a civil penalty of up to \$2,500 per day for each violation.
7 (Health & Safety Code, § 25249.7, subd. (b)(1).

V

STATEMENT OF FACTS

17. Innerlight has manufactured, distributed and/or sold the Covered Products containing
lead into the State of California. Consumers have been ingesting these products for many years,
without any knowledge of their exposure to lead, a very dangerous chemical.

18. For many years, Innerlight has knowingly and intentionally exposed numerous persons
to lead, without providing a Proposition 65 warning. Prior to ERC's Notice of Violation, Innerlight
failed to provide a warning on the label of the Covered Products. Innerlight has at all times relevant
hereto been aware that the Covered Products contained lead and that persons using these products
have been exposed to the chemical. Innerlight's website states that the company "conducts
independent testing to ensure that we provide the highest quality products. In addition to the
standard tests needed to fulfill our MSDS requirements we meticulously test all raw materials and
finished products with the use of High-Performance Liquid Chromatography (HPLC), Gas
Chromatography (GC) and Mass Spectrometry (MS). In all, we use more than 45 tests and
procedures to ensure the quality of the raw materials we use and the finished products we sell."
Innerhealth's representations indicate that the company has a thorough knowledge of the contents
and composition of its products, which would include knowledge of the presence of lead.
Nevertheless, the company's website represents to the public the company's products are totally
pure and safe. Innerlight has been aware of the lead in the Covered Products and has failed to
disclose the presence of this chemical to the public, who undoubtedly believed they have been
ingesting totally healthy and pure products.

1 19. Both prior and subsequent to ERC's Notice of Violation, Innerlight failed to provide
2 consumers of the Covered Products with a clear and reasonable warning that they have been
3 exposed to a chemical known to the State of California to cause cancer, birth defects and other
4 reproductive harm.

5 **FIRST CAUSE OF ACTION**

6 **(Violation of Section 25249.6 of the Health and Safety Code, Failure to Provide Clear**
7 **and Reasonable Warning under Proposition 65)**

8 20. ERC refers to paragraphs 1-19, inclusive, and incorporates them herein by this
9 reference.

10 21. By committing the acts alleged above, Innerlight has, in the course of doing business,
11 knowingly and intentionally exposed users of the Covered Products to lead, a chemical known to
12 the State of California to cause cancer, birth defects and other reproductive harm without first giving
13 clear and reasonable warning to such individuals, within the meaning of Health & Safety Code
14 section 25249.6.

15 22. Said violations render Innerlight liable for civil penalties up to \$2,500 per day, for
16 each violation.

17 **SECOND CAUSE OF ACTION**

18 **(Declaratory Relief)**

19 23. ERC refers to paragraphs 1-22, inclusive, and incorporates them herein by this
20 reference.

21 24. There exists an actual controversy relating to the legal rights and duties of the parties,
22 within the meaning of Code of Civil Procedure section 1060, between ERC and Innerlight
23 concerning whether Innerlight has exposed individuals to a chemical known to the State of
24 California to cause cancer, birth defects and other reproductive harm without providing clear and
25 reasonable warning.

26 **VI**

27 **PRAYER**

28 WHEREFORE ERC prays for relief as follows:

1 1. On the First Cause of Action, for civil penalties for each and every violation according to
2 proof;

3 2. On the First Cause of Action, and pursuant to Health & Safety Code section 25249.7,
4 subdivision (a), for such temporary restraining orders, preliminary and permanent injunctive orders,
5 or other orders, prohibiting Innerlight from exposing persons to lead without providing clear and
6 reasonable warning;

7 3. On the Second Cause of Action, for a declaratory judgment pursuant to Code of Civil
8 Procedure section 1060 declaring that Innerlight has exposed individuals to a chemical known to
9 the State of California to cause, birth defects and other reproductive harm without providing clear
10 and reasonable warning; and

11 4. On all Causes of Action, for reasonable attorneys' fees pursuant to section 1021.5 of the
12 Code of Civil Procedure or the substantial benefit theory;

13 5. For costs of suit herein; and

14 6. For such other relief as the Court may deem just and proper.

**NOTICE OF VIOLATIONS OF
CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 ET SEQ.
(PROPOSITION 65)**

Dear Alleged Violators and the Appropriate Public Enforcement Agencies:

I represent Environmental Research Center ("ERC"), 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. (619) 500-3090. ERC's Executive Director is Chris Heptinstall. ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violators identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violators and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

General Information about Proposition 65. A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violators identified below.

Alleged Violators. The names of the companies covered by this notice that violated Proposition 65 (hereinafter "the Violators") are:

Innerlight Holdings, Inc.
Innerlight Worldwide, Inc.

Consumer Products and Listed Chemicals. The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

InnerLight Inc. 000117 Men's Formula - Lead

InnerLight 000240 SuperGreens - Lead

InnerLight Inc. 000115 Women's Formula - Lead

InnerLight Inc. 000135 Paracide - Lead

InnerLight 000230 SuperGreens - Lead

InnerLight Worldwide Inc. Earth Essence Montmorillonite Clay Powder - Lead

Exhibit A

InnerLight 000130 Fibrada Plus – Lead

InnerLight Inc. 000113 Adrenal Plus - Lead

InnerLight Inc. 000104 Spectrazyme - Lead

InnerLight 000089 Lymphatica A-Plus - Lead

InnerLight Inc. 000073 Orthoplex II- Lead

InnerLight Inc. Sagrada Plus - Lead

InnerLight Inc. Lung Plus - Lead

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

Route of Exposure. The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and recommended use of these products. Consequently, the primary route of exposure to these chemicals has been and continues to be through ingestion, but may have also occurred and may continue to occur through inhalation and/or dermal contact.

Approximate Time Period of Violations. Ongoing violations have occurred every day since at least November 30, 2009, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until these known toxic chemicals are either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemicals. The method of warning should be a warning that appears on the product label. The Violators violated Proposition 65 because it failed to provide persons handling and/or using these products with appropriate warnings that they are being exposed to these chemicals.

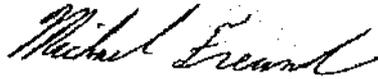

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violators to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemicals, or provide appropriate warnings on the labels of these products; and (2) pay an appropriate civil penalty. Such a resolution will prevent further unwarned consumer exposures to the identified chemicals, as well as an expensive and time consuming litigation.

January 18, 2013

Certificate of Merit

Certificate of Service

OEHHA Summary (to Innerlight Holdings, Inc., Innerlight Worldwide, Inc., and their Registered Agents for Service of Process only)

Additional Supporting Information for Certificate of Merit (to AG only)

CERTIFICATE OF MERIT

Re: Environmental Research Center's Notice of Proposition 65 Violations by Innerlight Holdings, Inc. and Innerlight Worldwide, Inc.

I, Michael Freund, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged the parties identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

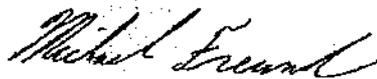

2. I am an attorney for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemicals that are the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violators will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: January 18, 2013

Michael Freund

CERTIFICATE OF SERVICE

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States, over the age of 18 years of age, and am not a party to the within entitled action. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On January 18, 2013, I arranged for personal service of the following documents: **NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; "THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY"** on the following party by electronically sending a true and correct copy thereof to Constable Reitz at the Salt Lake County, Utah Constable's Office at info@constablereitz.com:

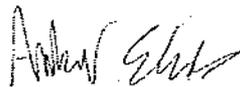

Kevin P. Brogan
(Innerlight Holdings, Inc.'s President and Registered Agent for Service of Process)
867 E. 2260 S.
Provo, UT 84606

On November 30, 2012, I served the following documents: **NOTICE OF VIOLATION, CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; ADDITIONAL SUPPORTING INFORMATION FOR CERTIFICATE OF MERIT AS REQUIRED BY CALIFORNIA HEALTH & SAFETY CODE §25249.7(d)(1)** on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to the party listed below and depositing it in a US Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

Office of the California Attorney General
Prop 65 Enforcement Reporting
1515 Clay Street, Suite 2000
Post Office Box 70550
Oakland, CA 94612-0550

On November 30, 2012, I served the following documents: **NOTICE OF VIOLATION, CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT** on each of the parties on the Service List attached hereto by placing a true and correct copy thereof in a sealed envelope, addressed to each of the parties on the Service List attached hereto, and depositing it with the U.S. Postal Service with the postage fully prepaid for delivery by First Class Mail.

Executed on January 18, 2013, in Fort Oglethorpe, Georgia.

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. The statute is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Governor's List." Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. This means that chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to female or male reproductive systems or to the developing fetus. This list

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at:
http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies; for example, when exposures are sufficiently low (see below). The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed as known to the State to cause cancer ("carcinogens"), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by a 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in a Food. Certain exposures to chemicals that occur in foods naturally (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a "significant amount" of the listed chemical entering into any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

² See Section 25501(a)(4)

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of the regulations and in Title 11, sections 3100-3103. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.
