**COMPLAINT FOR CIVIL PENALTIES
AND INJUNCTIVE RELIEF**

(Health & Safety Code § 25249.6 et seq.)

I.
INTRODUCTION

1
2 1. This Complaint is a representative action brought by Environmental Health Advocates,
3 Inc. (“Plaintiff”) in the public interest of the citizens of the State of California (“the People”). Plaintiff
4 seeks to remedy Defendants' failure to inform the People of exposure to mercury, a known
5 reproductive/developmental toxin. Defendants expose consumers to mercury by manufacturing,
6 importing, selling, and/or distributing mushroom risotto including, but not limited to, Cordero Risotto
7 Al Funghi Porcini (“Products”). Defendants know and intend that customers will ingest Products
8 containing mercury.

9 2. Under California’s Safe Drinking Water and Toxic Enforcement Act of 1986, California
10 Health and Safety Code, section 25249.6 et seq. (“Proposition 65”), “[n]o person in the course of doing
11 business shall knowingly and intentionally expose any individual to a chemical known to the state to
12 cause cancer or reproductive toxicity without first giving clear and reasonable warning to such
13 individual. . . .” (Health & Safety Code, § 25249.6.)

14 3. California identified and listed mercury as a chemical known to cause reproductive
15 toxicity as early as July 1, 1990.

16 4. Defendants failed to sufficiently warn consumers and individuals in California about
17 potential exposure to mercury in connection with Defendants' manufacture, import, sale, or distribution
18 of Products. This is a violation of Proposition 65.

19 5. Plaintiff seeks injunctive relief compelling Defendants to sufficiently warn consumers
20 in California before exposing them to mercury in Products. (Health & Safety Code, § 25249.7(a).)
21 Plaintiff also seeks civil penalties against Defendants for violations of Proposition 65 along with
22 attorney’s fees and costs. (Health & Safety Code, § 25249.7(b).)

II.

III.
VENUE AND JURISDICTION

12. California Constitution Article VI, Section 10 grants the Superior Court original jurisdiction in all cases except those given by statute to other trial courts. The Health and Safety Code statute upon which this action is based does not give jurisdiction to any other court. As such, this Court has jurisdiction.

13. Venue is proper in Alameda County Superior Court pursuant to Code of Civil Procedure, sections 394, 395, and 395.5. Wrongful conduct occurred and continues to occur in this County. Defendants conducted and continue to conduct business in this County as it relates to Products.

14. Defendants have sufficient minimum contacts in the State of California or otherwise purposefully avail themselves of the California market. Exercising jurisdiction over Defendants would be consistent with traditional notions of fair play and substantial justice.

IV.
CAUSES OF ACTION

FIRST CAUSE OF ACTION

(Violation of Proposition 65 – Against all Defendants)

15. Plaintiff incorporates by reference each and every allegation contained above.

16. Proposition 65 mandates that citizens be informed about exposures to chemicals that cause cancer, birth defects, and other reproductive harm.

17. Defendants manufactured, imported, sold, and/or distributed Products containing mercury in violation of Health and Safety Code, section 25249.6 et seq. Plaintiff is informed and believes such violations have continued after receipt of the Notice (defined *infra*) and will continue to occur into the future.

18. In manufacturing, importing, selling, and/or distributing Products, Defendants failed to provide a clear and reasonable warning to consumers and individuals in California who may be exposed to mercury through reasonably foreseeable use of the Products.

19. Products expose individuals to mercury through direct ingestion. This exposure is a natural and foreseeable consequence of Defendants placing Products into the stream of commerce. As such, Defendants intend that consumers will ingest Products, exposing them to mercury.

1 20. Defendants knew or should have known that the Products contained mercury and
2 exposed individuals to mercury in the ways provided above. The Notice informed Defendants of the
3 presence of mercury in the Products. Likewise, media coverage concerning mercury and related
4 chemicals in consumer products provided constructive notice to Defendants.

5 21. Defendants' actions in this regard were deliberate and not accidental.

6 22. More than sixty days prior to naming each defendant in this lawsuit, Plaintiff issued a
7 60-Day Notice of Violation (“Notice”) as required by and in compliance with Proposition 65. Plaintiff
8 provided the Notice to the various required public enforcement agencies along with a certificate of merit.
9 The Notice alleged that Defendants violated Proposition 65 by failing to sufficiently warn consumers in
10 California of the health hazards associated with exposures to mercury contained in the Products.

11 23. The appropriate public enforcement agencies provided with the Notice failed to
12 commence and diligently prosecute a cause of action against Defendants.

13 24. Individuals exposed to mercury contained in Products through direct ingestion resulting
14 from reasonably foreseeable use of the Products have suffered and continue to suffer irreparable harm.
15 There is no other plain, speedy, or adequate remedy at law.

16 25. Defendants are liable for a maximum civil penalty of \$2,500 per day for each violation
17 of Proposition 65 pursuant to Health and Safety Code, section 252497(b). Injunctive relief is also
18 appropriate pursuant to Health and Safety Code, section 25249.7(a).
