CASE NO. **RG 14729513**  
**COMPLAINT FOR INJUNCTIVE**  
**AND DECLARATORY RELIEF AND**  
**CIVIL PENALTIES**

[Miscellaneous Civil Complaint (42)]  
Proposition 65, Health & Safety Code  
Section 25249.5 et seq.]

18 Plaintiff Environmental Research Center hereby alleges:

19 **I**

20 **INTRODUCTION**

21 1. Plaintiff Environmental Research Center (hereinafter "Plaintiff" or "ERC") brings this  
22 action as a private attorney general enforcer and in the public interest pursuant to Health & Safety  
23 Code section 25249.7, subdivision (d). This complaint seeks injunctive and declaratory relief and  
24 civil penalties to remedy Defendant Designs for Health, Inc. and Does 1-100 (hereinafter "DFH")'s  
25 failure to warn consumers that they have been exposed to lead from several of DFH's nutritional  
26 health products. Lead is a chemical known to the State of California to cause cancer, birth defects  
27 and other reproductive harm. Based on the Safe Drinking Water and Toxic Enforcement Act of  
28

1 1986 (Health & Safety Code section 25249.5 *et seq.*) also known as “Proposition 65,” businesses  
2 with ten or more employees must provide a “clear and reasonable warning” prior to exposing  
3 persons to these chemicals.

4 **II**  
5 **PARTIES**

6 2. Plaintiff ERC is a California non-profit corporation dedicated to, among other causes,  
7 helping safeguard the public from health hazards by reducing the use and misuse of hazardous and  
8 toxic chemicals, facilitating a safe environment for consumers and employees and encouraging  
9 corporate responsibility.

10 3. Defendant DFH is a business that develops, manufactures, distributes and/or sells  
11 nutritional health products that have exposed users to lead in the State of California within the  
12 relevant statute of limitations period. These “Covered Products” are “Designs for Health Inc.  
13 PaleoGreens Lemon-Lime Flavor,” “Designs for Health Inc. EssentiaGreens Orange/Cranberry  
14 Flavor,” “Designs for Health Inc. PaleoGreens Mint Flavor,” “Designs for Health Inc. GI-Revive,”  
15 “Designs for Health Inc. PurePea Natural Vanilla Flavor,” “Designs for Health Inc. EssentiaMeal-  
16 DF Natural Vanilla Flavor,” “Designs for Health Inc. Hepatatone Plus,” “Designs for Health Inc.  
17 EndoTrim,” “Designs for Health Inc. HistaEze,” “Designs for Health Inc. Metal-X-Synergy,”  
18 “Designs for Health Inc. GlucoSupreme Herbal,” and “Designs for Health Inc. Kidney Korrekt”.  
19 DFH is a company subject to Proposition 65 as it employs ten or more persons.

20 4. Defendants Does 1-100, are named herein under fictitious names, as their true names and  
21 capacities are unknown to ERC. ERC is informed and believes, and thereon alleges, that each of  
22 said Does is responsible, in some actionable manner, for the events and happenings hereinafter  
23 referred to, either through said Defendant’s conduct, or through the conduct of its agents, servants or  
24 employees, or in some other manner, causing the harms alleged by ERC in this complaint. When  
25 said true names and capacities of Does are ascertained, ERC will seek leave to amend this complaint  
26 to set forth the same.

**III**

**JURISDICTION AND VENUE**

5. This Court has jurisdiction pursuant to California Constitution Article VI, Section 10 because this case is a cause not given by statute to other trial courts.

6. The Complaint is based on allegations contained in a Notice of Violation dated September 13, 2013, served on the California Attorney General, other public enforcers and DFH. The Notice of Violation constitutes adequate notice to DFH because it provided adequate information to allow DFH to assess the nature of the alleged violation, consistent with Proposition 65 and its implementing regulations. Each copy of the Notice of Violation was accompanied by a certificate of merit and a certificate of service, both of which comply with Proposition 65 and its implementing regulations. The Notice of Violation served on DFH also included a copy of "The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary". Service of the Notice of Violation and accompanying documents complied with Proposition 65 and its implementing regulations. A true and correct copy of this Notice of Violation and accompanying documents is attached hereto as Exhibit A. More than 60 days have passed since the Notice of Violation was mailed and no public enforcement entity has filed a complaint in this case.

7. This Court is the proper venue for the action because the causes of action have arisen in the County of Alameda where some of the violations of law have occurred. Furthermore, this Court is the proper venue under Code of Civil Procedure section 395.5 and Health & Safety Code section 25249.7.

**IV**

**STATUTORY BACKGROUND**

8. The Safe Drinking Water and Toxic Enforcement Act of 1986 is an initiative statute passed as "Proposition 65" by an overwhelming majority vote of the people in November of 1986.

9. The warning requirement of Proposition 65 is contained in Health & Safety Code section 25249.6, which provides:

No person in the course of doing business shall knowingly and intentionally expose any individual to a chemical known to the state to cause cancer or reproductive

1 toxicity without first giving clear and reasonable warning to such individual, except  
2 as provided in Section 25249.10.

3 10. Implementing regulations for Proposition 65 define expose as “to cause to ingest,  
4 inhale, contact via body surfaces or otherwise come into contact with a listed chemical.” An  
5 individual may come into contact with a listed chemical through water, air, food, consumer products  
6 and any other environmental exposure as well as occupational exposures.” (Cal. Code Regs., tit. 27,  
7 § 25102, subd. (i).)

8 11. In this case, the exposures at issue are caused by consumer products. Implementing  
9 regulations for Proposition 65 define a consumer product exposure as “ an exposure which results  
10 from a person’s acquisition, purchase, storage, consumption, or other reasonably foreseeable use of  
11 a consumer good, or any exposure that results from receiving a consumer service.” (Cal. Code  
12 Regs., tit. 27, § 25602, subd. (b).)

13 12. Whenever a clear and reasonable warning is required under Health & Safety Code  
14 section 25249.6, the “method employed to transmit the warning must be reasonably calculated  
15 considering the alternative methods available under the circumstances, to make the warning  
16 message available prior to exposure.” (Cal. Code Regs., tit. 27, § 25601.) The warning requirement  
17 may be satisfied by a warning that appears on a product’s label or other labeling, shelf labeling,  
18 signs, a system of signs, public advertising identifying the system and toll-free information services,  
19 or any other system, that provides clear and reasonable warnings. (Cal. Code Regs., tit. 27, §  
20 25603.1, subd. (a)-(d).)

21 13. Proposition 65 establishes a procedure by which the State is to develop a list of  
22 chemicals “known to the State to cause cancer or reproductive toxicity.” (Health & Safety Code,  
23 § 25249.8.) There is no duty to provide a clear and reasonable warning until 12-months after the  
24 chemical was published on the State list. (Health & Safety Code, § 25249.10, subd. (b).) Lead  
25 was listed as a chemical known to the State of California to cause developmental toxicity in the  
26 fetus and male and female reproductive toxicity on February 27, 1987. Lead was listed as a  
27 chemical known to the State of California to cause cancer on October 1, 1992. (Cal. Code Regs., tit.  
28 27, § 27001.)

1 14. The Maximum Allowable Dose Level for lead as a chemical known to cause  
2 reproductive toxicity is 0.5 micrograms per day. (Cal. Code Regs., tit. 27, § 25805.) The No  
3 Significant Risk Level for lead as a carcinogen is 15 micrograms per day. (Cal. Code Regs., tit.  
4 27, § 25705.)

5 15. Proposition 65 may be enforced by any person in the public interest who provides  
6 notice sixty days before filing suit to both the violator and designated law enforcement officials.  
7 The failure of law enforcement officials to file a timely complaint enables a citizen suit to be filed  
8 pursuant to Health & Safety Code section 25249.7, subdivisions (c) and (d).

9 16. Proposition 65 provides that any person “violating or threatening to violate” Proposition  
10 65 may be enjoined in any court of competent jurisdiction. (Health & Safety Code, § 25249.7,  
11 subd. (a).) To “threaten to violate” means “to create a condition in which there is a substantial  
12 probability that a violation will occur.” (Health & Safety Code, § 25249.11, subd. (e).)  
13 Furthermore, violators are subject to a civil penalty of up to \$2,500 per day for each violation.  
14 (Health & Safety Code, § 25249.7, subd. (b)(1).)

15 V

16 **STATEMENT OF FACTS**

17 17. DFH has developed, manufactured, distributed and/or sold the Covered Products  
18 containing lead into the State of California. Consumers have been ingesting these products for  
19 many years, without any knowledge of their exposure to lead, a very dangerous chemical.

20 18. For many years, DFH has knowingly and intentionally exposed numerous persons to  
21 lead, without providing a Proposition 65 warning. Prior to ERC’s Notice of Violation, DFH failed  
22 to provide a warning on the label of the Covered Products. DFH has at all times relevant hereto  
23 been aware that the Covered Products contained lead and that persons using these products have  
24 been exposed to the chemical. DFH’s website makes various representations regarding the purity  
25 and safety of the company’s products, as well as the steps purportedly taken to ensure these  
26 qualities:

- 27 • “Since 1989, Designs for Health has been the health care professional’s trusted source  
28 for research-backed nutritional products of superior quality.”

1           • “Jonathan and Linda Lizotte, RD, CDN, founded Designs for Health in 1989 with a  
2 local team of nutritionists.”

3           • “Linda Lizotte, cofounder of Designs for Health, is a nationally known nutritionist and  
4 speaker. As a nutritionist, she maintained a busy private practice for 15 years, successfully  
5 counseling thousands of clients and treating a wide range of health issues including obesity, adrenal  
6 burnout, blood sugar problems, and **toxic metal overload.**”

7           • “With its roots in education, **Designs for Health remains committed to providing the**  
8 **latest scientific nutrition research** via innovative seminars and conferences. To this day,  
9 nutritionally-minded clinicians with ongoing clinical experiences shape the direction of the  
10 company.”

11          • “As evidence of our exceptionally high quality standards, the Designs for Health team  
12 maintains a strict quality policy and vendor qualification program.”

13          • “Every Designs for Health vendor must undergo a formal qualification process to  
14 evaluate procedures and activities related to the manufacture, packaging, and holding of Designs for  
15 Health dietary ingredients and finished dietary supplements. Key elements of the qualification  
16 process include: . . . **Existence of a Designs for Health-approved testing and monitoring**  
17 **program for raw materials and finished products.**”

18          • “Few single manufacturing facilities can provide the level of proficiency mandated by  
19 Designs for Health for the production of capsules, tablets, softgels, powders, liquids, bars, and  
20 specialty items such as sours and topicals.”

21          • “We fully guarantee that our products are produced utilizing the highest standards of  
22 manufacturing. Each product is evaluated and monitored for quality throughout the manufacturing  
23 process. Specifically, we guarantee that every Designs for Health nutritional supplement... Contains  
24 only qualified, superior raw materials; Meets required specifications for quality and purity; **is**  
25 **evaluated and monitored for potential contaminants such as filth, heavy metals,** pesticides, and  
26 microbiological organisms (Designs for Health packaging is also monitored to ensure against  
27 contamination); is analyzed to confirm the quantity of all dietary ingredients, thereby ensuring the  
28 consistency and accuracy of our label claims is manufactured at FDA inspected facilities with

1 stringent internal quality control procedures and documentation systems that conform to one or  
2 more of these industry standards and/or certifications: NPA (Natural Products Association), NSF  
3 (National Sanitary Foundation), OTC (Over the Counter Drug GMPs), TGA (Australian  
4 Therapeutic Goods Administration), and the requirements of the FDA Dietary Supplement Good  
5 Manufacturing Practices (GMPs)”.

6 • “Of utmost importance to the health professionals served by Designs for Health was —  
7 and still is — quality ingredients, efficacious doses, and company integrity.”

8 • “Our wide array of added-value services not only set us apart, but indicate the depth of  
9 our commitment to you.”

10 Given the company’s exacting formulation and production methods, the team of researchers,  
11 medical doctors, nutritionists, and other industry experts employed during the product formulation  
12 process, and the testing conducted on the products, DFH has undoubtedly been aware of the  
13 presence of lead in the Covered Products. Nevertheless, the company’s website touts DFH’s  
14 honesty, integrity, and commitment to consumers, and represents to the public that’s its products are  
15 completely pure and safe. DFH has been aware of the lead in the Covered Products and has failed  
16 to disclose the presence of this chemical to the public, who undoubtedly believed they have been  
17 ingesting totally healthy and pure products pursuant to the company’s statements.

18 19. Both prior and subsequent to ERC’s Notice of Violation, DFH failed to provide  
19 consumers of the Covered Products with a clear and reasonable warning that they have been  
20 exposed to a chemical known to the State of California to cause cancer, birth defects and other  
21 reproductive harm.

### 22 FIRST CAUSE OF ACTION

#### 23 (Violation of Section 25249.6 of the Health and Safety Code, Failure to Provide Clear 24 and Reasonable Warning under Proposition 65)

25 20. ERC refers to paragraphs 1-19, inclusive, and incorporates them herein by this  
26 reference.

27 21. By committing the acts alleged above, DFH has, in the course of doing business,  
28 knowingly and intentionally exposed users of the Covered Products to lead, a chemical known to

1 the State of California to cause cancer, birth defects and other reproductive harm without first giving  
2 clear and reasonable warning to such individuals, within the meaning of Health & Safety Code  
3 section 25249.6.

4 22. Said violations render DFH liable for civil penalties up to \$2,500 per day, for each  
5 violation.

6 **SECOND CAUSE OF ACTION**

7 **(Declaratory Relief)**

8 23. ERC refers to paragraphs 1-22, inclusive, and incorporates them herein by this  
9 reference.

10 24. There exists an actual controversy relating to the legal rights and duties of the parties,  
11 within the meaning of Code of Civil Procedure section 1060, between ERC and DFH concerning  
12 whether DFH has exposed individuals to a chemical known to the State of California to cause  
13 cancer, birth defects and other reproductive harm without providing clear and reasonable warning.

14 **VI**

15 **PRAYER**

16 WHEREFORE ERC prays for relief as follows:

17 1. On the First Cause of Action, for civil penalties for each and every violation according to  
18 proof;

19 2. On the First Cause of Action, and pursuant to Health & Safety Code section 25249.7,  
20 subdivision (a), for such temporary restraining orders, preliminary and permanent injunctive orders,  
21 or other orders, prohibiting DFH from exposing persons to lead without providing clear and  
22 reasonable warning;

23 3. On the Second Cause of Action, for a declaratory judgment pursuant to Code of Civil  
24 Procedure section 1060 declaring that DFH has exposed individuals to a chemical known to the  
25 State of California to cause, birth defects and other reproductive harm without providing clear and  
26 reasonable warning; and

27 4. On all Causes of Action, for reasonable attorneys' fees pursuant to section 1021.5 of the  
28 Code of Civil Procedure or the substantial benefit theory;

1 5. For costs of suit herein; and

2 6. For such other relief as the Court may deem just and proper.

**NOTICE OF VIOLATIONS OF  
CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 ET SEQ.  
(PROPOSITION 65)**

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I represent Environmental Research Center (“ERC”), 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. (619) 500-3090. ERC’s Executive Director is Chris Heptinstall. ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California’s Safe Drinking Water and Toxic Enforcement Act of 1986 (“Proposition 65”), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Health and Safety Code Section 25249.7(d), ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

**General Information about Proposition 65.** A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is enclosed with this letter served to the alleged Violator identified below.

**Alleged Violator.** The name of the company covered by this notice that violated Proposition 65 (hereinafter the “Violator”) is:

**Designs for Health, Inc.**

**Consumer Products and Listed Chemicals.** The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

**Designs for Health Inc. PaleoGreens Lemon-Lime Flavor – Lead**  
**Designs for Health Inc. EssentiaGreens Orange/Cranberry Flavor – Lead**  
**Designs for Health Inc. PaleoGreens Mint Flavor – Lead**  
**Designs for Health Inc. GI-Revive – Lead**  
**Designs for Health Inc. PurePea Natural Vanilla Flavor - Lead**  
**Designs for Health Inc. EssentiaMeal-DF Natural Vanilla Flavor – Lead**  
**Designs for Health Inc. Hepatatone Plus – Lead**  
**Designs for Health Inc. EndoTrim – Lead**  
**Designs for Health Inc. HistaEze – Lead**  
**Designs for Health Inc. Metal-X-Synergy – Lead**

**Designs for Health Inc. GlucoSupreme Herbal – Lead**  
**Designs for Health Inc. Kidney Korrekt - Lead**

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

**Route of Exposure.** The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and recommended use of these products. Consequently, the primary route of exposure to these chemicals has been and continues to be through ingestion, but may have also occurred and may continue to occur through inhalation and/or dermal contact.

**Approximate Time Period of Violations.** Ongoing violations have occurred every day since at least September 13, 2010, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until these known toxic chemicals are either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemicals. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons handling and/or using these products with appropriate warnings that they are being exposed to these chemicals.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemicals, or provide appropriate warnings on the labels of these products; and (2) pay an appropriate civil penalty. Such a resolution will prevent further unwarned consumer exposures to the identified chemicals, as well as an expensive and time consuming litigation.

ERC has retained me as legal counsel in connection with this matter. **Please direct all communications regarding this Notice of Violations to my attention at the law office address and telephone number indicated on the letterhead.**

Sincerely,

---

Ryan Hoffman

Certificate of Merit

Certificate of Service

OEHHA Summary (to Designs for Health, Inc. and its Registered Agent for Service of Process only)

Additional Supporting Information for Certificate of Merit (to AG only)

**CERTIFICATE OF MERIT**

**Re: Environmental Research Center's Notice of Proposition 65 Violations by Designs for Health, Inc.**

I, Ryan Hoffman, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged that the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am an attorney for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemicals that are the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

CERTIFICATE OF SERVICE

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States, over the age of 18 years of age, and am not a party to the within entitled action. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On September 13, 2013, I served the following documents: **NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; "THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY"** on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to the party listed below and depositing it at a U.S. Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

Current President or CEO  
Designs for Health, Inc.  
980 South Street  
Suffield, CT 06078

Jonathan Lizotte  
Designs for Health, Inc.  
Registered Agent for Service of Process  
211 Pondway LA  
Trumbull, CT 06611

On September 13, 2013, I electronically served the following documents: **NOTICE OF VIOLATION, CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; ADDITIONAL SUPPORTING INFORMATION FOR CERTIFICATE OF MERIT AS REQUIRED BY CALIFORNIA HEALTH & SAFETY CODE §25249.7(d)(1)** on the following party by uploading a true and correct copy thereof on the California Attorney General's website, which can be accessed at <https://oag.ca.gov/prop65/add-60-day-notice> :

Office of the California Attorney General  
Prop 65 Enforcement Reporting  
1515 Clay Street, Suite 2000  
Oakland, CA 94612-0550

On September 13, 2013, I served the following documents: **NOTICE OF VIOLATION, CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT** on each of the parties on the Service List attached hereto by placing a true and correct copy thereof in a sealed envelope, addressed to each of the parties on the Service List attached hereto, and depositing it at a U.S. Postal Service Office with the postage fully prepaid for delivery by Priority Mail.

## APPENDIX A

### OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

#### THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. The statute is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.<sup>1</sup> These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

#### *WHAT DOES PROPOSITION 65 REQUIRE?*

***The "Governor's List."*** Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. This means that chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as

---

<sup>1</sup> All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at:

[http://www.oehha.ca.gov/prop65/prop65\\_list/Newlist.html](http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html).

Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

***Clear and reasonable warnings.*** A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies; for example, when exposures are sufficiently low (see below). The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

***Prohibition from discharges into drinking water.*** A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

#### ***DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?***

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

***Grace Period.*** Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

***Governmental agencies and public water utilities.*** All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

***Businesses with nine or fewer employees.*** Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

**Exposures that pose no significant risk of cancer.** For chemicals that are listed as known to the State to cause cancer ("carcinogens"), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures that will produce no observable reproductive effect at 1,000 times the level in question.** For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by a 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures to Naturally Occurring Chemicals in a Food.** Certain exposures to chemicals that occur in foods naturally (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant<sup>2</sup> it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

**Discharges that do not result in a "significant amount" of the listed chemical entering into any source of drinking water.** The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

---

<sup>2</sup> See Section 25501(a)(4)

## *HOW IS PROPOSITION 65 ENFORCED?*

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of the regulations and in Title 11, sections 3100-3103. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.
