INTRODUCTION

I.

1. This Complaint is a representative action brought by Environmental Health Advocates, Inc. ("Plaintiff") in the public interest of the citizens of the State of California ("the People"). Plaintiff seeks to remedy Defendants' failure to inform the People of exposure to Titanium Dioxide (airborne, unbound particles of respirable size) ("TiO2"), a known carcinogen. Defendants expose consumers to TiO2 by manufacturing, importing, selling, and/or distributing face powder products including but not limited to the Clinique Superpowder Double Face Makeup ("Products"). Defendants know and intend that customers will use Products containing TiO2. Below are pictures of TiO2 particles found in an exemplar of Defendants' Products:

2. Under California's Safe Drinking Water and Toxic Enforcement Act of 1986, California
 Health and Safety Code, section 25249.6 et seq. ("Proposition 65"), "[n]o person in the course of doing
 business shall knowingly and intentionally expose any individual to a chemical known to the state to
 cause cancer or reproductive toxicity without first giving clear and reasonable warning to such
 individual..." (Health & Safety Code, § 25249.6.)

26 3. California identified and listed Titanium Dioxide (airborne, unbound particles of
27 respirable size) ("TiO2") as a chemical known to cause cancer as early as September 2, 2011.

28

4.

Defendants failed to sufficiently warn consumers and individuals in California about

potential exposure to TiO2 in connection with Defendants' manufacture, import, sale, or distribution of
 Products. This is a violation of Proposition 65.

5. Plaintiff seeks injunctive relief compelling Defendants to sufficiently warn consumers
in California before exposing them to TiO2 in Products. (Health & Safety Code, § 25249.7(a).) Plaintiff
also seeks civil penalties against Defendants for their violations of Proposition 65 along with attorney's
fees and costs. (Health & Safety Code, § 25249.7(b).)

19.

Defendants' actions in this regard were deliberate and not accidental.

6 20. More than sixty days prior to naming each defendant in this lawsuit, Plaintiff issued a
7 60-Day Notice of Violation ("Notice") as required by and in compliance with Proposition 65. Plaintiff
8 provided the Notice to the various required public enforcement agencies along with a certificate of merit.
9 The Notice alleged that Defendants violated Proposition 65 by failing to sufficiently warn consumers in
10 California of the health hazards associated with exposures to TiO2 contained in the Products.

11 21. The appropriate public enforcement agencies provided with the Notice failed to12 commence and diligently prosecute a cause of action against Defendants.

13 22. Individuals exposed to TiO2 contained in Products through inhalation resulting from
14 reasonably foreseeable use of the Products have suffered and continue to suffer irreparable harm. There
15 is no other plain, speedy, or adequate remedy at law.

16 23. Defendants are liable for a maximum civil penalty of \$2,500 per day for each violation
17 of Proposition 65 pursuant to Health and Safety Code, section 252497(b). Injunctive relief is also
18 appropriate pursuant to Health and Safety Code, section 25249.7(a).
