12 **SUPERIOR COURT OF THE STATE OF CALIFORNIA**
13 **COUNTY OF ALAMEDA**

14 ENVIRONMENTAL RESEARCH CENTER,
15 INC., a non-profit California corporation,

16 Plaintiff,

17 v.

18 STEMTECH INTERNATIONAL, INC., a
19 Delaware Corporation, STEMTECH
20 HEALTHSCIENCES, INC., a California
21 Corporation, and STEMTECH
22 HEALTHSCIENCES CORP, a Florida
23 Corporation,

24 Defendants.

Case No. RG15782608

ASSIGNED FOR ALL PURPOSES TO:
JUDGE GEORGE C. HERNANDEZ, JR.
DEPARTMENT 17

**FIRST AMENDED COMPLAINT FOR
INJUNCTIVE RELIEF AND CIVIL
PENALTIES**

Health & Safety Code §25249.5, *et seq.*

25 Plaintiff Environmental Research Center, Inc. ("PLAINTIFF" or "ERC") brings this
26 action in the interests of the general public and, on information and belief, hereby alleges:

INTRODUCTION

1. This action seeks to remedy the continuing failure of Defendants STEMTECH
INTERNATIONAL, INC., STEMTECH HEALTHSCIENCES, INC., and STEMTECH
HEALTHSCIENCES CORP, ("STEMTECH" or "DEFENDANTS") to warn consumers in
California that they are being exposed to lead, a substance known to the State of California to

ENDORSED
FILED
ALAMEDA COUNTY

OCT 14 2016

CLERK OF THE SUPERIOR COURT
By MICHELLE BANKS

Deputy

1 cause cancer, birth defects, and other reproductive harm. DEFENDANTS manufacture,
2 package, distribute, market, and/or sell in California certain products containing lead
3 (collectively, the “PRODUCTS”):

- 4 • **Stemtech HealthSciences Corp. StemFlo.**
- 5 • **Stemtech HealthSciences Inc. Xtra Smooth ST-5 with MigraStem**
6 **Natural Flavors.**
- 7 • **Stemtech HealthSciences Corp. ST-5 with MigraStem Creamy Vanilla.**

8 StemFlo is identified on its label as Item Code 1701. Xtra Smooth ST-5 with MigraStem -
9 Natural Flavors is identified on its label as Item Code 1950. ST-5 with MigraStem - Creamy
10 Vanilla is identified on its label as Item Code 1954.

11 2. Lead (hereinafter, the “LISTED CHEMICAL”) is a substance known to the
12 State¹ of California to cause cancer, birth defects, and other reproductive harm.

13 3. The use and/or handling of the PRODUCTS causes exposures to the LISTED
14 CHEMICAL at levels requiring a “clear and reasonable warning” under California’s Safe
15 Drinking Water and Toxic Enforcement Act of 1986, Health & Safety Code (“H&S Code”)
16 §25249.5, *et seq.* (also known as “Proposition 65”). DEFENDANTS have failed to provide the
17 health hazard warnings required by Proposition 65.

18 4. DEFENDANTS’ past sales and continued manufacturing, packaging,
19 distributing, marketing and/or sales of the PRODUCTS without the required health hazard
20 warnings, cause individuals to be involuntarily and unwittingly exposed to levels of the
21 LISTED CHEMICAL that violate or threaten to violate Proposition 65.

22 5. PLAINTIFF seeks injunctive relief enjoining DEFENDANTS from the
23 continued manufacturing, packaging, distributing, marketing and/or sales of the PRODUCTS
24 in California without provision of clear and reasonable warnings regarding the risks of cancer,
25

26 _____
¹ All statutory and regulatory references herein are to California law, unless otherwise specified.

1 birth defects, and other reproductive harm posed by exposure to the LISTED CHEMICAL
2 through the use and/or handling of the PRODUCTS. PLAINTIFF seeks an injunctive order
3 compelling DEFENDANTS to bring their business practices into compliance with Proposition
4 65 by providing a clear and reasonable warning to each individual who has been and who in
5 the future may be exposed to the LISTED CHEMICAL from the use of the PRODUCTS.
6 PLAINTIFF also seeks an order compelling DEFENDANTS to identify and locate each
7 individual person who in the past has purchased the PRODUCTS, and to provide to each such
8 purchaser a clear and reasonable warning that the use of the PRODUCTS will cause exposures
9 to the LISTED CHEMICAL.

10 6. In addition to injunctive relief, PLAINTIFF seeks an assessment of civil
11 penalties up to the maximum civil penalty of \$2,500 per day per exposure authorized by
12 Proposition 65 to remedy DEFENDANTS' failure to provide clear and reasonable warnings
13 regarding exposures to the LISTED CHEMICAL.

14 **JURISDICTION AND VENUE**

15 7. This Court has jurisdiction over this action pursuant to California Constitution
16 Article VI, Section 10, which grants the Superior Court "original jurisdiction in all causes
17 except those given by statute to other trial courts." The statute under which this action is
18 brought does not specify any other basis for jurisdiction.

19 8. This Court has jurisdiction over DEFENDANTS because, based on information
20 and belief, DEFENDANTS are each a business having sufficient minimum contacts with
21 California, or otherwise intentionally availing themselves of the California market through the
22 distribution and sale of the PRODUCTS in the State of California to render the exercise of
23 jurisdiction over them by the California courts consistent with traditional notions of fair play
24 and substantial justice.

25 9. Venue in this action is proper in the Alameda Superior Court because the
26 DEFENDANTS have violated or threaten to violate California law in the County of Alameda.

1 10. On June 5, 2015, PLAINTIFF sent a 60-Day Notice of Proposition 65 (“Notice”)
2 violations to the requisite public enforcement agencies, and to DEFENDANTS (a true and
3 copy of the 60-Day Notice is attached hereto as **Exhibit A** and incorporated by reference).
4 The Notice was issued pursuant to, and in compliance with, the requirements of H&S Code
5 §25249.7(d) and the statute's implementing regulations regarding the notice of the violations to
6 be given to certain public enforcement agencies and to the violators. The Notice included,
7 *inter alia*, the following information: the name, address, and telephone number of the noticing
8 individuals; the name of the alleged violator; the statute violated; the approximate time period
9 during which violations occurred; and descriptions of the violations, including the chemical
10 involved, the routes of toxic exposure, and the specific product or type of product causing the
11 violations, and was issued as follows:

- 12 a. DEFENDANTS were provided a copy of the Notice by Certified Mail.
- 13 b. DEFENDANTS were provided a copy of a document entitled “The Safe
14 Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A
15 Summary,” which is also known as Appendix A to Title 27 of CCR §25903.
- 16 c. The California Attorney General was provided a copy of the Notice via
17 online submission.
- 18 d. The California Attorney General was provided with a Certificate of Merit by
19 the attorney for the noticing parties, stating that there is a reasonable and
20 meritorious case for this action, and attaching factual information sufficient
21 to establish a basis for the certificate, including the identity of the persons
22 consulted with and relied on by the certifier, and the facts, studies, or other
23 data reviewed by those persons, pursuant to H&S Code §25249.7(h) (2).

24 11. At least 60-days have elapsed since PLAINTIFF sent the Notice to
25 DEFENDANTS. The appropriate public enforcement agencies have failed to commence and
26 diligently prosecute a cause of action under H&S Code §25249.5, *et seq.* against

1 DEFENDANTS based on the allegations herein.

2 12. On June 3, 2016, PLAINTIFF sent a second 60-Day Notice of Proposition 65
3 violations (“Second Notice”) to the requisite public enforcement agencies, and to
4 DEFENDANTS (a true and copy of the Second Notice is attached hereto as **Exhibit B** and
5 incorporated by reference). The Second Notice addressed ST-5 with MigraStem - Creamy
6 Vanilla. The Notice was issued pursuant to, and in compliance with, the requirements of H&S
7 Code §25249.7(d) and the statute’s implementing regulations regarding the notice of the
8 violations to be given to certain public enforcement agencies and to the violators. The Notice
9 included, *inter alia*, the following information: the name, address, and telephone number of the
10 noticing individuals; the name of the alleged violator; the statute violated; the approximate
11 time period during which violations occurred; and descriptions of the violations, including the
12 chemical involved, the routes of toxic exposure, and the specific product or type of product
13 causing the violations, and was issued as follows:

- 14 e. DEFENDANTS were provided a copy of the Notice by Certified Mail.
- 15 f. DEFENDANTS were provided a copy of a document entitled “The Safe
16 Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A
17 Summary,” which is also known as Appendix A to Title 27 of CCR §25903.
- 18 g. The California Attorney General was provided a copy of the Notice via
19 online submission.
- 20 h. The California Attorney General was provided with a Certificate of Merit by
21 the attorney for the noticing parties, stating that there is a reasonable and
22 meritorious case for this action, and attaching factual information sufficient
23 to establish a basis for the certificate, including the identity of the persons
24 consulted with and relied on by the certifier, and the facts, studies, or other
25 data reviewed by those persons, pursuant to H&S Code §25249.7(h) (2).

26 13. At least 60-days have elapsed since PLAINTIFF sent the Second Notice to

1 DEFENDANTS. The appropriate public enforcement agencies have failed to commence and
2 diligently prosecute a cause of action under H&S Code §25249.5, *et seq.* against
3 DEFENDANTS based on the allegations herein.

4 **PARTIES**

5 14. PLAINTIFF is a non-profit corporation organized under California's
6 Corporation Law. ERC is dedicated to, among other causes, reducing the use and misuse of
7 hazardous and toxic substances, consumer protection, worker safety, and corporate
8 responsibility.

9 15. ERC is a person within the meaning of H&S Code §25118 and brings this
10 enforcement action in the public interest pursuant to H&S Code §25249.7(d).

11 16. DEFENDANT STEMTECH INTERNATIONAL, INC. is a corporation
12 organized under the State of Delaware's Corporation Law and is a person doing business
13 within the meaning of H&S Code §25249.11.

14 17. DEFENDANT STEMTECH HEALTHSCIENCES, INC. is a corporation
15 organized under the State of California's Corporation Law and is a person doing business
16 within the meaning of H&S Code §25249.11.

17 18. DEFENDANT STEMTECH HEALTHSCIENCES CORP is a corporation
18 organized under the State of Florida's Corporation Law and is a person doing business within
19 the meaning of H&S Code §25249.11.

20 19. DEFENDANTS have manufactured, packaged, distributed, marketed and /or
21 sold the PRODUCTS for sale or use in California and the County of Alameda. ERC is
22 informed and believes, and thereupon alleges, that DEFENDANTS continue to manufacture,
23 package, distribute, market and/or sell the PRODUCTS for sale or use in California and in
24 Alameda County.

25 **STATUTORY BACKGROUND**

26 20. The People of the State of California have declared in Proposition 65 their right

1 “[t]o be informed about exposures to chemicals that cause cancer, birth defects, or other
2 reproductive harm.” (Section 1(b) of Initiative Measure, Proposition 65).

3 21. To effect this goal, Proposition 65 requires that individuals be provided with a
4 “clear and reasonable warning” before being exposed to substances listed by the State of
5 California as causing cancer or reproductive toxicity. H&S Code §25249.6 states, in pertinent
6 part:

7 No person in the course of doing business shall knowingly and intentionally
8 expose any individual to a chemical known to the state to cause cancer or
9 reproductive toxicity without first giving clear and reasonable warning to such
10 individual....

11 22. “‘Knowingly’ refers only to knowledge of the fact that a discharge of, release of,
12 or exposure to a chemical listed pursuant to Section 25249.8(a) of the Act is occurring. No
13 knowledge that the discharge, release or exposure is unlawful is required.” (27 California Code
14 of Regulations (“CCR”) § 25102(n).)

15 23. Proposition 65 provides that any “person who violates or threatens to violate” the
16 statute may be enjoined in a court of competent jurisdiction. (H&S Code §25249.7). The phrase
17 “threaten to violate” is defined to mean creating “a condition in which there is a substantial
18 probability that a violation will occur” (H&S Code §25249.11(e)). Violators are liable for civil
19 penalties of up to \$2,500 per day for each violation of the Act. (H&S Code §25249.7.)

20 **FACTUAL BACKGROUND**

21 24. On February 27, 1987, the State of California officially listed the chemical lead
22 as a chemical known to cause reproductive toxicity. Lead became subject to the warning
23 requirement one year later and was therefore subject to the “clear and reasonable” warning
24 requirements of Proposition 65 beginning on February 27, 1988. (27 CCR § 25000, *et seq.*;
25 H&S Code §25249.5, *et seq.*). Due to the high toxicity of lead, the maximum allowable dose
26 level for lead is 0.5 µg/day (micrograms a day) for reproductive toxicity. (27 CCR
§ 25805(b).)

25 25. On October 1, 1992, the State of California officially listed the chemicals lead

1 and lead compounds as chemicals known to cause cancer. Lead and lead compounds became
2 subject to the warning requirement one year later and were therefore subject to the “clear and
3 reasonable” warning requirements of Proposition 65 beginning on October 1, 1993 (27 CCR §
4 25000, *et seq.*; H&S Code §25249.6 *et seq.*). Due to the carcinogenicity of lead, the no
5 significant risk level for lead is 15 µg/day (micrograms a day). (27 CCR § 25705(b)(1).)

6 26. To test DEFENDANTS’ PRODUCTS for lead, PLAINTIFF hired a well-
7 respected and accredited testing laboratory. The results of testing undertaken by PLAINTIFF
8 of DEFENDANTS’ PRODUCTS show that the PRODUCTS tested were in violation of the 0.5
9 µg/day “safe harbor” daily dose limit set forth in Proposition 65’s regulations. Very significant
10 is the fact that people are being exposed to lead through ingestion as opposed to other not as
11 harmful methods of exposure such as dermal exposure. Ingestion of lead produces much
12 higher exposure levels and health risks than does dermal exposure to this chemical.

13 27. At all times relevant to this action, DEFENDANTS, therefore, have knowingly
14 and intentionally exposed the users and/or handlers of the PRODUCTS to the LISTED
15 CHEMICAL without first giving a clear and reasonable warning to such individuals.

16 28. ERC is informed and believes, and thereupon alleges that StemFlo and
17 Xtra Smooth ST-5 with MigraStem - Natural Flavors have been sold by DEFENDANTS
18 for use in California since at least June 5, 2012. ERC is informed and believes, and
19 thereupon alleges that ST-5 with MigraStem - Creamy Vanilla has been sold by
20 DEFENDANTS for use in California since about the middle of 2015. StemFlo and ST-5
21 with MigraStem - Creamy Vanilla continue to be distributed and sold in California
22 without the requisite warning information.

23 29. ERC is informed and believes, and thereupon alleges that Defendants issued no
24 warnings pursuant to Proposition 65 for the PRODUCTS prior to May 2016. Defendants
25 never issued any warnings pursuant to Proposition 65 for Xtra Smooth ST-5 with MigraStem -
26 Natural Flavors. ERC is informed and believes, and thereupon alleges that Defendants issued

1 no warnings pursuant to Proposition 65 for StemFlo and ST-5 with MigraStem - Creamy
2 Vanilla prior to May 2016.

3 30. ERC is informed and believes, and thereupon alleges that sometime around May
4 or June of 2016, DEFENDANTS amended text that appears on a web page providing answers
5 to “Frequently Asked Questions” regarding StemFlo and ST-5 with MigraStem - Creamy
6 Vanilla. The amended text included the following in the response to FAQ no. 26 for StemFlo:
7 “As required by California’s Proposition 65, this product may contain a chemical known to the
8 State of California to cause cancer, birth defects, or other reproductive harm.” The same text
9 was added to the response to FAQ no. 28 for ST-5 with MigraStem - Creamy Vanilla.

10 31. ERC is informed and believes, and thereupon alleges that sometime beginning in
11 May or June of 2016, DEFENDANTS began hand-stamping text onto copies of invoices that
12 were included in the boxes in which StemFlo and ST-5 with MigraStem - Creamy Vanilla are
13 shipped to customers in California. The hand-stamped text added to the shipped invoices
14 states, “WARNING. This product may contain a chemical known to the State of California to
15 cause cancer, birth defects, or other reproductive harm.” This language does not appear on all
16 shipping invoices for StemFlo and ST-5 with MigraStem - Creamy Vanilla sent since May
17 2016.

18 32. As a proximate result of acts by DEFENDANTS, as persons in the course of
19 doing business within the meaning of Health & Safety Code §25249.11, individuals throughout
20 the State of California, including in the County of Alameda, have been exposed to the LISTED
21 CHEMICAL without a clear and reasonable warning. The individuals subject to the illegal
22 exposures include normal and foreseeable users of the PRODUCTS, as well as all other
23 persons exposed to the PRODUCTS.

24 **FIRST CAUSE OF ACTION**
25 **(Injunctive Relief for Violations of Health and Safety Code § 25249.5, et seq. concerning**
26 **the PRODUCTS described in the Notices)**
Against DEFENDANTS

1 33. PLAINTIFF re-alleges and incorporates by reference Paragraphs 1 through 32,
2 inclusive, as if specifically set forth herein.

3 34. By committing the acts alleged in this Complaint, DEFENDANTS, at all times
4 relevant to this action, and continuing through the present, have violated or threaten to violate
5 H&S Code §25249.6 by, in the course of doing business, knowingly and intentionally exposing
6 individuals who use or handle the PRODUCTS set forth in the Notices to the LISTED
7 CHEMICAL, without first providing a clear and reasonable warning to such individuals
8 pursuant to H&S Code §§ 25249.6 and 25249.11(f).

9 35. Prior to May or June of 2016, ERC is informed and believes, and thereupon
10 alleges, that no Proposition 65 warnings of any kind were provided by Defendants for the
11 Products. The language referencing Proposition 65 and the possible presence of a chemical
12 known to the State of California to cause cancer, birth defects, or other reproductive harm
13 included in responses to FAQs and stamped on shipping invoices are not clear as required by
14 proposition 65. Nor are methods of distributing those statements reasonable.

15 36. By the above-described acts, DEFENDANTS have violated or threaten to
16 violate H&S Code § 25249.6 and are therefore subject to an injunction ordering
17 DEFENDANTS to stop violating Proposition 65, to provide clear warnings in a reasonable
18 manner to all present and future customers, and to provide clear and reasonable warnings to
19 DEFENDANTS' past customers who purchased or used the PRODUCTS without receiving a
20 warning.

21 37. An action for injunctive relief under Proposition 65 is specifically authorized by
22 Health & Safety Code §25249.7(a).

23 38. Continuing commission by DEFENDANTS of the acts alleged above will
24 irreparably harm the citizens of the State of California, for which harm they have no plain,
25 speedy, or adequate remedy at law.

26 Wherefore, PLAINTIFF prays for judgment against DEFENDANTS, as set forth

1 hereafter.

2 **SECOND CAUSE OF ACTION**
3 **(Civil Penalties for Violations of Health and Safety Code § 25249.5, *et seq.* concerning the**
4 **PRODUCTS described in PLAINTIFF's Notices)**
5 **Against DEFENDANTS**

6 39. PLAINTIFF re-alleges and incorporates by reference Paragraphs 1 through 38,
7 inclusive, as if specifically set forth herein.

8 40. By committing the acts alleged in this Complaint, DEFENDANTS at all times
9 relevant to this action, and continuing through the present, have violated or threaten to violate
10 H&S Code §25249.6 by, in the course of doing business, knowingly and intentionally exposing
11 individuals who use or handle the PRODUCTS set forth in the Notices to the LISTED
12 CHEMICAL, without first providing a clear and reasonable warning to such individuals
13 pursuant to H&S Code §§ 25249.6 and 25249.11(f).

14 41. By the above-described acts, DEFENDANTS are liable, pursuant to H&S Code
15 §25249.7(b), for a civil penalty of \$2,500 per day per violation for each unlawful exposure to
16 the LISTED CHEMICAL from the PRODUCTS.

17 Wherefore, PLAINTIFF prays for judgment against DEFENDANTS, as set forth
18 hereafter.

19 **THE NEED FOR INJUNCTIVE RELIEF**

20 42. PLAINTIFF re-alleges and incorporates by this reference Paragraphs 1 through
21 41, as if set forth below.

22 43. By committing the acts alleged in this Complaint, DEFENDANTS have caused
23 irreparable harm for which there is no plain, speedy or adequate remedy at law. In the absence
24 of equitable relief, DEFENDANTS will continue to create a substantial risk of irreparable
25 injury by continuing to cause consumers to be involuntarily and unwittingly exposed to the
26 LISTED CHEMICAL through the use and/or handling of the PRODUCTS.

PRAYER FOR RELIEF

Wherefore, PLAINTIFF accordingly prays for the following relief:

1 A. a preliminary and permanent injunction, pursuant to H&S Code §25249.7(b),
2 enjoining DEFENDANTS, their agents, employees, assigns and all persons acting in concert or
3 participating with DEFENDANTS, from distributing or selling the PRODUCTS in California
4 without first providing a clear and reasonable warning, within the meaning of Proposition 65,
5 that the users and/or handlers of the PRODUCTS are exposed to the LISTED CHEMICAL;

6 B. an injunctive order, pursuant to H&S Code §25249.7(b), compelling
7 DEFENDANTS to identify and locate each individual who has purchased the PRODUCTS
8 since June 5, 2012, and to provide a warning to such person that the use of the PRODUCTS
9 will expose the user to chemicals known to birth defects and other reproductive harm;

10 C. an assessment of civil penalties pursuant to Health & Safety Code §25249.7(b),
11 against DEFENDANTS in the amount of \$2,500 per day for each violation of Proposition 65;

12 D. an award to PLAINTIFF of its reasonable attorney's fees and costs of suit
13 pursuant to California Code of Civil Procedure §1021.5, as PLAINTIFF shall specify in further
14 application to the Court; and,

15 E. such other and further relief as may be just and proper.

Re: Notice of Violations of California Health & Safety Code Section 25249.5 *et seq.*

Dear Addressees:

I represent Environmental Research Center, Inc. (“ERC”) in connection with this Notice of Violations of California’s Safe Drinking Water and Toxic Enforcement Act of 1986, which is codified at California Health & Safety Code Section 25249.5 *et seq.* and also referred to as Proposition 65.

ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

The names of the Companies covered by this notice that violated Proposition 65 (hereinafter the “Violators”) are:

Stemtech HealthSciences, Inc.
Stemtech International, Inc.
Stemtech HealthSciences Corp

The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

Stemtech HealthSciences Corp. StemFlo - Lead
Stemtech HealthSciences Inc. Xtra Smooth ST-5 with MigraStem Natural Flavors – Lead

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

This letter is a notice to each of the Violators and the appropriate governmental authorities of the Proposition 65 violations concerning the listed products. This notice covers all violations of Proposition 65 involving the Violators currently known to ERC from the information now available. ERC may continue to investigate other products that may reveal further violations. A summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is enclosed with the copy of this letter to each of the Violators.

Each of the Violators has manufactured, marketed, distributed, and/or sold the listed products, which have exposed and continue to expose numerous individuals within California to the identified chemical, lead. The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and/or recommended use of these products by consumers. The primary route of exposure to lead has been through ingestion, but may have also

June 5, 2015

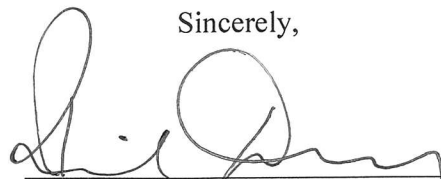

Page 3

occurred through inhalation and/or dermal contact. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to lead. The method of warning should be a warning that appears on the product's label. Each of the Violators violated Proposition 65 because they failed to provide an appropriate warning to persons using and/or handling these products that they are being exposed to lead. Each of these ongoing violations has occurred on every day since June 5, 2012, as well as every day since the products were introduced in the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users.

Pursuant to Section 25249.7(d) of the statute, ERC intends to file a citizen enforcement action sixty days after effective service of this notice unless each of the Violators agrees in an enforceable written instrument to: (1) reformulate the listed products so as to eliminate further exposures to the identified chemical; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above products in the last three years. Consistent with the public interest goals of Proposition 65 and my client's objectives in pursuing this notice, ERC is interested in seeking a constructive resolution to this matter. Such resolution will avoid both further unwarned consumer exposures to the identified chemical and expensive and time consuming litigation.

ERC's Executive Director is Chris Heptinstall, and is located at 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. 619-500-3090. ERC has retained me in connection with this matter. We suggest that communications regarding this Notice of Violations should be directed to my attention at the above listed law office address and telephone number.

Sincerely,

Richard Drury

Certificate of Merit

Certificate of Service

OEHHA Summary (to Stemtech HealthSciences, Inc., Stemtech International, Inc., Stemtech HealthSciences Corp, and their Registered Agents for Service of Process only)

Additional Supporting Information for Certificate of Merit (to AG only)

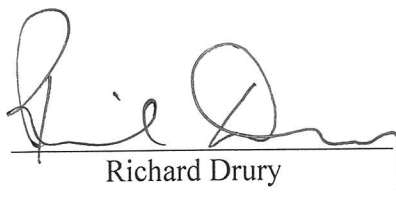

CERTIFICATE OF MERIT

**Re: Environmental Research Center, Inc.'s Notice of Proposition 65 Violations
by Stemtech HealthSciences, Inc.; Stemtech International, Inc.; and
Stemtech HealthSciences Corp**

I, Richard Drury, declare:

1. This Certificate of Merit accompanies the attached sixty-day notice in which it is alleged the parties identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.
2. I am an attorney for the noticing party.
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of the notice.
4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violators will be able to establish any of the affirmative defenses set forth in the statute.
5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: June 5, 2015

Richard Drury

CERTIFICATE OF SERVICE

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States, over the age of 18 years of age, and am not a party to the within entitled action. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On June 5, 2015, I served the following documents: **NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; “THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY”** on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to the party listed below and depositing it in a U.S. Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

Current CEO or President
Stemtech International, Inc.
2010 NW 150th Avenue

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. The statute is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Governor's List." Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. This means that chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at:

http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before “knowingly and intentionally” exposing that person to a listed chemical unless an exemption applies; for example, when exposures are sufficiently low (see below). The warning given must be “clear and reasonable.” This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed as known to the State to cause cancer (“carcinogens”), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses “no significant risk.” This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific “No Significant Risk Levels” (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA’s website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the “no observable effect level” divided by a 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA’s website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in a Food. Certain exposures to chemicals that occur in foods naturally (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a “significant amount” of the listed chemical entering into any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a “significant amount” of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A “significant amount” means any detectable amount, except an amount that would meet the “no significant risk” level for chemicals that cause cancer or that is 1,000 times below the “no observable effect” level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

² See Section 25501(a)(4)

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of the regulations and in Title 11, sections 3100-3103. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

FOR FURTHER INFORMATION ABOUT THE LAW OR REGULATIONS...

Contact the Office of Environmental Health Hazard Assessment's Proposition 65 Implementation Office at (916) 445-6900 or via e-mail at P65Public.Comments@oehha.ca.gov.

Re: Notice of Violations of California Health & Safety Code Section 25249.5 *et seq.*

Dear Addressees:

I represent Environmental Research Center, Inc. (“ERC”) in connection with this Notice of Violations of California’s Safe Drinking Water and Toxic Enforcement Act of 1986, which is codified at California Health & Safety Code Section 25249.5 *et seq.* and also referred to as Proposition 65.

ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

The names of the Companies covered by this notice that violated Proposition 65 (hereinafter the “Violators”) are:

Stemtech HealthSciences, Inc.
Stemtech International, Inc.
Stemtech HealthSciences Corp

The product that is the subject of this notice and the chemical in that product identified as exceeding allowable levels are:

Stemtech HealthSciences Corp. St-5 with Migrastem Creamy Vanilla- Lead

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

This letter is a notice to the Violators and the appropriate governmental authorities of the Proposition 65 violations concerning the listed product. This notice covers all violations of Proposition 65 involving the Violators currently known to ERC from the information now available. ERC may continue to investigate other products that may reveal further violations. A summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is enclosed with the copy of this letter to the Violators.

The Violators have manufactured, marketed, distributed, and/or sold the listed product, which has exposed and continues to expose numerous individuals within California to the identified chemical, lead. The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and/or recommended use of this product by consumers. The primary route of exposure to lead has been through ingestion, but may have also occurred through inhalation and/or dermal contact. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to lead. The method of warning should be a warning that appears on the product’s label. The Violators violated Proposition 65 because they failed to provide an appropriate warning to persons using and/or handling this product that they are being exposed to lead. Each of these ongoing violations has occurred on every day since June 3, 2013, as well as every day since the product was

June 3, 2016

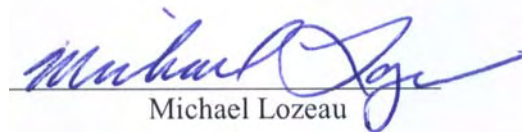

Page 4

introduced in the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users.

Pursuant to Section 25249.7(d) of the statute, ERC intends to file a citizen enforcement action sixty days after effective service of this notice unless the Violators agree in an enforceable written instrument to: (1) reformulate the listed product so as to eliminate further exposures to the identified chemical; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above product in the last three years. Consistent with the public interest goals of Proposition 65 and my client's objectives in pursuing this notice, ERC is interested in seeking a constructive resolution to this matter. Such resolution will avoid both further unwarned consumer exposures to the identified chemical and expensive and time consuming litigation.

ERC's Executive Director is Chris Heptinstall, and is located at 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. 619-500-3090. ERC has retained me in connection with this matter. We suggest that communications regarding this Notice of Violations should be directed to my attention at the above listed law office address and telephone number.

Sincerely,

Michael Lozeau

Additional Supporting Information for Certificate of Merit (to AG only)

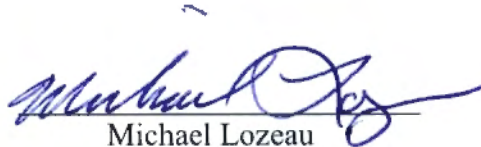

CERTIFICATE OF MERIT

**Re: Environmental Research Center, Inc.'s Notice of Proposition 65 Violations
by Stemtech HealthSciences, Inc., Stemtech International, Inc., and Stemtech
HealthSciences Corp**

I, Michael Lozeau, declare:

1. This Certificate of Merit accompanies the attached sixty-day notice in which it is alleged the parties identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.
2. I am an attorney for the noticing party.
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of the notice.
4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violators will be able to establish any of the affirmative defenses set forth in the statute.
5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: June 3, 2016

Michael Lozeau

CERTIFICATE OF SERVICE

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States, over the age of 18 years of age, and am not a party to the within entitled action. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On June 3, 2016, I served the following documents: **NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; “THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY”** on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to the party listed below and depositing it in a U.S. Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

Current CEO or President

Appendix A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986
(PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as “Proposition 65”). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. Please refer to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The “Proposition 65 List.” Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before “knowingly and intentionally” exposing that person to a listed chemical unless an exemption applies. The warning given must be “clear and

reasonable.” This means that the warning must: (1) clearly say that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Periods. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses “no significant risk.” This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific “No Significant Risk Levels” (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at:

<http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the “no observable effect level” divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at:

<http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a “significant amount” of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a “significant amount” of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A “significant amount” means any detectable amount, except an amount that would meet the “no significant risk” level for chemicals that cause cancer or that is 1,000 times below the “no observable effect” level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off- premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;

- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A private party may not file an action against the alleged violator for these exposures, or recover in a settlement any payment in lieu of penalties any reimbursement for costs and attorney's fees, if the notice was served on or after October 5, 2013, and the alleged violator has done *all* of the following within 14 days of being served notice:

- Corrected the alleged violation;
 - Agreed to pay a civil penalty of \$5B500 (subject to change as noted below) to the private party within 30 days;
- and
- Notified the private party serving the notice in writing that the violation has been corrected.

The written notification to the private-party must include a notice of special compliance procedure and proof of compliance form completed by the alleged violator as directed in the notice. On April 1, 2019, and every five years thereafter, the dollar amount of the civil penalty will be adjusted by the Judicial Council based on the change in the annual California Consumer Price Index. The Judicial Council will publish the dollar amount of the adjusted civil penalty at each five-year interval, together with the date of the next scheduled adjustment.

An alleged violator may satisfy these conditions only one time for a violation arising from the same exposure in the same facility or on the same premises. The satisfaction of these conditions does not prevent the Attorney General, a district attorney, a city attorney of a city of greater than 750,000 population, or any full-time city prosecutor with the consent of the district attorney, from filing an enforcement action against an alleged violator. The amount of any civil penalty for a violation shall be reduced to reflect any payment made by the alleged violator for the same alleged violation to a private-party.

A copy of the notice of special compliance procedure and proof of compliance form is included with this notice and can be downloaded from OEHHA's website at: <http://oehha.ca.gov/prop65/law/p65law72003.html>.

The notice is reproduced here:

Date: June 3, 2016

Name of Noticing Party or attorney for Noticing Party: Environmental Research Center, Inc.

Address: 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108

Phone number: 619-500-3090

SPECIAL COMPLIANCE PROCEDURE

PROOF OF COMPLIANCE

You are receiving this form because the Noticing Party listed above has alleged that you are violating California Health and Safety Code §25249.6 (Prop. 65).

The Noticing Party may not bring any legal proceedings against you for the alleged violation checked below if:

- 1. You have actually taken the corrective steps that you have certified in this form**
- 2. The Noticing Party has received this form at the address shown above, accurately completed by you, postmarked within 14 days of your receiving this notice**
- 3. The Noticing Party receives the required \$500 penalty payment from you at the address shown above postmarked within 30 days of your receiving this notice.**
- 4. This is the first time you have submitted a Proof of Compliance for a violation arising from the same exposure in the same facility on the same premises.**

PART 1: TO BE COMPLETED BY THE NOTICING PARTY OR ATTORNEY FOR THE NOTICING PARTY

The alleged violation is for an exposure to: (check one)

Alcoholic beverages that are consumed on the alleged violator's premises to the extent on-site consumption is permitted by law.

A chemical known to the state to cause cancer or reproductive toxicity in a food or beverage prepared and sold on the alleged violator's premises for immediate consumption on or off premises to the extent: (1) the chemical was not intentionally added; and (2) the chemical was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination.

Environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises.

Chemicals known to the State to cause cancer or reproductive toxicity in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking noncommercial vehicles.

IMPORTANT NOTES:

- 1. You have no potential liability under California Health and Safety Code §25249.6 if your business has nine (9) or fewer employees.**
- 2. Using this form will NOT prevent the Attorney General, a district attorney, a city attorney, or a prosecutor in whose jurisdiction the violation is alleged to have occurred from filing an action over the same alleged violations, and that in any such action, the amount of civil penalty shall be reduced to reflect any payment made at this time.**

Date: June 3, 2016

Name of Noticing Party or attorney for Noticing Party: Environmental Research Center, Inc.

Address: 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108

Phone number: 619-500-3090

PART 2: TO BE COMPLETED BY THE ALLEGED VIOLATOR OR AUTHORIZED REPRESENTATIVE

Certification of Compliance

Accurate completion of this form will demonstrate that you are now in compliance with California Health and Safety Code §25249.6 for the alleged violation listed above. You must complete and submit the form below to the Noticing Party at the address shown above, postmarked within 14 days of you receiving this notice.

I hereby agree to pay, within 30 days of completion of this notice, a civil penalty of \$500 to the Noticing Party only and certify that I have complied with Health and Safety Code §25249.6 by (check only one of the following):

- Posting a warning or warnings about the alleged exposure that complies with the law, and attaching a copy of that warning and a photograph accurately showing its placement on my premises;
- Posting the warning or warnings demanded in writing by the Noticing Party, and attaching a copy of that warning and a photograph accurately its placement on my premises; OR
- Eliminating the alleged exposure, and attaching a statement accurately describing how the alleged exposure has been eliminated.

Certification

My statements on this form, and on any attachments to it, are true, complete, and correct to the best of my knowledge and belief and are made in good faith. I have carefully read the instructions to complete this form. I understand that if I make a false statement on this form, I may be subject to additional penalties under the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).

Signature of alleged violator or authorized representative Date

Name and title of signatory
