Attorneys for Plaintiff
ENVIRONMENTAL RESEARCH CENTER, INC.

SUPERIOR COURT OF THE STATE OF CALIFORNIA
COUNTY OF ALAMEDA

ENVIRONMENTAL RESEARCH CENTER,
INC. a non-profit California corporation,

Plaintiff,

v.

UNICITY INTERNATIONAL, INC., a
Delaware Corporation,

Defendant.

Case No.

RG 15768771

**COMPLAINT FOR INJUNCTIVE
RELIEF AND CIVIL PENALTIES**

Health & Safety Code §25249.5, *et seq.*

Plaintiff Environmental Research Center, Inc. ("PLAINTIFF" or "ERC") brings this
action in the interests of the general public and, on information and belief, hereby alleges:

INTRODUCTION

1. This action seeks to remedy the continuing failure of Defendant UNICITY
INTERNATIONAL, INC. ("UNICITY" or "DEFENDANT") to warn consumers in California
that they are being exposed to lead, a substance known to the State of California to cause
cancer, birth defects, and other reproductive harm. DEFENDANT manufactures, packages,
distributes, markets, and/or sells in California certain products containing lead

1 (collectively, the “PRODUCTS”):

- 2 • Unicity International Inc. Bios Life BM&C Plus
- 3 • Unicity International Inc. Unicity Balance
- 4 • Unicity International Inc. Bios Life Bios Life2 Original
- 5 • Unicity International Inc. Soy Protein
- 6 • Unicity International Inc. Bios Life Slim
- 7 • Unicity International Inc. SIG
- 8 • Unicity International Inc. Unicity Paraway Plus
- 9 • Unicity International Inc. Cardio-Essentials
- 10 • Unicity International Inc. ChloroPlasma Plus
- 11 • Unicity International Inc. Enzygen Plus
- 12 • Unicity International Inc. Red Clover Plus
- 13 • Unicity International Inc. Bios Life Vascular Complete

14 2. Lead (hereinafter, the “LISTED CHEMICAL”) is a substance known to the
15 State¹ of California to cause cancer, birth defects, and other reproductive harm.

16 3. The use and/or handling of the PRODUCTS causes exposures to the LISTED
17 CHEMICAL at levels requiring a “clear and reasonable warning” under California's Safe
18 Drinking Water and Toxic Enforcement Act of 1986, Health & Safety Code (“H&S Code”)
19 §25249.5, *et seq.* (also known as “Proposition 65”). DEFENDANT has failed to provide the
20 health hazard warnings required by Proposition 65.

21 4. DEFENDANT’s past sales and continued manufacturing, packaging,
22 distributing, marketing and/or sales of the PRODUCTS without the required health hazard
23 warnings, cause individuals to be involuntarily and unwittingly exposed to levels of the
24 LISTED CHEMICAL that violate Proposition 65.

25 5. PLAINTIFF seeks injunctive relief enjoining DEFENDANT from the
26

¹ All statutory and regulatory references herein are to California law, unless otherwise specified.

1 continued manufacturing, packaging, distributing, marketing and/or sales of the PRODUCTS
2 in California without provision of clear and reasonable warnings regarding the risks of cancer,
3 birth defects, and other reproductive harm posed by exposure to the LISTED CHEMICAL
4 through the use and/or handling of the PRODUCTS. PLAINTIFF seeks an injunctive order
5 compelling DEFENDANT to bring its business practices into compliance with Proposition 65
6 by providing a clear and reasonable warning to each individual who has been and who in the
7 future may be exposed to the LISTED CHEMICAL from the use of the PRODUCTS.
8 PLAINTIFF also seeks an order compelling DEFENDANT to identify and locate each
9 individual person who in the past has purchased the PRODUCTS, and to provide to each such
10 purchaser a clear and reasonable warning that the use of the PRODUCTS will cause exposures
11 to the LISTED CHEMICAL.

12 6. In addition to injunctive relief, PLAINTIFF seeks an assessment of civil
13 penalties up to the maximum civil penalty of \$2,500 per day per exposure authorized by
14 Proposition 65 to remedy DEFENDANT's failure to provide clear and reasonable warnings
15 regarding exposures to the LISTED CHEMICAL.

16 **JURISDICTION AND VENUE**

17 7. This Court has jurisdiction over this action pursuant to California Constitution
18 Article VI, Section 10, which grants the Superior Court "original jurisdiction in all causes
19 except those given by statute to other trial courts." The statute under which this action is
20 brought does not specify any other basis for jurisdiction.

21 8. This Court has jurisdiction over DEFENDANT because, based on information
22 and belief, DEFENDANT is a business having sufficient minimum contacts with California, or
23 otherwise intentionally availing itself of the California market through the distribution and sale
24 of the PRODUCTS in the State of California to render the exercise of jurisdiction over it by the
25 California courts consistent with traditional notions of fair play and substantial justice.

26 9. Venue in this action is proper in the Alameda Superior Court because the

1 DEFENDANT has violated California law in the County of Alameda.

2 10. On February 13, 2015, PLAINTIFF sent a 60-Day Notice of Proposition 65
3 (“Notice”) violations to the requisite public enforcement agencies, and to DEFENDANT.

4 The Notice was issued pursuant to, and in compliance with, the requirements of H&S Code
5 §25249.7(d) and the statute's implementing regulations regarding the notice of the violations
6 to be given to certain public enforcement agencies and to the violators. The Notice included,
7 *inter alia*, the following information: the name, address, and telephone number of the noticing
8 individuals; the name of the alleged violators; the statute violated; the approximate time period
9 during which violations occurred; and descriptions of the violations, including the chemicals
10 involved, the routes of toxic exposure, and the specific product or type of product causing the
11 violations, and was issued as follows:

- 12 a. DEFENDANT was provided a copy of the Notice by Certified Mail.
- 13 b. DEFENDANT was provided a copy of a document entitled “The Safe
14 Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A
15 Summary,” which is also known as Appendix A to Title 27 of CCR §25903.
- 16 c. The California Attorney General was provided a copy of the Notice via
17 online submission.
- 18 d. The California Attorney General was provided with a Certificate of Merit by
19 the attorney for the noticing parties, stating that there is a reasonable and
20 meritorious case for this action, and attaching factual information sufficient
21 to establish a basis for the certificate, including the identity of the persons
22 consulted with and relied on by the certifier, and the facts, studies, or other
23 data reviewed by those persons, pursuant to H&S Code §25249.7(h) (2).

24 11. At least 60-days have elapsed since PLAINTIFF sent the NOTICE to
25 DEFENDANT. The appropriate public enforcement agencies have failed to commence and
26 diligently prosecute a cause of action under H&S Code §25249.5, *et seq.* against

1 DEFENDANT based on the allegations herein.

2 **PARTIES**

3 12. PLAINTIFF is a non-profit corporation organized under California's
4 Corporation Law. ERC is dedicated to, among other causes, reducing the use and misuse of
5 hazardous and toxic substances, consumer protection, worker safety, and corporate
6 responsibility.

7 13. ERC is a person within the meaning of H&S Code §25118 and brings this
8 enforcement action in the public interest pursuant to H&S Code §25249.7(d).

9 14. DEFENDANT is a corporation organized under the State of Delaware's
10 Law and is a person doing business within the meaning of H&S Code §25249.11.

11 15. DEFENDANT has manufactured, packaged, distributed, marketed and /or sold
12 the PRODUCTS for sale or use in California and the County of Alameda. ERC is informed and
13 believes, and thereupon alleges, that DEFENDANT continues to manufacture, package,
14 distribute, market and/or sell the PRODUCTS for sale or use in California and in Alameda
15 County.

16 **STATUTORY BACKGROUND**

17 16. The People of the State of California have declared in Proposition 65 their right
18 "[t]o be informed about exposures to chemicals that cause cancer, birth defects, or other
19 reproductive harm." (Section 1(b) of Initiative Measure, Proposition 65).

20 17. To effect this goal, Proposition 65 requires that individuals be provided with a
21 "clear and reasonable warning" before being exposed to substances listed by the State of
22 California as causing cancer or reproductive toxicity. H&S Code §25249.6 states, in pertinent
23 part:

24 No person in the course of doing business shall knowingly and intentionally
25 expose any individual to a chemical known to the state to cause cancer or
26 reproductive toxicity without first giving clear and reasonable warning to such
individual....

18. "'Knowingly' refers only to knowledge of the fact that a discharge of, release of,

1 or exposure to a chemical listed pursuant to Section 25249.8(a) of the Act is occurring. No
2 knowledge that the discharge, release or exposure is unlawful is required.” (27 California Code
3 of Regulations (“CCR”) § 25102(n).)

4 19. Proposition 65 provides that any person “violating or threatening to violate” the
5 statute may be enjoined in a court of competent jurisdiction. (H&S Code §25249.7). The phrase
6 “threatening to violate” is defined to mean creating “a condition in which there is a substantial
7 likelihood that a violation will occur.” (H&S Code §25249.11(e)). Violators are liable for civil
8 penalties of up to \$2,500 per day for each violation of the Act. (H&S Code §25249.7.)

9 **FACTUAL BACKGROUND**

10 20. On February 27, 1987, the State of California officially listed lead as a chemical
11 known to cause reproductive toxicity. Lead became subject to the warning requirement one
12 year later and was therefore subject to the “clear and reasonable” warning requirements of
13 Proposition 65 beginning on February 27, 1988. (27 CCR § 25000, *et seq.*; H&S Code
14 §25249.5, *et seq.*). Due to the high toxicity of lead, the maximum allowable dose level for lead
15 is 0.5 ug/day (micrograms a day) for reproductive toxicity. (27 CCR § 25805(b).)

16 21. On October 1, 1992, the State of California officially listed lead and lead
17 compounds as chemicals known to cause cancer. Lead and lead compounds became subject to
18 the warning requirement one year later and were therefore subject to the “clear and reasonable”
19 warning requirements of Proposition 65 beginning on October 1, 1993 (27 CCR § 25000, *et*
20 *seq.*; H&S Code §25249.6 *et seq.*). Due to the carcinogenicity of lead, the no significant risk
21 level for lead is 15 ug/day (micrograms a day). (27 CCR § 25705(b)(1).)

22 22. To test DEFENDANT’s PRODUCTS for lead, PLAINTIFF hired a well-
23 respected and accredited testing laboratory. The results of testing undertaken by PLAINTIFF
24 of DEFENDANT’s PRODUCTS show that the PRODUCTS tested were in violation of the 0.5
25 ug/day “safe harbor” daily dose limit set forth in Proposition 65’s regulations. Very significant
26 is the fact that people are being exposed to lead through ingestion as opposed to other not as

1 harmful methods of exposure such as dermal exposure. Ingestion of lead produces much
2 higher exposure levels and health risks than does dermal exposure to this chemical.

3 23. At all times relevant to this action, DEFENDANT, therefore, has knowingly and
4 intentionally exposed the users and/or handlers of the PRODUCTS to the LISTED
5 CHEMICAL without first giving a clear and reasonable warning to such individuals.

6 24. The PRODUCTS have allegedly been sold by DEFENDANT for use in
7 California since at least August 29, 2011. The PRODUCTS continue to be distributed
8 and sold in California without the requisite warning information.

9 25. On August 29, 2014, ERC served DEFENDANT and each of the appropriate
10 public enforcement agencies with a Proposition 65 Notice, a document entitled "Notice of
11 Violations of California Health & Safety Code Section 25249.5" that provided DEFENDANT
12 and the public enforcement agencies with notice that DEFENDANT was in violation of
13 Proposition 65 for failing to warn purchasers and individuals using the PRODUCTS that the
14 use of the PRODUCTS exposes them to lead, a chemical known to the State of California to
15 cause cancer and/or reproductive toxicity (a true and correct copy of the 60-Day Notice is
16 attached hereto as **Exhibit A** and incorporated by reference).

17 26. As a proximate result of acts by DEFENDANT, as a person in the course of
18 doing business within the meaning of Health & Safety Code §25249.11, individuals throughout
19 the State of California, including in the County of Alameda, have been exposed to the LISTED
20 CHEMICAL without a clear and reasonable warning. The individuals subject to the illegal
21 exposures include normal and foreseeable users of the PRODUCTS, as well as all other
22 persons exposed to the PRODUCTS.

23 **FIRST CAUSE OF ACTION**
24 **(Injunctive Relief for Violations of Health and Safety Code § 25249.5, *et seq.* concerning**
25 **the PRODUCTS described in the August 29, 2014 Prop. 65 Notice)**
26 **Against DEFENDANT**

27. PLAINTIFF re-alleges and incorporates by reference Paragraphs 1 through 26,

1 inclusive, as if specifically set forth herein.

2 28. By committing the acts alleged in this Complaint, DEFENDANT, at all times
3 relevant to this action, and continuing through the present, has violated H&S Code §25249.6
4 by, in the course of doing business, knowingly and intentionally exposing individuals who use
5 or handle the PRODUCTS set forth in the Notice to the LISTED CHEMICAL, without first
6 providing a clear and reasonable warning to such individuals pursuant to H&S Code §§
7 25249.6 and 25249.11(f).

8 29. By the above-described acts, DEFENDANT has violated H&S Code § 25249.6
9 and is therefore subject to an injunction ordering DEFENDANT to stop violating Proposition
10 65, to provide warnings to all present and future customers, and to provide warnings to
11 DEFENDANT's past customers who purchased or used the PRODUCTS without receiving a
12 clear and reasonable warning.

13 30. An action for injunctive relief under Proposition 65 is specifically authorized by
14 Health & Safety Code §25249.7(a).

15 31. Continuing commission by DEFENDANT of the acts alleged above will
16 irreparably harm the citizens of the State of California, for which harm they have no plain,
17 speedy, or adequate remedy at law.

18 Wherefore, PLAINTIFF prays for judgment against DEFENDANT, as set forth
19 hereafter.

20 **SECOND CAUSE OF ACTION**
21 **(Civil Penalties for Violations of Health and Safety Code § 25249.5, *et seq.* concerning the**
22 **PRODUCTS described in PLAINTIFF's NOTICE)**
23 **Against DEFENDANT**

24 32. PLAINTIFF re-alleges and incorporates by reference Paragraphs 1 through 31,
25 inclusive, as if specifically set forth herein.

26 33. By committing the acts alleged in this Complaint, DEFENDANT at all times
relevant to this action, and continuing through the present, has violated H&S Code §25249.6
by, in the course of doing business, knowingly and intentionally exposing individuals who use

1 or handle the PRODUCTS set forth in the Notice to the LISTED CHEMICAL, without first
2 providing a clear and reasonable warning to such individuals pursuant to H&S Code §§
3 25249.6 and 25249.11(f).

4 34. By the above-described acts, DEFENDANT is liable, pursuant to H&S Code
5 §25249.7(b), for a civil penalty of \$2,500 per day per violation for each unlawful exposure to
6 the LISTED CHEMICAL from the PRODUCTS.

7 Wherefore, PLAINTIFF prays for judgment against DEFENDANT, as set forth
8 hereafter.

9 **THE NEED FOR INJUNCTIVE RELIEF**

10 35. PLAINTIFF re-alleges and incorporates by this reference Paragraphs 1 through
11 34, as if set forth below.

12 36. By committing the acts alleged in this Complaint, DEFENDANT has caused
13 irreparable harm for which there is no plain, speedy or adequate remedy at law. In the absence
14 of equitable relief, DEFENDANT will continue to create a substantial risk of irreparable injury
15 by continuing to cause consumers to be involuntarily and unwittingly exposed to the LISTED
16 CHEMICAL through the use and/or handling of the PRODUCTS.

17 **PRAYER FOR RELIEF**

18 Wherefore, PLAINTIFF accordingly prays for the following relief:

19 A. a preliminary and permanent injunction, pursuant to H&S Code §25249.7(b),
20 enjoining DEFENDANT, its agents, employees, assigns and all persons acting in concert or
21 participating with DEFENDANT, from distributing or selling the PRODUCTS in California
22 without first providing a clear and reasonable warning, within the meaning of Proposition 65,
23 that the users and/or handlers of the PRODUCTS are exposed to the LISTED CHEMICAL;

24 B. an injunctive order, pursuant to H&S Code §25249.7(b), compelling
25 DEFENDANT to identify and locate each individual who has purchased the PRODUCTS since
26 August 29, 2011, and to provide a warning to such person that the use of the PRODUCTS

1 will expose the user to chemicals known to birth defects and other reproductive harm;

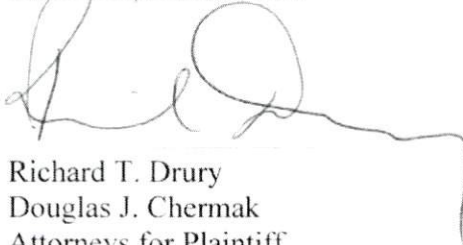

2 C. an assessment of civil penalties pursuant to Health & Safety Code §25249.7(b),
3 against DEFENDANT in the amount of \$2,500 per day for each violation of Proposition 65;

4 D. an award to PLAINTIFF of its reasonable attorney's fees and costs of suit
5 pursuant to California Code of Civil Procedure §1021.5, as PLAINTIFF shall specify in further
6 application to the Court; and,

7 E. such other and further relief as may be just and proper.

Re: Notice of Violations of California Health & Safety Code Section 25249.5 *et seq.*

Dear Addressees:

I represent Environmental Research Center, Inc. ("ERC") in connection with this Notice of Violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986, which is codified at California Health & Safety Code Section 25249.5 *et seq.* and also referred to as Proposition 65.

ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of

hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

The name of the Company covered by this notice that violated Proposition 65 (hereinafter the "Violator") is:

Unicity International, Inc.

The products that are the subject of this notice and the chemicals in those products identified as exceeding allowable levels are:

Unicity International Inc. Bios Life BM&C Plus - Lead
Unicity International Inc. Unicity Balance - Lead
Unicity International Inc. Bios Life Bios Life2 Original - Lead
Unicity International Inc. Soy Protein - Lead
Unicity International Inc. Bios Life Slim - Lead
Unicity International Inc. SIG - Lead
Unicity International Inc. Unicity Paraway Plus - Lead
Unicity International Inc. Cardio-Essentials - Lead
Unicity International Inc. ChloroPlasma Plus - Lead
Unicity International Inc. Enzygen Plus - Lead
Unicity International Inc. Red Clover Plus - Lead
Unicity International Inc. Bios Life Vascular Complete - Lead

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

This letter is a notice to the Violator and the appropriate governmental authorities of the Proposition 65 violations concerning the listed products. This notice covers all violations of Proposition 65 involving the Violator currently known to ERC from the information now available. ERC may continue to investigate other products that may reveal further violations. A summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is enclosed with the copy of this letter to the Violator.

The Violator has manufactured, marketed, distributed, and/or sold the listed products, which have exposed and continue to expose numerous individuals within California to the identified chemical, lead. The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and/or recommended use of these products by consumers. The primary route of exposure to lead has been through ingestion, but may have also occurred through inhalation and/or dermal contact. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to lead. The method of warning should be a warning that appears on the product's label. The Violator violated Proposition 65 because it failed to provide an appropriate warning to persons using and/or handling these products that they are being

August 29, 2014

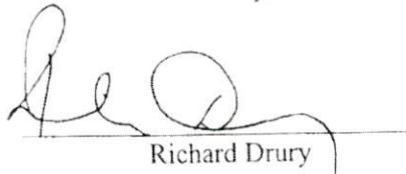

Page 3

exposed to lead. Each of these ongoing violations has occurred on every day since August 29, 2011, as well as every day since the products were introduced in the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users.

Pursuant to Section 25249.7(d) of the statute, ERC intends to file a citizen enforcement action sixty days after effective service of this notice unless the Violator agrees in an enforceable written instrument to: (1) reformulate the listed products so as to eliminate further exposures to the identified chemicals; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons who purchased the above products in the last three years. Consistent with the public interest goals of Proposition 65 and my client's objectives in pursuing this notice, ERC is interested in seeking a constructive resolution to this matter. Such resolution will avoid both further unwarned consumer exposures to the identified chemicals and expensive and time consuming litigation.

ERC's Executive Director is Chris Heptinstall, and is located at 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. 619-500-3090. ERC has retained me in connection with this matter. We suggest that communications regarding this Notice of Violations should be directed to my attention at the above listed law office address and telephone number.

Sincerely,

Richard Drury

Certificate of Merit

Certificate of Service

OEHHA Summary (to Unicity International, Inc. and its Registered Agents for Service of Process only)

Additional Supporting Information for Certificate of Merit (to AG only)

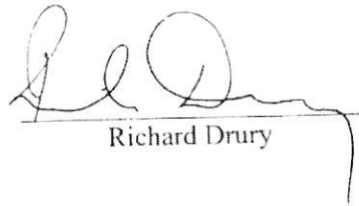

CERTIFICATE OF MERIT

**Re: Environmental Research Center, Inc.'s Notice of Proposition 65 Violations
by Unicity International, Inc.**

I, Richard Drury, declare:

1. This Certificate of Merit accompanies the attached sixty-day notice in which it is alleged the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.
2. I am an attorney for the noticing party.
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of the notice.
4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.
5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: August 29, 2014

Richard Drury

CERTIFICATE OF SERVICE

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States, over the age of 18 years of age, and am not a party to the within entitled action. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On August 29, 2014, I served the following documents: **NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; "THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY"** on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to the party listed below and depositing it in a U.S. Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. The statute is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Governor's List." Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. This means that chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at:

http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies; for example, when exposures are sufficiently low (see below). The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed as known to the State to cause cancer ("carcinogens"), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by a 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in a Food. Certain exposures to chemicals that occur in foods naturally (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a "significant amount" of the listed chemical entering into any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

² See Section 25501(a)(4)

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of the regulations and in Title 11, sections 3100-3103. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.
