CASE NO. 21CV001067

**AMENDED SUPPLEMENTAL
COMPLAINT FOR INJUNCTIVE AND
DECLARATORY RELIEF AND CIVIL
PENALTIES**

[Miscellaneous Civil Complaint (42)]
Proposition 65, Health & Safety Code
Section 25249.5 et seq.]

18
19 Plaintiff Environmental Research Center, Inc., through this Supplemental Complaint, hereby
20 alleges:

21 **I**

22 **INTRODUCTION**

23 1. Plaintiff Environmental Research Center, Inc. (hereinafter “Plaintiff” or “ERC”) brings
24 this action as a private attorney general enforcer and in the public interest pursuant to Health &
25 Safety Code section 25249.7, subdivision (d). The Safe Drinking Water and Toxic Enforcement
26 Act of 1986 (Health & Safety Code section 25249.5 *et seq.*) also known as “Proposition 65,”
27 mandates that businesses with ten or more employees must provide a “clear and reasonable
28 warning” prior to exposing any individual to a chemical known to the state to cause cancer or

1 reproductive toxicity. Lead and mercury are chemicals known to the State of California to
2 cause cancer, birth defects, and other reproductive harm. This Complaint is supplemental to the
3 Complaint currently pending in the Superior Court of the State of California, Alameda County,
4 with case number RG21094359 (the “Original Complaint”) and seeks injunctive and declaratory
5 relief and civil penalties to remedy the ongoing failure of Defendants Simple Health LLC,
6 individually and dba Tosi (“Simple Health”) and Does 1-100 (hereinafter individually referred
7 to as “Defendant” or collectively as “Defendants”), to warn consumers that they have been
8 exposed to lead and/or mercury from a number of Simple Health’s nutritional health products as
9 set forth in paragraph 3 at levels exceeding the applicable Maximum Allowable Dose Level
10 (“MADL”) and requiring a warning pursuant to Health & Safety Code section 25249.6.

11 II

12 PARTIES

13 2. Plaintiff ERC is a California non-profit corporation dedicated to, among other causes,
14 helping safeguard the public from health hazards by reducing the use and misuse of hazardous
15 and toxic chemicals, facilitating a safe environment for consumers and employees, and
16 encouraging corporate responsibility.

17 3. Defendant Simple Health is a business that develops, manufactures, markets, distributes,
18 and/or sells nutritional health products that have exposed users to lead and/or mercury in the
19 State of California within the relevant statute of limitations period. These “SUBJECT
20 PRODUCTS” (as identified in the Notices of Violation dated April 20, 2021 and May 20, 2021
21 attached hereto as *Exhibits A* and *B*) are: (1) Tosi Complete Meal Chocolate (lead, mercury)
22 and (2) Tosi Complete Meal Vanilla (lead, mercury). Simple Health LLC, individually and dba
23 Tosi is a company subject to Proposition 65 as it employs ten or more persons and has
24 employed ten or more persons at all times relevant to this action.

25 4. Defendants Does 1-100, are named herein under fictitious names, as their true names
26 and capacities are unknown to ERC. ERC is informed and believes, and thereon alleges, that
27 each of said Does is responsible, in some actionable manner, for the events and happenings
28 hereinafter referred to, either through said Does’ conduct, or through the conduct of its agents,

1 servants or employees, or in some other manner, causing the harms alleged by ERC in this
2 Amended Complaint. When said true names and capacities of Does are ascertained, ERC will
3 seek leave to amend this Amended Complaint to set forth the same.

4 III

5 JURISDICTION AND VENUE

6 5. This Court has jurisdiction pursuant to California Constitution Article VI, Section 10,
7 which grants the Superior Court original jurisdiction in all causes except those given by statute
8 to other trial courts. The statute under which this action is brought does not specify any other
9 basis for jurisdiction.

10 6. This Court has jurisdiction over Simple Health because Simple Health has sufficient
11 minimum contacts with California, and otherwise intentionally avails itself of the California
12 market through the marketing, distribution, and/or sale of the SUBJECT PRODUCTS in the
13 State of California so as to render the exercise of jurisdiction over it by the California courts
14 consistent with traditional notions of fair play and substantial justice.

15 7. The Complaint is based on allegations contained in the Notices of Violation dated
16 April 20, 2021 and May 20, 2021, served on the California Attorney General, other public
17 enforcers, and Simple Health. The Notices of Violation constitute adequate notice to Simple
18 Health because they provided adequate information to allow Simple Health to assess the nature
19 of the alleged violations, consistent with Proposition 65 and its implementing regulations. A
20 certificate of merit and a certificate of service accompanied each copy of the Notices of
21 Violation, and both certificates comply with Proposition 65 and its implementing regulations.
22 The Notices of Violation served on Simple Health also included a copy of “The Safe Drinking
23 Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary.” Service of the
24 Notices of Violation and accompanying documents complied with Proposition 65 and its
25 implementing regulations. Attached hereto as *Exhibits A* and *B* are true and correct copies of
26 the Notices of Violation and associated documents. More than 60 days have passed since ERC
27 mailed the Notices of Violation and no public enforcement entity has filed a Complaint in this
28 case.

1 8. This Court is the proper venue for the action because the causes of action have arisen in
2 the County of Alameda where some of the violations of law have occurred, and will continue to
3 occur, due to the ongoing sale of Simple Health’s products. Furthermore, venue is proper in
4 this Court under Code of Civil Procedure section 395.5 and Health & Safety Code section
5 25249.7.

6 **IV**

7 **STATUTORY BACKGROUND**

8 9. The Safe Drinking Water and Toxic Enforcement Act of 1986 is an initiative statute
9 passed as “Proposition 65” by an overwhelming majority vote of the people in November of
10 1986.

11 10. The warning requirement of Proposition 65 is contained in Health & Safety Code
12 section 25249.6, which provides:

13 No person in the course of doing business shall knowingly and
14 intentionally expose any individual to a chemical known to the state to
15 cause cancer or reproductive toxicity without first giving clear and
16 reasonable warning to such individual, except as provided in Section
17 25249.10.

18 11. The Office of Environmental Health Hazard Assessment (“OEHHA”), a division of Cal
19 EPA, is the lead agency in charge of the implementation of Proposition 65. OEHHA
20 administers the Proposition 65 program and administers regulations that govern Proposition 65
21 in general, including warnings to comply with the statute. The warning regulations are found at
22 Title 27 of the California Code of Regulations, Article 6. The regulations define expose as “to
23 cause to ingest, inhale, contact via body surfaces or otherwise come into contact with a listed
24 chemical. An individual may come into contact with a listed chemical through water, air, food,
25 consumer products and any other environmental exposure as well as occupational exposures.”
(Cal. Code Regs., tit. 27, § 25102, subd. (i).)

26 12. In this case, the exposures are caused by consumer products. A consumer product is
27 defined as “any article, or component part thereof, including food, that is produced, distributed,
28 or sold for the personal use, consumption or enjoyment of a consumer.” (Cal. Code Regs., tit.

1 27, § 25600.1, subd. (d).) Food “includes ‘dietary supplements’ as defined in California Code
2 of Regulations, title 17, section 10200.” (*Id.* at subd. (g).) A consumer product exposure is “an
3 exposure that results from a person’s acquisition, purchase, storage, consumption, or any
4 reasonably foreseeable use of a consumer product, including consumption of a food.” (*Id.* at
5 subd. (e).)

6 13. On August 30, 2016, the Office of Administrative Law approved the adoption of
7 OEHHA’s amendments to Article 6, Clear and Reasonable Warnings of the California Code of
8 Regulations. This action repealed virtually all of the regulatory provisions of Title 27 of the
9 California Code of Regulations, Article 6 (sections 25601 *et seq.*) and replaced the repealed
10 sections with new regulations set forth in two new Subarticles to Article 6 that became
11 operative on August 30, 2018 (the “New Warning Regulations”). The New Warning
12 Regulations provide, among other things, methods of transmission and content of warnings
13 deemed to comply with Proposition 65. Simple Health is subject to the warning requirements
14 set forth in the New Warning Regulations that became operative on August 30, 2018.

15 14. Health & Safety Code section 25249.6 provides that “No person in the course of doing
16 business shall knowingly and intentionally expose any individual to a chemical known to the
17 state to cause cancer or reproductive toxicity without first giving clear and reasonable warning
18 to such individual” The New Warning Regulations apply when clear and reasonable
19 warnings are required under Section 25249.6. Pursuant to the New Warning Regulations,
20 consumer product warnings “must be prominently displayed on a label, labeling, or sign, and
21 must be displayed with such conspicuousness as compared with other words, statements,
22 designs or devices on the label, labeling, or sign, as to render the warning likely to be seen,
23 read, and understood by an ordinary individual under customary conditions of purchase or use.”
24 (*Id.* at § 25601, subd. (c).)

25 15. Proposition 65 establishes a procedure by which the State is to develop a list of
26 chemicals “known to the State to cause cancer or reproductive toxicity.” (Health & Safety Code,
27 § 25249.8.) There is no duty to provide a clear and reasonable warning until 12-months after
28 the chemical is published on the State list. (Health & Safety Code, § 25249.10, subd. (b).)

1 16. Lead was listed as a chemical known to the State of California to cause developmental
2 toxicity in the fetus and male and female reproductive toxicity on February 27, 1987. Lead was
3 listed as a chemical known to the State of California to cause cancer on October 1, 1992. (State
4 of California EPA OEHHA Safe Drinking Water and Toxic Enforcement Act of 1986
5 Chemicals Known to the State to Cause Cancer and Reproductive Toxicity.) The MADL for
6 lead as a chemical known to cause reproductive toxicity is 0.5 micrograms per day. (Cal. Code
7 Regs., tit. 27, §25805, subd. (b).) The No Significant Risk Level for lead as a carcinogen is 15
8 micrograms per day. (Cal. Code Regs., tit. 27, §25705, subd. (b).)

9 17. Mercury and mercury compounds were listed as chemicals known to the State of
10 California to cause developmental toxicity in the fetus and male and female reproductive
11 toxicity on July 1, 1990 (State of California EPA OEHHA Safe Drinking Water and Toxic
12 Enforcement Act of 1986 Chemicals Known to the State to Cause Cancer and Reproductive
13 Toxicity).

14 18. Proposition 65 provides that any person “violating or threatening to violate” Proposition
15 65 may be enjoined in any court of competent jurisdiction. (Health & Safety Code, §25249.7,
16 subd. (a).) To “threaten to violate” means “to create a condition in which there is a substantial
17 probability that a violation will occur.” (Health & Safety Code, § 25249.11, subd. (e).)
18 Furthermore, violators are subject to a civil penalty of up to \$2,500 per day for each violation.
19 (Health & Safety Code, § 25249.7, subd. (b)(1).)

20 19. Proposition 65 may be enforced by any person in the public interest who provides notice
21 sixty days before filing suit to both the violator and designated law enforcement officials. The
22 failure of law enforcement officials to file a timely Complaint enables a citizen suit to be filed
23 pursuant to Health & Safety Code section 25249.7, subdivisions (c) and (d).

24 V

25 STATEMENT OF FACTS

26 20. Simple Health has developed, manufactured, marketed, distributed, and/or sold the
27 SUBJECT PRODUCTS containing lead and/or mercury into the State of California.
28 Consumption of the SUBJECT PRODUCTS according to the directions and/or

1 recommendations provided for said products cause consumers to be exposed to lead at levels
2 exceeding the 0.5 micrograms per day MADL and/or to be exposed to mercury and requiring a
3 warning. Consumers have been ingesting these products for many years, without any
4 knowledge of their exposure to these very dangerous chemicals.

5 21. For many years, Simple Health has knowingly and intentionally exposed numerous
6 persons to lead and/or mercury without providing any type of Proposition 65 warning. Prior to
7 ERC's Notices of Violation and this Amended Complaint, Simple Health failed to provide a
8 warning on the labels of the SUBJECT PRODUCTS or provide any other legally acceptable
9 warning. Simple Health has, at all times relevant hereto, been aware that the SUBJECT
10 PRODUCTS contained lead and/or mercury and that persons using these products have been
11 exposed to these chemicals. Simple Health has been aware of the presence of lead and/or
12 mercury in the SUBJECT PRODUCTS and has failed to disclose the presence of these
13 chemicals to the public, who undoubtedly believe they have been ingesting totally healthy and
14 pure products pursuant to the company's statements.

15 22. Both prior and subsequent to ERC's Notices of Violation, Simple Health failed to
16 provide consumers of the SUBJECT PRODUCTS with a clear and reasonable warning that they
17 have been exposed to chemicals known to the State of California to cause cancer and/or birth
18 defects and/or other reproductive harm. This failure to warn is ongoing.

19 **FIRST CAUSE OF ACTION**
20 **(Violation of Section 25249.6 of the Health and Safety Code, Failure to Provide Clear and**
21 **Reasonable Warning under Proposition 65)**

22 23. ERC refers to paragraphs 1-22, inclusive, and incorporates them herein by this
23 reference.

24 24. By committing the acts alleged above, Simple Health has, in the course of doing
25 business, knowingly and intentionally exposed users of the SUBJECT PRODUCTS to lead
26 and/or mercury, chemicals known to the State of California to cause cancer and/or birth defects
27 and/or other reproductive harm, without first giving clear and reasonable warning to such
28 individuals within the meaning of Health & Safety Code section 25249.6. In doing so, Simple

1 Health has violated Health & Safety Code section 25249.6 and continues to violate the statute
2 with each successive sale of the SUBJECT PRODUCTS.

3 25. Said violations render Simple Health liable for civil penalties, up to \$2,500 per day for
4 each violation, and subject Simple Health to injunction.

5 **SECOND CAUSE OF ACTION**
6 **(Declaratory Relief)**

7 26. ERC refers to paragraphs 1-25, inclusive, and incorporates them herein by this
8 reference.

9 27. There exists an actual controversy relating to the legal rights and duties of the Parties,
10 within the meaning of Code of Civil Procedure section 1060, between ERC and Simple Health,
11 concerning whether Simple Health has exposed individuals to chemicals known to the State of
12 California to cause cancer and/or birth defects and/or other reproductive harm without providing
13 clear and reasonable warning.

14 **VI**

15 **PRAYER**

16 WHEREFORE in addition to the relief requested in the Original Complaint, ERC prays for
17 additional relief as follows:

18 1. On the First Cause of Action, for civil penalties for each and every violation according
19 to proof;

20 2. On the First Cause of Action, and pursuant to Health & Safety Code section 25249.7,
21 subdivision (a), for such temporary restraining orders, preliminary and permanent injunctive
22 orders, or other orders as are necessary to prevent Simple Health from exposing persons to lead
23 and/or mercury without providing clear and reasonable warning;

24 3. On the Second Cause of Action, for a declaratory judgment pursuant to Code of Civil
25 Procedure section 1060 declaring that Simple Health has exposed individuals to lead and/or
26 mercury without providing clear and reasonable warning; and

27 4. On all Causes of Action, for reasonable attorneys' fees pursuant to Code of Civil
28 Procedure section 1021.5 or the substantial benefit theory;

April 20, 2021

NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 *ET SEQ.* (PROPOSITION 65)

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I am the Executive Director of Environmental Research Center, Inc. (“ERC”). ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California’s Safe Drinking Water and Toxic Enforcement Act of 1986 (“Proposition 65”), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

General Information about Proposition 65. A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violator identified below.

Alleged Violator. The names of the company covered by this notice that violated Proposition 65 (hereinafter the “Violator”) is:

Simple Health LLC, individually and dba Tosi

Consumer Products and Listed Chemical. The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

- 1. Tosi Complete Meal Chocolate – Lead**
- 2. Tosi Complete Meal Vanilla – Lead**

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

April 20, 2021

Page 2

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

Route of Exposure. The consumer exposures that are the subject of this notice result from the recommended use of these products. Consequently, the route of exposure to this chemical has been and continues to be through ingestion.

Approximate Time Period of Violations. Ongoing violations have occurred every day since at least April 20, 2018, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until this known toxic chemical is either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemical. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons ingesting these products with appropriate warnings that they are being exposed to this chemical.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemical, or provide appropriate warnings on the labels of these products; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above products in the last three years. Such a resolution will prevent further unwarned consumer exposures to the identified chemical, as well as an expensive and time-consuming litigation.

Please direct all questions concerning this notice to ERC at the above listed address and telephone number.

Sincerely,

Chris Heptinstall
Executive Director
Environmental Research Center

Certificate of Merit

Certificate of Service

OEHHA Summary (to Simple Health LLC, individually and dba Tosi and its Registered Agent for Service of Process only)

Additional Supporting Information for Certificate of Merit (to AG only)

CERTIFICATE OF MERIT

Re: Environmental Research Center, Inc.’s Notice of Proposition 65 Violations by Simple Health LLC, individually and dba Tosi

I, Chris Heptinstall, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am the Executive Director for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that “reasonable and meritorious case for the private action” means that the information provides a credible basis that all elements of the plaintiff’s case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: April 20, 2021

Chris Heptinstall

CERTIFICATE OF SERVICE PURSUANT TO 27 CCR § 25903

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States and over the age of 18 years of age. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On April 20, 2021, between 8:00 a.m. and 5:00 p.m. Eastern Time, I served the following documents: **NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; “THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY”** on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to each of the parties listed below and depositing it in a U.S. Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Proposition 65 List." Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before “knowingly and intentionally” exposing that person to a listed chemical unless an exemption applies. The warning given must be “clear and reasonable.” This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses “no significant risk.” This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific “No Significant Risk Levels” (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the “no observable effect level” divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a “significant amount” of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a “significant amount” of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A “significant amount” means any detectable amount, except an amount that would meet the “no significant risk” level for chemicals that cause cancer or that is 1,000 times below the “no observable effect” level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

² See Section 25501(a)(4).

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off-premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A copy of the notice of special compliance procedure and proof of compliance form is included in Appendix B and can be downloaded from OEHHA's website at:
<http://oehha.ca.gov/prop65/law/p65law72003.html>.

FOR FURTHER INFORMATION ABOUT THE LAW OR REGULATIONS...

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Proposition 65 List." Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before “knowingly and intentionally” exposing that person to a listed chemical unless an exemption applies. The warning given must be “clear and reasonable.” This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses “no significant risk.” This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific “No Significant Risk Levels” (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the “no observable effect level” divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a “significant amount” of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a “significant amount” of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A “significant amount” means any detectable amount, except an amount that would meet the “no significant risk” level for chemicals that cause cancer or that is 1,000 times below the “no observable effect” level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

² See Section 25501(a)(4).

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off-premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A copy of the notice of special compliance procedure and proof of compliance form is included in Appendix B and can be downloaded from OEHHA's website at:
<http://oehha.ca.gov/prop65/law/p65law72003.html>.

Environmental Research Center

3111 Camino Del Rio North, Suite 400
San Diego, CA 92108
619-500-3090

May 20, 2021

NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 *ET SEQ.* (PROPOSITION 65)

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I am the Executive Director of Environmental Research Center, Inc. (“ERC”). ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California’s Safe Drinking Water and Toxic Enforcement Act of 1986 (“Proposition 65”), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

General Information about Proposition 65. A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violator identified below.

Alleged Violator. The names of the company covered by this notice that violated Proposition 65 (hereinafter the “Violator”) is:

Simple Health LLC, individually and dba Tosi

Consumer Products and Listed Chemical. The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

- 1. Tosi Complete Meal Chocolate – Mercury**
- 2. Tosi Complete Meal Vanilla – Mercury**

On July 1, 1990, the State of California officially listed mercury and mercury compounds as chemicals known to cause developmental toxicity and male and female reproductive toxicity.

May 20, 2021

Page 2

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

Route of Exposure. The consumer exposures that are the subject of this notice result from the recommended use of these products. Consequently, the route of exposure to this chemical has been and continues to be through ingestion.

Approximate Time Period of Violations. Ongoing violations have occurred every day since at least May 20, 2018, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until this known toxic chemical is either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemical. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons ingesting these products with appropriate warnings that they are being exposed to this chemical.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemical, or provide appropriate warnings on the labels of these products; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above products in the last three years. Such a resolution will prevent further unwarned consumer exposures to the identified chemical, as well as an expensive and time-consuming litigation.

Please direct all questions concerning this notice to ERC at the above listed address and telephone number.

Sincerely,

Chris Heptinstall
Executive Director
Environmental Research Center

Certificate of Merit

Certificate of Service

OEHHA Summary (to Simple Health LLC, individually and dba Tosi and its Registered Agent for Service of Process only)

Additional Supporting Information for Certificate of Merit (to AG only)

CERTIFICATE OF MERIT

Re: Environmental Research Center, Inc.’s Notice of Proposition 65 Violations by Simple Health LLC, individually and dba Tosi

I, Chris Heptinstall, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am the Executive Director for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that “reasonable and meritorious case for the private action” means that the information provides a credible basis that all elements of the plaintiff’s case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: May 20, 2021

Chris Heptinstall

CERTIFICATE OF SERVICE PURSUANT TO 27 CCR § 25903

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States and over the age of 18 years of age. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On May 20, 2021, between 8:00 a.m. and 5:00 p.m. Eastern Time, I served the following documents: **NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; “THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY”** on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to each of the parties listed below and depositing it in a U.S. Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

Current President or CEO
Simple Health LLC, individually and dba Tosi
14695 Candeda Place
Tustin, CA 92780

Stefanie Hults
(Registered Agent for Simple Health LLC,
individually and dba Tosi)
14695 Candeda Place
Tustin, CA 92780

Current President or CEO
Simple Health LLC, individually and dba Tosi
1308 N Patt St
Anaheim, CA 92801

On May 20, 2021, between 8:00 a.m. and 5:00 p.m. Eastern Time, I verified the following documents **NOTICE OF VIOLATIONS, CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; ADDITIONAL SUPPORTING INFORMATION FOR CERTIFICATE OF MERIT AS REQUIRED BY CALIFORNIA HEALTH & SAFETY CODE §25249.7(d)(1)** were served on the following party when a true and correct copy thereof was uploaded on the California Attorney General’s website, which can be accessed at <https://oag.ca.gov/prop65/add-60-day-notice> :

Office of the California Attorney General
Prop 65 Enforcement Reporting
1515 Clay Street, Suite 2000
Post Office Box 70550
Oakland, CA 94612-0550

On May 20, 2021, between 8:00 a.m. and 5:00 p.m. Eastern Time, verified the following documents **NOTICE OF VIOLATIONS, CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT** were served on the following parties when a true and correct copy thereof was sent via electronic mail to each of the parties listed below:

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Proposition 65 List." Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before “knowingly and intentionally” exposing that person to a listed chemical unless an exemption applies. The warning given must be “clear and reasonable.” This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses “no significant risk.” This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific “No Significant Risk Levels” (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the “no observable effect level” divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a “significant amount” of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a “significant amount” of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A “significant amount” means any detectable amount, except an amount that would meet the “no significant risk” level for chemicals that cause cancer or that is 1,000 times below the “no observable effect” level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

² See Section 25501(a)(4).

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off-premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A copy of the notice of special compliance procedure and proof of compliance form is included in Appendix B and can be downloaded from OEHHA's website at:
<http://oehha.ca.gov/prop65/law/p65law72003.html>.
