3 Plaintiff, Ecological Rights Foundation, in the public interest, based on information and
4 belief, and knowledge and investigation of counsel allege as follows:

5 **INTRODUCTION**

6 1. This Complaint seeks civil penalties and an injunction against Bull Outdoor Products, Inc.;
7 Cabela's, Inc.; Fox Run USA, LLC; The Allen Company, Inc.; The Kingsford Products Company,
8 LLC; Tractor Supply Company; Williams Sonoma, Inc. ("Defendants") to remedy Defendants'
9 continuing failure to warn individuals in California about exposures to carbon monoxide, a chemical
10 known to the State of California to cause reproductive toxicity. Such exposures have occurred and
11 continue to occur, through the use of charcoal starters that Defendants manufacture, distribute and/or
12 sell in the State ("Products"). These Products are intended to be used ignite and combust charcoal
13 which is typically used for cooking. The combustion of charcoal in charcoal starters causes carbon
14 monoxide to be released into the air. People using charcoal starters, and those standing near the
15 Products when they are in use, inhale the released carbon monoxide.

16 2. Under California's Proposition 65, California Health & Safety Code § 25249.5, *et seq.*, it is
17 unlawful for businesses to knowingly and intentionally expose individuals in California to chemicals
18 known to the State to cause cancer, birth defects, or other reproductive harm without providing clear
19 and reasonable warnings to individuals prior to their exposure. Defendants introduce charcoal
20 starters into the California marketplace, exposing users of the Products, including pregnant women,
21 to carbon monoxide. Despite the fact that Defendants expose pregnant women and other consumers
22 and individuals to carbon monoxide, Defendants provide no warnings about the reproductive hazards
23 associated with such exposures. Defendants' conduct thus violates the warning provision of
24 Proposition 65. Health & Safety Code § 25249.6.

25 3. Plaintiff seeks injunctive relief pursuant to Health & Safety Code Section 25249.7 to compel
26 Defendants to bring their business practices into compliance with Proposition 65 by providing a clear
27 and reasonable warning to each individual who has been and who in the future may be exposed to
28

1 carbon monoxide in the ways set forth above. Plaintiff seeks an order that Defendants identify and
2 locate each individual person to whom the Defendants conveyed Products during the past three years
3 and to provide to each such individual, as well as new purchasers and Product users, a clear and
4 reasonable warning that use of the Products causes exposures to a chemical known to cause birth
5 defects and other reproductive harm.

6 4. In addition to injunctive relief, Plaintiff seeks civil penalties to remedy Defendants' failure
7 to provide clear and reasonable warnings regarding exposure to a chemical known to cause birth
8 defects and other reproductive harm.

9 **PARTIES**

10 5. Plaintiff, Ecological Rights Foundation ("EcoRights") is a non-profit public benefit
11 organization dedicated to, among other causes, protecting California residents from toxic exposures,
12 environmental and human health education, and consumer rights. Ecological Rights Foundation is
13 incorporated under the laws of the State of California and is a "person" pursuant to Health & Safety
14 Code §25249.11(a). EcoRights brings this enforcement action in the public interest pursuant to
15 Health & Safety Code §25249.7(d).

16 6. Bull Outdoor Products, Inc. is a person in the course of doing business within the meaning
17 of Health & Safety Code §25249.11(b). Bull Outdoor Products, Inc. markets, distributes, and/or sells
18 the Products for sale and use in the State of California.

19 7. Cabela's, Inc. is a person in the course of doing business within the meaning of Health &
20 Safety Code §25249.11(b). Cabela's, Inc. markets, distributes, and/or sells the Products for sale and
21 use in the State of California.

22 8. Fox Run USA, LLC is a person in the course of doing business within the meaning of Health
23 & Safety Code §25249.11(b). Fox Run USA, LLC markets, distributes, and/or sells the Products for
24 sale and use in the State of California.

25 9. The Allen Company, Inc. is a person in the course of doing business within the meaning of
26 Health & Safety Code §25249.11(b). The Allen Company, Inc. markets, distributes, and/or sells the
27 Products for sale and use in the State of California.

28 10. The Kingsford Products Company, LLC is a person in the course of doing business within

1 the meaning of Health & Safety Code §25249.11(b). The Kingsford Products Company, LLC
2 markets, distributes, and/or sells the Products for sale and use in the State of California.

3 11. Tractor Supply Company is a person in the course of doing business within the meaning of
4 Health & Safety Code §25249.11(b). Tractor Supply Company markets, distributes, and/or sells the
5 Products for sale and use in the State of California.

6 12. Williams Sonoma, Inc. is a person in the course of doing business within the meaning of
7 Health & Safety Code §25249.11(b). Williams Sonoma, Inc. markets, distributes, and/or sells the
8 Products for sale and use in the State of California.

9 13. Each Defendant employs more than ten people.

10 JURISDICTION

11 14. The Court has jurisdiction over this action pursuant to California Health & Safety Code
12 Section 25249.7. California Constitution Article VI, Section 10 grants the Superior Court "original
13 jurisdiction in all causes except those given by statute to other trial courts." Chapter 6.6 of the
14 Health & Safety Code, which contains the statutes under which this action is brought, does not
15 grant jurisdiction to any other trial court.

16 15. This Court also has jurisdiction over Defendants because they are businesses that have
17 sufficient minimum contacts in California and within the County of San Francisco. Defendants
18 intentionally availed themselves of the California and San Francisco County markets. It is thus
19 consistent with traditional notions of fair play and substantial justice for the San Francisco County
20 Superior Court to exercise jurisdiction over Defendants.

21 16. Venue is proper in San Francisco County Superior Court because one or more of the
22 violations arise in the County of San Francisco.

23 BACKGROUND

24 17. The People of the State of California have declared by initiative under Proposition 65 their
25 right "[t]o be informed about exposures to chemicals that cause cancer, birth defects, or other
26 reproductive harm." Proposition 65, § 1(b). To effectuate this goal, Proposition 65 prohibits exposing
27 people to chemicals listed by the State of California as known to cause cancer, birth defects, or other
28 reproductive harm without a "clear and reasonable warning" unless the business responsible for the

1 exposure can prove that it fits within a statutory exemption. Health & Safety Code Section 25249.6
2 states, in pertinent part:

3 No person in the course of doing business shall knowingly and
4 intentionally expose any individual to a chemical known to the state to cause
cancer or reproductive toxicity without first giving clear and reasonable warning
to such individual . . .

5 18. On July 1, 1989, the State of California officially listed carbon monoxide as a chemical
6 known to cause developmental reproductive toxicity, which means harm to the developing fetus. On
7 July 1, 1990, carbon monoxide exposures became subject to the clear and reasonable warning
8 requirements under Proposition 65. 27 C.C.R. § 27001(b); Health & Safety Code Section
9 25249.10(b).

10 19. Plaintiff brings this enforcement action against Defendants pursuant to Health & Safety
11 Code Section 25249.7(d). Attached hereto and incorporated by reference are copies of the Notices
12 of Violation dated June 29, 2017 (Bull Outdoor Products, Inc.), June 29, 2017 (Cabela's, Inc.), July
13 21, 2017 (Fox Run USA, LLC), July 3, 2017 (The Allen Company, Inc.), July 21, 2017 (The
14 Kingsford Products Company, LLC), October 10, 2017 (The Tractor Supply Company), and June
15 29, 2017 (Williams Sonoma, Inc.), which on those dates EcoRights sent to California's Attorney
16 General, every county District Attorney in California, and to the City Attorneys of every California
17 City with a population greater than 750,000. On the same day, Plaintiff sent substantively identical
18 letters to each Defendant. In compliance with Health & Safety Code § 25249.7(d) and 27 C.C.R. §
19 25903(b), each of the Notices included the following information: (1) the name and address of each
20 violator; (2) the statute violated; (3) the time period during which violations occurred; (4) specific
21 descriptions of the violations, including (a) the routes of exposure to carbon monoxide from the
22 Products, and (b) the specific type of Products sold and used in violation of Proposition 65; and (5)
23 the name of the specific Proposition 65-listed chemical that is the subject of the violations described
24 in each Notice.

25 20. Attached to each of the Notices of Violation sent to the Defendants was a summary of
26 Proposition 65 that was prepared by California's Office of Environmental Health Hazard
27 Assessment. In addition, the Notices of Violation were accompanied by a Certificate of Service
28 attesting to the service of the Notice of Violation on each entity which received it. Pursuant to Health

1 & Safety Code Section 25249.7(d) and 11 C.C.R. § 3101, Plaintiff also sent a Certificate of Merit
2 with the Notices of Violation attesting to the reasonable and meritorious basis for the action. Plaintiff
3 enclosed factual information sufficient to establish the basis of the Certificate of Merit with the
4 Notice of Violation letters sent to the Attorney General.

5 21. None of the public prosecutors with the authority to prosecute violations of Proposition 65
6 has commenced and/or is diligently prosecuting a cause of action against Defendant under Health &
7 Safety Code Section 25249.5 *et seq.*, based on the claims asserted in EcoRights' Notices.

8 22. Defendants both know and intend that individuals, including pregnant women, will use the
9 Products for igniting and combusting charcoal, thus exposing them to carbon monoxide. Under
10 Proposition 65, an exposure is "knowing" where the party responsible for such exposure has
11 "knowledge of the fact that a[n] . . . exposure to a chemical listed pursuant to [Health & Safety Code
12 § 25249.8(a)] is occurring. No knowledge that . . . exposure is unlawful is required." 27 C.C.R. §
13 25102(n). This knowledge may be either actual or constructive. *See, e.g.*, Final Statement of Reasons
14 Revised (November 4, 1988) (pursuant to former 22 C.C.R. Division 2, § 12201). Defendants have
15 been informed of the carbon monoxide exposures caused by the use of Products by the 60-Day Notice
16 of Violation, and the accompanying Certificate of Merit served on them by EcoRights. Defendants
17 also have constructive knowledge of the carbon monoxide exposures caused by Products. As
18 companies that manufacture, market, distribute and/or sell the Products for use in the State of
19 California, Defendants know or should know that carbon monoxide exposures to users of the
20 Products are a natural and foreseeable consequence of Defendants' placing the Products into the
21 stream of commerce.

22 23. Any person "violating or threatening to violate" Proposition 65 may be enjoined in any court
23 of competent jurisdiction. Health & Safety Code § 25249.7. "Threaten to violate" is defined to mean
24 "to create a condition in which there is a substantial probability that a violation will occur." Health
25 & Safety Code § 25249.11(e). Proposition 65 provides for civil penalties not to exceed \$2,500 per
26 day for each violation of the statute.

27 24. EcoRights has engaged in good faith efforts to resolve the claims alleged herein prior to
28 filing this complaint.

1 **FIRST CAUSE OF ACTION**

2 **(Violations of Health & Safety Code §25249.6)**

3 25. EcoRights realleges and incorporates the facts and allegations contained in the above
4 paragraphs as though specifically set forth herein.

5 26. Each defendant is a person in the course of doing business within the meaning of Health &
6 Safety Code § 25249.11(b) who, by manufacturing, marketing, distribution, sale or otherwise placing
7 the Products into the stream of commerce, violated, violates or threatens to violate Proposition 65.

8 27. Carbon monoxide is a chemical listed by the State of California as known to cause
9 developmental reproductive toxicity.

10 28. Defendants know that the average use of the Products will expose users of the Products to
11 carbon monoxide. Defendants intend that the Products be used in a manner that results in exposures
12 to carbon monoxide.

13 29. Defendants have failed and continue to fail, to provide clear and reasonable warnings
14 regarding the reproductive toxicity of carbon monoxide to users of the Products.

15 30. Since at least three years prior to the Notice of Violation Letters, Defendants have violated
16 Proposition 65 by knowingly and intentionally exposing individuals to carbon monoxide without
17 first giving clear and reasonable warnings to such individuals regarding the reproductive toxicity of
18 carbon monoxide.

19 **PRAYER FOR RELIEF**

20 Wherefore, Plaintiff prays for judgment against Defendants as follows:

- 21 1. Pursuant to the First Cause of Action, that Defendants be enjoined, restrained, and
22 ordered to comply with the provisions of Section 25249.6 of the California Health &
23 Safety Code;
- 24 2. That Defendants be ordered to make best efforts to identify and locate each individual
25 in California to whom they, or their customers or agents, distributed or sold Products
26 during the past three years, and to provide a warning to each such person that use of
27 the Product will expose that person to a chemical known to cause birth defects and
28 other reproductive harm;

- 3. That Defendants be assessed a civil penalty in an amount equal to \$2,500.00 per day per individual exposed to carbon monoxide in violation of Section 25249.6 of the California Health & Safety Code, as the result of Defendants' marketing, distributing, and/or selling the Products for use in California.
- 4. That, pursuant to Civil Procedure Code § 1021.5, Defendants be ordered to pay to Plaintiff the attorneys' fees and costs it incurred in bringing this enforcement action; and
- 5. For such other relief as this court deems just and proper.

Dated: February 20, 2018

NOTICE OF VIOLATIONS
CALIFORNIA SAFE DRINKING WATER AND
TOXIC ENFORCEMENT ACT

Mark Nureddine, CEO and Registered Agent Bull Outdoor Products, Inc. 1011 E. Pine Ave Lodi, CA 95240	
---	--

AND THE PUBLIC PROSECUTORS LISTED ON THE DISTRIBUTION LIST
ACCOMPANYING THE ATTACHED CERTIFICATE OF SERVICE

Re: Violations of Proposition 65 Concerning Carbon Monoxide Exposures from
Charcoal Starters

In accord with California Health & Safety Code § 25249.7, Ecological Rights Foundation ("ERF") hereby gives you notice that the above company has violated and is in ongoing violation of California Health & Safety Code § 25249.6, which provides that "[n]o person in the course of doing business shall knowingly and intentionally expose any individual to a chemical known to the state to cause cancer or reproductive toxicity without first providing a clear and reasonable warning to such individual."

Pursuant to California Health & Safety Code § 25249.7, ERF intends to bring an enforcement action 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify the violations discussed in this notice letter. The public enforcement agencies that have been served with copies of this notice of violations are identified in the attached Certificate of Service.

This Notice of Violations ("Notice") is provided to you pursuant to and in compliance with California Health and Safety Code Section 25249.7(d). Attached for your reference is a summary, "Appendix A: The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary" prepared by the California Office of Environmental Health Hazard Assessment ("OEHHA"). Pursuant to Title 11, C.C.R. § 3100, a Certificate of Merit is also attached.

The above-referenced violations occur when California residents use charcoal starters. These products are used primarily for lighting charcoal. Combustion of charcoal produces and exposes people to **carbon monoxide**, a chemical known to the State of California to cause reproductive toxicity. Because the combustion of charcoal causes carbon monoxide to be released into the air, people using charcoal starters, and others standing near the products when charcoal is burning in or on the products, inhale carbon monoxide. Exposure to carbon monoxide is via the inhalation route.

Below is a non-exclusive list of examples of these types of products. Though specific models or SKU or product numbers are given as examples, this Notice pertains to all models, and all

variations, of the specific type of product of which the named model is an example.

Barbecue Charcoal Chimney Starter SKU# 635835241436

This non-exclusive list of examples of the type of products that are subject to this Notice is for the recipient's benefit and is not meant to be an exhaustive or comprehensive identification of each specific offending product. It is ERF's position that the alleged Violator is obligated to conduct a good faith investigation into other specific products within the identified category or type that may have been manufactured, distributed, sold, shipped, stored (or otherwise within the notice recipient's custody or control) during the past three years, to ensure that clear and reasonable warnings are provided to California citizens prior to purchase, or retroactively if necessary.

These products cause carbon monoxide exposures to occur in peoples yards and everywhere else throughout California where these products are used. These violations are alleged for consumer and environmental exposures.

The noticed party did not and does not provide people with clear and reasonable warnings before they expose them in California to carbon monoxide. The above-referenced violations have occurred every day since at least June 29, 2014 and will continue every day until clear and reasonable warnings are given.

ERF is a California non-profit corporation dedicated to protecting human and environmental health, including raising awareness of, and reducing exposures to, toxic chemicals. The following individual is the responsible individual within ERF for purposes of this Notice:

James Lamport, Executive Director
Ecological Rights Foundation
867 B Redwood Drive
Garberville, California 95542
Telephone: (707) 923-4372

ERF has retained the following counsel to represent them in this matter (please direct communications to counsel):

Fredric Evenson
Ecology Law Center
P.O. Box 1000
Santa Cruz, California 95061
Telephone: (831) 454-8216
Email: evenson@ecologylaw.com

Resolution of Noticed Claims:

ERF is interested in seeking a constructive resolution of this matter that advances the public interest without engaging in costly and protracted litigation. ERF is willing to settle this matter to the extent legally possible prior to the commencement of any enforcement action. Settlement terms would require that the unwarned exposures described in this Notice of Violation be stopped. That would require at least the following: 1) a potential recall of products already sold; 2) that either warnings be given to all future purchasers in California of the products subject to this Notice, that the products be reformulated to eliminate the exposures described in the Notice, or that you stop marketing, distributing or selling the products in California; 3) that you locate

and provide a warning compliant with 27 Cal. Code Regs Section 25601 to each person who has been subject to the unwarned exposures described in the Notice to the extent those exposures are caused by products that were sold in California during the past three years; and 4) that you pay an appropriate civil penalty based on the factors enumerated in California Health and Safety Code Section 25249(b). It should be noted that ERF cannot finalize any settlement of this matter until 70 days have elapsed since the sending of the Notice and unless no public enforcer has begun an enforcement action concerning the violations described in the Notice. Any settlement on behalf of the public interest must be approved by the California Superior Court on noticed motion with 45 days' notice to the California Attorney General. The Attorney General may appear at any approval hearing and oppose a settlement if he or she believes the proposed settlement is not in the public interest. If you wish to discuss settlement of this matter before ERF files suit, please promptly contact ERF's counsel.

Sincerely,

Fredric Evenson

27 CCR Appendix A
Appendix A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986
(PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. Please refer to the statute and OEHHA's implementing regulations (see citations below) for further information. FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Proposition 65 List." Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies. The warning given must be "clear and reasonable." This means that the warning must: (1) clearly say that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Periods. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a "significant amount" of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if

one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off- premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A private party may not file an action against the alleged violator for these exposures, or recover in a settlement any payment in lieu of penalties any reimbursement for costs and attorney's fees, if the notice was served on or after October 5, 2013, and the alleged violator has done *all* of the following within 14 days of being served notice:

- Corrected the alleged violation;
- Agreed to pay a civil penalty of \$500 (subject to change as noted below) to the private party within 30 days; and
- Notified the private party serving the notice in writing that the violation has been corrected.

The written notification to the private-party must include a notice of special compliance procedure and proof of compliance form completed by the alleged violator as directed in the notice. On April 1, 2019, and every five years thereafter, the dollar amount of the civil penalty will be adjusted by the Judicial Council based on the change in the annual California Consumer Price Index. The Judicial Council will publish the dollar amount of the adjusted civil penalty at each five-year interval, together with the date of the next scheduled adjustment.

An alleged violator may satisfy these conditions only one time for a violation arising from the same exposure in the same facility or on the same premises. The satisfaction of these conditions does not prevent the Attorney General, a district attorney, a city attorney of a city of greater than 750,000 population, or any full-time city prosecutor with the consent of the district attorney, from filing an enforcement action against an alleged violator. The amount of any civil penalty for a violation shall be reduced to reflect any payment made by the alleged violator for the same alleged violation to a private-party.

A copy of the notice of special compliance procedure and proof of compliance form is included with this notice and can be downloaded from OEHHA's website at: <http://oehha.ca.gov/prop65/law/p65law72003.html>. The notice is reproduced here:

Date:

Name of Noticing Party or attorney for Noticing Party:

Address:

Phone number:

SPECIAL COMPLIANCE PROCEDURE PROOF OF COMPLIANCE

You are receiving this form because the Noticing Party listed above has alleged that you are violating California Health and Safety Code §25249.6 (Prop. 65).

The Noticing Party may not bring any legal proceedings against you for the alleged violation checked below if:

1. You have actually taken the corrective steps that you have certified in this form
2. The Noticing Party has received this form at the address shown above, accurately completed by you, postmarked within 14 days of your receiving this notice
3. The Noticing Party receives the required \$500 penalty payment from you at the address shown above postmarked within 30 days of your receiving this notice.
4. This is the first time you have submitted a Proof of Compliance for a violation arising from the same exposure in the same facility on the same premises.

PART 1: TO BE COMPLETED BY THE NOTICING PARTY OR ATTORNEY FOR THE NOTICING PARTY

The alleged violation is for an exposure to: (check one)

Alcoholic beverages that are consumed on the alleged violator's premises to the extent on-site consumption is permitted by law.

A chemical known to the state to cause cancer or reproductive toxicity in a food or beverage prepared and sold on the alleged violator's premises for immediate consumption on or off premises to the extent: (1) the chemical was not intentionally added; and (2) the chemical was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination.

Environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises.

Chemicals known to the State to cause cancer or reproductive toxicity in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking noncommercial vehicles.

IMPORTANT NOTES:

1. You have no potential liability under California Health and Safety Code §25249.6 if your business has nine (9) or fewer employees.

2. Using this form will NOT prevent the Attorney General, a district attorney, a city attorney, or a prosecutor in whose jurisdiction the violation is alleged to have occurred from filing an action over the same alleged violations, and that in any such action, the amount of civil penalty shall be reduced to reflect any payment made at this time.

PART 2: TO BE COMPLETED BY THE ALLEGED VIOLATOR OR AUTHORIZED REPRESENTATIVE

Certification of Compliance

Accurate completion of this form will demonstrate that you are now in compliance with California Health and Safety Code §25249.6 for the alleged violation listed above. You must complete and submit the form below to the Noticing Party at the address shown above, postmarked within 14 days of you receiving

this notice.

I hereby agree to pay, within 30 days of completion of this notice, a civil penalty of \$500 to the Noticing Party only and certify that I have complied with Health and Safety Code §25249.6 by (check only one of the following):

Posting a warning or warnings about the alleged exposure that complies with the law, and attaching a copy of that warning and a photograph accurately showing its placement on my premises;

Posting the warning or warnings demanded in writing by the Noticing Party, and attaching a copy of that warning and a photograph accurately its placement on my premises; OR

Eliminating the alleged exposure, and attaching a statement accurately describing how the alleged exposure has been eliminated.

Certification

My statements on this form, and on any attachments to it, are true, complete, and correct to the best of my knowledge and belief and are made in good faith. I have carefully read the instructions to complete this form. I understand that if I make a false statement on this form, I may be subject to additional penalties under the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).

Signature of alleged violator or authorized representative Date

Name and title of signatory

Certificate of Merit
Health & Safety Code Section 25249.7(d)

I, Fredric Evenson, hereby declare:

(1) This Certificate of Merit accompanies the attached sixty-day notice(s) in which it is alleged the parties identified in the notices have violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings.

(2) I am the attorney for the noticing party.

(3) I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the alleged exposure to the listed chemical that is the subject of the action.

(4) Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.

(5) The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and Safety Code section 25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Date: June 29, 2017

CERTIFICATE OF SERVICE

I am a California resident, over the age of 18 and not a party to this case. My business address is P.O. Box 1000, Santa Cruz, CA 95061.

On June 30, 2017, I served the following:

- 1) Notice of Violations: California Safe Drinking Water and Toxic Enforcement Act
- 2) Certificate of Merit: Health and Safety Code Section 25249.7(d)
- 3) Appendix A: The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary
- 4) Certificate of Service

by enclosing copies of the same in a sealed envelope addressed to each person shown below and depositing the envelope in the U.S. mail with postage fully prepaid for delivery by Certified Mail. Place of mailing: Santa Cruz, CA.

Mark Nureddine, CEO and Registered Agent Bull Outdoor Products, Inc. 1011 E. Pine Ave Lodi, CA 95240	
---	--

On July 3, 2017, I also served the following:

- 1) Notice of Violations: California Safe Drinking Water and Toxic Enforcement Act
- 2) Certificate of Merit: Health and Safety Code Section 25249.7(d)
- 3) Certificate of Merit (Attorney General Copy): Factual information sufficient to establish the basis of the Certificate of Merit (only sent to Attorney General)
- 4) Certificate of Service

by enclosing copies of the same in sealed envelopes addressed to each of the public prosecutors listed on the attached Service List with physical mailing addresses, and depositing the envelopes in the U.S. mail with postage fully prepaid for delivery by First Class Mail. Place of mailing: Santa Cruz, CA.

by sending portable document format (.pdf) files of the same to the electronic mail addresses to each of the public prosecutors identified by the California Attorney General as having authorized electronic service of notices. These public enforcement agencies appear on the attached Service List with their electronic mail addresses.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct. Executed July 3, 2017, at Santa Cruz, CA.

NOTICE OF VIOLATIONS
CALIFORNIA SAFE DRINKING WATER AND
TOXIC ENFORCEMENT ACT

Brent Lasure, Registered Agent Cabela's Inc. One Cabela Drive Sidney, NE 69160	Thomas L. Millner, President Cabela's Inc. One Cabela Drive Sidney, NE 69160
---	---

AND THE PUBLIC PROSECUTORS LISTED ON THE DISTRIBUTION LIST
ACCOMPANYING THE ATTACHED CERTIFICATE OF SERVICE

Re: Violations of Proposition 65 Concerning Carbon Monoxide Exposures from
Charcoal Starters

In accord with California Health & Safety Code § 25249.7, Ecological Rights Foundation ("ERF") hereby gives you notice that the above company has violated and is in ongoing violation of California Health & Safety Code § 25249.6, which provides that "[n]o person in the course of doing business shall knowingly and intentionally expose any individual to a chemical known to the state to cause cancer or reproductive toxicity without first providing a clear and reasonable warning to such individual."

Pursuant to California Health & Safety Code § 25249.7, ERF intends to bring an enforcement action 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify the violations discussed in this notice letter. The public enforcement agencies that have been served with copies of this notice of violations are identified in the attached Certificate of Service.

This Notice of Violations ("Notice") is provided to you pursuant to and in compliance with California Health and Safety Code Section 25249.7(d). Attached for your reference is a summary, "Appendix A: The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary" prepared by the California Office of Environmental Health Hazard Assessment ("OEHHA"). Pursuant to Title 11, C.C.R. § 3100, a Certificate of Merit is also attached.

The above-referenced violations occur when California residents use charcoal starters. These products are used primarily for lighting charcoal. Combustion of charcoal produces and exposes people to **carbon monoxide**, a chemical known to the State of California to cause reproductive toxicity. Because the combustion of charcoal causes carbon monoxide to be released into the air, people using charcoal starters, and others standing near the products when charcoal is burning in or on the products, inhale carbon monoxide. Exposure to carbon monoxide is via the inhalation route.

Below is a non-exclusive list of examples of these types of products. Though specific models or SKU or product numbers are given as examples, this Notice pertains to all models, and all

variations, of the specific type of product of which the named model is an example.

Cabela's Black Chimney Starter SKU #050016773801

This non-exclusive list of examples of the type of products that are subject to this Notice is for the recipient's benefit and is not meant to be an exhaustive or comprehensive identification of each specific offending product. It is ERF's position that the alleged Violator is obligated to conduct a good faith investigation into other specific products within the identified category or type that may have been manufactured, distributed, sold, shipped, stored (or otherwise within the notice recipient's custody or control) during the past three years, to ensure that clear and reasonable warnings are provided to California citizens prior to purchase, or retroactively if necessary.

These products cause carbon monoxide exposures to occur in peoples yards and everywhere else throughout California where these products are used. These violations are alleged for consumer and environmental exposures.

The noticed party did not and does not provide people with clear and reasonable warnings before they expose them in California to carbon monoxide. The above-referenced violations have occurred every day since at least June 29, 2014 and will continue every day until clear and reasonable warnings are given.

ERF is a California non-profit corporation dedicated to protecting human and environmental health, including raising awareness of, and reducing exposures to, toxic chemicals. The following individual is the responsible individual within ERF for purposes of this Notice:

James Lamport, Executive Director
Ecological Rights Foundation
867 B Redwood Drive
Garberville, California 95542
Telephone: (707) 923-4372

ERF has retained the following counsel to represent them in this matter (please direct communications to counsel):

Fredric Evenson
Ecology Law Center
P.O. Box 1000
Santa Cruz, California 95061
Telephone: (831) 454-8216
Email: evenson@ecologylaw.com

Resolution of Noticed Claims:

ERF is interested in seeking a constructive resolution of this matter that advances the public interest without engaging in costly and protracted litigation. ERF is willing to settle this matter to the extent legally possible prior to the commencement of any enforcement action. Settlement terms would require that the unwarned exposures described in this Notice of Violation be stopped. That would require at least the following: 1) a potential recall of products already sold; 2) that either warnings be given to all future purchasers in California of the products subject to this Notice, that the products be reformulated to eliminate the exposures described in the Notice, or that you stop marketing, distributing or selling the products in California; 3) that you locate

and provide a warning compliant with 27 Cal. Code Regs Section 25601 to each person who has been subject to the unwarned exposures described in the Notice to the extent those exposures are caused by products that were sold in California during the past three years; and 4) that you pay an appropriate civil penalty based on the factors enumerated in California Health and Safety Code Section 25249(b). It should be noted that ERF cannot finalize any settlement of this matter until 70 days have elapsed since the sending of the Notice and unless no public enforcer has begun an enforcement action concerning the violations described in the Notice. Any settlement on behalf of the public interest must be approved by the California Superior Court on noticed motion with 45 days' notice to the California Attorney General. The Attorney General may appear at any approval hearing and oppose a settlement if he or she believes the proposed settlement is not in the public interest. If you wish to discuss settlement of this matter before ERF files suit, please promptly contact ERF's counsel.

Sincerely,

Fredric Evenson

27 CCR Appendix A
Appendix A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986
(PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. Please refer to the statute and OEHHA's implementing regulations (see citations below) for further information. FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65/law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.1. These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Proposition 65 List." Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html. Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies. The warning given must be "clear and reasonable." This means that the warning must: (1) clearly say that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Periods. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a "significant amount" of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27, and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if

one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off- premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A private party may not file an action against the alleged violator for these exposures, or recover in a settlement any payment in lieu of penalties any reimbursement for costs and attorney's fees, if the notice was served on or after October 5, 2013, and the alleged violator has done *all* of the following within 14 days of being served notice:

- Corrected the alleged violation;
- Agreed to pay a civil penalty of \$500 (subject to change as noted below) to the private party within 30 days; and
- Notified the private party serving the notice in writing that the violation has been corrected.

The written notification to the private-party must include a notice of special compliance procedure and proof of compliance form completed by the alleged violator as directed in the notice. On April 1, 2019, and every five years thereafter, the dollar amount of the civil penalty will be adjusted by the Judicial Council based on the change in the annual California Consumer Price Index. The Judicial Council will publish the dollar amount of the adjusted civil penalty at each five-year interval, together with the date of the next scheduled adjustment.

An alleged violator may satisfy these conditions only one time for a violation arising from the same exposure in the same facility or on the same premises. The satisfaction of these conditions does not prevent the Attorney General, a district attorney, a city attorney of a city of greater than 750,000 population, or any full-time city prosecutor with the consent of the district attorney, from filing an enforcement action against an alleged violator. The amount of any civil penalty for a violation shall be reduced to reflect any payment made by the alleged violator for the same alleged violation to a private-party.

A copy of the notice of special compliance procedure and proof of compliance form is included with this notice and can be downloaded from OEHHHA's website at: <http://oehha.ca.gov/prop65/law/p65law72003.html>. The notice is reproduced here:

Name of Noticing Party or attorney for Noticing Party:

Address:

Phone number:

SPECIAL COMPLIANCE PROCEDURE PROOF OF COMPLIANCE

You are receiving this form because the Noticing Party listed above has alleged that you are violating California Health and Safety Code §25249.6 (Prop. 65).

The Noticing Party may not bring any legal proceedings against you for the alleged violation checked below if:

1. You have actually taken the corrective steps that you have certified in this form
2. The Noticing Party has received this form at the address shown above, accurately completed by you, postmarked within 14 days of your receiving this notice
3. The Noticing Party receives the required \$500 penalty payment from you at the address shown above postmarked within 30 days of your receiving this notice.
4. This is the first time you have submitted a Proof of Compliance for a violation arising from the same exposure in the same facility on the same premises.

PART 1: TO BE COMPLETED BY THE NOTICING PARTY OR ATTORNEY FOR THE NOTICING PARTY

The alleged violation is for an exposure to: (check one)

Alcoholic beverages that are consumed on the alleged violator's premises to the extent on-site consumption is permitted by law.

A chemical known to the state to cause cancer or reproductive toxicity in a food or beverage prepared and sold on the alleged violator's premises for immediate consumption on or off premises to the extent: (1) the chemical was not intentionally added; and (2) the chemical was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination.

Environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises.

Chemicals known to the State to cause cancer or reproductive toxicity in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking noncommercial vehicles.

IMPORTANT NOTES:

1. You have no potential liability under California Health and Safety Code §25249.6 if your business has nine (9) or fewer employees.
2. Using this form will NOT prevent the Attorney General, a district attorney, a city attorney, or a prosecutor in whose jurisdiction the violation is alleged to have occurred from filing an action over the same alleged violations, and that in any such action, the amount of civil penalty shall be reduced to reflect any payment made at this time.

PART 2: TO BE COMPLETED BY THE ALLEGED VIOLATOR OR AUTHORIZED REPRESENTATIVE

Certification of Compliance

Accurate completion of this form will demonstrate that you are now in compliance with California Health and Safety Code §25249.6 for the alleged violation listed above. You must complete and submit the form below to the Noticing Party at the address shown above, postmarked within 14 days of you receiving

this notice.

I hereby agree to pay, within 30 days of completion of this notice, a civil penalty of \$500 to the Noticing Party only and certify that I have complied with Health and Safety Code §25249.6 by (check only one of the following):

Posting a warning or warnings about the alleged exposure that complies with the law, and attaching a copy of that warning and a photograph accurately showing its placement on my premises;

Posting the warning or warnings demanded in writing by the Noticing Party, and attaching a copy of that warning and a photograph accurately its placement on my premises; OR

Eliminating the alleged exposure, and attaching a statement accurately describing how the alleged exposure has been eliminated.

Certification

My statements on this form, and on any attachments to it, are true, complete, and correct to the best of my knowledge and belief and are made in good faith. I have carefully read the instructions to complete this form. I understand that if I make a false statement on this form, I may be subject to additional penalties under the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).

Signature of alleged violator or authorized representative Date

Certificate of Merit
Health & Safety Code Section 25249.7(d)

I, Fredric Evenson, hereby declare:

(1) This Certificate of Merit accompanies the attached sixty-day notice(s) in which it is alleged the parties identified in the notices have violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings.

(2) I am the attorney for the noticing party.

(3) I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the alleged exposure to the listed chemical that is the subject of the action.

(4) Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.

(5) The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and Safety Code section 25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Fredric Evenson

CERTIFICATE OF SERVICE

I am a California resident, over the age of 18 and not a party to this case. My business address is P.O. Box 1000, Santa Cruz, CA 95061.

On June 30, 2017, I served the following:

- 1) Notice of Violations: California Safe Drinking Water and Toxic Enforcement Act
- 2) Certificate of Merit: Health and Safety Code Section 25249.7(d)
- 3) Appendix A: The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary
- 4) Certificate of Service

by enclosing copies of the same in a sealed envelope addressed to each person shown below and depositing the envelope in the U.S. mail with postage fully prepaid for delivery by Certified Mail. Place of mailing: Santa Cruz, CA.

Brent Lasure, Registered Agent Cabela's Inc. One Cabela Drive Sidney, NE 69160	Thomas L. Millner, President Cabela's Inc. One Cabela Drive Sidney, NE 69160
---	---

On July 3, 2017, I also served the following:

- 1) Notice of Violations: California Safe Drinking Water and Toxic Enforcement Act
- 2) Certificate of Merit: Health and Safety Code Section 25249.7(d)
- 3) Certificate of Merit (Attorney General Copy): Factual information sufficient to establish the basis of the Certificate of Merit (only sent to Attorney General)
- 4) Certificate of Service

by enclosing copies of the same in sealed envelopes addressed to each of the public prosecutors listed on the attached Service List with physical mailing addresses, and depositing the envelopes in the U.S. mail with postage fully prepaid for delivery by First Class Mail. Place of mailing: Santa Cruz, CA.

by sending portable document format (.pdf) files of the same to the electronic mail addresses to each of the public prosecutors identified by the California Attorney General as having authorized electronic service of notices. These public enforcement agencies appear on the attached Service List with their electronic mail addresses.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct. Executed July 3, 2017, at Santa Cruz, CA.

NOTICE OF VIOLATIONS
CALIFORNIA SAFE DRINKING WATER AND
TOXIC ENFORCEMENT ACT

The Corporation Trust Co., Registered Agent Fox Run USA, LLC Corporation Trust Center 1209 Orange St. Wilmington, DE 19801	Sean F. Leonard, President Fox Run USA, LLC 1907 Stout Drive Ivyland, Pennsylvania 18974
--	---

AND THE PUBLIC PROSECUTORS LISTED ON THE DISTRIBUTION LIST
ACCOMPANYING THE ATTACHED CERTIFICATE OF SERVICE

Re: Violations of Proposition 65 Concerning Carbon Monoxide Exposures from
Charcoal Starters

In accord with California Health & Safety Code § 25249.7, Ecological Rights Foundation ("ERF") hereby gives you notice that the above company has violated and is in ongoing violation of California Health & Safety Code § 25249.6, which provides that "[n]o person in the course of doing business shall knowingly and intentionally expose any individual to a chemical known to the state to cause cancer or reproductive toxicity without first providing a clear and reasonable warning to such individual."

Pursuant to California Health & Safety Code § 25249.7, ERF intends to bring an enforcement action 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify the violations discussed in this notice letter. The public enforcement agencies that have been served with copies of this notice of violations are identified in the attached Certificate of Service.

This Notice of Violations ("Notice") is provided to you pursuant to and in compliance with California Health and Safety Code Section 25249.7(d). Attached for your reference is a summary, "Appendix A: The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary" prepared by the California Office of Environmental Health Hazard Assessment ("OEHHA"). Pursuant to Title 11, C.C.R. § 3100, a Certificate of Merit is also attached.

The above-referenced violations occur when California residents use charcoal starters. These products are used primarily for lighting charcoal. Combustion of charcoal produces and exposes people to **carbon monoxide**, a chemical known to the State of California to cause reproductive toxicity. Because the combustion of charcoal causes carbon monoxide to be released into the air, people using charcoal starters, and others standing near the products when charcoal is burning in or on the products, inhale carbon monoxide. Exposure to carbon monoxide is via the inhalation route.

Below is a non-exclusive list of examples of these types of products. Though specific models or SKU or product numbers are given as examples, this Notice pertains to all models, and all variations, of the specific type of product of which the named model is an example.

Outset Chimney Grill Starter UPC# 876824000676

This non-exclusive list of examples of the type of products that are subject to this Notice is for the recipient's benefit and is not meant to be an exhaustive or comprehensive identification of each specific offending product. It is ERF's position that the alleged Violator is obligated to conduct a good faith investigation into other specific products within the identified category or type that may have been manufactured, distributed, sold, shipped, stored (or otherwise within the notice recipient's custody or control) during the past three years, to ensure that clear and reasonable warnings are provided to California citizens prior to purchase, or retroactively if necessary.

These products cause carbon monoxide exposures to occur in peoples yards and everywhere else throughout California where these products are used. These violations are alleged for consumer and environmental exposures.

The noticed party did not and does not provide people with clear and reasonable warnings before they expose them in California to carbon monoxide. The above-referenced violations have occurred every day since at least July 21, 2014 and will continue every day until clear and reasonable warnings are given.

ERF is a California non-profit corporation dedicated to protecting human and environmental health, including raising awareness of, and reducing exposures to, toxic chemicals. The following individual is the responsible individual within ERF for purposes of this Notice:

James Lamport, Executive Director
Ecological Rights Foundation
867 B Redwood Drive
Garberville, California 95542
Telephone: (707) 923-4372

ERF has retained the following counsel to represent them in this matter (please direct communications to counsel):

Fredric Evenson
Ecology Law Center
P.O. Box 1000
Santa Cruz, California 95061
Telephone: (831) 454-8216
Email: evenson@ecologylaw.com

Resolution of Noticed Claims:

ERF is interested in seeking a constructive resolution of this matter that advances the public interest without engaging in costly and protracted litigation. ERF is willing to settle this matter to the extent legally possible prior to the commencement of any enforcement action. Settlement terms would require that the unwarned exposures described in this Notice of Violation be stopped. That would require at least the following: 1) a potential recall of products already sold; 2) that either warnings be given to all future purchasers in California of the products subject to

this Notice, that the products be reformulated to eliminate the exposures described in the Notice, or that you stop marketing, distributing or selling the products in California; 3) that you locate and provide a warning compliant with 27 Cal. Code Regs Section 25601 to each person who has been subject to the unwarned exposures described in the Notice to the extent those exposures are caused by products that were sold in California during the past three years; and 4) that you pay an appropriate civil penalty based on the factors enumerated in California Health and Safety Code Section 25249(b). It should be noted that ERF cannot finalize any settlement of this matter until 70 days have elapsed since the sending of the Notice and unless no public enforcer has begun an enforcement action concerning the violations described in the Notice. Any settlement on behalf of the public interest must be approved by the California Superior Court on noticed motion with 45 days' notice to the California Attorney General. The Attorney General may appear at any approval hearing and oppose a settlement if he or she believes the proposed settlement is not in the public interest. If you wish to discuss settlement of this matter before ERF files suit, please promptly contact ERF's counsel.

Sincerely,

Fredric Evenson

27 CCR Appendix A
Appendix A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986
(PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. Please refer to the statute and OEHHA's implementing regulations (see citations below) for further information. FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 ([Health and Safety Code Sections 25249.5 through 25249.13](http://www.ochha.ca.gov/prop65/law/P65law72003.html)) is available online at: <http://www.ochha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in [Title 27 of the California Code of Regulations, sections 25102 through 27001](http://www.ochha.ca.gov/prop65/law/P65Regs.html). These implementing regulations are available online at: <http://www.ochha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Proposition 65 List." Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.ochha.ca.gov/prop65/prop65_list/Newlist.html. Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies. The warning given must be "clear and reasonable." This means that the warning must: (1) clearly say that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.ochha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Periods. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.ochha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.ochha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a "significant amount" of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if

one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off- premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A private party may not file an action against the alleged violator for these exposures, or recover in a settlement any payment in lieu of penalties any reimbursement for costs and attorney's fees, if the notice was served on or after October 5, 2013, and the alleged violator has done *all* of the following within 14 days of being served notice:

- Corrected the alleged violation;
- Agreed to pay a civil penalty of \$500 (subject to change as noted below) to the private party within 30 days; and
- Notified the private party serving the notice in writing that the violation has been corrected.

The written notification to the private-party must include a notice of special compliance procedure and proof of compliance form completed by the alleged violator as directed in the notice. On April 1, 2019, and every five years thereafter, the dollar amount of the civil penalty will be adjusted by the Judicial Council based on the change in the annual **California** Consumer Price Index. The Judicial Council will publish the dollar amount of the adjusted civil penalty at each five-year interval, together with the date of the next scheduled adjustment.

An alleged violator may satisfy these conditions only one time for a violation arising from the same exposure in the same facility or on the same premises. The satisfaction of these conditions does not prevent the Attorney General, a district attorney, a city attorney of a city of greater than 750,000 population, or any full-time city prosecutor with the consent of the district attorney, from filing an enforcement action against an alleged violator. The amount of any civil penalty for a violation shall be reduced to reflect any payment made by the alleged violator for the same alleged violation to a private-party.

A copy of the notice of special compliance procedure and proof of compliance form is included with this notice and can be downloaded from OEHHA's website at: <http://ochha.ca.gov/prop65/law/p65law72003.html>. The notice is reproduced here:

Address:

Phone number:

SPECIAL COMPLIANCE PROCEDURE PROOF OF COMPLIANCE

You are receiving this form because the Noticing Party listed above has alleged that you are violating California Health and Safety Code §25249.6 (Prop. 65).

The Noticing Party may not bring any legal proceedings against you for the alleged violation checked below if:

1. **You have actually taken the corrective steps that you have certified in this form**
2. **The Noticing Party has received this form at the address shown above, accurately completed by you, postmarked within 14 days of your receiving this notice**
3. **The Noticing Party receives the required \$500 penalty payment from you at the address shown above postmarked within 30 days of your receiving this notice.**
4. **This is the first time you have submitted a Proof of Compliance for a violation arising from the same exposure in the same facility on the same premises.**

PART 1: TO BE COMPLETED BY THE NOTICING PARTY OR ATTORNEY FOR THE NOTICING PARTY

The alleged violation is for an exposure to: (check one)

Alcoholic beverages that are consumed on the alleged violator's premises to the extent on-site consumption is permitted by law.

A chemical known to the state to cause cancer or reproductive toxicity in a food or beverage prepared and sold on the alleged violator's premises for immediate consumption on or off premises to the extent: (1) the chemical was not intentionally added; and (2) the chemical was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination.

Environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises.

Chemicals known to the State to cause cancer or reproductive toxicity in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking noncommercial vehicles.

IMPORTANT NOTES:

1. You have no potential liability under California Health and Safety Code §25249.6 if your business has nine (9) or fewer employees.
2. Using this form will NOT prevent the Attorney General, a district attorney, a city attorney, or a prosecutor in whose jurisdiction the violation is alleged to have occurred from filing an action over the same alleged violations, and that in any such action, the amount of civil penalty shall be reduced to reflect any payment made at this time.

PART 2: TO BE COMPLETED BY THE ALLEGED VIOLATOR OR AUTHORIZED REPRESENTATIVE

Certification of Compliance

Accurate completion of this form will demonstrate that you are now in compliance with California Health and Safety Code §25249.6 for the alleged violation listed above. You must complete and submit the form below to the Noticing Party at the address shown above, postmarked within 14 days of you receiving

this notice.

I hereby agree to pay, within 30 days of completion of this notice, a civil penalty of \$500 to the Noticing Party only and certify that I have complied with Health and Safety Code §25249.6 by (check only one of the following):

- Posting a warning or warnings about the alleged exposure that complies with the law, and attaching a copy of that warning and a photograph accurately showing its placement on my premises;
- Posting the warning or warnings demanded in writing by the Noticing Party, and attaching a copy of that warning and a photograph accurately its placement on my premises; OR
- Eliminating the alleged exposure, and attaching a statement accurately describing how the alleged exposure has been eliminated.

Certification

My statements on this form, and on any attachments to it, are true, complete, and correct to the best of my knowledge and belief and are made in good faith. I have carefully read the instructions to complete this form. I understand that if I make a false statement on this form, I may be subject to additional penalties under the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).

Certificate of Merit
Health & Safety Code Section 25249.7(d)

I, Fredric Evenson, hereby declare:

(1) This Certificate of Merit accompanies the attached sixty-day notice(s) in which it is alleged the parties identified in the notices have violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings.

(2) I am the attorney for the noticing party.

(3) I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the alleged exposure to the listed chemical that is the subject of the action.

(4) Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.

(5) The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and Safety Code section 25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Fredric Evenson

CERTIFICATE OF SERVICE

I am a California resident, over the age of 18 and not a party to this case. My business address is P.O. Box 1000, Santa Cruz, CA 95061.

On July 21, 2017, I served the following:

- 1) Notice of Violations: California Safe Drinking Water and Toxic Enforcement Act
- 2) Certificate of Merit: Health and Safety Code Section 25249.7(d)
- 3) Appendix A: The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary
- 4) Certificate of Service

by enclosing copies of the same in a sealed envelope addressed to each person shown below and depositing the envelope in the U.S. mail with postage fully prepaid for delivery by Certified Mail. Place of mailing: Santa Cruz, CA.

The Corporation Trust Co., Registered Agent Fox Run USA, LLC Corporation Trust Center 1209 Orange St. Wilmington, DE 19801	Sean F. Leonard, President Fox Run USA, LLC 1907 Stout Drive Ivyland, Pennsylvania 18974
--	---

On July 21, 2017, I also served the following:

- 1) Notice of Violations: California Safe Drinking Water and Toxic Enforcement Act
- 2) Certificate of Merit: Health and Safety Code Section 25249.7(d)
- 3) Certificate of Merit (Attorney General Copy): Factual information sufficient to establish the basis of the Certificate of Merit (only sent to Attorney General)
- 4) Certificate of Service

by enclosing copies of the same in sealed envelopes addressed to each of the public prosecutors listed on the attached Service List with physical mailing addresses, and depositing the envelopes in the U.S. mail with postage fully prepaid for delivery by First Class Mail. Place of mailing: Santa Cruz, CA.

by sending portable document format (.pdf) files of the same to the electronic mail addresses to each of the public prosecutors identified by the California Attorney General as having authorized electronic service of notices. These public enforcement agencies appear on the attached Service List with their electronic mail addresses.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct. Executed July 21, 2017, at Santa Cruz, CA.

NOTICE OF VIOLATIONS
CALIFORNIA SAFE DRINKING WATER AND
TOXIC ENFORCEMENT ACT

George Cavanaugh, Registered Agent The Allen Company, Inc. 525 Burbank St. Broomfield, CO 80020	President/CEO The Allen Company, Inc. P.O. Box 445 Broomfield, CO 80038
--	--

AND THE PUBLIC PROSECUTORS LISTED ON THE DISTRIBUTION LIST
ACCOMPANYING THE ATTACHED CERTIFICATE OF SERVICE

Re: Violations of Proposition 65 Concerning Carbon Monoxide Exposures from
Charcoal Starter

In accord with California Health & Safety Code § 25249.7, Ecological Rights Foundation ("ERF") hereby gives you notice that the above company has violated and is in ongoing violation of California Health & Safety Code § 25249.6, which provides that "[n]o person in the course of doing business shall knowingly and intentionally expose any individual to a chemical known to the state to cause cancer or reproductive toxicity without first providing a clear and reasonable warning to such individual."

Pursuant to California Health & Safety Code § 25249.7, ERF intends to bring an enforcement action 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify the violations discussed in this notice letter. The public enforcement agencies that have been served with copies of this notice of violations are identified in the attached Certificate of Service.

This Notice of Violations ("Notice") is provided to you pursuant to and in compliance with California Health and Safety Code Section 25249.7(d). Attached for your reference is a summary, "Appendix A: The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary" prepared by the California Office of Environmental Health Hazard Assessment ("OEHHA"). Pursuant to Title 11, C.C.R. § 3100, a Certificate of Merit is also attached.

The above-referenced violations occur when California residents use charcoal starters. These products are used primarily for lighting charcoal. Combustion of charcoal produces and exposes people to **carbon monoxide**, a chemical known to the State of California to cause reproductive toxicity. Because the combustion of charcoal causes carbon monoxide to be released into the air, people using charcoal starters, and others standing near the products when charcoal is burning in or on the products, inhale carbon monoxide. Exposure to carbon monoxide is via the inhalation route.

Below is a non-exclusive list of examples of these types of products. Though specific models or SKU or product numbers are given as examples, this Notice pertains to all models, and all

variations, of the specific type of product of which the named model is an example.

Modern Leisure Easy Release Charcoal Starter SKU# 026509072300
--

This non-exclusive list of examples of the type of products that are subject to this Notice is for the recipient's benefit and is not meant to be an exhaustive or comprehensive identification of each specific offending product. It is ERF's position that the alleged Violator is obligated to conduct a good faith investigation into other specific products within the identified category or type that may have been manufactured, distributed, sold, shipped, stored (or otherwise within the notice recipient's custody or control) during the past three years, to ensure that clear and reasonable warnings are provided to California citizens prior to purchase, or retroactively if necessary.

These products cause carbon monoxide exposures to occur in peoples yards and everywhere else throughout California where these products are used. These violations are alleged for consumer and environmental exposures.

The noticed party did not and does not provide people with clear and reasonable warnings before they expose them in California to carbon monoxide. The above-referenced violations have occurred every day since at least July 3, 2014 and will continue every day until clear and reasonable warnings are given.

ERF is a California non-profit corporation dedicated to protecting human and environmental health, including raising awareness of, and reducing exposures to, toxic chemicals. The following individual is the responsible individual within ERF for purposes of this Notice:

James Lamport, Executive Director
Ecological Rights Foundation
867 B Redwood Drive
Garberville, California 95542
Telephone: (707) 923-4372

ERF has retained the following counsel to represent them in this matter (please direct communications to counsel):

Fredric Evenson
Ecology Law Center
P.O. Box 1000
Santa Cruz, California 95061
Telephone: (831) 454-8216
Email: evenson@ecologylaw.com

Resolution of Noticed Claims:

ERF is interested in seeking a constructive resolution of this matter that advances the public interest without engaging in costly and protracted litigation. ERF is willing to settle this matter to the extent legally possible prior to the commencement of any enforcement action. Settlement terms would require that the unwarned exposures described in this Notice of Violation be stopped. That would require at least the following: 1) a potential recall of products already sold; 2) that either warnings be given to all future purchasers in California of the products subject to this Notice, that the products be reformulated to eliminate the exposures described in the Notice, or that you stop marketing, distributing or selling the products in California; 3) that you locate

and provide a warning compliant with 27 Cal. Code Regs Section 25601 to each person who has been subject to the unwarned exposures described in the Notice to the extent those exposures are caused by products that were sold in California during the past three years; and 4) that you pay an appropriate civil penalty based on the factors enumerated in California Health and Safety Code Section 25249(b). It should be noted that ERF cannot finalize any settlement of this matter until 70 days have elapsed since the sending of the Notice and unless no public enforcer has begun an enforcement action concerning the violations described in the Notice. Any settlement on behalf of the public interest must be approved by the California Superior Court on noticed motion with 45 days' notice to the California Attorney General. The Attorney General may appear at any approval hearing and oppose a settlement if he or she believes the proposed settlement is not in the public interest. If you wish to discuss settlement of this matter before ERF files suit, please promptly contact ERF's counsel.

Sincerely,

Fredric Evenson

27 CCR Appendix A
Appendix A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986
(PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. Please refer to the statute and OEHHA's implementing regulations (see citations below) for further information. FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001. These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Proposition 65 List." Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies. The warning given must be "clear and reasonable." This means that the warning must: (1) clearly say that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Periods. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a "significant amount" of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if

one of the governmental officials noted above initiates an enforcement action within sixty days of the notice. A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off- premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A private party may not file an action against the alleged violator for these exposures, or recover in a settlement any payment in lieu of penalties any reimbursement for costs and attorney's fees, if the notice was served on or after October 5, 2013, and the alleged violator has done *all* of the following within 14 days of being served notice:

- Corrected the alleged violation;
- Agreed to pay a civil penalty of \$500 (subject to change as noted below) to the private party within 30 days; and
- Notified the private party serving the notice in writing that the violation has been corrected.

The written notification to the private-party must include a notice of special compliance procedure and proof of compliance form completed by the alleged violator as directed in the notice. On April 1, 2019, and every five years thereafter, the dollar amount of the civil penalty will be adjusted by the Judicial Council based on the change in the annual California Consumer Price Index. The Judicial Council will publish the dollar amount of the adjusted civil penalty at each five-year interval, together with the date of the next scheduled adjustment.

An alleged violator may satisfy these conditions only one time for a violation arising from the same exposure in the same facility or on the same premises. The satisfaction of these conditions does not prevent the Attorney General, a district attorney, a city attorney of a city of greater than 750,000 population, or any full-time city prosecutor with the consent of the district attorney, from filing an enforcement action against an alleged violator. The amount of any civil penalty for a violation shall be reduced to reflect any payment made by the alleged violator for the same alleged violation to a private-party.

A copy of the notice of special compliance procedure and proof of compliance form is included with this notice and can be downloaded from OEHHA's website at: <http://oehha.ca.gov/prop65/law/p65law72003.html>. The notice is reproduced here:

SPECIAL COMPLIANCE PROCEDURE PROOF OF COMPLIANCE

You are receiving this form because the Noticing Party listed above has alleged that you are violating California Health and Safety Code §25249.6 (Prop. 65).

The Noticing Party may not bring any legal proceedings against you for the alleged violation checked below if:

1. You have actually taken the corrective steps that you have certified in this form
2. The Noticing Party has received this form at the address shown above, accurately completed by you, postmarked within 14 days of your receiving this notice
3. The Noticing Party receives the required \$500 penalty payment from you at the address shown above postmarked within 30 days of your receiving this notice.
4. This is the first time you have submitted a Proof of Compliance for a violation arising from the same exposure in the same facility on the same premises.

PART 1: TO BE COMPLETED BY THE NOTICING PARTY OR ATTORNEY FOR THE NOTICING PARTY

The alleged violation is for an exposure to: (check one)

Alcoholic beverages that are consumed on the alleged violator's premises to the extent on-site consumption is permitted by law.

A chemical known to the state to cause cancer or reproductive toxicity in a food or beverage prepared and sold on the alleged violator's premises for immediate consumption on or off premises to the extent: (1) the chemical was not intentionally added; and (2) the chemical was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination.

Environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises.

Chemicals known to the State to cause cancer or reproductive toxicity in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking noncommercial vehicles.

IMPORTANT NOTES:

1. You have no potential liability under California Health and Safety Code §25249.6 if your business has nine (9) or fewer employees.
2. Using this form will NOT prevent the Attorney General, a district attorney, a city attorney, or a prosecutor in whose jurisdiction the violation is alleged to have occurred from filing an action over the same alleged violations, and that in any such action, the amount of civil penalty shall be reduced to reflect any payment made at this time.

Page 2

Date :

Name of Noticing Party or attorney for Noticing Party:

Address:

Phone number:

PART 2: TO BE COMPLETED BY THE ALLEGED VIOLATOR OR AUTHORIZED REPRESENTATIVE

Certification of Compliance

Accurate completion of this form will demonstrate that you are now in compliance with California Health and Safety Code §25249.6 for the alleged violation listed above. You must complete and submit the form below to the Noticing Party at the address shown above, postmarked within 14 days of you receiving

this notice.

I hereby agree to pay, within 30 days of completion of this notice, a civil penalty of \$500 to the Noticing Party only and certify that I have complied with Health and Safety Code §25249.6 by (check only one of the following):

- Posting a warning or warnings about the alleged exposure that complies with the law, and attaching a copy of that warning and a photograph accurately showing its placement on my premises;
- Posting the warning or warnings demanded in writing by the Noticing Party, and attaching a copy of that warning and a photograph accurately its placement on my premises; OR
- Eliminating the alleged exposure, and attaching a statement accurately describing how the alleged exposure has been eliminated.

Certification

My statements on this form, and on any attachments to it, are true, complete, and correct to the best of my knowledge and belief and are made in good faith. I have carefully read the instructions to complete this form. I understand that if I make a false statement on this form, I may be subject to additional penalties under the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).

Certificate of Merit
Health & Safety Code Section 25249.7(d)

I, Fredric Evenson, hereby declare:

- (1) This Certificate of Merit accompanies the attached sixty-day notice(s) in which it is alleged the parties identified in the notices have violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings.
- (2) I am the attorney for the noticing party.
- (3) I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the alleged exposure to the listed chemical that is the subject of the action.
- (4) Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.
- (5) The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and Safety Code section 25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Fredric Evenson

CERTIFICATE OF SERVICE

I am a California resident, over the age of 18 and not a party to this case. My business address is P.O. Box 1000, Santa Cruz, CA 95061.

On July 3, 2017, I served the following:

- 1) Notice of Violations: California Safe Drinking Water and Toxic Enforcement Act
- 2) Certificate of Merit: Health and Safety Code Section 25249.7(d)
- 3) Appendix A: The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary
- 4) Certificate of Service

by enclosing copies of the same in a sealed envelope addressed to each person shown below and depositing the envelope in the U.S. mail with postage fully prepaid for delivery by Certified Mail. Place of mailing: Santa Cruz, CA.

George Cavanaugh, Registered Agent The Allen Company, Inc. 525 Burbank St. Broomfield, CO 80020	President/CEO The Allen Company, Inc. P.O. Box 445 Broomfield, CO 80083
--	--

On July 3, 2017, I also served the following:

- 1) Notice of Violations: California Safe Drinking Water and Toxic Enforcement Act
- 2) Certificate of Merit: Health and Safety Code Section 25249.7(d)
- 3) Certificate of Merit (Attorney General Copy): Factual information sufficient to establish the basis of the Certificate of Merit (only sent to Attorney General)
- 4) Certificate of Service

by enclosing copies of the same in sealed envelopes addressed to each of the public prosecutors listed on the attached Service List with physical mailing addresses, and depositing the envelopes in the U.S. mail with postage fully prepaid for delivery by First Class Mail. Place of mailing: Santa Cruz, CA.

by sending portable document format (.pdf) files of the same to the electronic mail addresses to each of the public prosecutors identified by the California Attorney General as having authorized electronic service of notices. These public enforcement agencies appear on the attached Service List with their electronic mail addresses.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct. Executed July 3, 2017, at Santa Cruz, CA.

NOTICE OF VIOLATIONS
CALIFORNIA SAFE DRINKING WATER AND
TOXIC ENFORCEMENT ACT

Jon M Balousek, CEO The Kingsford Products Company, LLC P.O. Box 24305 Oakland, CA 94623	The Corporation Trust Company, Registered Agent The Kingsford Products Company, LLC 1209 Orange St, Wilmington, DE 19801
---	--

AND THE PUBLIC PROSECUTORS LISTED ON THE DISTRIBUTION LIST
ACCOMPANYING THE ATTACHED CERTIFICATE OF SERVICE

Re: Violations of Proposition 65 Concerning Carbon Monoxide Exposures from
Charcoal Starter

In accord with California Health & Safety Code § 25249.7, Ecological Rights Foundation ("ERF") hereby gives you notice that the above company has violated and is in ongoing violation of California Health & Safety Code § 25249.6, which provides that "[n]o person in the course of doing business shall knowingly and intentionally expose any individual to a chemical known to the state to cause cancer or reproductive toxicity without first providing a clear and reasonable warning to such individual."

Pursuant to California Health & Safety Code § 25249.7, ERF intends to bring an enforcement action 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify the violations discussed in this notice letter. The public enforcement agencies that have been served with copies of this notice of violations are identified in the attached Certificate of Service.

This Notice of Violations ("Notice") is provided to you pursuant to and in compliance with California Health and Safety Code Section 25249.7(d). Attached for your reference is a summary, "Appendix A: The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary" prepared by the California Office of Environmental Health Hazard Assessment ("OEHHA"). Pursuant to Title 11, C.C.R. § 3100, a Certificate of Merit is also attached.

The above-referenced violations occur when California residents use charcoal starters. These products are used primarily for lighting charcoal. Combustion of charcoal produces and exposes people to **carbon monoxide**, a chemical known to the State of California to cause reproductive toxicity. Because the combustion of charcoal causes carbon monoxide to be released into the air, people using charcoal starters, and others standing near the products when charcoal is burning in or on the products, inhale carbon monoxide. Exposure to carbon monoxide is via the inhalation route.

Below is a non-exclusive list of examples of these types of products. Though specific models or

SKU or product numbers are given as examples, this Notice pertains to all models, and all variations, of the specific type of product of which the named model is an example.

Kingsford Deluxe Series Charcoal Chimney Starter UPC# 848696006513

This non-exclusive list of examples of the type of products that are subject to this Notice is for the recipient's benefit and is not meant to be an exhaustive or comprehensive identification of each specific offending product. It is ERF's position that the alleged Violator is obligated to conduct a good faith investigation into other specific products within the identified category or type that may have been manufactured, distributed, sold, shipped, stored (or otherwise within the notice recipient's custody or control) during the past three years, to ensure that clear and reasonable warnings are provided to California citizens prior to purchase, or retroactively if necessary.

These products cause carbon monoxide exposures to occur in peoples yards and everywhere else throughout California where these products are used. These violations are alleged for consumer and environmental exposures.

The noticed party did not and does not provide people with clear and reasonable warnings before they expose them in California to carbon monoxide. The above-referenced violations have occurred every day since at least July 21, 2014 and will continue every day until clear and reasonable warnings are given.

ERF is a California non-profit corporation dedicated to protecting human and environmental health, including raising awareness of, and reducing exposures to, toxic chemicals. The following individual is the responsible individual within ERF for purposes of this Notice:

James Lamport, Executive Director
Ecological Rights Foundation
867 B Redwood Drive
Garberville, California 95542
Telephone: (707) 923-4372

ERF has retained the following counsel to represent them in this matter (please direct communications to counsel):

Fredric Evenson
Ecology Law Center
P.O. Box 1000
Santa Cruz, California 95061
Telephone: (831) 454-8216
Email: evenson@ecologylaw.com

Resolution of Noticed Claims:

ERF is interested in seeking a constructive resolution of this matter that advances the public interest without engaging in costly and protracted litigation. ERF is willing to settle this matter to the extent legally possible prior to the commencement of any enforcement action. Settlement terms would require that the unwarned exposures described in this Notice of Violation be stopped. That would require at least the following: 1) a potential recall of products already sold; 2) that either warnings be given to all future purchasers in California of the products subject to this Notice, that the products be reformulated to eliminate the exposures described in the Notice,

or that you stop marketing, distributing or selling the products in California; 3) that you locate and provide a warning compliant with 27 Cal. Code Regs Section 25601 to each person who has been subject to the unwarned exposures described in the Notice to the extent those exposures are caused by products that were sold in California during the past three years; and 4) that you pay an appropriate civil penalty based on the factors enumerated in California Health and Safety Code Section 25249(b). It should be noted that ERF cannot finalize any settlement of this matter until 70 days have elapsed since the sending of the Notice and unless no public enforcer has begun an enforcement action concerning the violations described in the Notice. Any settlement on behalf of the public interest must be approved by the California Superior Court on noticed motion with 45 days' notice to the California Attorney General. The Attorney General may appear at any approval hearing and oppose a settlement if he or she believes the proposed settlement is not in the public interest. If you wish to discuss settlement of this matter before ERF files suit, please promptly contact ERF's counsel.

Sincerely,

Fredric Evenson

27 CCR Appendix A
Appendix A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986
(PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. Please refer to the statute and OEHHA's implementing regulations (see citations below) for further information. FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at:

<http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Rcgs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Proposition 65 List." Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies. The warning given must be "clear and reasonable." This means that the warning must: (1) clearly say that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Periods. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a "significant amount" of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if

one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off- premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A private party may not file an action against the alleged violator for these exposures, or recover in a settlement any payment in lieu of penalties any reimbursement for costs and attorney's fees, if the notice was served on or after October 5, 2013, and the alleged violator has done *all* of the following within 14 days of being served notice:

- Corrected the alleged violation;
- Agreed to pay a civil penalty of \$500 (subject to change as noted below) to the private party within 30 days; and
- Notified the private party serving the notice in writing that the violation has been corrected.

The written notification to the private-party must include a notice of special compliance procedure and proof of compliance form completed by the alleged violator as directed in the notice. On April 1, 2019, and every five years thereafter, the dollar amount of the civil penalty will be adjusted by the Judicial Council based on the change in the annual **California** Consumer Price Index. The Judicial Council will publish the dollar amount of the adjusted civil penalty at each five-year interval, together with the date of the next scheduled adjustment.

An alleged violator may satisfy these conditions only one time for a violation arising from the same exposure in the same facility or on the same premises. The satisfaction of these conditions does not prevent the Attorney General, a district attorney, a city attorney of a city of greater than 750,000 population, or any full-time city prosecutor with the consent of the district attorney, from filing an enforcement action against an alleged violator. The amount of any civil penalty for a violation shall be reduced to reflect any payment made by the alleged violator for the same alleged violation to a private-party.

A copy of the notice of special compliance procedure and proof of compliance form is included with this notice and can be downloaded from OEHHA's website at: <http://oehha.ca.gov/prop65/law/p65law72003.html>. The notice is reproduced here:

Address:

Phone number:

SPECIAL COMPLIANCE PROCEDURE PROOF OF COMPLIANCE

You are receiving this form because the Noticing Party listed above has alleged that you are violating California Health and Safety Code §25249.6 (Prop. 65).

The Noticing Party may not bring any legal proceedings against you for the alleged violation checked below if:

1. **You have actually taken the corrective steps that you have certified in this form**
2. **The Noticing Party has received this form at the address shown above, accurately completed by you, postmarked within 14 days of your receiving this notice**
3. **The Noticing Party receives the required \$500 penalty payment from you at the address shown above postmarked within 30 days of your receiving this notice.**
4. **This is the first time you have submitted a Proof of Compliance for a violation arising from the same exposure in the same facility on the same premises.**

PART 1: TO BE COMPLETED BY THE NOTICING PARTY OR ATTORNEY FOR THE NOTICING PARTY

The alleged violation is for an exposure to: (check one)

Alcoholic beverages that are consumed on the alleged violator's premises to the extent on-site consumption is permitted by law.

A chemical known to the state to cause cancer or reproductive toxicity in a food or beverage prepared and sold on the alleged violator's premises for immediate consumption on or off premises to the extent: (1) the chemical was not intentionally added; and (2) the chemical was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination.

Environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises.

Chemicals known to the State to cause cancer or reproductive toxicity in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking noncommercial vehicles.

IMPORTANT NOTES:

1. You have no potential liability under California Health and Safety Code §25249.6 if your business has nine (9) or fewer employees.
2. Using this form will NOT prevent the Attorney General, a district attorney, a city attorney, or a prosecutor in whose jurisdiction the violation is alleged to have occurred from filing an action over the same alleged violations, and that in any such action, the amount of civil penalty shall be reduced to reflect any payment made at this time.

Date :

Name of Noticing Party or attorney for Noticing Party:

Address:

Phone number:

PART 2: TO BE COMPLETED BY THE ALLEGED VIOLATOR OR AUTHORIZED REPRESENTATIVE

Certification of Compliance

Accurate completion of this form will demonstrate that you are now in compliance with California Health and Safety Code §25249.6 for the alleged violation listed above. You must complete and submit the form below to the Noticing Party at the address shown above, postmarked within 14 days of you receiving

this notice.

I hereby agree to pay, within 30 days of completion of this notice, a civil penalty of \$500 to the Noticing Party only and certify that I have complied with Health and Safety Code §25249.6 by (check only one of the following):

- Posting a warning or warnings about the alleged exposure that complies with the law, and attaching a copy of that warning and a photograph accurately showing its placement on my premises;
- Posting the warning or warnings demanded in writing by the Noticing Party, and attaching a copy of that warning and a photograph accurately its placement on my premises; OR
- Eliminating the alleged exposure, and attaching a statement accurately describing how the alleged exposure has been eliminated.

Certification

My statements on this form, and on any attachments to it, are true, complete, and correct to the best of my knowledge and belief and are made in good faith. I have carefully read the instructions to complete this form. I understand that if I make a false statement on this form, I may be subject to additional penalties under the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).

Certificate of Merit
Health & Safety Code Section 25249.7(d)

I, Fredric Evenson, hereby declare:

(1) This Certificate of Merit accompanies the attached sixty-day notice(s) in which it is alleged the parties identified in the notices have violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings.

(2) I am the attorney for the noticing party.

(3) I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the alleged exposure to the listed chemical that is the subject of the action.

(4) Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.

(5) The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and Safety Code section 25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Date: July 21, 2017

Fredric Evenson

CERTIFICATE OF SERVICE

I am a California resident, over the age of 18 and not a party to this case. My business address is P.O. Box 1000, Santa Cruz, CA 95061.

On July 21, 2017, I served the following:

- 1) Notice of Violations: California Safe Drinking Water and Toxic Enforcement Act
- 2) Certificate of Merit: Health and Safety Code Section 25249.7(d)
- 3) Appendix A: The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary
- 4) Certificate of Service

by enclosing copies of the same in a sealed envelope addressed to each person shown below and depositing the envelope in the U.S. mail with postage fully prepaid for delivery by Certified Mail. Place of mailing: Santa Cruz, CA.

Jon M. Balousek, CEO The Kingsford Products Company, LLC P.O. Box 24305 Oakland, CA 94623	The Corporation Trust Company, Registered Agent The Kingsford Products Company, LLC 1209 Orange St, Wilmington, DE 19801
--	--

On July 21, 2017, I also served the following:

- 1) Notice of Violations: California Safe Drinking Water and Toxic Enforcement Act
- 2) Certificate of Merit: Health and Safety Code Section 25249.7(d)
- 3) Certificate of Merit (Attorney General Copy): Factual information sufficient to establish the basis of the Certificate of Merit (only sent to Attorney General)
- 4) Certificate of Service

by enclosing copies of the same in sealed envelopes addressed to each of the public prosecutors listed on the attached Service List with physical mailing addresses, and depositing the envelopes in the U.S. mail with postage fully prepaid for delivery by First Class Mail. Place of mailing: Santa Cruz, CA.

by sending portable document format (.pdf) files of the same to the electronic mail addresses to each of the public prosecutors identified by the California Attorney General as having authorized electronic service of notices. These public enforcement agencies appear on the attached Service List with their electronic mail addresses.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct. Executed July 21, 2017, at Santa Cruz, CA.

NOTICE OF VIOLATIONS
CALIFORNIA SAFE DRINKING WATER AND
TOXIC ENFORCEMENT ACT

Greg Sandfort, CEO Tractor Supply Company 5401 Virginia Way, Brentwood, TN 37027	Tractor Supply Company c/o CT Corporation System 818 West 7th Street, Ste. 930 Los Angeles, CA 90017
---	---

AND THE PUBLIC PROSECUTORS LISTED ON THE DISTRIBUTION LIST
ACCOMPANYING THE ATTACHED CERTIFICATE OF SERVICE

Re: Violations of Proposition 65 Concerning Carbon Monoxide Exposures from
Charcoal Starter

In accord with California Health & Safety Code § 25249.7, Ecological Rights Foundation ("ERF") hereby gives you notice that the above company has violated and is in ongoing violation of California Health & Safety Code § 25249.6, which provides that "[n]o person in the course of doing business shall knowingly and intentionally expose any individual to a chemical known to the state to cause cancer or reproductive toxicity without first providing a clear and reasonable warning to such individual."

Pursuant to California Health & Safety Code § 25249.7, ERF intends to bring an enforcement action 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify the violations discussed in this notice letter. The public enforcement agencies that have been served with copies of this notice of violations are identified in the attached Certificate of Service.

This Notice of Violations ("Notice") is provided to you pursuant to and in compliance with California Health and Safety Code Section 25249.7(d). Attached for your reference is a summary, "Appendix A: The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary" prepared by the California Office of Environmental Health Hazard Assessment ("OEHHA"). Pursuant to Title 11, C.C.R. § 3100, a Certificate of Merit is also attached.

The above-referenced violations occur when California residents use charcoal starters. These products are used primarily for lighting charcoal. Combustion of charcoal produces and exposes people to **carbon monoxide**, a chemical known to the State of California to cause reproductive toxicity. Because the combustion of charcoal causes carbon monoxide to be released into the air, people using charcoal starters, and others standing near the products when charcoal is burning in or on the products, inhale carbon monoxide. Exposure to carbon monoxide is via the inhalation route.

Below is a non-exclusive list of examples of these types of products. Though specific models or SKU or product numbers are given as examples, this Notice pertains to all models, and all

variations, of the specific type of product of which the named model is an example.

Kingsford Deluxe Series Charcoal Chimney Starter UPC# 848696006513
--

This non-exclusive list of examples of the type of products that are subject to this Notice is for the recipient's benefit and is not meant to be an exhaustive or comprehensive identification of each specific offending product. It is ERF's position that the alleged Violator is obligated to conduct a good faith investigation into other specific products within the identified category or type that may have been manufactured, distributed, sold, shipped, stored (or otherwise within the notice recipient's custody or control) during the past three years, to ensure that clear and reasonable warnings are provided to California citizens prior to purchase, or retroactively if necessary.

These products cause carbon monoxide exposures to occur in peoples yards and everywhere else throughout California where these products are used. These violations are alleged for consumer and environmental exposures.

The noticed party did not and does not provide people with clear and reasonable warnings before they expose them in California to carbon monoxide. The above-referenced violations have occurred every day since at least October 10, 2014 and will continue every day until clear and reasonable warnings are given.

ERF is a California non-profit corporation dedicated to protecting human and environmental health, including raising awareness of, and reducing exposures to, toxic chemicals. The following individual is the responsible individual within ERF for purposes of this Notice:

James Lamport, Executive Director
Ecological Rights Foundation
867 B Redwood Drive
Garberville, California 95542
Telephone: (707) 923-4372

ERF has retained the following counsel to represent them in this matter (please direct communications to counsel):

Fredric Evenson
Ecology Law Center
P.O. Box 1000
Santa Cruz, California 95061
Telephone: (831) 454-8216
Email: evenson@ecologylaw.com

Resolution of Noticed Claims:

ERF is interested in seeking a constructive resolution of this matter that advances the public interest without engaging in costly and protracted litigation. ERF is willing to settle this matter to the extent legally possible prior to the commencement of any enforcement action. Settlement terms would require that the unwarned exposures described in this Notice of Violation be stopped. That would require at least the following: 1) a potential recall of products already sold; 2) that either warnings be given to all future purchasers in California of the products subject to this Notice, that the products be reformulated to eliminate the exposures described in the Notice, or that you stop marketing, distributing or selling the products in California; 3) that you locate

and provide a warning compliant with 27 Cal. Code Regs Section 25601 to each person who has been subject to the unwarned exposures described in the Notice to the extent those exposures are caused by products that were sold in California during the past three years; and 4) that you pay an appropriate civil penalty based on the factors enumerated in California Health and Safety Code Section 25249(b). It should be noted that ERF cannot finalize any settlement of this matter until 70 days have elapsed since the sending of the Notice and unless no public enforcer has begun an enforcement action concerning the violations described in the Notice. Any settlement on behalf of the public interest must be approved by the California Superior Court on noticed motion with 45 days' notice to the California Attorney General. The Attorney General may appear at any approval hearing and oppose a settlement if he or she believes the proposed settlement is not in the public interest. If you wish to discuss settlement of this matter before ERF files suit, please promptly contact ERF's counsel.

Sincerely,

Fredric Evenson

27 CCR Appendix A
Appendix A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986
(PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. Please refer to the statute and OEHHA's implementing regulations (see citations below) for further information. FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Proposition 65 List." Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html. Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies. The warning given must be "clear and reasonable." This means that the warning must: (1) clearly say that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Periods. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a "significant amount" of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if

one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off- premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A private party may not file an action against the alleged violator for these exposures, or recover in a settlement any payment in lieu of penalties any reimbursement for costs and attorney's fees, if the notice was served on or after October 5, 2013, and the alleged violator has done *all* of the following within 14 days of being served notice:

- Corrected the alleged violation;
- Agreed to pay a civil penalty of \$500 (subject to change as noted below) to the private party within 30 days; and
- Notified the private party serving the notice in writing that the violation has been corrected.

The written notification to the private-party must include a notice of special compliance procedure and proof of compliance form completed by the alleged violator as directed in the notice. On April 1, 2019, and every five years thereafter, the dollar amount of the civil penalty will be adjusted by the Judicial Council based on the change in the annual **California** Consumer Price Index. The Judicial Council will publish the dollar amount of the adjusted civil penalty at each five-year interval, together with the date of the next scheduled adjustment.

An alleged violator may satisfy these conditions only one time for a violation arising from the same exposure in the same facility or on the same premises. The satisfaction of these conditions does not prevent the Attorney General, a district attorney, a city attorney of a city of greater than 750,000 population, or any full-time city prosecutor with the consent of the district attorney, from filing an enforcement action against an alleged violator. The amount of any civil penalty for a violation shall be reduced to reflect any payment made by the alleged violator for the same alleged violation to a private-party.

A copy of the notice of special compliance procedure and proof of compliance form is included with this notice and can be downloaded from OEHHA's website at: <http://oehha.ca.gov/prop65/law/p65law72003.html>. The notice is reproduced here:

Name of Noticing Party or attorney for Noticing Party:

Address:

Phone number:

SPECIAL COMPLIANCE PROCEDURE PROOF OF COMPLIANCE

You are receiving this form because the Noticing Party listed above has alleged that you are violating **California Health and Safety Code §25249.6** (Prop. 65).

The Noticing Party may not bring any legal proceedings against you for the alleged violation checked below if:

1. You have actually taken the corrective steps that you have certified in this form
2. The Noticing Party has received this form at the address shown above, accurately completed by you, postmarked within 14 days of your receiving this notice
3. The Noticing Party receives the required \$500 penalty payment from you at the address shown above postmarked within 30 days of your receiving this notice.
4. This is the first time you have submitted a Proof of Compliance for a violation arising from the same exposure in the same facility on the same premises.

PART 1: TO BE COMPLETED BY THE NOTICING PARTY OR ATTORNEY FOR THE NOTICING PARTY

The alleged violation is for an exposure to: (check one)

Alcoholic beverages that are consumed on the alleged violator's premises to the extent on-site consumption is permitted by law.

A chemical known to the state to cause cancer or reproductive toxicity in a food or beverage prepared and sold on the alleged violator's premises for immediate consumption on or off premises to the extent: (1) the chemical was not intentionally added; and (2) the chemical was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination.

Environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises.

Chemicals known to the State to cause cancer or reproductive toxicity in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking noncommercial vehicles.

IMPORTANT NOTES:

1. You have no potential liability under **California Health and Safety Code §25249.6** if your business has nine (9) or fewer employees.
2. Using this form will NOT prevent the Attorney General, a district attorney, a city attorney, or a prosecutor in whose jurisdiction the violation is alleged to have occurred from filing an action over the same alleged violations, and that in any such action, the amount of civil penalty shall be reduced to reflect any payment made at this time.

PART 2: TO BE COMPLETED BY THE ALLEGED VIOLATOR OR AUTHORIZED REPRESENTATIVE

Certification of Compliance

Accurate completion of this form will demonstrate that you are now in compliance with **California Health and Safety Code §25249.6** for the alleged violation listed above. You must complete and submit the form below to the Noticing Party at the address shown above, postmarked within 14 days of you receiving

this notice.

I hereby agree to pay, within 30 days of completion of this notice, a civil penalty of \$500 to the Noticing Party only and certify that I have complied with Health and Safety Code §25249.6 by (check only one of the following):

- Posting a warning or warnings about the alleged exposure that complies with the law, and attaching a copy of that warning and a photograph accurately showing its placement on my premises;
- Posting the warning or warnings demanded in writing by the Noticing Party, and attaching a copy of that warning and a photograph accurately its placement on my premises; OR
- Eliminating the alleged exposure, and attaching a statement accurately describing how the alleged exposure has been eliminated.

Certification

My statements on this form, and on any attachments to it, are true, complete, and correct to the best of my knowledge and belief and are made in good faith. I have carefully read the instructions to complete this form. I understand that if I make a false statement on this form, I may be subject to additional penalties under the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).

Signature of alleged violator or authorized representative Date

Name and title of signatory

Certificate of Merit
Health & Safety Code Section 25249.7(d)

I, Fredric Evenson, hereby declare:

(1) This Certificate of Merit accompanies the attached sixty-day notice(s) in which it is alleged the parties identified in the notices have violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings.

(2) I am the attorney for the noticing party.

(3) I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the alleged exposure to the listed chemical that is the subject of the action.

(4) Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.

(5) The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and Safety Code section 25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Date: October 10, 2017

Fredric Evenson

CERTIFICATE OF SERVICE

I am a California resident, over the age of 18 and not a party to this case. My business address is P.O. Box 1000, Santa Cruz, CA 95061.

On October 10, 2017, I served the following:

- 1) Notice of Violations: California Safe Drinking Water and Toxic Enforcement Act
- 2) Certificate of Merit: Health and Safety Code Section 25249.7(d)
- 3) Appendix A: The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary
- 4) Certificate of Service

by enclosing copies of the same in a sealed envelope addressed to each person shown below and depositing the envelope in the U.S. mail with postage fully prepaid for delivery by Certified Mail. Place of mailing: Santa Cruz, CA.

Greg Sandfort, CEO Tractor Supply Company 5401 Virginia Way, Brentwood, TN 37027	Tractor Supply Company c/o CT Corporation System 818 West 7th Street, Ste. 930 Los Angeles, CA 90017
---	---

On October 10, 2017, I also served the following:

- 1) Notice of Violations: California Safe Drinking Water and Toxic Enforcement Act
- 2) Certificate of Merit: Health and Safety Code Section 25249.7(d)
- 3) Certificate of Merit (Attorney General Copy): Factual information sufficient to establish the basis of the Certificate of Merit (only sent to Attorney General)
- 4) Certificate of Service

by enclosing copies of the same in sealed envelopes addressed to each of the public prosecutors listed on the attached Service List with physical mailing addresses, and depositing the envelopes in the U.S. mail with postage fully prepaid for delivery by First Class Mail. Place of mailing: Santa Cruz, CA.

by sending portable document format (.pdf) files of the same to the electronic mail addresses to each of the public prosecutors identified by the California Attorney General as having authorized electronic service of notices. These public enforcement agencies appear on the attached Service List with their electronic mail addresses.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct. Executed October 10, 2017, at Santa Cruz, CA.

NOTICE OF VIOLATIONS
CALIFORNIA SAFE DRINKING WATER AND
TOXIC ENFORCEMENT ACT

Wayfair LLC President or CEO c/o Incorporating Services, LTD. 4 Copley Place, 7th floor Boston, MA 02116
--

AND THE PUBLIC PROSECUTORS LISTED ON THE DISTRIBUTION LIST
ACCOMPANYING THE ATTACHED CERTIFICATE OF SERVICE

Re: Violations of Proposition 65 Concerning Carbon Monoxide Exposures from
Charcoal Grills

In accord with California Health & Safety Code § 25249.7, Ecological Rights Foundation ("ERF") hereby gives you notice that the above company has violated and is in ongoing violation of California Health & Safety Code § 25249.6, which provides that "[n]o person in the course of doing business shall knowingly and intentionally expose any individual to a chemical known to the state to cause cancer or reproductive toxicity without first providing a clear and reasonable warning to such individual."

Pursuant to California Health & Safety Code § 25249.7, ERF intends to bring an enforcement action 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify the violations discussed in this notice letter. The public enforcement agencies that have been served with copies of this notice of violations are identified in the attached Certificate of Service.

This Notice of Violations ("Notice") is provided to you pursuant to and in compliance with California Health and Safety Code Section 25249.7(d). Attached for your reference is a summary, "Appendix A: The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary" prepared by the California Office of Environmental Health Hazard Assessment ("OEHHA"). Pursuant to Title 11, C.C.R. § 3100, a Certificate of Merit is also attached.

The above-referenced violations occur when California residents use the charcoal grills listed below. These products are used primarily for cooking. Combustion of charcoal produces and exposes people to **carbon monoxide**, a chemical known to the State of California to cause reproductive toxicity. Because the combustion of charcoal causes carbon monoxide to be released into the air, people using charcoal grills, and others standing near the products when charcoal is burning in or on the products, inhale carbon monoxide. Exposure to carbon monoxide is via the inhalation route.

Below is a list of the products subject to this notice. Though specific models or SKU or product numbers are given as examples, this Notice also pertains to all models, and all variations, of the charcoal grills manufactured and/or distributed by the vendors of the following products.

Clean Art Folding Portable Charcoal Grill with Carry Bag, Item # BH-7; Manufactured by Nignbo Clean Art Houseware Co., Ltd.
Grand Innovations Volar Ideas 2 Piece BBQ Charcoal Grill with Cooler Bag, Item #KGI-0054; UPC# 888872007842
Kahuna Grills 13" Kamado Outdoor Oven and BBQ; SKU# KGRL1000

It is ERF's position that the alleged Violator is obligated to conduct a good faith investigation into other specific products within the identified category or type that may have been manufactured, distributed, sold, shipped, stored (or otherwise within the notice recipient's custody or control) during the past three years, to ensure that clear and reasonable warnings are provided to California citizens prior to purchase, or retroactively if necessary.

These products cause carbon monoxide exposures to occur in people's yards and everywhere else throughout California where these products are used. These violations are alleged for consumer and environmental exposures.

The noticed party did not and does not provide people with clear and reasonable warnings before they expose them in California to carbon monoxide. The above-referenced violations have occurred every day since at least September 1, 2014 and will continue every day until clear and reasonable warnings are given.

ERF is a California non-profit corporation dedicated to protecting human and environmental health, including raising awareness of, and reducing exposures to, toxic chemicals. The following individual is the responsible individual within ERF for purposes of this Notice:

James Lamport, Executive Director
Ecological Rights Foundation
867 B Redwood Drive
Garberville, California 95542
Telephone: (707) 923-4372

ERF has retained the following counsel to represent them in this matter (please direct communications to counsel):

Fredric Evenson
Ecology Law Center
P.O. Box 1000
Santa Cruz, California 95061
Telephone: (831) 454-8216
Email: evenson@ecologylaw.com

Resolution of Noticed Claims:

ERF is interested in seeking a constructive resolution of this matter that advances the public interest without engaging in costly and protracted litigation. ERF is willing to settle this matter to the extent legally possible prior to the commencement of any enforcement action. Settlement

terms would require that the unwarned exposures described in this Notice of Violation be stopped. That would require at least the following: 1) a potential recall of products already sold; 2) that either warnings be given to all future purchasers in California of the products subject to this Notice, that the products be reformulated to eliminate the exposures described in the Notice, or that you stop marketing, distributing or selling the products in California; 3) that you locate and provide a warning compliant with 27 Cal. Code Regs Section 25601 to each person who has been subject to the unwarned exposures described in the Notice to the extent those exposures are caused by products that were sold in California during the past three years; and 4) that you pay an appropriate civil penalty based on the factors enumerated in California Health and Safety Code Section 25249(b). It should be noted that ERF cannot finalize any settlement of this matter until 70 days have elapsed since the sending of the Notice and unless no public enforcer has begun an enforcement action concerning the violations described in the Notice. Any settlement on behalf of the public interest must be approved by the California Superior Court on noticed motion with 45 days' notice to the California Attorney General. The Attorney General may appear at any approval hearing and oppose a settlement if he or she believes the proposed settlement is not in the public interest. If you wish to discuss settlement of this matter before ERF files suit, please promptly contact ERF's counsel.

Sincerely,

Fredric Evenson

27 CCR Appendix A
Appendix A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986
(PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. Please refer to the statute and OEHHA's implementing regulations (see citations below) for further information. FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001. These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Proposition 65 List." Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html. Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities

involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies. The warning given must be "clear and reasonable." This means that the warning must: (1) clearly say that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Periods. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant, it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a "significant amount" of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if

one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off- premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A private party may not file an action against the alleged violator for these exposures, or recover in a settlement any payment in lieu of penalties any reimbursement for costs and attorney's fees, if the notice was served on or after October 5, 2013, and the alleged violator has done *all* of the following within 14 days of being served notice:

- Corrected the alleged violation;
- Agreed to pay a civil penalty of \$500 (subject to change as noted below) to the private party within 30 days; and
- Notified the private party serving the notice in writing that the violation has been corrected.

The written notification to the private-party must include a notice of special compliance procedure and proof of compliance form completed by the alleged violator as directed in the notice. On April 1, 2019, and every five years thereafter, the dollar amount of the civil penalty will be adjusted by the Judicial Council based on the change in the annual **California** Consumer Price Index. The Judicial Council will publish the dollar amount of the adjusted civil penalty at each five-year interval, together with the date of the next scheduled adjustment.

An alleged violator may satisfy these conditions only one time for a violation arising from the same exposure in the same facility or on the same premises. The satisfaction of these conditions does not prevent the Attorney General, a district attorney, a city attorney of a city of greater than 750,000 population, or any full-time city prosecutor with the consent of the district attorney, from filing an enforcement action against an alleged violator. The amount of any civil penalty for a violation shall be reduced to reflect any payment made by the alleged violator for the same alleged violation to a private-party.

A copy of the notice of special compliance procedure and proof of compliance form is included with this notice and can be downloaded from OEHHA's website at: <http://oehha.ca.gov/prop65/law/p65law72003.html>. The notice is reproduced here:

Page 1

Date:

Name of Noticing Party or attorney for Noticing Party:

Address:

Phone number:

SPECIAL COMPLIANCE PROCEDURE PROOF OF COMPLIANCE

You are receiving this form because the Noticing Party listed above has alleged that you are violating **California Health and Safety Code §25249.6** (Prop. 65).

The Noticing Party may not bring any legal proceedings against you for the alleged violation checked below if:

1. You have actually taken the corrective steps that you have certified in this form
2. The Noticing Party has received this form at the address shown above, accurately completed by you, postmarked within 14 days of your receiving this notice
3. The Noticing Party receives the required \$500 penalty payment from you at the address shown above postmarked within 30 days of your receiving this notice.
4. This is the first time you have submitted a Proof of Compliance for a violation arising from the same exposure in the same facility on the same premises.

PART 1: TO BE COMPLETED BY THE NOTICING PARTY OR ATTORNEY FOR THE NOTICING PARTY

The alleged violation is for an exposure to: (check one)

Alcoholic beverages that are consumed on the alleged violator's premises to the extent on-site consumption is permitted by law.

A chemical known to the state to cause cancer or reproductive toxicity in a food or beverage prepared and sold on the alleged violator's premises for immediate consumption on or off premises to the extent: (1) the chemical was not intentionally added; and (2) the chemical was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination.

Environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises.

Chemicals known to the State to cause cancer or reproductive toxicity in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking noncommercial vehicles.

IMPORTANT NOTES:

1. You have no potential liability under **California Health and Safety Code §25249.6** if your business has nine (9) or fewer employees.
2. Using this form will NOT prevent the Attorney General, a district attorney, a city attorney, or a prosecutor in whose jurisdiction the violation is alleged to have occurred from filing an action over the same alleged violations, and that in any such action, the amount of civil penalty shall be reduced to reflect any payment made at this time.

Page 2

Date :

Name of Noticing Party or attorney for Noticing Party:

PART 2: TO BE COMPLETED BY THE ALLEGED VIOLATOR OR AUTHORIZED REPRESENTATIVE

Certification of Compliance

Accurate completion of this form will demonstrate that you are now in compliance with **California Health and Safety Code §25249.6** for the alleged violation listed above. You must complete and submit the form below to the Noticing Party at the address shown above, postmarked within 14 days of you receiving

this notice.

I hereby agree to pay, within 30 days of completion of this notice, a civil penalty of \$500 to the Noticing Party only and certify that I have complied with Health and Safety Code §25249.6 by (check only one of the following):

- Posting a warning or warnings about the alleged exposure that complies with the law, and attaching a copy of that warning and a photograph accurately showing its placement on my premises;
- Posting the warning or warnings demanded in writing by the Noticing Party, and attaching a copy of that warning and a photograph accurately its placement on my premises; OR
- Eliminating the alleged exposure, and attaching a statement accurately describing how the alleged exposure has been eliminated.

Certification

My statements on this form, and on any attachments to it, are true, complete, and correct to the best of my knowledge and belief and are made in good faith. I have carefully read the instructions to complete this form. I understand that if I make a false statement on this form, I may be subject to additional penalties under the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).

Certificate of Merit
Health & Safety Code Section 25249.7(d)

I, Fredric Evenson, hereby declare:

(1) This Certificate of Merit accompanies the attached sixty-day notice(s) in which it is alleged the parties identified in the notices have violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings.

(2) I am the attorney for the noticing party.

(3) I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the alleged exposure to the listed chemical that is the subject of the action.

(4) Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.

(5) The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and Safety Code section 25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Date: September 1, 2017

By:

Fredric Evenson

CERTIFICATE OF SERVICE

I am a California resident, over the age of 18 and not a party to this case. My business address is P.O. Box 1000, Santa Cruz, CA 95061.

On September 1, 2017, I served the following:

- 1) Notice of Violations: California Safe Drinking Water and Toxic Enforcement Act
- 2) Certificate of Merit: Health and Safety Code Section 25249.7(d)
- 3) Appendix A: The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary
- 4) Certificate of Service

by enclosing copies of the same in a sealed envelope addressed to each person shown below and depositing the envelope in the U.S. mail with postage fully prepaid for delivery by Certified Mail. Place of mailing: Santa Cruz, CA.

Wayfair LLC President or CEO c/o Incorporating Services, LTD. 4 Copley Place, 7th floor Boston, MA 02116
--

On September 1, 2017, I also served the following:

- 1) Notice of Violations: California Safe Drinking Water and Toxic Enforcement Act
- 2) Certificate of Merit: Health and Safety Code Section 25249.7(d)
- 3) Certificate of Merit (Attorney General Copy): Factual information sufficient to establish the basis of the Certificate of Merit (only sent to Attorney General)
- 4) Certificate of Service

by enclosing copies of the same in sealed envelopes addressed to each of the public prosecutors listed on the attached Service List with physical mailing addresses, and depositing the envelopes in the U.S. mail with postage fully prepaid for delivery by First Class Mail. Place of mailing: Santa Cruz, CA.

by sending portable document format (.pdf) files of the same to the electronic mail addresses to each of the public prosecutors identified by the California Attorney General as having authorized electronic service of notices. These public enforcement agencies appear on the attached Service List with their electronic mail addresses.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct. Executed September 1, 2017, at Santa Cruz, CA.

Yair Chaver

NOTICE OF VIOLATIONS
CALIFORNIA SAFE DRINKING WATER AND
TOXIC ENFORCEMENT ACT

Laura Alber, CEO Williams Sonoma 3250 Van Ness Ave San Francisco, CA 94109	Williams Sonoma c/o CSC – Lawyers Incorporating Services 2710 Gateway Oaks Drive, Ste. 150N Sacramento, CA 95833
---	---

AND THE PUBLIC PROSECUTORS LISTED ON THE DISTRIBUTION LIST
ACCOMPANYING THE ATTACHED CERTIFICATE OF SERVICE

Re: Violations of Proposition 65 Concerning Carbon Monoxide Exposures from
Charcoal Starter

In accord with California Health & Safety Code § 25249.7, Ecological Rights Foundation ("ERF") hereby gives you notice that the above company has violated and is in ongoing violation of California Health & Safety Code § 25249.6, which provides that "[n]o person in the course of doing business shall knowingly and intentionally expose any individual to a chemical known to the state to cause cancer or reproductive toxicity without first providing a clear and reasonable warning to such individual."

Pursuant to California Health & Safety Code § 25249.7, ERF intends to bring an enforcement action 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify the violations discussed in this notice letter. The public enforcement agencies that have been served with copies of this notice of violations are identified in the attached Certificate of Service.

This Notice of Violations ("Notice") is provided to you pursuant to and in compliance with California Health and Safety Code Section 25249.7(d). Attached for your reference is a summary, "Appendix A: The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary" prepared by the California Office of Environmental Health Hazard Assessment ("OEHHA"). Pursuant to Title 11, C.C.R. § 3100, a Certificate of Merit is also attached.

The above-referenced violations occur when California residents use charcoal starters. These products are used primarily for lighting charcoal. Combustion of charcoal produces and exposes people to **carbon monoxide**, a chemical known to the State of California to cause reproductive toxicity. Because the combustion of charcoal causes carbon monoxide to be released into the air, people using charcoal starters, and others standing near the products when charcoal is burning in or on the products, inhale carbon monoxide. Exposure to carbon monoxide is via the inhalation route.

Below is a non-exclusive list of examples of these types of products. Though specific models or SKU or product numbers are given as examples, this Notice pertains to all models, and all

variations, of the specific type of product of which the named model is an example.

Drop-Bottom Charcoal Chimney

This non-exclusive list of examples of the type of products that are subject to this Notice is for the recipient's benefit and is not meant to be an exhaustive or comprehensive identification of each specific offending product. It is ERF's position that the alleged Violator is obligated to conduct a good faith investigation into other specific products within the identified category or type that may have been manufactured, distributed, sold, shipped, stored (or otherwise within the notice recipient's custody or control) during the past three years, to ensure that clear and reasonable warnings are provided to California citizens prior to purchase, or retroactively if necessary.

These products cause carbon monoxide exposures to occur in peoples yards and everywhere else throughout California where these products are used. These violations are alleged for consumer and environmental exposures.

The noticed party did not and does not provide people with clear and reasonable warnings before they expose them in California to carbon monoxide. The above-referenced violations have occurred every day since at least June 29, 2014 and will continue every day until clear and reasonable warnings are given.

ERF is a California non-profit corporation dedicated to protecting human and environmental health, including raising awareness of, and reducing exposures to, toxic chemicals. The following individual is the responsible individual within ERF for purposes of this Notice:

James Lamport, Executive Director
Ecological Rights Foundation
867 B Redwood Drive
Garberville, California 95542
Telephone: (707) 923-4372

ERF has retained the following counsel to represent them in this matter (please direct communications to counsel):

Fredric Evenson
Ecology Law Center
P.O. Box 1000
Santa Cruz, California 95061
Telephone: (831) 454-8216
Email: evenson@ecologylaw.com

Resolution of Noticed Claims:

ERF is interested in seeking a constructive resolution of this matter that advances the public interest without engaging in costly and protracted litigation. ERF is willing to settle this matter to the extent legally possible prior to the commencement of any enforcement action. Settlement terms would require that the unwarned exposures described in this Notice of Violation be stopped. That would require at least the following: 1) a potential recall of products already sold; 2) that either warnings be given to all future purchasers in California of the products subject to this Notice, that the products be reformulated to eliminate the exposures described in the Notice, or that you stop marketing, distributing or selling the products in California; 3) that you locate

and provide a warning compliant with 27 Cal. Code Regs Section 25601 to each person who has been subject to the unwarned exposures described in the Notice to the extent those exposures are caused by products that were sold in California during the past three years; and 4) that you pay an appropriate civil penalty based on the factors enumerated in California Health and Safety Code Section 25249(b). It should be noted that ERF cannot finalize any settlement of this matter until 70 days have elapsed since the sending of the Notice and unless no public enforcer has begun an enforcement action concerning the violations described in the Notice. Any settlement on behalf of the public interest must be approved by the California Superior Court on noticed motion with 45 days' notice to the California Attorney General. The Attorney General may appear at any approval hearing and oppose a settlement if he or she believes the proposed settlement is not in the public interest. If you wish to discuss settlement of this matter before ERF files suit, please promptly contact ERF's counsel.

Sincerely,

Fredric Evenson

27 CCR Appendix A
Appendix A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986
(PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. Please refer to the statute and OEHHA's implementing regulations (see citations below) for further information. FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Proposition 65 List." Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html. Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies. The warning given must be "clear and reasonable." This means that the warning must: (1) clearly say that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Periods. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a "significant amount" of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if

one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off- premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A private party may not file an action against the alleged violator for these exposures, or recover in a settlement any payment in lieu of penalties any reimbursement for costs and attorney's fees, if the notice was served on or after October 5, 2013, and the alleged violator has done *all* of the following within 14 days of being served notice:

- Corrected the alleged violation;
- Agreed to pay a civil penalty of \$500 (subject to change as noted below) to the private party within 30 days; and
- Notified the private party serving the notice in writing that the violation has been corrected.

The written notification to the private party must include a notice of special compliance procedure and proof of compliance form completed by the alleged violator as directed in the notice. On April 1, 2019, and every five years thereafter, the dollar amount of the civil penalty will be adjusted by the Judicial Council based on the change in the annual California Consumer Price Index. The Judicial Council will publish the dollar amount of the adjusted civil penalty at each five-year interval, together with the date of the next scheduled adjustment.

An alleged violator may satisfy these conditions only one time for a violation arising from the same exposure in the same facility or on the same premises. The satisfaction of these conditions does not prevent the Attorney General, a district attorney, a city attorney of a city of greater than 750,000 population, or any full-time city prosecutor with the consent of the district attorney, from filing an enforcement action against an alleged violator. The amount of any civil penalty for a violation shall be reduced to reflect any payment made by the alleged violator for the same alleged violation to a private party.

A copy of the notice of special compliance procedure and proof of compliance form is included with this notice and can be downloaded from OEHHA's website at: <http://oehha.ca.gov/prop65/law/p65/law72003.html>. The notice is reproduced here:

Page 1

Date:

Name of Noticing Party or attorney for Noticing Party:

Address:

Phone number:

SPECIAL COMPLIANCE PROCEDURE PROOF OF COMPLIANCE

You are receiving this form because the Noticing Party listed above has alleged that you are violating California Health and Safety Code §25249.6 (Prop. 65).

The Noticing Party may not bring any legal proceedings against you for the alleged violation checked below if:

1. You have actually taken the corrective steps that you have certified in this form
2. The Noticing Party has received this form at the address shown above, accurately completed by you, postmarked within 14 days of your receiving this notice
3. The Noticing Party receives the required \$500 penalty payment from you at the address shown above postmarked within 30 days of your receiving this notice.
4. This is the first time you have submitted a Proof of Compliance for a violation arising from the same exposure in the same facility on the same premises.

PART 1: TO BE COMPLETED BY THE NOTICING PARTY OR ATTORNEY FOR THE NOTICING PARTY

The alleged violation is for an exposure to: (check one)

- Alcoholic beverages that are consumed on the alleged violator's premises to the extent on-site consumption is permitted by law.
- A chemical known to the state to cause cancer or reproductive toxicity in a food or beverage prepared and sold on the alleged violator's premises for immediate consumption on or off premises to the extent: (1) the chemical was not intentionally added; and (2) the chemical was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination.
- Environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises.
- Chemicals known to the State to cause cancer or reproductive toxicity in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking noncommercial vehicles.

IMPORTANT NOTES:

1. You have no potential liability under California Health and Safety Code §25249.6 if your business has nine (9) or fewer employees.
2. Using this form will NOT prevent the Attorney General, a district attorney, a city attorney, or a prosecutor in whose jurisdiction the violation is alleged to have occurred from filing an action over the same alleged violations, and that in any such action, the amount of civil penalty shall be reduced to reflect any payment made at this time.

Page 2

Date:

Name of Noticing Party or attorney for Noticing Party:

Phone number:

PART 2: TO BE COMPLETED BY THE ALLEGED VIOLATOR OR AUTHORIZED REPRESENTATIVE

Certification of Compliance

Accurate completion of this form will demonstrate that you are now in compliance with California Health and Safety Code §25249.6 for the alleged violation listed above. You must complete and submit the form below to the Noticing Party at the address shown above, postmarked within 14 days of you receiving

this notice.

I hereby agree to pay, within 30 days of completion of this notice, a civil penalty of \$500 to the Noticing Party only and certify that I have complied with Health and Safety Code §25249.6 by (check only one of the following):

- Posting a warning or warnings about the alleged exposure that complies with the law, and attaching a copy of that warning and a photograph accurately showing its placement on my premises;
- Posting the warning or warnings demanded in writing by the Noticing Party, and attaching a copy of that warning and a photograph accurately its placement on my premises; OR
- Eliminating the alleged exposure, and attaching a statement accurately describing how the alleged exposure has been eliminated.

Certification

My statements on this form, and on any attachments to it, are true, complete, and correct to the best of my knowledge and belief and are made in good faith. I have carefully read the instructions to complete this form. I understand that if I make a false statement on this form, I may be subject to additional penalties under the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).

Signature of alleged violator or authorized representative Date

Certificate of Merit
Health & Safety Code Section 25249.7(d)

I, Fredric Evenson, hereby declare:

(1) This Certificate of Merit accompanies the attached sixty-day notice(s) in which it is alleged the parties identified in the notices have violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings.

(2) I am the attorney for the noticing party.

(3) I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the alleged exposure to the listed chemical that is the subject of the action.

(4) Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.

(5) The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and Safety Code section 25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Date: June 29, 2017

CERTIFICATE OF SERVICE

I am a California resident, over the age of 18 and not a party to this case. My business address is P.O. Box 1000, Santa Cruz, CA 95061.

On June 30, 2017, I served the following:

- 1) Notice of Violations: California Safe Drinking Water and Toxic Enforcement Act
- 2) Certificate of Merit: Health and Safety Code Section 25249.7(d)
- 3) Appendix A: The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary
- 4) Certificate of Service

by enclosing copies of the same in a sealed envelope addressed to each person shown below and depositing the envelope in the U.S. mail with postage fully prepaid for delivery by Certified Mail. Place of mailing: Santa Cruz, CA.

Laura Alber, CEO Williams Sonoma 3250 Van Ness Ave San Francisco, CA 94109	Williams Sonoma c/o CSC – Lawyers Incorporating Services 2710 Gateway Oaks Drive, Ste. 150N Sacramento, CA 95833
---	--

On July 3, 2017, I also served the following:

- 1) Notice of Violations: California Safe Drinking Water and Toxic Enforcement Act
- 2) Certificate of Merit: Health and Safety Code Section 25249.7(d)
- 3) Certificate of Merit (Attorney General Copy): Factual information sufficient to establish the basis of the Certificate of Merit (only sent to Attorney General)
- 4) Certificate of Service

by enclosing copies of the same in sealed envelopes addressed to each of the public prosecutors listed on the attached Service List with physical mailing addresses, and depositing the envelopes in the U.S. mail with postage fully prepaid for delivery by First Class Mail. Place of mailing: Santa Cruz, CA.

by sending portable document format (.pdf) files of the same to the electronic mail addresses to each of the public prosecutors identified by the California Attorney General as having authorized electronic service of notices. These public enforcement agencies appear on the attached Service List with their electronic mail addresses.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct. Executed July 3, 2017, at Santa Cruz, CA.

INSTRUCTIONS ON HOW TO COMPLETE THE COVER SHEET

To Plaintiffs and Others Filing First Papers. If you are filing a first paper (for example, a complaint) in a civil case, you must complete and file, along with your first paper, the *Civil Case Cover Sheet* contained on page 1. This information will be used to compile statistics about the types and numbers of cases filed. You must complete items 1 through 6 on the sheet. In item 1, you must check one box for the case type that best describes the case. If the case fits both a general and a more specific type of case listed in item 1, check the more specific one. If the case has multiple causes of action, check the box that best indicates the primary cause of action. To assist you in completing the sheet, examples of the cases that belong under each case type in item 1 are provided below. A cover sheet must be filed only with your initial paper. Failure to file a cover sheet with the first paper filed in a civil case may subject a party, its counsel, or both to sanctions under rules 2.30 and 3.220 of the California Rules of Court.

To Parties in Rule 3.740 Collections Cases. A "collections case" under rule 3.740 is defined as an action for recovery of money owed in a sum stated to be certain that is not more than \$25,000, exclusive of interest and attorney's fees, arising from a transaction in which property, services, or money was acquired on credit. A collections case does not include an action seeking the following: (1) tort damages, (2) punitive damages, (3) recovery of real property, (4) recovery of personal property, or (5) a prejudgment writ of attachment. The identification of a case as a rule 3.740 collections case on this form means that it will be exempt from the general time-for-service requirements and case management rules, unless a defendant files a responsive pleading. A rule 3.740 collections case will be subject to the requirements for service and obtaining a judgment in rule 3.740.

To Parties in Complex Cases. In complex cases only, parties must also use the *Civil Case Cover Sheet* to designate whether the case is complex. If a plaintiff believes the case is complex under rule 3.400 of the California Rules of Court, this must be indicated by completing the appropriate boxes in items 1 and 2. If a plaintiff designates a case as complex, the cover sheet must be served with the complaint on all parties to the action. A defendant may file and serve no later than the time of its first appearance a joinder in the plaintiff's designation, a counter-designation that the case is not complex, or, if the plaintiff has made no designation, a designation that the case is complex.

CASE TYPES AND EXAMPLES

Auto Tort

- Auto (22)—Personal Injury/Property Damage/Wrongful Death
- Uninsured Motorist (46) (*if the case involves an uninsured motorist claim subject to arbitration, check this item instead of Auto*)
