23	3. Lead and lead compounds and/or cadmium (hereinafter, the "LISTED
24	CHEMICALS") are substances known to the State <sup>1</sup> of California to cause cancer, birth defects,
25	and other reproductive harm. Proposition 65 requires that consumers must be warned before
26	they are exposed to LISTED CHEMICALS.
27	4. The use and/or handling of the PRODUCTS causes exposures to the LISTED
28	
	<sup>1</sup> All statutory and regulatory references herein are to California law, unless otherwise specified.

CHEMICALS at levels requiring a "clear and reasonable warning" under California's Safe Drinking Water and Toxic Enforcement Act of 1986, Health & Safety Code ("H&S Code") Section 25249.5, *et seq.* (also known and referred to herein as "Proposition 65").

5. Defendant has failed to provide the health hazard warnings required by Proposition65.

6. Defendant's past and continuing manufacturing, packaging, distributing, marketing, and/or sales of the PRODUCTS, without the required health hazard warnings, causes individuals to be involuntarily and unwittingly exposed to levels of the LISTED CHEMICALS that violate Proposition 65. As a proximate result of these actions, Defendant has violated, and will continue to violate, Proposition 65.

7. Plaintiff seeks injunctive relief enjoining Defendant from the continued manufacturing, packaging, distributing, marketing, and/or sales of the PRODUCTS in California without provision of clear and reasonable warnings regarding the risks of cancer, birth defects, and other reproductive harm posed by exposure to the LISTED CHEMICALS through the use and/or handling of the PRODUCTS. Plaintiff seeks an injunctive order compelling Defendant to bring its business practices into compliance with Proposition 65 by providing a clear and reasonable warning to each individual who has been, and who in the future may be, exposed to the LISTED CHEMICALS from the use of the PRODUCTS. Plaintiff also seeks an order compelling Defendant to identify and locate each individual person who has purchased the PRODUCTS in the past, and to provide to each such purchaser a clear and reasonable warning that the use of the PRODUCTS will cause exposures to the LISTED CHEMICALS.

8. In addition to injunctive relief, Plaintiff seeks an assessment of civil penalties in excess of \$11 billion to remedy Defendant's failure to provide clear and reasonable warnings regarding exposures to the LISTED CHEMICALS.

## JURISDICTION AND VENUE

9. This Court has jurisdiction over this action pursuant to California Constitution Article VI, Section 10, which grants the Superior Court "original jurisdiction in all causes

Page 3 of 15

FIRST AMENDED COMPLAINT FOR INJUNCTIVE RELIEF AND CIVIL PENALTIES

except those given by statute to other trial courts." The statute under which this action is brought does not specify any other basis for jurisdiction.

10. This Court has jurisdiction over Defendant because, based on information and belief,
Defendant is a business having sufficient minimum contacts with California, or otherwise
intentionally availing itselfof the California market through the distribution and sale of the
PRODUCTS in the State of California, to render the exercise of jurisdiction over Defendant by
the California courts permissible under traditional notions of fair play and substantial justice.

11. Venue in this action is proper in this Court because the Defendant has violated California law in the County of Alameda.

## PARTIES

12. Plaintiff ERC is a non-profit corporation organized under California's Corporation Law. ERC is dedicated to, among other causes, reducing the use and misuse of hazardous and toxic substances, consumer protection, worker safety, and corporate responsibility.

13. ERC is a person within the meaning of H&S Code Section 25118 and brings this enforcement action in the public interest pursuant to H&S Code Section 25249.7(d).

14. Defendant ORGAIN is a corporation organized under the laws of the State of
California and is a person doing business within the meaning of H&S Code Section 25249.11.
Defendant manufactures, packages, distributes, markets, and/or sells the PRODUCTS for sale
or use in California and in Alameda County.

## **STATUTORY BACKGROUND**

15. The Safe Drinking Water and Toxic Enforcement Act of 1986 is an initiative statute passed as "Proposition 65" by a vote of the People of the State of California in 1986. In passing Proposition 65, the People declared in their right "[t]o be informed about exposures to chemicals that cause cancer, birth defects, or other reproductive harm." Section 1(b) of Initiative Measure, Proposition 65.

16. To effect this goal, Proposition 65 requires that individuals be provided with a "clear and reasonable warning" before being exposed to substances listed by the State of California as
causing cancer or reproductive toxicity. H&S Code Section 25249.6 states, in pertinent part:

Page 4 of 15

1

2

3

4

5

6

7

8

No person in the course of doing business shall knowingly and intentionally expose any individual to a chemical known to the state to cause cancer or reproductive toxicity without first giving clear and reasonable warning to such individual....

17. "'Knowingly' refers only to knowledge of the fact that a discharge of, release of, or exposure to a chemical listed pursuant to H&S Code Section 25249.8(a) of the Act is occurring. No knowledge that the discharge, release, or exposure is unlawful is required." 27 California Code of Regulations ("CCR") §25102(n).

18. Proposition 65 establishes a procedure by which the Governor lists chemical known to the state to cause cancer or reproductive toxicity. H&S Code § 25249.8. The warning requirements under Proposition 65 for a given chemical go into effect one year after the Governor places that chemical on the list. H&S Code § 25249.10(b).

19. Proposition 65 provides that any person "violating or threatening to violate" the warning requirements of the statute may be enjoined in a court of competent jurisdiction. H&S Code § 25249.7. The phrase "threatening to violate" is defined to mean creating "a condition in which there is a substantial likelihood that a violation will occur." H&S Code § 25249.11(e).

20. Violators are liable for civil penalties of up to \$2,500 per day for each violation of the Act. H&S Code § 25249.7.

# FACTUAL BACKGROUND

21. On February 27, 1987, the State of California officially listed the chemical lead as a chemical known to cause reproductive toxicity. Lead became subject to the warning requirement one year later and was therefore subject to the "clear and reasonable" warning requirements of Proposition 65 beginning on February 27, 1988. H&S Code § 25249.5, *et seq.;*27 CCR § 25000, *et seq.* Due to the high toxicity of lead, the maximum allowable dose level for lead is 0.5 micrograms a day ("µg/day") for reproductive toxicity. 27 CCR § 25805(b).

22. On October 1, 1992, the State of California officially listed the chemicals lead and lead compounds as chemicals known to cause cancer. Lead and lead compounds became subject to the warning requirement one year later and were therefore subject to the "clear and reasonable" warning requirements of Proposition 65 beginning on October 1, 1993. 27 CCR

Page 5 of 15

3422-027acp

\$25102, et seq.; H&S Code \$25249.6, et seq. Due to the carcinogenicity of lead, the no significant risk level for lead is 15 µg/day. 27 CCR \$25705(b)(1).

23. On May 1, 1997, the State of California officially listed the chemical cadmium as a chemical known to cause reproductive toxicity. Cadmium became subject to the warning requirement one year later and was therefore subject to the "clear and reasonable" warning requirements of Proposition 65 beginning on May 1, 1998 (27 CCR § 25000, *et seq.;* H&S Code §25249.5, *et seq.*). Due to the high toxicity of cadmium, the maximum allowable dose level for cadmium is 4.10 µg/day (micrograms a day) for reproductive toxicity. (27 CCR § 25805(b).)

24. On October 1, 1987, the State of California officially listed the chemicals cadmium and cadmium compounds as chemicals known to cause cancer. Cadmium and cadmium compounds became subject to the warning requirement one year later and were therefore subject to the "clear and reasonable" warning requirements of Proposition 65 beginning on October 1, 1988 (27 CCR § 25000, *et seq.*; H&S Code §25249.6 *et seq.*).

25. The PRODUCTS have been sold by Defendant for use in California since at least October 16, 2012.

26. To test Defendant's PRODUCTS for lead and/or cadmium, Plaintiff hired a wellrespected and accredited testing laboratory. The results of testing undertaken by Plaintiff of Defendant's PRODUCTS show that the PRODUCTS were in violation of the 0.5  $\mu$ g/day "safe harbor" daily dose limits for lead and/or 4.10 $\mu$ g/day "safe harbor" daily dose limits for cadmium set forth in Proposition 65's regulations. Very significant is the fact that people are being exposed to lead and/or cadmium through ingestion as opposed to other, less harmful, methods of exposure such as dermal exposure. Ingestion of lead and lead compounds and/or cadmium produces much higher exposure levels and health risks than does dermal exposure to these chemicals.

27. At all times relevant to this action, Defendant, therefore, has knowingly and intentionally exposed the users and/or handlers of the PRODUCTS to the LISTED CHEMICALS without first giving a clear and reasonable warning to such individuals.

28. On October 16, 2015 and October 14, 2016, Plaintiff served Defendantand each of the appropriate public enforcement agencies with 60-Day notices of Proposition 65 violations

Page 6 of 15

3422-027acp

documents entitled "Notice of Violations of California Health & Safety Code §25249.5 1 2 ("Notices"). True and correct copies of the Noticesare attached hereto as Exhibits A and B 3 respectively and each is incorporated herein by reference. The Notices were issued pursuant to, 4 and in compliance with, the requirements of H&S Code Section 25249.7(d) and the statute's 5 implementing regulations regarding the notice of the violations to be given to certain public 6 enforcement agencies and to the violator. The Notices included, inter alia, the following 7 information: the name, address, and telephone number of the noticing individual; the name of 8 the alleged violator; the statute violated; the approximate time period during which violations 9 occurred; and descriptions of the violations, including the chemicals involved, the routes of 10 toxic exposure, and the specific product or type of product causing the violations, and was issued as follows: 11 12 Defendant wasprovided a copy of the Notices by Certified Mail; a.

b. Defendant was provided a copy of a document entitled "The Safe
Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A
Summary," which is also known as Appendix A to Title 27 of CCR
Section 25903 with each Notice;

- c. The California Attorney General was provided copies of the Notices via online submission;
- d. The California Attorney General was provided with Certificates of Merit by the attorney for the noticing party, stating that there is a reasonable and meritorious case for this action, and attaching factual information sufficient to establish a basis for the certificate, including the identity of the persons consulted with and relied on by the certifier, and the facts, studies, or other data reviewed by those persons, pursuant to H&S Code Section 25249.7(h) (2); and

The District Attorneys, city attorneys or prosecutors of each jurisdiction within which the PRODUCTS are offered for sale within California were provided with copies of the Noticesvia priority mail or electronic submission pursuant to H&S

27

Code Section 25249.7(d)(1).

29. Defendant's sales of the PRODUCTS have resulted in numerous individual exposures to lead and/or cadmium at levels exceeding Proposition 65 thresholds without the warnings required by Proposition 65 since at least October 16, 2012 and October 14, 2013, the three-year periods preceding Plaintiff's October 16, 2015 and October 14, 2016 service of the Notices, respectively.

30. These exposures entitle the Court to award civil penalties in the amount of \$2,500 per day for each violation of Proposition 65 for the applicable statutory penalty period, which is one year prior to the date of the Notices of Violation,. CCP § 340; *Consumer Advocacy Group, Inc.*, 150 Cal.App.4th at 981.

31. The imposition of a civil penalty award will have a deterrent economic effect in that it is likely to deter future conduct in violation of Proposition 65 by the Defendant and the regulated community as a whole.

32. The PRODUCTS continue to be distributed and sold in California without the requisite warning information.

33. At least 60 days have elapsed since Plaintiff sent the Notices to the Defendant. The appropriate public enforcement agencies have failed to commence and diligently prosecute a cause of action under Proposition 65against Defendant based on the allegations herein.

34. As a proximate result of acts by Defendant, as persons in the course of doing business within the meaning of H&S Code Section 25249.11, individuals throughout the State of California, including in the County of Alameda, have been exposed to the LISTED CHEMICALS without a clear and reasonable warning. The individuals subject to the illegal exposures include normal and foreseeable users of the PRODUCTS, as well as all other persons exposed to the PRODUCTS.

# FIRST CAUSE OF ACTION

(Injunctive Relief for Violations of Health and Safety Code Section 25249.5, *et seq.* Concerning the PRODUCTS Described in the October 16, 2015and October 14, 2016 Proposition 65 Notices By Plaintiff Against Defendant) 35. Plaintiff re-alleges and incorporates by reference all preceding paragraphs as if fully set forth herein.

36. By committing the acts alleged in this Complaint, Defendant, at all times relevant to this action and continuing through the present, has violated H&S Code Section 25249.6 by, in the course of doing business, knowingly and intentionally exposing individuals who use or handle the PRODUCTS set forth in the Notices to the LISTED CHEMICALS, without first providing a clear and reasonable warning to such individuals pursuant to H&S Code Sections25249.6 and 25249.11(f).

37. By the above-described acts, Defendant has violated H&S Code Section 25249.6 and are therefore subject to an injunction ordering Defendant to stop violating Proposition 65, to provide warnings to all present and future customers, and to provide warnings to Defendant's past customers who purchased or used the PRODUCTS without receiving a clear and reasonable warning.

38. An action for injunctive relief under Proposition 65 is specifically authorized by H&S Code Section 25249.7(a).

39. Continuing commission by Defendant of the acts alleged above will irreparably harm the citizens of the State of California, for which harm they have no plain, speedy, or adequate remedy at law.

Wherefore, Plaintiff prays judgment against Defendant, as set forth hereafter.

# SECOND CAUSE OF ACTION

## (Civil Penalties for Violations of Health and Safety Code Section 25249.5, *et seq.* Concerning the PRODUCTS Described in the October 16, 2015and October 14, 2016 Proposition 65 Notices By Plaintiff Against Defendant)

40. Plaintiff realleges and incorporates by reference all preceding paragraphs as if fully set forth herein.

41. By the above-described acts, Defendant is liable, pursuant to H&S Code Section
27 25249.7(b), for a civil penalty of \$2,500 per day per violation for each unlawful exposure to the
LISTED CHEMICALS from the PRODUCTS, in an amount in excess of \$240 million.

6

7

8

9

10

11

12

13

Wherefore, Plaintiff prays for judgment against Defendant, as set forth hereafter.

## THE NEED FOR INJUNCTIVE RELIEF

42. Plaintiff realleges and incorporates by this reference all preceding paragraphs as if set forth below.

43. By committing the acts alleged in this Complaint, Defendant has caused irreparable harm for which there is no plain, speedy, or adequate remedy at law. In the absence of equitable relief, Defendant will continue to create a substantial risk of irreparable injury by continuing to cause consumers to be involuntarily and unwittingly exposed to the LISTED CHEMICALS through the use and/or handling of the PRODUCTS.

## PRAYER FOR RELIEF

Wherefore, Plaintiff accordingly prays for the following relief:

A. A temporary restraining order, preliminary and permanent injunction, pursuant to H&S Code Section 25249.7(a), enjoining Defendant, its agents, employees, assigns and all persons acting in concert or participating with Defendant, from distributing or selling the PRODUCTS in California without first providing a clear and reasonable warning, within the meaning of Proposition 65, that the users and/or handlers of the PRODUCTS are exposed to the LISTED CHEMICALS;

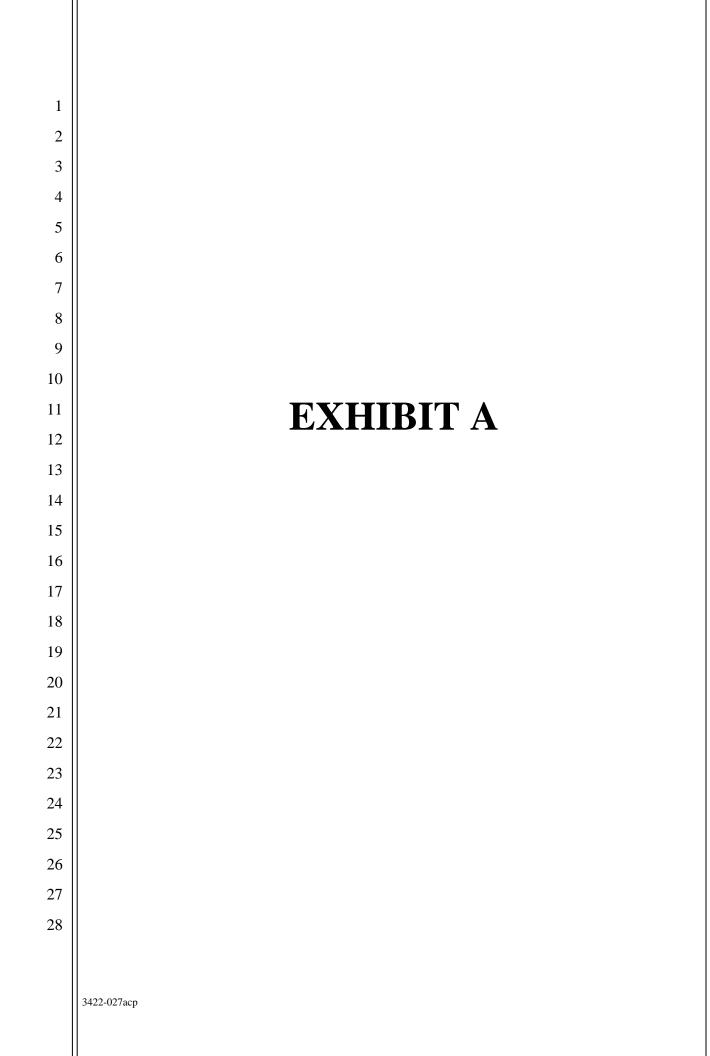

B. An injunctive order, pursuant to H&S Code Section25249.7(a), compelling
Defendant to identify and locate each individual who has purchased the PRODUCTS since
October 16, 2012, and to provide a warning to each such person that the use of the PRODUCTS
will expose the user to chemicals known to cause cancer, birth defects, and other reproductive harm;

C. An assessment of civil penalties pursuant to H&S Code Section 25249.7(b), against Defendant in the amount of \$2,500 per day for each violation of Proposition 65, in an amount in excess of \$240 million;

D. An award to Plaintiff of its reasonable attorneys' fees and costs of suit pursuant
to California Code of Civil Procedure Section1021.5, as Plaintiff shall specify in further
application to the Court; and

## VIA ONLINE SUBMISSION

Office of the California Attorney General

#### Re: Notice of Violations of California Health & Safety Code Section 25249.5 et seq.

Dear Addressees:

I represent the Environmental Research Center, Inc. ("ERC") in connection with this Notice of Violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986, which is codified at California Health & Safety Code Section 25249.5 *et seq.* and also referred to as Proposition 65.

ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of

hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

The name of the Company covered by this notice that violated Proposition 65 (hereinafter the "Violator") is:

## Orgain, Inc.

The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

- Orgain Inc. Vegan Nutritional Shake Sweet Vanilla Bean Lead
- Orgain Inc. Vegan Nutritional Shake Smooth Chocolate Lead
- Orgain Inc. Organic Protein Plant Based Powder Creamy Chocolate Fudge -Lead
- Orgain Inc. Organic Protein Plant Based Powder Vanilla Bean Lead
- Orgain Inc. Organic Meal All-In-One Nutrition Creamy Chocolate Fudge Lead
- Orgain Inc. Organic Meal All-In-One Nutrition Vanilla Bean Lead
- Orgain Inc. Organic Hydration Orange Lead
- Orgain Inc. Organic Hydration Lemon Ice Lead
- Orgain Inc. Organic Hydration Coconut Lead
- Orgain Inc. Organic Hydration Berry Punch Lead

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

This letter is a notice to the Violator and the appropriate governmental authorities of the Proposition 65 violations concerning the listed products. This notice covers all violations of Proposition 65 involving the Violator currently known to ERC from the information now available. ERC may continue to investigate other products that may reveal further violations. A summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is enclosed with the copy of this letter to the Violator.

The Violator has manufactured, marketed, distributed, and/or sold the listed products, which have exposed and continue to expose numerous individuals within California to the identified chemical, lead. The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and/or recommended use of these products by consumers. The primary route of exposure to lead has been through ingestion, but may have also occurred through inhalation and/or dermal contact. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to lead. The method of warning should be a warning that

appears on the product's label. The Violator violated Proposition 65 because it failed to provide an appropriate warning to persons using and/or handling these products that they are being exposed to lead. Each of these ongoing violations has occurred on every day since October 16, 2012, as well as every day since the products were introduced in the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users.

Pursuant to Section 25249.7(d) of the statute, ERC intends to file a citizen enforcement action sixty days after effective service of this notice unless the Violator agrees in an enforceable written instrument to: (1) reformulate the listed products so as to eliminate further exposures to the identified chemical; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above products in the last three years. Consistent with the public interest goals of Proposition 65 and my client's objectives in pursuing this notice, ERC is interested in seeking a constructive resolution to this matter. Such resolution will avoid both further unwarned consumer exposures to the identified chemical and expensive and time consuming litigation.

ERC's Executive Director is Chris Heptinstall, and is located at 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. 619-500-3090. ERC has retained me in connection with this matter. We suggest that communications regarding this Notice of Violations should be directed to my attention at the above listed law office address and telephone number.

Sincerely,

Christina M. Caro

Certificate of Merit Certificate of Service OEHHA Summary (to Orgain, Inc. and its Registered Agent for Service of Process only) Additional Supporting Information for Certificate of Merit (to AG only)

## **CERTIFICATE OF MERIT**

# **Re:** Environmental Research Center, Inc.'s Notice of Proposition 65 Violations by Orgain, Inc.

I, Christina Caro, declare:

- 1. This Certificate of Merit accompanies the attached sixty-day notice in which it is alleged the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.
- 2. I am an attorney for the noticing party.
- 3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of the notice.
- 4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.
- 5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: October 16, 2015

Christina M. Caro

#### **CERTIFICATE OF SERVICE**

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States, over the age of 18 years of age, and am not a party to the within entitled action. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On October 16, 2015, I served the following documents: NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; "THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY" on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to the party listed below and depositing it in a U.S. Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

## Appendix A

# OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. Please refer to the statute and OEHHA's implementing regulations (see citations below) for further information.

# FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: http://oehha.ca.gov/prop65/law/P65law72003.html. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.<sup>1</sup> These implementing regulations are available online at: http://oehha.ca.gov/prop65/law/P65Regs.html.

# WHAT DOES PROPOSITION 65 REQUIRE?

*The "Proposition 65 List."* Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65\_list/Newlist.html.

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

*Clear and reasonable warnings.* A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies. The warning given must be "clear and

reasonable." This means that the warning must: (1) clearly say that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

*Prohibition from discharges into drinking water.* A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

## DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations

(http://www.oehha.ca.gov/prop65/law/index.html) to determine all applicable exemptions, the most common of which are the following:

*Grace Periods.* Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

*Governmental agencies and public water utilities.* All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

*Businesses with nine or fewer employees.* Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

*Exposures that pose no significant risk of cancer.* For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at:

http://www.oehha.ca.gov/prop65/getNSRLs.html for a list of NSRLs, and Section 25701 *et seq*. of the regulations for information concerning how these levels are calculated.

*Exposures that will produce no observable reproductive effect at 1,000 times the level in question.* For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at:

http://www.oehha.ca.gov/prop65/getNSRLs.html for a list of MADLs, and Section 25801 *et seq*. of the regulations for information concerning how these levels are calculated.

*Exposures to Naturally Occurring Chemicals in Food.* Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant<sup>2</sup> it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501. *Discharges that do not result in a "significant amount" of the listed chemical entering any source of drinking water.* The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

## HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

• An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;

• An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off- premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;

• An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;

• An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form. A private party may not file an action against the alleged violator for these exposures, or recover in a settlement any payment in lieu of penalties any reimbursement for costs and attorney's fees, if the notice was served on or after October 5, 2013, and the alleged violator has done *all* of the following within 14 days of being served notice: • Corrected the alleged violation;

• Agreed to pay a civil penalty of \$5B500 (subject to change as noted below) to the private party within 30 days; and

• Notified the private party serving the notice in writing that the violation has been corrected.

The written notification to the private-party must include a notice of special compliance procedure and proof of compliance form completed by the alleged violator as directed in the notice. On April 1, 2019, and every five years thereafter, the dollar amount of the civil penalty will be adjusted by the Judicial Council based on the change in the annual California Consumer Price Index. The Judicial Council will publish the dollar amount of the adjusted civil penalty at each five-year interval, together with the date of the next scheduled adjustment.

An alleged violator may satisfy these conditions only one time for a violation arising from the same exposure in the same facility or on the same premises. The satisfaction of these conditions does not prevent the Attorney General, a district attorney, a city attorney of a city of greater than 750,000 population, or any full-time city prosecutor with the consent of the district attorney, from filing an enforcement action against an alleged violator. The amount of any civil penalty for a violation shall be reduced to reflect any payment made by the alleged violator for the same alleged violation to a private-party.

A copy of the notice of special compliance procedure and proof of compliance form is included with this notice and can be downloaded from OEHHA's website at: <u>http://oehha.ca.gov/prop65/law/p65law72003.html</u>. The notice is reproduced here:

Page 1

Date: October 16, 2015 Name of Noticing Party or attorney for Noticing Party: Environmental Research Center, Inc. Address: 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108 Phone number: 619-500-3090

# SPECIAL COMPLIANCE PROCEDURE

# **PROOF OF COMPLIANCE**

You are receiving this form because the Noticing Party listed above has alleged that you are violating California Health and Safety Code §25249.6 (Prop. 65).

The Noticing Party may not bring any legal proceedings against you for the alleged violation checked below if:

1. You have actually taken the corrective steps that you have certified in this form

2. The Noticing Party has received this form at the address shown above, accurately completed by you, postmarked within 14 days of your receiving this notice

3. The Noticing Party receives the required \$500 penalty payment from you at the address shown above postmarked within 30 days of your receiving this notice.

4. This is the first time you have submitted a Proof of Compliance for a violation arising from the same exposure in the same facility on the same premises.

# PART 1: TO BE COMPLETED BY THE NOTICING PARTY OR ATTORNEY FOR THE NOTICING PARTY

The alleged violation is for an exposure to: (check one)

\_\_\_\_Alcoholic beverages that are consumed on the alleged violator's premises to the extent on-site consumption is permitted by law.

\_\_\_\_A chemical known to the state to cause cancer or reproductive toxicity in a food or beverage prepared and sold on the alleged violator's premises for immediate consumption on or off premises to the extent: (1) the chemical was not intentionally added; and (2) the chemical was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination.

\_\_\_\_Environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises.

\_\_\_\_Chemicals known to the State to cause cancer or reproductive toxicity in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking noncommercial vehicles.

# **IMPORTANT NOTES:**

1. You have no potential liability under California Health and Safety Code §25249.6 if your business has nine (9) or fewer employees.

2. Using this form will NOT prevent the Attorney General, a district attorney, a city attorney, or a prosecutor in whose jurisdiction the violation is alleged to have occurred from filing an action over the same alleged violations, and that in any such action, the amount of civil penalty shall be reduced to reflect any payment made at this time.

Page 2 Date: October 16, 2015

Name of Noticing Party or attorney for Noticing Party: Environmental Research Center, Inc. Address: 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108 Phone number: 619-500-3090

# PART 2: TO BE COMPLETED BY THE ALLEGED VIOLATOR OR AUTHORIZED REPRESENTATIVE

## **Certification of Compliance**

Accurate completion of this form will demonstrate that you are now in compliance with California Health and Safety Code §25249.6 for the alleged violation listed above. You must complete and submit the form below to the Noticing Party at the address shown above, postmarked within 14 days of you receiving this notice. I hereby agree to pay, within 30 days of completion of this notice, a civil penalty of \$500 to the Noticing Party only and certify that I have complied with Health and Safety Code §25249.6 by (check only one of the following): Posting a warning or warnings about the alleged exposure that complies with the law, and attaching a copy of that warning and a photograph accurately showing its placement on my premises;

□ Posting the warning or warnings demanded in writing by the Noticing Party, and attaching a copy of that warning and a photograph accurately its placement on my premises; OR

□ Eliminating the alleged exposure, and attaching a statement accurately describing how the alleged exposure has been eliminated.

## Certification

My statements on this form, and on any attachments to it, are true, complete, and correct to the best of my knowledge and belief and are made in good faith. I have carefully read the instructions to complete this form. I understand that if I make a false statement on this form, I may be subject to additional penalties under the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).

## Re: Notice of Violations of California Health & Safety Code Section 25249.5 et seq.

Dear Addressees:

I represent the Environmental Research Center, Inc. ("ERC") in connection with this Notice of Violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986, which is codified at California Health & Safety Code Section 25249.5 *et seq.* and also referred to as Proposition 65.

ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

The name of the Company covered by this notice that violated Proposition 65 (hereinafter the "Violator") is:

#### Orgain, Inc.

The products that are the subject of this notice and the chemicals in those products identified as exceeding allowable levels are:

Orgain Inc. Organic Protein Almond Milk Unsweetened Vanilla - Lead Orgain Inc. Organic Protein Almond Milk Lightly Sweetened Vanilla - Lead Orgain Inc. Grass Fed Protein Nutritional Protein Shake Creamy Chocolate Fudge -Lead Orgain Inc. Grass Fed Whey Protein Powder Creamy Chocolate Fudge - Lead Orgain Inc. Organic Slim Plant Based Protein Powder Vanilla - Lead Orgain Inc. Organic Slim Plant Based Protein Powder Chocolate – Lead, Cadmium Orgain Inc. Organic Superfoods All-In-One Super Nutrition Berry Flavor – Lead Orgain Inc. Organic Superfoods All-In-One Super Nutrition Original Flavor - Lead Orgain Inc. Organic Protein Nutritional Protein Shake Creamy Chocolate Fudge -Cadmium

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

Cadmium was officially listed as a chemical known to cause developmental toxicity and male reproductive toxicity on May 1, 1997 while cadmium and cadmium compounds were listed as chemicals known to the State of California to cause cancer on October 1, 1987.

This letter is a notice to the Violator and the appropriate governmental authorities of the Proposition 65 violations concerning the listed products. This notice covers all violations of Proposition 65 involving the Violator currently known to ERC from the information now available. ERC may continue to investigate other products that may reveal further violations. A summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is enclosed with the copy of this letter to the Violator.

The Violator has manufactured, marketed, distributed, and/or sold the listed products, which have exposed and continue to expose numerous individuals within California to the identified chemicals, lead and/or cadmium. The consumer exposures that are the subject of this

notice result from the purchase, acquisition, handling and/or recommended use of these products by consumers. The primary route of exposure to lead and/or cadmium has been through ingestion, but may have also occurred through inhalation and/or dermal contact. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to lead and/or cadmium. The method of warning should be a warning that appears on the product's label. The Violator violated Proposition 65 because it failed to provide an appropriate warning to persons using and/or handling these products that they are being exposed to lead and/or cadmium. Each of these ongoing violations has occurred on every day since October 14, 2013, as well as every day since the products were introduced in the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users.

Pursuant to Section 25249.7(d) of the statute, ERC intends to file a citizen enforcement action sixty days after effective service of this notice unless the Violator agrees in an enforceable written instrument to: (1) reformulate the listed products so as to eliminate further exposures to the identified chemicals; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above products in the last three years. Consistent with the public interest goals of Proposition 65 and my client's objectives in pursuing this notice, ERC is interested in seeking a constructive resolution to this matter. Such resolution will avoid both further unwarned consumer exposures to the identified chemicals and expensive and time consuming litigation.

ERC's Executive Director is Chris Heptinstall, and is located at 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. 619-500-3090. ERC has retained me in connection with this matter. We suggest that communications regarding this Notice of Violations should be directed to my attention at the above listed law office address and telephone number.

Sincerely,

Christina M. Caro

Certificate of Merit Certificate of Service OEHHA Summary (to Orgain, Inc. and its Registered Agent for Service of Process only) Additional Supporting Information for Certificate of Merit (to AG only)

## **CERTIFICATE OF MERIT**

# **Re:** Environmental Research Center, Inc.'s Notice of Proposition 65 Violations by Orgain, Inc.

I, Christina Caro, declare:

- 1. This Certificate of Merit accompanies the attached sixty-day notice in which it is alleged the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.
- 2. I am an attorney for the noticing party.
- 3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemicals that are the subject of the notice.
- 4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.
- 5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: October 14, 2016

Christina M. Caro

#### **CERTIFICATE OF SERVICE**
