2 2. Lead and lead compounds (hereinafter, the "LISTED CHEMICALS") are
3 substances known to the State¹ of California to cause cancer, birth defects, and other
4 reproductive harm.

5 3. The use and/or handling of the PRODUCTS causes exposures to the LISTED
6 CHEMICALS at levels requiring a "clear and reasonable warning" under California's Safe
7 Drinking Water and Toxic Enforcement Act of 1986, Health & Safety Code ("H&S Code")
8 §25249.5, *et seq.* (also known as "Proposition 65"). Defendant has failed to provide the health
9 hazard warnings required by Proposition 65.

10 4. Defendant's continued manufacturing, packaging, distributing, marketing and/or
11 sales of the PRODUCTS without the required health hazard warnings, causes individuals to be
12 involuntarily and unwittingly exposed to levels of the LISTED CHEMICALS that violate
13 Proposition 65.

14 5. Plaintiff seeks injunctive relief enjoining Defendant from the continued
15 manufacturing, packaging, distributing, marketing and/or sales of the PRODUCTS in
16 California without provision of clear and reasonable warnings regarding the risks of cancer,
17 birth defects, and other reproductive harm posed by exposure to the LISTED CHEMICALS
18 through the use and/or handling of the PRODUCTS. Plaintiff seeks an injunctive order
19 compelling Defendant to bring its business practices into compliance with Proposition 65 by
20 providing a clear and reasonable warning to each individual who has been and who in the
21 future may be exposed to the LISTED CHEMICALS from the use of the PRODUCTS.
22 Plaintiff also seeks an order compelling Defendant to identify and locate each individual
23 person who in the past has purchased the PRODUCTS, and to provide to each such purchaser a
24
25
26

¹ All statutory and regulatory references herein are to California law, unless otherwise specified.

1 clear and reasonable warning that the use of the PRODUCTS will cause exposures to the
2 LISTED CHEMICALS.

3 6. In addition to injunctive relief, Plaintiff seeks an assessment of civil penalties in
4 excess of \$15 million to remedy Defendant's failure to provide clear and reasonable warnings
5 regarding exposures to the LISTED CHEMICALS.

6 JURISDICTION AND VENUE

7 7. This Court has jurisdiction over this action pursuant to California Constitution
8 Article VI, Section 10, which grants the Superior Court "original jurisdiction in all causes
9 except those given by statute to other trial courts." The statute under which this action is
10 brought does not specify any other basis for jurisdiction.

11 8. This Court has jurisdiction over Defendant because, based on information and
12 belief, Defendant is a business having sufficient minimum contacts with California, or
13 otherwise intentionally availing itself of the California market through the distribution and sale
14 of the PRODUCTS in the State of California to render the exercise of jurisdiction over it by the
15 California courts consistent with traditional notions of fair play and substantial justice.

16 9. Venue in this action is proper in the Alameda Superior Court because the
17 Defendant has violated California law in the County of Alameda.

18 PARTIES

19 10. Plaintiff Environmental Research Center ("Plaintiff" or "ERC") is a non-profit
20 corporation organized under California's Corporation Law. ERC is dedicated to, among other
21 causes, reducing the use and misuse of hazardous and toxic substances, consumer protection,
22 worker safety, and corporate responsibility.

23 11. ERC is a person within the meaning of H&S Code §25118 and brings this
24 enforcement action in the public interest pursuant to H&S Code §25249.7(d).

25 12. Defendant ATLANTIC PRO-NUTRIENTS dba XYMOGEN is a
26 corporation organized under Florida's Corporation Law and is a person doing business

1 within the meaning of H&S Code §25249.11 with an office at 6900 Kingspointe
2 Parkway, Orlando, FL 32819.

3 13. Defendant manufactures, packages, distributes, markets and/or sells the
4 PRODUCTS for sale or use in California and in Alameda County.

5 **STATUTORY BACKGROUND**

6 14. The People of the State of California have declared in Proposition 65 their right
7 "[t]o be informed about exposures to chemicals that cause cancer, birth defects, or other
8 reproductive harm." (Section 1(b) of Initiative Measure, Proposition 65).

9 15. To effect this goal, Proposition 65 requires that individuals be provided with a
10 "clear and reasonable warning" before being exposed to substances listed by the State of
11 California as causing cancer or reproductive toxicity. H&S Code §25249.6 states, in pertinent
12 part:

13 No person in the course of doing business shall knowingly and intentionally
14 expose any individual to a chemical known to the state to cause cancer or
15 reproductive toxicity without first giving clear and reasonable warning to such
16 individual....

17 16. Proposition 65 provides that any person "violating or threatening to violate" the
18 statute may be enjoined in a court of competent jurisdiction. (H&S Code §25249.7). The phrase
19 "threatening to violate" is defined to mean creating "a condition in which there is a substantial
20 likelihood that a violation will occur." (H&S Code §25249.11(e)). Violators are liable for civil
21 penalties of up to \$2,500 per day for each violation of the Act. (H&S Code §25249.7.)

22 **FACTUAL BACKGROUND**

23 17. On February 27, 1987, the State of California officially listed the chemical lead
24 as a chemical known to cause reproductive toxicity. Lead became subject to the warning
25 requirement one year later and was therefore subject to the "clear and reasonable" warning
26 requirements of Proposition 65 beginning on February 27, 1988. (27 California Code of
Regulations ("CCR") §25000, *et seq.*; H&S Code §25249.5, *et seq.*).

18. On October 1, 1992, the State of California officially listed the chemicals lead

1 and lead compounds as chemicals known to cause cancer. Lead and lead compounds became
2 subject to the warning requirement one year later and were therefore subject to the "clear and
3 reasonable" warning requirements of Proposition 65 beginning on October 1, 1993. (27 CCR
4 § 25000, *et seq.*; H&S Code §25249.6, *et seq.*). Due to the high toxicity of lead, the maximum
5 allowable dose level for lead is 0.5 ug/day (micrograms a day) for reproductive toxicity. (27
6 CCR § 25805(b).)

7 19. To test Defendant's PRODUCTS for lead, Plaintiff hired a well-respected and
8 accredited testing laboratory that designed the testing protocol used and approved by the
9 California Attorney General years ago for testing heavy metals. The results of testing
10 undertaken by Plaintiff of Defendant's PRODUCTS show that the PRODUCTS tested were in
11 violation of the 0.5 ug/day "safe harbor" daily dose limit set forth in Proposition 65's
12 regulations. Very significant is the fact that people are being exposed to lead through ingestion
13 as opposed to other not as harmful methods of exposure such as dermal exposure. Ingestion of
14 lead produces much higher exposure levels and health risks than does dermal exposure to this
15 chemical.

16 20. At all times relevant to this action, Defendant, therefore, has knowingly and
17 intentionally exposed the users and/or handlers of the PRODUCTS to the LISTED
18 CHEMICALS without first giving a clear and reasonable warning to such individuals.

19 21. The PRODUCTS have allegedly been sold by Defendant for use in
20 California since at least January 31, 2011. The PRODUCTS continue to be distributed
21 and sold in California without the requisite warning information.

22 22. On January 31, 2014, ERC served Defendant and each of the appropriate public
23 enforcement agencies with a document entitled "Notice of Violations of California Health &
24 Safety Code Section 25249.5" that provided Defendant and the public enforcement agencies
25 with notice that Defendant was in violation of Proposition 65 for failing to warn purchasers and
26 individuals using the PRODUCTS that the use of the PRODUCTS exposes them to lead, a

1 chemical known to the State of California to cause cancer and/or reproductive toxicity ("Prop.
2 65 Notice") (a copy of the 60-Day Notice is attached hereto as **Exhibit A**).

3 24. As a proximate result of acts by Defendant, as a person in the course of doing
4 business within the meaning of Health & Safety Code §25249.11, individuals throughout the
5 State of California, including in the County of Alameda, have been exposed to the LISTED
6 CHEMICALS without a clear and reasonable warning. The individuals subject to the violative
7 exposures include normal and foreseeable users of the PRODUCTS, as well as all other
8 persons exposed to the PRODUCTS.

9
10 **FIRST CAUSE OF ACTION**
11 **(Injunctive Relief for Violations of Health and Safety Code § 25249.5, *et seq.* concerning**
12 **the PRODUCTS described in the January 31, 2014 Prop. 65 Notice)**
13 **Against Xymogen**

14 25. Plaintiff realleges and incorporates by reference Paragraphs 1 through 24,
15 inclusive, as if specifically set forth herein.

16 26. On January 31, 2014, Plaintiff sent a 60-Day Notice of Proposition 65 violations
17 to the requisite public enforcement agencies, and to Defendant ("Notice") attached hereto as
18 Exhibit A. The Notice was issued pursuant to, and in compliance with, the requirements of
19 H&S Code §25249.7(d) and the statute's implementing regulations regarding the notice of the
20 violations to be given to certain public enforcement agencies and to the violator. The Notice
21 included, *inter alia*, the following information: the name, address, and telephone number of
22 the noticing individual; the name of the alleged violator; the statute violated; the approximate
23 time period during which violations occurred; and descriptions of the violations, including the
24 chemicals involved, the routes of toxic exposure, and the specific product or type of product
25 causing the violations, and was issued as follows:

- 26
- a. Defendant was provided a copy of the Notice by Certified Mail.
 - b. Defendant was provided a copy of a document entitled "The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A

1 Summary," which is also known as Appendix A to Title 27 of CCR
2 §25903.

3 c. The California Attorney General was provided a copy of the Notice via
4 online submission.

5 d. The California Attorney General was provided with a Certificate of Merit
6 by the attorney for the noticing party, stating that there is a reasonable
7 and meritorious case for this action, and attaching factual information
8 sufficient to establish a basis for the certificate, including the identity of
9 the persons consulted with and relied on by the certifier, and the facts,
10 studies, or other data reviewed by those persons, pursuant to H&S Code
11 §25249.7(h) (2).

12 27. The appropriate public enforcement agencies have failed to commence and
13 diligently prosecute a cause of action under H&S Code §25249.5, *et seq.* against Defendant
14 based on the allegations herein.

15 28. By committing the acts alleged in this Complaint Defendant at all times relevant
16 to this action, and continuing through the present, has violated H&S Code §25249.6 by, in the
17 course of doing business, knowingly and intentionally exposing individuals who use or handle
18 the PRODUCTS set forth in the Notice to the LISTED CHEMICALS, without first providing a
19 clear and reasonable warning to such individuals pursuant to H&S Code §§ 25249.6 and
20 25249.11(f).

21 29. By the above-described acts, Defendant has violated H&S Code § 25249.6 and is
22 therefore subject to an injunction ordering Defendant to stop violating Proposition 65, to
23 provide warnings to all present and future customers, and to provide warnings to Defendant's
24 past customers who purchased or used the PRODUCTS without receiving a clear and
25 reasonable warning.

26 30. An action for injunctive relief under Proposition 65 is specifically authorized by
Health & Safety Code §25249.7(a).

1 continuing to cause consumers to be involuntarily and unwittingly exposed to the LISTED
2 CHEMICALS through the use and/or handling of the PRODUCTS.

3 **PRAYER FOR RELIEF**

4 Wherefore, Plaintiff accordingly prays for the following relief:

5 A. a preliminary and permanent injunction, pursuant to H&S Code §25249.7(b),
6 enjoining Defendant, its agents, employees, assigns and all persons acting in concert or
7 participating with Defendant, from distributing or selling the PRODUCTS in California
8 without first providing a clear and reasonable warning, within the meaning of Proposition 65,
9 that the users and/or handlers of the PRODUCTS are exposed to the LISTED CHEMICALS.

10 B. an injunctive order, pursuant to H&S Code §25249.7(b), compelling Defendant
11 to identify and locate each individual who has purchased the PRODUCTS since January 31,
12 2011, and to provide a warning to such person that the use of the PRODUCTS will expose the
13 user to chemicals known to cause cancer, birth defects, and other reproductive harm.

14 C. an assessment of civil penalties pursuant to Health & Safety Code §25249.7(b),
15 against Defendant in the amount of \$2,500 per day for each violation of Proposition 65, in an
16 amount in excess of \$15 million;

17 D. an award to Plaintiff of its reasonable attorney's fees and costs of suit pursuant
18 to California Code of Civil Procedure §1021.5, 1033.5, and any other applicable provisions of
19 law, as Plaintiff shall specify in further application to the Court; and,

20 E. such other and further relief as may be just and proper.

Re: Notice of Violations of California Health & Safety Code Section 25249.5 *et seq.*

Dear Addressees:

I represent the Environmental Research Center ("ERC") in connection with this Notice of Violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986, which is codified at California Health & Safety Code Section 25249.5 *et seq.* and also referred to as Proposition 65.

ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

The name of the Company covered by this notice that violated Proposition 65 (hereinafter the "Violator") is:

Atlantic Pro-Nutrients, Inc. dba Xymogen

The products that are the subject of this notice and the chemicals in those products identified as exceeding allowable levels are:

- **Xymogen Exclusive Professional Formulas i5 Creamy Chocolate - Lead**
- **Xymogen Exclusive Professional Formulas FitFood Vegan Creamy Chocolate- Lead**
- **Xymogen Exclusive Professional Formulas FitFood Vegan Vanilla Delight - Lead**
- **Xymogen Exclusive Professional Formulas TestoPlex - Lead**
- **Xymogen Exclusive Professional Formulas Viragraphis – Lead**
- **Xymogen Exclusive Professional Formulas SerenX - Lead**
- **Xymogen Exclusive Professional Formulas LipotropiX – Lead**
- **Xymogen Exclusive Professional Formulas MedCaps DPO - Lead**
- **Xymogen Exclusive Professional Formulas OrganiX Greens - Lead**
- **Xymogen Exclusive Professional Formulas Xymogen EP BrainSustain Creamy Chocolate - Lead**
- **Xymogen Exclusive Professional Formulas Xymogen EP BrainSustain Vanilla Delight - Lead**
- **Xymogen Exclusive Professional Formulas Xymogen EP i5 Chai - Lead**
- **Xymogen Exclusive Professional Formulas OptiCleanse GHI Original - Lead**
- **Xymogen Exclusive Professional Formulas Xymogen EP ImmunoBar Chocolate Fudge - Lead**
- **Xymogen Exclusive Professional Formulas DJD Factors - Lead**
- **Xymogen Exclusive Professional Formulas FitFood Lite Vegan Vanilla Delight - Lead**
- **Xymogen Exclusive Professional Formulas i5 Energize Vanilla Latte - Lead**
- **Xymogen Exclusive Professional Formulas i5 Chocolate Mint - Lead**
- **Xymogen Exclusive Professional Formulas i5 Vanilla Delight - Lead**
- **Xymogen Exclusive Professional Formulas OptiCleanse GHI Chocolate Mint- Lead**
- **Xymogen Exclusive Professional Formulas OptiCleanse GHI Chai - Lead**

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

This letter is a notice to the Violator and the appropriate governmental authorities of the Proposition 65 violations concerning the listed products. This notice covers all violations of Proposition 65 involving the Violator currently known to ERC from the information now available. ERC may continue to investigate other products that may reveal further violations. A summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is enclosed with the copy of this letter to the Violator.

January 31, 2014

Page 3

The Violator has manufactured, marketed, distributed, and/or sold the listed products, which have exposed and continue to expose numerous individuals within California to the identified chemical, lead. The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and/or recommended use of these products by consumers. The primary route of exposure to lead has been through ingestion, but may have also occurred through inhalation and/or dermal contact. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to lead. The method of warning should be a warning that appears on the product's label. The Violator violated Proposition 65 because it failed to provide an appropriate warning to persons using and/or handling these products that they are being exposed to lead. Each of these ongoing violations has occurred on every day since January 31, 2011, as well as every day since the products were introduced in the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users.

Pursuant to Section 25249.7(d) of the statute, ERC intends to file a citizen enforcement action sixty days after effective service of this notice unless the Violator agrees in an enforceable written instrument to: (1) reformulate the listed products so as to eliminate further exposures to the identified chemicals; and (2) pay an appropriate civil penalty. Consistent with the public interest goals of Proposition 65 and my client's objectives in pursuing this notice, ERC is interested in seeking a constructive resolution to this matter. Such resolution will avoid both further unwarned consumer exposures to the identified chemicals and expensive and time consuming litigation.

ERC's Executive Director is Chris Heptinstall, and is located at 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. 619-500-3090. ERC has retained me in connection with this matter. We suggest that communications regarding this Notice of Violations should be directed to my attention at the above listed law office address and telephone number.

Sincerely,

A handwritten signature in black ink, appearing to read 'Richard Drury', is written over a horizontal line. The signature is fluid and cursive.

Richard Drury

Certificate of Merit

Certificate of Service

OEHHA Summary (to Atlantic Pro-Nutrients, Inc. dba Xymogen and its Registered Agent for Service of Process only)

Additional Supporting Information for Certificate of Merit (to AG only)

CERTIFICATE OF MERIT

**Re: Environmental Research Center's Notice of Proposition 65 Violations by
Atlantic Pro-Nutrients, Inc. dba Xymogen**

I, Richard Drury, declare:

1. This Certificate of Merit accompanies the attached sixty-day notice in which it is alleged the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.
2. I am an attorney for the noticing party.
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of the notice.
4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.
5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: January 31, 2014

Richard Drury

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. The statute is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Governor's List." Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. This means that chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at:

http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies; for example, when exposures are sufficiently low (see below). The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed as known to the State to cause cancer ("carcinogens"), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by a 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in a Food. Certain exposures to chemicals that occur in foods naturally (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a "significant amount" of the listed chemical entering into any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

² See Section 25501(a)(4)

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of the regulations and in Title 11, sections 3100-3103. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

FOR FURTHER INFORMATION ABOUT THE LAW OR REGULATIONS...

Contact the Office of Environmental Health Hazard Assessment's Proposition 65 Implementation Office at (916) 445-6900 or via e-mail at P65Public.Comments@oehha.ca.gov.

Revised: July, 2012

NOTE: Authority cited: Section 25249.12, Health and Safety Code. Reference: Sections 25249.5, 25249.6, 25249.9, 25249.10 and 25249.11, Health and Safety Code.

CERTIFICATE OF SERVICE

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States, over the age of 18 years of age, and am not a party to the within entitled action. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On January 31, 2014, I served the following documents: **NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; "THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY"** on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to the party listed below and depositing it in a U.S. Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

Current CEO or President
