CIVIL PENALTIES**

[Toxic Tort/Environmental (30)]
Proposition 65, Health & Safety Code
Section 25249.5 et seq.]

17
18
19 Plaintiff Environmental Research Center, Inc. hereby alleges:

20 **I**

21 **INTRODUCTION**

22 1. Plaintiff Environmental Research Center, Inc. (hereinafter "Plaintiff" or "ERC") brings
23 this action as a private attorney general enforcer and in the public interest pursuant to Health &
24 Safety Code section 25249.7, subdivision (d). The Safe Drinking Water and Toxic Enforcement
25 Act of 1986 (Health & Safety Code section 25249.5 *et seq.*) also known as "Proposition 65,"
26 mandates that businesses with ten or more employees must provide a "clear and reasonable
27 warning" prior to exposing any individual to a chemical known to the state to cause cancer or
28 reproductive toxicity. Lead and cadmium are chemicals known to the State of California to

22 Chocolate Fudge (lead), and (4) Rule 1 R1 Plant Protein Vanilla Crème (lead). Defendants

23 Rule One Proteins, LLC and Nutrivo, LLC are subject to Proposition 65 as each company

1 consumer product exposures, the Proposition 65 warning requirement may be satisfied by a
2 product-specific warning provided on a posted sign, shelf tag, or shelf sign at each point of
3 display of the product; a product-specific warning provided via any electronic device or process
4 that automatically provides the warning to the purchaser prior to or during the purchase of the
5 product; or a warning that appears on a product's label. (Cal. Code Regs., tit. 27, §§ 25607.1,
6 25602, subd. (a) and (b).)

7 14. Proposition 65 establishes a procedure by which the State is to develop a list of
8 chemicals "known to the State to cause cancer or reproductive toxicity." (Health & Safety Code,
9 § 25249.8.) There is no duty to provide a clear and reasonable warning until 12-months after
10 the chemical is published on the State list. (Health & Safety Code, § 25249.10, subd. (b).)

11 15. Lead was listed as a chemical known to the State of California to cause developmental
12 toxicity in the fetus and male and female reproductive toxicity on February 27, 1987. Lead was
13 listed as a chemical known to the State of California to cause cancer on October 1, 1992. (State
14 of California EPA OEHHA Safe Drinking Water and Toxic Enforcement Act of 1986
15 Chemicals Known to the State to Cause Cancer and Reproductive Toxicity.) The MADL for
16 lead as a chemical known to cause reproductive toxicity is 0.5 micrograms per day. (Cal. Code
17 Regs., tit. 27, §25805, subd. (b).) The No Significant Risk Level for lead as a carcinogen is 15
18 micrograms per day. (Cal. Code Regs., tit. 27, §25705, subd. (b).)

19 16. Cadmium was officially listed as a chemical known to cause developmental toxicity and
20 male reproductive toxicity on May 1, 1997, while cadmium and cadmium compounds were
21 listed as chemicals known to the State of California to cause cancer on October 1, 1987. (State
22 of California EPA OEHHA Safe Drinking Water and Toxic Enforcement Act of 1986
23 Chemicals Known to the State to Cause Cancer and Reproductive Toxicity.) The MADL for
24 cadmium as a chemical known to cause reproductive toxicity is 4.1 micrograms per day. (Cal.
25 Code Regs., tit. 27, §25805, subd. (b).)

26 17. Proposition 65 provides that any person "violating or threatening to violate" Proposition
27 65 may be enjoined in any court of competent jurisdiction. (Health & Safety Code, §25249.7,
28 subd. (a).) To "threaten to violate" means "to create a condition in which there is a substantial

1 * "STATE-OF-THE-ART FACILITATION"

2 "Rule 1 Proteins products are produced in our state-of-the-art facility, Nutrivo. This
3 impressive manufacturing site is NSF-GMP certified and utilizes the latest measuring,
4 blending, conveyance, and packaging technologies to help facilitate our mission of
building the finest quality nutritional powders that money can buy."

5 * "THE SOURCE OF OUR STRENGTH"

6 "When sourcing the raw materials that go into Rule 1 Proteins products, we focus on
7 purity, potency, and a research-backed reputation over price. Only ingredients that
8 pass Rule 1 Proteins' stringent standards for safety, quality, and efficacy are ever
considered. . . ."

9 * "QUALITY IS PRIORITY # 1"

10 "From concept, to formulating, to material sourcing, to blending and packaging, to
11 delivery to your store or door – everything is done one way: The right way. The
12 Rule 1 Proteins way."

13 21. Both prior and subsequent to ERC's Notice of Violation, Rule One failed to provide
14 consumers of the SUBJECT PRODUCTS with a clear and reasonable warning that they have
15 been exposed to chemicals known to the State of California to cause cancer, birth defects and
16 other reproductive harm. This failure to warn is ongoing.

17 **FIRST CAUSE OF ACTION**
18 **(Violation of Section 25249.6 of the Health and Safety Code, Failure to Provide Clear and**
19 **Reasonable Warning under Proposition 65)**

20 22. ERC refers to paragraphs 1-21, inclusive, and incorporates them herein by this
21 reference.

22 23. By committing the acts alleged above, Rule One has, in the course of doing business,
23 knowingly and intentionally exposed users of the SUBJECT PRODUCTS to lead and/or
24 cadmium, chemicals known to the State of California to cause cancer, birth defects, and other
25 reproductive harm, without first giving clear and reasonable warning to such individuals within
26 the meaning of Health & Safety Code section 25249.6. In doing so, Rule One has violated
27 Health & Safety Code section 25249.6 and continues to violate the statute with each successive
28 sale of the SUBJECT PRODUCTS.

1 24. Said violations render Rule One liable for civil penalties, up to \$2,500 per day for each
2 violation, and subject Rule One to injunction.

3 **SECOND CAUSE OF ACTION**
4 **(Declaratory Relief)**

5 25. ERC refers to paragraphs 1-24, inclusive, and incorporates them herein by this
6 reference.

7 26. There exists an actual controversy relating to the legal rights and duties of the Parties,
8 within the meaning of Code of Civil Procedure section 1060, between ERC and Rule One,
9 concerning whether Rule One has exposed individuals to chemicals known to the State of
10 California to cause cancer, birth defects, and other reproductive harm without providing clear
11 and reasonable warning.

12 **VI**

13 **PRAYER**

14 WHEREFORE ERC prays for relief as follows:

15 1. On the First Cause of Action, for civil penalties for each and every violation according
16 to proof;

17 2. On the First Cause of Action, and pursuant to Health & Safety Code section 25249.7,
18 subdivision (a), for such temporary restraining orders, preliminary and permanent injunctive
19 orders, or other orders as are necessary to prevent Rule One from exposing persons to lead
20 and/or cadmium without providing clear and reasonable warning;

21 3. On the Second Cause of Action, for a declaratory judgment pursuant to Code of Civil
22 Procedure section 1060 declaring that Rule One has exposed individuals to lead and/or
23 cadmium without providing clear and reasonable warning; and

24 4. On all Causes of Action, for reasonable attorneys' fees pursuant to Code of Civil
25 Procedure section 1021.5 or the substantial benefit theory;

26 5. For costs of suit herein; and

27 /// ///

28 /// ///

1 6. For such other relief as the Court may deem just and proper.

**NOTICE OF VIOLATION OF
CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 ET SEQ.
(PROPOSITION 65)**

Dear Alleged Violators and the Appropriate Public Enforcement Agencies:

I represent Environmental Research Center, Inc. ("ERC"), 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. (619) 500-3090. ERC's Executive Director is Chris Heptinstall. ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violators identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violators and the appropriate public enforcement agencies. Pursuant to Health and Safety Code Section 25249.7(d), ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

General Information about Proposition 65. A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is enclosed with this letter served to the alleged Violators identified below.

Alleged Violators. The names of the companies covered by this notice that violated Proposition 65 (hereinafter the "Violators") are:

**Rule One Proteins, LLC
Nutrivo, LLC**

Consumer Products and Listed Chemicals. The products that are the subject of this notice and the chemicals in those products identified as exceeding allowable levels are:

- 1. Rule1 R1 LBS High Calorie Mass Gainer Chocolate Fudge – Lead, Cadmium**
- 2. Rule1 R1 LBS High Calorie Mass Gainer Chocolate Peanut Butter – Lead, Cadmium**
- 3. Rule 1 R1 Plant Protein Chocolate Fudge - Lead**
- 4. Rule 1 R1 Plant Protein Vanilla Crème - Lead**

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

Cadmium was officially listed as a chemical known to cause developmental toxicity and male reproductive toxicity on May 1, 1997, while cadmium and cadmium compounds were listed as chemicals known to the State of California to cause cancer on October 1, 1987.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

Route of Exposure. The consumer exposures that are the subject of this notice result from the recommended use of these products. Consequently, the route of exposure to these chemicals has been and continues to be through ingestion.

Approximate Time Period of Violations. Ongoing violations have occurred every day since at least October 19, 2015, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until these known toxic chemicals are either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemicals. The method of warning should be a warning that appears on the product label. The Violators violated Proposition 65 because they failed to provide persons ingesting these products with appropriate warnings that they are being exposed to these chemicals.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violators to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemicals, or provide appropriate warnings on the labels of these products; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above products in the last three years. Such a resolution will prevent further unwarned consumer exposures to the identified chemicals, as well as an expensive and time-consuming litigation.

ERC has retained me as legal counsel in connection with this matter. **Please direct all communications regarding this Notice of Violation to my attention at the law office address and telephone number indicated on the letterhead or at rrhoffma@gmail.com.**

Sincerely,

Ryan Hoffiman

Certificate of Merit

Certificate of Service

OEHHA Summary (to Rule One Proteins, LLC, Nutrivo, LLC and their Registered Agents for Service of Process only)

Additional Supporting Information for Certificate of Merit (to AG only)

CERTIFICATE OF MERIT

Re: Environmental Research Center, Inc.'s Notice of Proposition 65 Violations by Rule One Proteins, LLC and Nutrivo, LLC

I, Ryan Hoffman, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged that the parties identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am an attorney for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemicals that are the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violators will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: October 19, 2018

Ryan Hoffman

CERTIFICATE OF SERVICE PURSUANT TO 27 CCR § 25903

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States and over the age of 18 years of age. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On October 19, 2018, between 8:00 a.m. and 5:00 p.m. Eastern Time, I served the following documents: **NOTICE OF VIOLATION OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; "THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY"** on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to each of the parties listed below and depositing it at a U.S. Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Proposition 65 List." Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before “knowingly and intentionally” exposing that person to a listed chemical unless an exemption applies. The warning given must be “clear and reasonable.” This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses “no significant risk.” This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific “No Significant Risk Levels” (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the “no observable effect level” divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a “significant amount” of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a “significant amount” of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A “significant amount” means any detectable amount, except an amount that would meet the “no significant risk” level for chemicals that cause cancer or that is 1,000 times below the “no observable effect” level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

² See Section 25501(a)(4).

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off-premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A copy of the notice of special compliance procedure and proof of compliance form is included in Appendix B and can be downloaded from OEHHA's website at: <http://oehha.ca.gov/prop65/law/p65law72003.html>.
