| | | |

Lead and cadmium are chemicals known to the State of California to cause cancer, birth defects and other reproductive harm. This complaint seeks injunctive and declaratory relief and civil penalties to remedy the ongoing failure of Defendants Munchkin, Inc., individually and doing business as Milkmakers (hereinafter referred to as "Defendant") and Does 1-100 to warn consumers that they have been exposed to lead and/or cadmium from several of Defendant's nutritional health products as set forth in paragraph 3 at levels exceeding the Maximum Allowable Dose Level ("MADL") per day and requiring a warning pursuant to Health & Safety Code section 25249.6.

Π

PARTIES

2. Plaintiff ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by reducing the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees and encouraging corporate responsibility.

3. Defendant Munchkin, Inc., individually and doing business as Milkmakers, is a business that develops, manufactures, markets, distributes and/or sells nutritional health products that have exposed users to lead and/or cadmium in the State of California within the relevant statute of limitations period. These "Covered Products" are:

- Bumpboosters Pregnancy Cookie Oatmeal Chocolate Chip (lead, cadmium)
- MilkMakers Lactation Cookies Lemon (lead)
- MilkMakers Lactation Cookies Oatmeal Chocolate Chip (lead, cadmium)
- MilkMakers Lactation Cookies Oatmeal Raisin (lead)

Defendant is a company subject to Proposition 65 as it employs ten or more persons, and has employed ten or more persons at all times relevant to this action.

4. Defendants Does 1-100, are named herein under fictitious names, as their true names and capacities are unknown to ERC. ERC is informed and believes, and thereon alleges, that each of said Does is responsible, in some actionable manner, for the events and happenings hereinafter referred to, either through said Does' conduct, or through the conduct of its agents, servants or employees, or in some other manner, causing the harms alleged by ERC in this complaint. When

Page 2 of 8

said true names and capacities of Does are ascertained, ERC will seek leave to amend this complaint to set forth the same.

Ш

JURISDICTION AND VENUE

5. This Court has jurisdiction pursuant to California Constitution Article VI, Section 10 which grants the Superior Court original jurisdiction in all causes except those given by statute to other trial courts. The statute under which this action is brought does not specify any other basis for iurisdiction.

6. This Court has jurisdiction over Defendant because Defendant is a business having sufficient minimum contacts with California, or otherwise intentionally availing itself of the California market through the marketing, distribution, and/or sale of the Covered Products in the State of California to render the exercise of jurisdiction over it by the California courts consistent with traditional notions of fair play and substantial justice.

14 7. The Complaint is based on allegations contained in a Notice of Violation dated April 15 28, 2017, served on the California Attorney General, other public enforcers, and Defendant. The 16 Notice of Violation constitutes adequate notice to Defendant because it provided adequate 17 information to allow Defendant to assess the nature of the alleged violations, consistent with 18 Proposition 65 and its implementing regulations. The Notice of Violation was accompanied by 19 a certificate of merit and a certificate of service, both of which comply with Proposition 65 and 20 its implementing regulations. The Notice of Violation served on Defendant also included a copy 21 of "The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary." 22 Service of the Notice of Violation and accompanying documents complied with Proposition 65 23 and its implementing regulations. A true and correct copy of the Notice of Violation and 24 associated documents served on Defendant is attached hereto as **Exhibit A.** More than 60 days 25 have passed since the Notice of Violation was mailed and no public enforcement entity has filed 26 a complaint in this case.

27 8. This Court is the proper venue for the action because the causes of action have arisen in 28 the County of Alameda where some of the violations of law have occurred, and will continue to

1

occur due to the ongoing sales of Defendant's products. Furthermore, venue is proper in this Court under Code of Civil Procedure section 395.5 and Health & Safety Code section 25249.7.

IV

STATUTORY BACKGROUND

9. The Safe Drinking Water and Toxic Enforcement Act of 1986 is an initiative statute passed as "Proposition 65" by an overwhelming majority vote of the people in November of 1986.
10. The warning requirement of Proposition 65 is contained in Health & Safety Code section 25249.6, which provides:

No person in the course of doing business shall knowingly and intentionally expose any individual to a chemical known to the state to cause cancer or reproductive toxicity without first giving clear and reasonable warning to such individual, except as provided in Section 25249.10.

11. Implementing regulations for Proposition 65 define expose as "to cause to ingest, inhale, contact via body surfaces or otherwise come into contact with a listed chemical." An individual may come into contact with a listed chemical through water, air, food, consumer products and any other environmental exposure as well as occupational exposures." (Cal. Code Regs., tit. 27, § 25102, subd. (i).)

12. In this case, the exposures at issue are caused by consumer products. Implementing regulations for Proposition 65 define a consumer product exposure as "an exposure which results from a person's acquisition, purchase, storage, consumption, or other reasonably foreseeable use of a consumer good, or any exposure that results from receiving a consumer service." (Cal. Code Regs., tit. 27, § 25602, subd. (b).)

13. Whenever a clear and reasonable warning is required under Health & Safety Code
section 25249.6, the "method employed to transmit the warning must be reasonably calculated
considering the alternative methods available under the circumstances, to make the warning
message available prior to exposure." (Cal. Code Regs., tit. 27, § 25601.) The warning requirement
may be satisfied by a warning that appears on a product's label or other labeling, shelf labeling,
signs, a system of signs, public advertising identifying the system and toll-free information services,
or any other system, that provides clear and reasonable warnings. (Cal. Code Regs., tit. 27, §

18

19

20

21

22

23

24

25

26

27

28

14. Proposition 65 establishes a procedure by which the State is to develop a list of chemicals "known to the State to cause cancer or reproductive toxicity." (Health & Safety Code, § 25249.8.) There is no duty to provide a clear and reasonable warning until 12-months after the chemical was published on the State list. (Health & Safety Code, § 25249.10, subd. (b).)

6 15. Lead was listed as a chemical known to the State of California to cause 7 developmental toxicity in the fetus and male and female reproductive toxicity on February 27, 8 1987. Lead was listed as a chemical known to the State of California to cause cancer on October 1, 1992. (State of California EPA OEHHA Safe Drinking Water and Toxic Enforcement Act of 10 1986 Chemicals Known to the State to Cause Cancer and Reproductive Toxicity.) The MADL for lead as a chemical known to cause reproductive toxicity is 0.5 micrograms per day. (Cal. 12 Code Regs., tit. 27, §25805, subd. (b).) The No Significant Risk Level for lead as a carcinogen is 13 15 micrograms per day. (Cal. Code Regs., tit. 27, §25705, subd. (b).)

16. On May 1, 1997, the State of California listed the chemical cadmium as a chemical known to cause reproductive toxicity. (State of California EPA OEHHA Safe Drinking Water and Toxic Enforcement Act of 1986 Chemicals Known to the State to Cause Cancer and Reproductive Toxicity.) The MADL for cadmium as a chemical known to cause reproductive toxicity is 4.1 micrograms per day. (Cal. Code Regs., tit. 27, § 25805, subd. (b).)

17. On October 1, 1987, the State of California listed the chemicals cadmium and cadmium compounds as chemicals known to cause cancer. (State of California EPA OEHHA Safe Drinking Water and Toxic Enforcement Act of 1986 Chemicals Known to the State to Cause Cancer and Reproductive Toxicity.)

18. Proposition 65 provides that any "person who violates or threatens to violate" the statute may be enjoined in a court of competent jurisdiction. (H&S Code §25249.7). The phrase "threaten to violate" is defined to mean creating "a condition in which there is a substantial probability that a violation will occur" (H&S Code §25249.11(e)). Violators are liable for civil penalties of up to \$2,500 per day for each violation of the Act. (H&S Code §25249.7.)

19. Proposition 65 may be enforced by any person in the public interest who provides notice

Page 5 of 8 **Complaint for Injunctive and Declaratory Relief and Civil Penalties** sixty days before filing suit to both the violator and designated law enforcement officials. The failure of law enforcement officials to file a timely complaint enables a citizen suit to be filed pursuant to Health & Safety Code section 25249.7, subdivisions (c) and (d).

V

STATEMENT OF FACTS

20. Defendant has developed, manufactured, marketed, distributed and/or sold the Covered Products containing lead and/or cadmium into the State of California. Consumption of the Covered Products according to the directions and/or recommendations provided for said product causes consumers to be exposed to lead at levels exceeding the 0.5 micrograms per day and cadmium at levels exceeding the 4.1 micrograms per day MADL and requiring a warning. Consumers have been ingesting these products for many years, without any knowledge of their exposure to lead and/or cadmium, very dangerous chemicals.

21. For many years, Defendant has knowingly and intentionally exposed numerous persons to lead and/or cadmium without providing a Proposition 65 warning. Prior to ERC's Notice of Violation and this Complaint, Defendant failed to provide a warning on the labels of the Covered Products. Defendant has at all times relevant hereto been aware that the Covered Products contained lead and/or cadmium and that persons using these products have been exposed to these chemicals. Defendant has been aware of the lead and/or cadmium in the Covered Products and has failed to disclose the presence of these chemicals to the public, who undoubtedly believe they have been ingesting totally healthy and pure products.

22. Both prior and subsequent to ERC's Notice of Violation, Defendant failed to provide consumers of the Covered Products with a clear and reasonable warning that they have been exposed to chemicals known to the State of California to cause cancer, birth defects and other reproductive harm. This failure to warn is ongoing.

FIRST CAUSE OF ACTION

(Violation of Section 25249.6 of the Health and Safety Code, Failure to Provide Clear and Reasonable Warning under Proposition 65)

23. ERC refers to paragraphs 1-22, inclusive, and incorporates them herein by this reference.

| Page 6 of 8 | |
|---|---|
| Complaint for Injunctive and Declaratory Relief and Civil Penalties | 3 |

1

24. By committing the acts alleged above, Defendant has, in the course of doing business, knowingly and intentionally exposed users of the Covered Products to lead and/or cadmium, chemicals known to the State of California to cause cancer, birth defects and other reproductive harm without first giving clear and reasonable warning to such individuals, within the meaning of Health & Safety Code section 25249.6. In doing so, Defendant has violated Health & Safety Code section 25249.6.

25. Said violations render Defendant liable for civil penalties up to \$2,500 per day, for each violation, and subject Defendant to injunction.

SECOND CAUSE OF ACTION

(Declaratory Relief)

26. ERC refers to paragraphs 1-25, inclusive, and incorporates them herein by this reference. 27. There exists an actual controversy relating to the legal rights and duties of the parties, within the meaning of Code of Civil Procedure section 1060, between ERC and Defendant concerning whether Defendant has exposed individuals to chemicals known to the State of California to cause cancer, birth defects and other reproductive harm without providing clear and reasonable warning.

VI

PRAYER

WHEREFORE ERC prays for relief as follows:

1. On the First Cause of Action, for civil penalties for each and every violation according to proof;

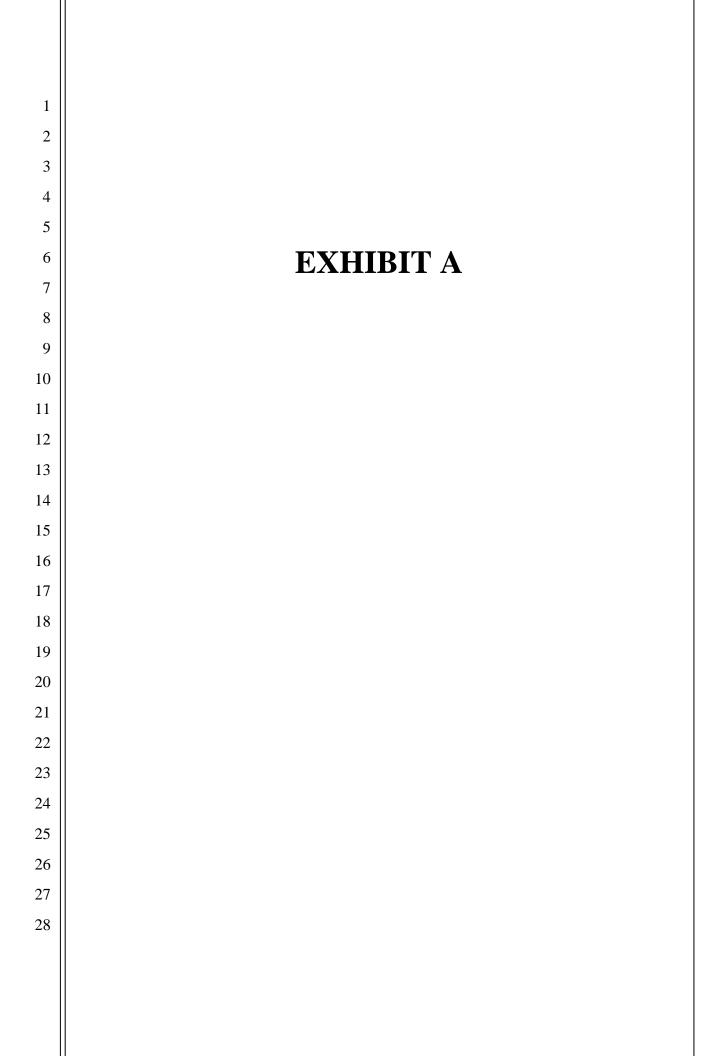

2. On the First Cause of Action, and pursuant to Health & Safety Code section 25249.7, subdivision (a), for such temporary restraining orders, preliminary and permanent injunctive orders, or other orders as are necessary to prevent Defendant from exposing persons to lead and/or cadmium without providing clear and reasonable warning;

3. On the Second Cause of Action, for a declaratory judgment pursuant to Code of Civil
 Procedure section 1060 declaring that Defendant have exposed individuals to chemicals known to
 the State of California to cause birth defects and other reproductive harm without providing clear

NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 *ET SEQ.* (PROPOSITION 65)

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I am the Executive Director of Environmental Research Center, Inc. ("ERC"). ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

<u>General Information about Proposition 65</u>. A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violator identified below.

<u>Alleged Violator</u>. The name of the company covered by this notice that violated Proposition 65 (hereinafter the "Violator") is:

Munchkin, Inc., individually and doing business as Milkmakers

<u>Consumer Products and Listed Chemicals</u>. The products that are the subject of this notice and the chemicals in those products identified as exceeding allowable levels are:

- 1. Bumpboosters Pregnancy Cookie Oatmeal Chocolate Chip Lead, Cadmium
- 2. MilkMakers Lactation Cookies Lemon Lead
- 3. MilkMakers Lactation Cookies Oatmeal Chocolate Chip Lead, Cadmium
- 4. MilkMakers Lactation Cookies Oatmeal Raisin Lead

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

Cadmium was officially listed as a chemical known to cause developmental toxicity and male reproductive toxicity on May 1, 1997, while cadmium and cadmium compounds were listed as chemicals known to the State of California to cause cancer on October 1, 1987.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

<u>Route of Exposure</u>. The consumer exposures that are the subject of this notice result from the recommended use of these products. Consequently, the route of exposure to these chemicals has been and continues to be through ingestion.

Approximate Time Period of Violations. Ongoing violations have occurred every day since at least April 28, 2014, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until these known toxic chemicals are either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemicals. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons handling and/or using these products with appropriate warnings that they are being exposed to these chemicals.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemicals, or provide appropriate warnings on the labels of these products; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above products in the last three years. Such a resolution will prevent further unwarned consumer exposures to the identified chemicals, as well as an expensive and time consuming litigation.

Please direct all questions concerning this notice to ERC at the above listed address and telephone number.

Sincerely,

J/h

Chris Heptinstall Executive Director Environmental Research Center

Certificate of Merit Certificate of Service OEHHA Summary (to Munchkin, Inc., individually and doing business as Milkmakers, and its Registered Agents for Service of Process only) Additional Supporting Information for Certificate of Merit (to AG only)

CERTIFICATE OF MERIT

Re: Environmental Research Center, Inc.'s Notice of Proposition 65 Violations by Munchkin, Inc., individually and doing business as Milkmakers

I, Chris Heptinstall, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am the Executive Director for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemicals that are the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: April 28, 2017

Chris Heptinstall

CERTIFICATE OF SERVICE

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States, over the age of 18 years of age, and am not a party to the within entitled action. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On April 28, 2017, I served the following documents: NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; "THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY" on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to each of the parties listed below and depositing it in a U.S. Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

Current President or CEO Munchkin, Inc., individually and doing business as Milkmakers 7835 Gloria Avenue Van Nuys, CA 91406

Current President or CEO Munchkin, Inc., individually and doing business as Milkmakers 939 NE Boat Street Seattle, WA 98105

Current President or CEO Munchkin, Inc., individually and doing business as Milkmakers 1607 NE Ravenna Boulevard Seattle, WA 98105 Current President or CEO Munchkin, Inc., individually and doing business as Milkmakers 27334 San Bernardino Avenue Redlands, CA 92374

CT Corporation System (Munchkin, Inc., individually and doing business as Milkmaker's Registered Agent for Service of Process) 818 W 7th Street, Suite 930 Los Angeles, CA 90017

The Corporation Trust Company (Munchkin, Inc., individually and doing business as Milkmaker's Registered Agent for Service of Process) Corporation Trust Center 1209 Orange Street Wilmington, DE 19801

On April 28, 2017, I verified the following documents **NOTICE OF VIOLATIONS, CALIFORNIA HEALTH & SAFETY CODE §25249.5** *ET SEQ.*; **CERTIFICATE OF MERIT; ADDITIONAL SUPPORTING INFORMATION FOR CERTIFICATE OF MERIT AS REQUIRED BY CALIFORNIA HEALTH & SAFETY CODE §25249.7(d)(1)** were served on the following party when a true and correct copy thereof was uploaded on the California Attorney General's website, which can be accessed at https://oag.ca.gov/prop65/add-60-day-notice :

Office of the California Attorney General Prop 65 Enforcement Reporting 1515 Clay Street, Suite 2000 Post Office Box 70550 Oakland, CA 94612-0550

On April 28, 2017, verified the following documents **NOTICE OF VIOLATIONS, CALIFORNIA HEALTH & SAFETY CODE §25249.5** *ET SEQ.*; **CERTIFICATE OF MERIT** were served on the following parties when a true and correct copy thereof was sent via electronic mail to each of the parties listed below:

Stacey Grassini, Deputy District Attorney Contra Costa County 900 Ward Street Martinez, CA 94553 sgrassini@contracostada.org

Michelle Latimer, Program Coordinator Lassen County 220 S. Lassen Street Susanville, CA 96130 mlatimer@co.lassen.ca.us

Appendix A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. Please refer to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: http://oehha.ca.gov/prop65/law/P65law72003.html. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: http://oehha.ca.gov/prop65/law/P65Regs.html.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Proposition 65 List." Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies. The warning given must be "clear and

reasonable." This means that the warning must: (1) clearly say that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations

(http://www.oehha.ca.gov/prop65/law/index.html) to determine all applicable exemptions, the most common of which are the following:

Grace Periods. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at:

http://www.oehha.ca.gov/prop65/getNSRLs.html for a list of NSRLs, and Section 25701 *et seq*. of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at:

http://www.oehha.ca.gov/prop65/getNSRLs.html for a list of MADLs, and Section 25801 *et seq*. of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501. *Discharges that do not result in a "significant amount" of the listed chemical entering any source of drinking water.* The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

• An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;

• An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off- premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;

• An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;

• An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form. A private party may not file an action against the alleged violator for these exposures, or recover in a settlement any payment in lieu of penalties any reimbursement for costs and attorney's fees, if the notice was served on or after October 5, 2013, and the alleged violator has done *all* of the following within 14 days of being served notice: • Corrected the alleged violation;

• Agreed to pay a civil penalty of \$5B500 (subject to change as noted below) to the private party within 30 days; and

• Notified the private party serving the notice in writing that the violation has been corrected.

The written notification to the private-party must include a notice of special compliance procedure and proof of compliance form completed by the alleged violator as directed in the notice. On April 1, 2019, and every five years thereafter, the dollar amount of the civil penalty will be adjusted by the Judicial Council based on the change in the annual California Consumer Price Index. The Judicial Council will publish the dollar amount of the adjusted civil penalty at each five-year interval, together with the date of the next scheduled adjustment.

An alleged violator may satisfy these conditions only one time for a violation arising from the same exposure in the same facility or on the same premises. The satisfaction of these conditions does not prevent the Attorney General, a district attorney, a city attorney of a city of greater than 750,000 population, or any full-time city prosecutor with the consent of the district attorney, from filing an enforcement action against an alleged violator. The amount of any civil penalty for a violation shall be reduced to reflect any payment made by the alleged violator for the same alleged violation to a private-party.

A copy of the notice of special compliance procedure and proof of compliance form is included with this notice and can be downloaded from OEHHA's website at: <u>http://oehha.ca.gov/prop65/law/p65law72003.html</u>. The notice is reproduced here:

Page 1

Date: April 28, 2017 Name of Noticing Party or attorney for Noticing Party: Environmental Research Center, Inc. Address: 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108 Phone number: 619-500-3090

SPECIAL COMPLIANCE PROCEDURE

PROOF OF COMPLIANCE

You are receiving this form because the Noticing Party listed above has alleged that you are violating California Health and Safety Code §25249.6 (Prop. 65).

The Noticing Party may not bring any legal proceedings against you for the alleged violation checked below if:

1. You have actually taken the corrective steps that you have certified in this form

2. The Noticing Party has received this form at the address shown above, accurately completed by you, postmarked within 14 days of your receiving this notice

3. The Noticing Party receives the required \$500 penalty payment from you at the address shown above postmarked within 30 days of your receiving this notice.

4. This is the first time you have submitted a Proof of Compliance for a violation arising from the same exposure in the same facility on the same premises.

PART 1: TO BE COMPLETED BY THE NOTICING PARTY OR ATTORNEY FOR THE NOTICING PARTY

The alleged violation is for an exposure to: (check one)

____Alcoholic beverages that are consumed on the alleged violator's premises to the extent on-site consumption is permitted by law.

____A chemical known to the state to cause cancer or reproductive toxicity in a food or beverage prepared and sold on the alleged violator's premises for immediate consumption on or off premises to the extent: (1) the chemical was not intentionally added; and (2) the chemical was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination.

____Environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises.

____Chemicals known to the State to cause cancer or reproductive toxicity in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking noncommercial vehicles.

IMPORTANT NOTES:

1. You have no potential liability under California Health and Safety Code §25249.6 if your business has nine (9) or fewer employees.

2. Using this form will NOT prevent the Attorney General, a district attorney, a city attorney, or a prosecutor in whose jurisdiction the violation is alleged to have occurred from filing an action over the same alleged violations, and that in any such action, the amount of civil penalty shall be reduced to reflect any payment made at this time.

Name of Noticing Party or attorney for Noticing Party: Environmental Research Center, Inc. Address: 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108 Phone number: 619-500-3090

PART 2: TO BE COMPLETED BY THE ALLEGED VIOLATOR OR AUTHORIZED REPRESENTATIVE

Certification of Compliance

Accurate completion of this form will demonstrate that you are now in compliance with California Health and Safety Code §25249.6 for the alleged violation listed above. You must complete and submit the form below to the Noticing Party at the address shown above, postmarked within 14 days of you receiving this notice. I hereby agree to pay, within 30 days of completion of this notice, a civil penalty of \$500 to the Noticing Party only and certify that I have complied with Health and Safety Code §25249.6 by (check only one of the following): Posting a warning or warnings about the alleged exposure that complies with the law, and attaching a copy of that warning and a photograph accurately showing its placement on my premises;

□ Posting the warning or warnings demanded in writing by the Noticing Party, and attaching a copy of that warning and a photograph accurately its placement on my premises; OR

□ Eliminating the alleged exposure, and attaching a statement accurately describing how the alleged exposure has been eliminated.

Certification

My statements on this form, and on any attachments to it, are true, complete, and correct to the best of my knowledge and belief and are made in good faith. I have carefully read the instructions to complete this form. I understand that if I make a false statement on this form, I may be subject to additional penalties under the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).
