10
11 SUPERIOR COURT OF THE STATE OF CALIFORNIA
12 COUNTY OF ALAMEDA

13 ENVIRONMENTAL RESEARCH
14 CENTER, INC. a California non-profit
15 corporation,

16 Plaintiff,

17 v.

18 VITACOST.COM, INC., LUCKY
19 VITAMIN CORPORATION, and DOES 1-
100

20 Defendants.

CASE NO. RG15770506

COMPLAINT FOR INJUNCTIVE
AND DECLARATORY RELIEF AND
CIVIL PENALTIES

[Miscellaneous Civil Complaint (42)]
Proposition 65, Health & Safety Code
Section 25249.5 et seq.]

21
22 Plaintiff Environmental Research Center, Inc. hereby alleges:

23 I

24 INTRODUCTION

25 1. Plaintiff Environmental Research Center, Inc. (hereinafter "Plaintiff" or "ERC") brings
26 this action as a private attorney general enforcer and in the public interest pursuant to Health &
27 Safety Code section 25249.7, subdivision (d). This complaint seeks injunctive and declaratory
28 relief and civil penalties to remedy the continuing failure of Defendants VITACOST.COM, INC.,

1 LUCKY VITAMIN CORPORATION (“Companies”), and DOES 1-100 (hereinafter individually
2 referred to as “Defendant” or collectively as “Defendants”) to warn consumers that they have been
3 exposed to lead from Companies’ nutritional health products. Lead is a chemical known to the
4 State of California to cause cancer, birth defects and other reproductive harm. Based on the Safe
5 Drinking Water and Toxic Enforcement Act of 1986 (Health & Safety Code section 25249.5 *et*
6 *seq.*) also known as “Proposition 65,” businesses with ten or more employees must provide a
7 “clear and reasonable warning” prior to exposing persons to these chemicals.

8 **II**

9 **PARTIES**

10 2. Plaintiff ERC is a California non-profit corporation dedicated to, among other causes,
11 helping safeguard the public from health hazards by reducing the use and misuse of hazardous and
12 toxic chemicals, facilitating a safe environment for consumers and employees and encouraging
13 corporate responsibility.

14 3. Defendants Vitacost.com, Inc. and Lucky Vitamin Corporation are each a business that
15 manufactures, distributes and/or sells the nutritional health products that have exposed users to
16 lead in the State of California within the relevant statute of limitations period. These “Covered
17 Products” are: 1) The Ultimate Life The Ultimate DefenZyme and 2) The Ultimate Life The
18 Ultimate Meal Vegan.

19 4. Vitacost.com, Inc. and Lucky Vitamin Corporation are companies subject to
20 Proposition 65 as they employ ten or more persons, and have employed ten or more persons at all
21 times relevant to this action.

22 5. Defendants Does 1-100, are named herein under fictitious names, as their true names
23 and capacities are unknown to ERC. ERC is informed and believes, and thereon alleges, that each
24 of said Does is responsible, in some actionable manner, for the events and happenings hereinafter
25 referred to, either through said Defendant’s conduct, or through the conduct of its agents, servants
26 or employees, or in some other manner, causing the harms alleged by ERC in this complaint.
27 When said true names and capacities of Does are ascertained, ERC will seek leave to amend this
28 complaint to set forth the same.

III

JURISDICTION AND VENUE

6. This Court has jurisdiction pursuant to California Constitution Article VI, Section 10 which grants the Superior Court original jurisdiction in all causes except those given by statute to other trial courts. The statute under which this action is brought does not specify any other basis for jurisdiction.

7. The Complaint is based on allegations contained in Notices of Violation dated February 13, 2015, served on the California Attorney General, other public enforcers and Companies. The Notices of Violation constitute adequate notice to Companies because they provided adequate information to allow Companies to assess the nature of the alleged violation, consistent with Proposition 65 and its implementing regulations. Each copy of the Notice of Violation was accompanied by a certificate of merit and a certificate of service, both of which comply with Proposition 65 and its implementing regulations. The Notices of Violation served on Companies also included a copy of "The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary". Service of the Notices of Violation and accompanying documents complied with Proposition 65 and its implementing regulations. A true and correct copy of the Notices of Violation and associated documents are attached hereto as Exhibit A. More than 60 days have passed since the Notices of Violation were mailed and no public enforcement entity has filed a complaint in this case.

8. This Court has jurisdiction over Companies because, based on information and belief, Companies are businesses having sufficient minimum contacts with California, or otherwise intentionally availing themselves of the California market through the distribution and sale of the Covered Products in the State of California to render the exercise of jurisdiction over them by the California courts consistent with traditional notions of fair play and substantial justice.

9. This Court is the proper venue for the action because the causes of action have arisen in the County of Alameda where some of the violations of law have occurred. Furthermore, this Court is the proper venue under Code of Civil Procedure section 395.5 and Health & Safety Code section 2524.

1 IV

2 STATUTORY BACKGROUND

3 10. The Safe Drinking Water and Toxic Enforcement Act of 1986 is an initiative statute
4 passed as "Proposition 65" by an overwhelming majority vote of the people in November of 1986.

5 11. The warning requirement of Proposition 65 is contained in Health & Safety Code
6 section 25249.6, which provides:

7 No person in the course of doing business shall knowingly and intentionally expose
8 any individual to a chemical known to the state to cause cancer or reproductive
9 toxicity without first giving clear and reasonable warning to such individual, except
as provided in Section 25249.10.

10 12. Implementing regulations for Proposition 65 define expose as "to cause to ingest,
11 inhale, contact via body surfaces or otherwise come into contact with a listed chemical." An
12 individual may come into contact with a listed chemical through water, air, food, consumer
13 products and any other environmental exposure as well as occupational exposures." (Cal. Code
14 Regs., tit. 27, § 25102, subd. (i).)

15 13. In this case, the exposures at issue are caused by consumer products. Implementing
16 regulations for Proposition 65 define a consumer product exposure as "an exposure which results
17 from a person's acquisition, purchase, storage, consumption, or other reasonably foreseeable use
18 of a consumer good, or any exposure that results from receiving a consumer service." (Cal. Code
19 Regs., tit. 27, § 25602, subd. (b).)

20 14. Whenever a clear and reasonable warning is required under Health & Safety Code
21 section 25249.6, the "method employed to transmit the warning must be reasonably calculated
22 considering the alternative methods available under the circumstances, to make the warning
23 message available prior to exposure." (Cal. Code Regs., tit. 27, § 25601.) The warning
24 requirement may be satisfied by a warning that appears on a product's label or other labeling, shelf
25 labeling, signs, a system of signs, public advertising identifying the system and toll-free
26 information services, or any other, system, that provides clear and reasonable warnings. (Cal.
27 Code Regs., tit. 27, § 25603.1, subd. (a)-(d).)

28 ///

1 15. Proposition 65 establishes a procedure by which the State is to develop a list of
2 chemicals "known to the State to cause cancer or reproductive toxicity." (Health & Safety
3 Code, § 25249.8.) There is no duty to provide a clear and reasonable warning until 12-months
4 after the chemical was published on the State list. (Health & Safety Code, § 25249.10, subd. (b).)
5 Lead was listed as a chemical known to the State of California to cause developmental toxicity in
6 the fetus and male and female reproductive toxicity on February 27, 1987. Lead was listed as a
7 chemical known to the State of California to cause cancer on October 1, 1992. (Cal. Code Regs.,
8 tit. 27, § 27001.)

9 16. The Maximum Allowable Dose Level for lead as a chemical known to cause
10 developmental toxicity is 0.5 micrograms per day. (Cal. Code Regs., tit. 27, § 25805.) The No
11 Significant Risk Level for lead as a carcinogen is 15 micrograms per day. (Cal. Code Regs., tit.
12 27, § 25705.)

13 17. Proposition 65 may be enforced by any person in the public interest who provides
14 notice sixty days before filing suit to both the violator and designated law enforcement officials.
15 The failure of law enforcement officials to file a timely complaint enables a citizen suit to be filed
16 pursuant to Health & Safety Code § 25249.7, subds. (c) and (d).

17 18. Proposition 65 provides that any person "violating or threatening to violate"
18 Proposition 65 may be enjoined in any court of competent jurisdiction. (Health & Safety Code, §
19 25249.7, subd. (a).) To "threaten to violate" means "to create a condition in which there is a
20 substantial probability that a violation will occur." (Health & Safety Code, § 25249.11, subd. (e).)
21 Furthermore, violators are subject to a civil penalty of up to \$2,500 per day for each violation.
22 (Health & Safety Code, § 25249.7, subd. (b)(1).

23 **V**

24 **STATEMENT OF FACTS**

25 19. Companies have manufactured, distributed and/or sold the Covered Products
26 containing lead to the State of California. Consumers have been ingesting this product for many
27 years, without any knowledge of their exposure to lead, a very dangerous chemical.

28 ///

1 20. For many years, Companies have knowingly and intentionally exposed numerous
2 persons to lead, without providing a Proposition 65 warning. Prior to ERC's Notices of Violation,
3 Companies failed to provide a warning on the label of the Covered Products. Companies have at
4 all times relevant hereto been aware that the Covered Products contained lead and that persons
5 using these products have been exposed to this chemical. Companies have been aware of the lead
6 in the Covered Products and have failed to disclose the presence of this chemical to the public,
7 who undoubtedly believed they have been ingesting totally healthy and pure products.

8 21. Both prior and subsequent to ERC's Notices of Violation, Companies failed to provide
9 consumers of the Covered Products with a clear and reasonable warning that they have been
10 exposed to a chemical known to the State of California to cause cancer, birth defects and other
11 reproductive harm.

12 FIRST CAUSE OF ACTION

13 (Violation of Section 25249.6 of the Health and Safety Code, Failure to Provide Clear
14 and Reasonable Warning under Proposition 65)

15 22. ERC refers to paragraphs 1-21, inclusive, and incorporates them herein by this
16 reference.

17 23. By committing the acts alleged above, Companies have, in the course of doing
18 business, knowingly and intentionally exposed users of the Covered Products to lead, a chemical
19 known to the State of California to cause cancer, birth defects and other reproductive harm without
20 first giving clear and reasonable warning to such individuals, within the meaning of Health &
21 Safety Code section 25249.6.

22 24. Said violations render Companies liable for civil penalties up to \$2,500 per day, for
23 each violation.

24 SECOND CAUSE OF ACTION

25 (Declaratory Relief)

26 25. ERC refers to paragraphs 1-24, inclusive, and incorporates them herein by this
27 reference.

EXHIBIT A

Environmental Research Center

3111 Camino Del Rio North, Suite 400
San Diego, CA 92108
619-500-3090

February 13, 2015

NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 *ET SEQ.* (PROPOSITION 65)

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I am the Executive Director of Environmental Research Center, Inc. ("ERC"). ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the product identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with this product. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

General Information about Proposition 65. A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violator identified below.

Alleged Violator. The name of the company covered by this notice that violated Proposition 65 (hereinafter the "Violator") is:

Vitacost.com, Inc.

Consumer Products and Listed Chemicals. The product that is the subject of this notice and the chemical in that product identified as exceeding allowable levels are:

**The Ultimate Life The Ultimate Defenzyme - Lead
The Ultimate Life The Ultimate Meal Vegan - Lead**

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

Route of Exposure. The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and recommended use of this product. Consequently, the primary route of exposure to this chemical has been and continues to be through ingestion, but may have also occurred and may continue to occur through inhalation and/or dermal contact.

Approximate Time Period of Violations. Ongoing violations have occurred every day since at least February 13, 2012, as well as every day since the product was introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until this known toxic chemical is either removed from or reduced to allowable levels in the product. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemical. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons handling and/or using this product with appropriate warnings that they are being exposed to this chemical.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified product so as to eliminate further exposures to the identified chemical, or provide appropriate warnings on the labels of this product; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above product in the last three years. Such a resolution will prevent further unwarned consumer exposures to the identified chemical, as well as an expensive and time consuming litigation.

Please direct all questions concerning this notice to ERC at the above listed address and telephone number.

Sincerely,

Chris Heptinstall
Executive Director
Environmental Research Center

CERTIFICATE OF MERIT

Re: Environmental Research Center, Inc.'s Notice of Proposition 65 Violations by Vitacost.com, Inc.

I, Chris Heptinstall, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am the Executive Director for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemicals that are the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: February 13, 2015

Chris Heptinstall

CERTIFICATE OF SERVICE

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States, over the age of 18 years of age, and am not a party to the within entitled action. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On February 13, 2015, I served the following documents: **NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; "THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY"** on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to the party listed below and depositing it in a U.S. Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

Current CEO or President
Vitacost.com, Inc.
5400 Broken Sound Parkway NW,
Suite 500
Boca Raton, FL 33487

Corporation Service Company
(Vitacost.com, Inc.'s Registered
Agent for Service of Process)
1201 Hays Street
Tallahassee, FL 32301

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. The statute is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Governor's List." Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. This means that chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at:
http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies; for example, when exposures are sufficiently low (see below). The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed as known to the State to cause cancer ("carcinogens"), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by a 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in a Food. Certain exposures to chemicals that occur in foods naturally (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a "significant amount" of the listed chemical entering into any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

² See Section 25501(a)(4)

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of the regulations and in Title 11, sections 3100-3103. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

February 13, 2015

NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 *ET SEQ.* (PROPOSITION 65)

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I am the Executive Director of Environmental Research Center, Inc. ("ERC"). ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the product identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with this product. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

General Information about Proposition 65. A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violator identified below.

Alleged Violator. The name of the company covered by this notice that violated Proposition 65 (hereinafter the "Violator") is:

Lucky Vitamin Corporation

Consumer Products and Listed Chemicals. The product that is the subject of this notice and the chemical in that product identified as exceeding allowable levels are:

**The Ultimate Life The Ultimate DefenZyme - Lead
The Ultimate Life The Ultimate Meal Vegan – Lead**

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

Route of Exposure. The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and recommended use of this product. Consequently, the primary route of exposure to this chemical has been and continues to be through ingestion, but may have also occurred and may continue to occur through inhalation and/or dermal contact.

Approximate Time Period of Violations. Ongoing violations have occurred every day since at least February 13, 2012, as well as every day since the product was introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until this known toxic chemical is either removed from or reduced to allowable levels in the product. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemical. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons handling and/or using this product with appropriate warnings that they are being exposed to this chemical.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified product so as to eliminate further exposures to the identified chemical, or provide appropriate warnings on the labels of this product; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above product in the last three years. Such a resolution will prevent further unwarned consumer exposures to the identified chemical, as well as an expensive and time consuming litigation.

Please direct all questions concerning this notice to ERC at the above listed address and telephone number.

Sincerely,

Chris Heptinstall
Executive Director
Environmental Research Center

CERTIFICATE OF MERIT

Re: Environmental Research Center, Inc.'s Notice of Proposition 65 Violations by Lucky Vitamin Corporation

I, Chris Heptinstall, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am the Executive Director for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemicals that are the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: February 13, 2015

Chris Heptinstall

CERTIFICATE OF SERVICE

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States, over the age of 18 years of age, and am not a party to the within entitled action. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On February 13, 2015, I served the following documents: **NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 *ET SEQ.*; CERTIFICATE OF MERIT; "THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY"** on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to the party listed below and depositing it in a U.S. Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

Current President or CEO
Lucky Vitamin Corporation
18 West Mount Kirk Avenue
Eagleville, PA 19403

Current President or CEO
Lucky Vitamin Corporation
555 E. North Lane, Suite 6050
Conshohocken, PA 19428

Current President or CEO
Lucky Vitamin Corporation
8 Avenue B, Buncher Industrial Park
Leetsdale, PA 15056

Current President or CEO
Lucky Vitamin Corporation
300 6th Avenue
Pittsburgh, PA 15222

National Registered Agents, Inc.
(Lucky Vitamin Corporation's Registered Agent
for Service of Process)
116 Pine Street, 3rd Floor, Suite 320
Harrisburg, PA 17101

Current President or CEO
Lucky Vitamin Corporation
4 West Mount Kirk Avenue
Norristown, PA 19403

On February 13, 2015, I electronically served the following documents: **NOTICE OF VIOLATIONS, CALIFORNIA HEALTH & SAFETY CODE §25249.5 *ET SEQ.*; CERTIFICATE OF MERIT; ADDITIONAL SUPPORTING INFORMATION FOR CERTIFICATE OF MERIT AS REQUIRED BY CALIFORNIA HEALTH & SAFETY CODE §25249.7(d)(1)** on the following party by uploading a true and correct copy thereof on the California Attorney General's website, which can be accessed at <https://oag.ca.gov/prop65/add-60-day-notice>:

Office of the California Attorney General
Prop 65 Enforcement Reporting
1515 Clay Street, Suite 2000
Post Office Box 70550
Oakland, CA 94612-0550

On February 13, 2015, I served the following documents: **NOTICE OF VIOLATIONS, CALIFORNIA HEALTH & SAFETY CODE §25249.5 *ET SEQ.*; CERTIFICATE OF MERIT** on each of the parties on the Service List attached hereto by placing a true and correct copy thereof in a sealed envelope, addressed to each of the parties on the Service List attached hereto, and depositing it with the U.S. Postal Service with the postage fully prepaid for delivery by Priority Mail.

Executed on February 13, 2015, in Fort Oglethorpe, Georgia.

Tiffany Capehart

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. The statute is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Governor's List." Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. This means that chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at:

http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies; for example, when exposures are sufficiently low (see below). The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed as known to the State to cause cancer ("carcinogens"), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by a 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in a Food. Certain exposures to chemicals that occur in foods naturally (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a "significant amount" of the listed chemical entering into any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

² See Section 25501(a)(4)

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of the regulations and in Title 11, sections 3100-3103. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.
