CASE NO. **RG 16798895**

**COMPLAINT FOR INJUNCTIVE
AND DECLARATORY RELIEF AND
CIVIL PENALTIES**

[Miscellaneous Civil Complaint (42)]
Proposition 65, Health & Safety Code
Section 25249.5 et seq.

19 Plaintiff Environmental Research Center, Inc. hereby alleges:

20 **I**

21 **INTRODUCTION**

22 1. Plaintiff Environmental Research Center, Inc. (hereinafter "Plaintiff" or "ERC") brings
23 this action as a private attorney general enforcer and in the public interest pursuant to Health &
24 Safety Code section 25249.7, subdivision (d). The Safe Drinking Water and Toxic Enforcement
25 Act of 1986 (Health & Safety Code section 25249.5 *et seq.*) also known as "Proposition 65,"
26 mandates that businesses with ten or more employees must provide a "clear and reasonable
27 warning" prior to exposing any individual to a chemical known to the state to cause cancer or
28 reproductive toxicity. Lead is a chemical known to the State of California to cause cancer, birth

1 defects and other reproductive harm. This complaint seeks injunctive and declaratory relief and
2 civil penalties to remedy the ongoing failure of Defendants Chosen Foods, Inc. and Chosen Foods,
3 LLC (hereinafter individually referred to as “Defendant” or collectively as “Defendants”) and
4 Does 1-100 to warn consumers that they have been exposed to lead from one of Defendants’
5 nutritional health products at levels requiring a warning pursuant to Health & Safety Code section
6 25249.6.

7 **II**

8 **PARTIES**

9 2. Plaintiff ERC is a California non-profit corporation dedicated to, among other causes,
10 helping safeguard the public from health hazards by reducing the use and misuse of hazardous and
11 toxic chemicals, facilitating a safe environment for consumers and employees and encouraging
12 corporate responsibility.

13 3. Defendants are businesses that develop, manufacture, distribute and/or sell a nutritional
14 health product that has exposed users to lead in the State of California within the relevant statute of
15 limitations period. This “Covered Product” is “Chosen Foods Inc. Meta Powder.” Defendants are
16 companies subject to Proposition 65 as they each employ ten or more persons, and have each
17 employed ten or more persons at all times relevant to this action.

18 4. Does 1-100, are named herein under fictitious names, as their true names and capacities
19 are unknown to ERC. ERC is informed and believes, and thereon alleges, that each of said Does
20 is responsible, in some actionable manner, for the events and happenings hereinafter referred to,
21 either through said Does’ conduct, or through the conduct of its agents, servants or employees, or
22 in some other manner, causing the harms alleged by ERC in this complaint. When said true names
23 and capacities of Does are ascertained, ERC will seek leave to amend this complaint to set forth
24 the same.

25 **III**

26 **JURISDICTION AND VENUE**

27 5. This Court has jurisdiction pursuant to California Constitution Article VI, Section 10
28 which grants the Superior Court original jurisdiction in all causes except those given by statute to

1 other trial courts. The statute under which this action is brought does not specify any other basis
2 for jurisdiction.

3 6. This Court has jurisdiction over Defendants because Defendants are businesses having
4 sufficient minimum contacts with California, or otherwise intentionally availing themselves of the
5 California market through the distribution and/or sale of the Covered Product in the State of
6 California to render the exercise of jurisdiction over it by the California courts consistent with
7 traditional notions of fair play and substantial justice.

8 7. The Complaint is based on allegations contained in a Notice of Violation dated June
9 15, 2015, served on the California Attorney General, other public enforcers and Defendants.
10 The Notice of Violation constitutes adequate notice to Defendants because it provided adequate
11 information to allow Defendants to assess the nature of the alleged violation, consistent with
12 Proposition 65 and its implementing regulations. Each copy of the Notice of Violation was
13 accompanied by a certificate of merit and a certificate of service, both of which comply with
14 Proposition 65 and its implementing regulations. The Notice of Violation served on
15 Defendants also included a copy of "The Safe Drinking Water and Toxic Enforcement Act of
16 1986 (Proposition 65): A Summary." Service of the Notice of Violation and accompanying
17 documents complied with Proposition 65 and its implementing regulations. A true and correct
18 copy of this Notice of Violation and associated documents is attached hereto as Exhibit A.
19 More than 60 days have passed since the Notice of Violation was mailed and no public
20 enforcement entity has filed a complaint in this case.

21 8. This Court is the proper venue for the action because the causes of action have arisen in
22 the County of Alameda where some of the violations of law have occurred. Furthermore, this
23 Court is the proper venue under Code of Civil Procedure section 395.5 and Health & Safety Code
24 section 25249.7.

25 IV

26 **STATUTORY BACKGROUND**

27 9. The Safe Drinking Water and Toxic Enforcement Act of 1986 is an initiative statute
28 passed as "Proposition 65" by an overwhelming majority vote of the people in November of 1986.

1 10. The warning requirement of Proposition 65 is contained in Health & Safety Code
2 section 25249.6, which provides:

3 No person in the course of doing business shall knowingly and intentionally expose any
4 individual to a chemical known to the state to cause cancer or reproductive toxicity without
5 first giving clear and reasonable warning to such individual, except as provided in Section
6 25249.10.

7 11. Implementing regulations for Proposition 65 define expose as “to cause to ingest,
8 inhale, contact via body surfaces or otherwise come into contact with a listed chemical.” An
9 individual may come into contact with a listed chemical through water, air, food, consumer
10 products and any other environmental exposure as well as occupational exposures.” (Cal. Code
11 Regs., tit. 27, § 25102, subd. (i).)

12 12. In this case, the exposures at issue are caused by consumer products. Implementing
13 regulations for Proposition 65 define a consumer product exposure as “an exposure which results
14 from a person’s acquisition, purchase, storage, consumption, or other reasonably foreseeable use
15 of a consumer good, or any exposure that results from receiving a consumer service.” (Cal. Code
16 Regs., tit. 27, § 25602, subd. (b).)

17 13. Whenever a clear and reasonable warning is required under Health & Safety Code
18 section 25249.6, the “method employed to transmit the warning must be reasonably calculated
19 considering the alternative methods available under the circumstances, to make the warning
20 message available prior to exposure.” (Cal. Code Regs., tit. 27, § 25601.) The warning
21 requirement may be satisfied by a warning that appears on a product’s label or other labeling, shelf
22 labeling, signs, a system of signs, public advertising identifying the system and toll-free
23 information services, or any other system, that provides clear and reasonable warnings. (Cal.
24 Code Regs., tit. 27, § 25603.1, subd. (a)-(d).)

25 14. Proposition 65 establishes a procedure by which the State is to develop a list of
26 chemicals “known to the State to cause cancer or reproductive toxicity.” (Health & Safety
27 Code, § 25249.8.) There is no duty to provide a clear and reasonable warning until 12-months
28 after the chemical was published on the State list. (Health & Safety Code, § 25249.10, subd. (b).)
Lead was listed as a chemical known to the State of California to cause developmental toxicity in

1 the fetus and male and female reproductive toxicity on February 27, 1987. Lead was listed as a
2 chemical known to the State of California to cause cancer on October 1, 1992. (Cal. Code Regs.,
3 tit. 27, § 27001.)

4 15. The Maximum Allowable Dose Level for lead as a chemical known to cause
5 reproductive toxicity is 0.5 micrograms per day. (Cal. Code Regs., tit. 27, § 25805.) The No
6 Significant Risk Level for lead as a carcinogen is 15 micrograms per day. (Cal. Code Regs., tit.
7 27, § 25705.)

8 16. Proposition 65 may be enforced by any person in the public interest who provides
9 notice sixty days before filing suit to both the violator and designated law enforcement officials.
10 The failure of law enforcement officials to file a timely complaint enables a citizen suit to be filed
11 pursuant to Health & Safety Code section 25249.7, subdivisions (c) and (d).

12 17. Proposition 65 provides that any “person who violates or threatens to violate” the
13 statute may be enjoined in a court of competent jurisdiction. (H&S Code §25249.7). The
14 phrase “threaten to violate” is defined to mean creating “a condition in which there is a
15 substantial probability that a violation will occur” (H&S Code §25249.11(e)). Violators are
16 liable for civil penalties of up to \$2,500 per day for each violation of the Act. (H&S Code
17 §25249.7.)

18 V

19 **STATEMENT OF FACTS**

20 18. Defendants have developed, manufactured, distributed and/or sold the Covered
21 Product containing lead into the State of California. Consumption of the Covered Product
22 according to the directions and/or recommendations provided for said product causes
23 consumers to be exposed to lead at levels requiring a warning. Consumers have been ingesting
24 this product for many years, without any knowledge of their exposure to lead, a very dangerous
25 chemical.

26 19. For many years, Defendants have knowingly and intentionally exposed numerous
27 persons to lead, without providing a Proposition 65 warning. Prior to ERC’s Notice of Violation,
28 Defendants failed to provide a warning on the label of the Covered Product. Defendants have at

1 all times relevant hereto been aware that the Covered Product contained lead and that persons
2 using this product have been exposed to the chemical. Defendants have been aware of the lead in
3 the Covered Product and have failed to disclose the presence of this chemical to the public, who
4 undoubtedly believe they have been ingesting a totally healthy and pure product.

5 20. Both prior and subsequent to ERC's Notice of Violation, Defendants failed to provide
6 consumers of the Covered Product with a clear and reasonable warning that they have been
7 exposed to a chemical known to the State of California to cause cancer, birth defects and other
8 reproductive harm. This failure to warn is ongoing.

9 **FIRST CAUSE OF ACTION**

10 **(Violation of Section 25249.6 of the Health and Safety Code, Failure to Provide Clear** 11 **and Reasonable Warning under Proposition 65)**

12 21. ERC refers to paragraphs 1-20, inclusive, and incorporates them herein by this
13 reference.

14 22. By committing the acts alleged above, Defendants have, in the course of doing
15 business, knowingly and intentionally exposed users of the Covered Product to lead, a chemical
16 known to the State of California to cause cancer, birth defects and other reproductive harm without
17 first giving clear and reasonable warning to such individuals, within the meaning of Health &
18 Safety Code section 25249.6.

19 23. Said violations render Defendants liable for civil penalties up to \$2,500 per day, for
20 each violation.

21 **SECOND CAUSE OF ACTION**

22 **(Declaratory Relief)**

23 24. ERC refers to paragraphs 1-23, inclusive, and incorporates them herein by this
24 reference.

25 25. There exists an actual controversy relating to the legal rights and duties of the parties,
26 within the meaning of Code of Civil Procedure section 1060, between ERC and Defendants
27 concerning whether Defendants have exposed individuals to a chemical known to the State of
28 California to cause cancer, birth defects and other reproductive harm without providing clear and

1 reasonable warning.

2 VI

3 PRAYER

4 WHEREFORE ERC prays for relief as follows:

5 1. On the First Cause of Action, for civil penalties for each and every violation according
6 to proof;

7 2. On the First Cause of Action, and pursuant to Health & Safety Code section 25249.7,
8 subdivision (a), for such temporary restraining orders, preliminary and permanent injunctive
9 orders, or other orders as are necessary to prevent Defendants from exposing persons to lead
10 without providing clear and reasonable warning;

11 3. On the Second Cause of Action, for a declaratory judgment pursuant to Code of Civil
12 Procedure section 1060 declaring that Defendants have exposed individuals to a chemical known
13 to the State of California to cause birth defects and other reproductive harm without providing
14 clear and reasonable warning; and

15 4. On all Causes of Action, for reasonable attorneys' fees pursuant to Code of Civil
16 Procedure section 1021.5 or the substantial benefit theory;

17 5. For costs of suit herein; and

18 6. For such other relief as the Court may deem just and proper.

June 15, 2015

**NOTICE OF VIOLATION OF
CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 ET SEQ.
(PROPOSITION 65)**

Dear Alleged Violators and the Appropriate Public Enforcement Agencies:

I represent Environmental Research Center, Inc. ("ERC"), 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. (619) 500-3090. ERC's Executive Director is Chris Heptinstall. ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the product identified below. These violations have occurred and continue to occur because the alleged Violators identified below failed to provide required clear and reasonable warnings with this product. This letter serves as a notice of these violations to the alleged Violators and the appropriate public enforcement agencies. Pursuant to Health and Safety Code Section 25249.7(d), ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

General Information about Proposition 65. A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is enclosed with this letter served to the alleged Violators identified below.

Alleged Violators. The names of the companies covered by this notice that violated Proposition 65 (hereinafter the "Violators") are:

Chosen Foods, Inc.
Chosen Foods, LLC

Consumer Product and Listed Chemical. The product that is the subject of this notice and the chemical in that product identified as exceeding allowable levels are:

Chosen Foods Inc. Meta Powder – Lead

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

Route of Exposure. The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and recommended use of this product. Consequently, the primary route of exposure to this

Exhibit A

June 15, 2015

Page 2

chemical has been and continues to be through ingestion, but may have also occurred and may continue to occur through inhalation and/or dermal contact.

Approximate Time Period of Violations. Ongoing violations have occurred every day since at least June 15, 2012, as well as every day since the product was introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until this known toxic chemical is either removed from or reduced to allowable levels in the product. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemical. The method of warning should be a warning that appears on the product label. The Violators violated Proposition 65 because they failed to provide persons handling and/or using this product with appropriate warnings that they are being exposed to this chemical.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violators to: (1) reformulate the identified product so as to eliminate further exposures to the identified chemical, or provide appropriate warnings on the labels of this product; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above product in the last three years. Such a resolution will prevent further unwarned consumer exposures to the identified chemical, as well as an expensive and time consuming litigation.

ERC has retained me as legal counsel in connection with this matter. **Please direct all communications regarding this Notice of Violation to my attention at the law office address and telephone number indicated on the letterhead or at rrhoffma@gmail.com.**

Sincerely,

Ryan Hoffman

Certificate of Merit

Certificate of Service

OEHHA Summary (to Chosen Foods, Inc., Chosen Foods, LLC and their Registered Agents for Service of Process only)

Additional Supporting Information for Certificate of Merit (to AG only)

CERTIFICATE OF MERIT

Re: Environmental Research Center, Inc.'s Notice of Proposition 65 Violations by Chosen Foods, Inc. and Chosen Foods, LLC

I, Ryan Hoffman, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged that the parties identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am an attorney for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violators will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: June 15, 2015

Ryan Hoffman

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. The statute is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Governor's List." Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. This means that chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at:

http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before “knowingly and intentionally” exposing that person to a listed chemical unless an exemption applies; for example, when exposures are sufficiently low (see below). The warning given must be “clear and reasonable.” This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed as known to the State to cause cancer (“carcinogens”), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses “no significant risk.” This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific “No Significant Risk Levels” (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA’s website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the “no observable effect level” divided by a 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA’s website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in a Food. Certain exposures to chemicals that occur in foods naturally (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a “significant amount” of the listed chemical entering into any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a “significant amount” of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A “significant amount” means any detectable amount, except an amount that would meet the “no significant risk” level for chemicals that cause cancer or that is 1,000 times below the “no observable effect” level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

² See Section 25501(a)(4)

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of the regulations and in Title 11, sections 3100-3103. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.
