17 **SUPERIOR COURT OF THE STATE OF CALIFORNIA**

18 **IN AND FOR THE COUNTY OF ALAMEDA**

19 ENVIRONMENTAL HEALTH ADVOCATES,
20 INC.,

21 v.

22 Plaintiff,

23 HALOGENT, LLC, a Washington limited liability
24 company; and DOES 1 through 100, inclusive,

25 Defendants.

26 Case No.: **25CV1 26093**

27 **COMPLAINT FOR CIVIL PENALTIES
28 AND INJUNCTIVE RELIEF**

29 (Health & Safety Code § 25249.6 et seq.)

1

I.
INTRODUCTION

2 1. This Complaint is a representative action brought by Environmental Health Advocates,
3 Inc. (“Plaintiff”) in the public interest of the citizens of the State of California (“the People”). Plaintiff
4 seeks to remedy Defendants’ failure to inform the People of exposure to diethanolamine (“DEA”), a
5 chemical known to the State of California to cause cancer. DEA is a common component of cosmetic
6 and grooming products and often functions as an emulsifier or foaming agent. Defendants expose
7 consumers to DEA by manufacturing, importing, selling, and/or distributing a variety of serum
8 including, but not limited to Exposed Skincare Clear Pore Serum (“Products”). Defendants know and
9 intend that customers will use Products containing DEA.

10 2. Under California’s Safe Drinking Water and Toxic Enforcement Act of 1986, California
11 Health and Safety Code, section 25249.6 et seq. (“Proposition 65”), “[n]o person in the course of doing
12 business shall knowingly and intentionally expose any individual to a chemical known to the state to
13 cause cancer or reproductive toxicity without first giving clear and reasonable warning to such
14 individual. . . .” (Health & Safety Code, § 25249.6.)

15 3. On or around June 22, 2012, the State of California added DEA to Proposition 65 as a
16 known carcinogen, thereby requiring a clear and reasonable warning about potential exposure to DEA
17 on any consumer good. Despite this, Defendants failed to sufficiently warn consumers and individuals
18 in California about potential exposure to DEA in connection with Defendants' manufacture, import, sale,
19 or distribution of Products. This is a violation of Proposition 65.

20 4. Plaintiff seeks injunctive relief compelling Defendants to sufficiently warn consumers
21 in California before exposing them to DEA in Products. (Health & Safety Code, § 25249.7(a).) Plaintiff
22 also seeks civil penalties against Defendants for violations of Proposition 65 along with attorney’s fees
23 and costs. (Health & Safety Code, § 25249.7(b).)

24

II.
PARTIES

25 5. Plaintiff ENVIRONMENTAL HEALTH ADVOCATES, INC. (“Plaintiff”) is a
26 corporation in the State of California dedicated to protecting the health of California citizens through
27 the elimination or reduction of toxic exposure from consumer products. Plaintiff has prosecuted a
28 number of Proposition 65 cases in the public interest. These cases have resulted in significant public

1 benefit—including the reformulation and repackaging of numerous consumer products—to make them
2 safer for California consumers, and to properly apprise California consumers of any health risks
3 associated with their usage. Plaintiff brings this action in the public interest pursuant to Health and
4 Safety Code, section 25249.7.

5 6. Defendant HALOGENT, LLC (“Halogent”) is a limited liability company organized
6 and existing under the laws of Washington. Halogent is registered to do business in California, and does
7 business in the County of Alameda, within the meaning of Health and Safety Code, section 25249.11.
8 Halogent manufactures, imports, sells, or distributes the Products in California and Alameda County.

9 7. Plaintiff does not know the true names and/or capacities, whether individual, partners,
10 or corporate, of the Defendants sued herein as DOES 1 through 100, inclusive, and for that reason sues
11 said Defendants under fictitious names pursuant to Cal. Civ. Proc. § 474. Plaintiff will seek leave to
12 amend this Complaint when the true names and capacities of these Defendants have been ascertained.
13 Plaintiff is informed and believes and thereon alleges that these Defendants are responsible in whole or
14 in part for the remedies and penalties sought herein.

15 8. At all times mentioned, Defendants were the agents, alter egos, servants, joint venturers,
16 joint employers, or employees for each other. Defendants acted with the consent of the other Co-
17 Defendants and acted within the course, purpose, and scope of their agency, service, or employment.
18 All conduct was ratified by Defendants, and each of them.

19 **III.**
20 VENUE AND JURISDICTION

21 9. California Constitution Article VI, Section 10 grants the Superior Court original
22 jurisdiction in all cases except those given by statute to other trial courts. The Health and Safety Code
23 statute upon which this action is based does not give jurisdiction to any other court. As such, this Court
has jurisdiction.

24 10. Venue is proper in Alameda County Superior Court pursuant to Code of Civil
25 Procedure, sections 394, 395, and 395.5. Wrongful conduct occurred and continues to occur in this
26 County. Defendants conducted and continue to conduct business in this County as it relates to Products.

27 ///

28 ///

1 11. Defendants have sufficient minimum contacts in the State of California or otherwise
2 purposefully avail themselves of the California market. Exercising jurisdiction over Defendants would
3 be consistent with traditional notions of fair play and substantial justice.

4 **IV.**

5 **BACKGROUND FACTS**

6 12. Under California's Safe Drinking Water and Toxic Enforcement Act of 1986, California
7 Health and Safety Code, section 2529.6 et seq. ("Proposition 65"), "no person in the course of doing
8 business shall knowingly and intentionally expose any individual to a chemical known to the state of to
9 cause cancer or reproductive toxicity without first giving clear and reasonable warning to such
10 individual..." (Health & Safety Code, § 25249.6.)

11 13. Proposition 65 requires the State of California to maintain "a list of chemicals known to
12 the state to cause cancer or reproductive toxicity," which is to be "revised and republished in light of
13 additional knowledge" on at least an annual basis. (Health & Safety Code, § 25249.8(a).)

14 14. On June 22, 2012, the State of California formally identified and listed DEA as a
15 chemical known to cause cancer. DEA is a common component of cosmetic and grooming products,
16 and often functions as an emulsifier or foaming agent.

17 15. In 2012, the International Agency for Research on Cancer (IARC) also formally
18 identified DEA as a Group 2B possible human carcinogen. (*See IARC Working Group on the Evaluation*
19 *of Carcinogenic Risks to Humans, Some Chemicals Present in Industrial and Consumer Products, Food*
20 *and Drinking-Water. Lyon (FR): International Agency for Research on Cancer; 2013, (IARC*
21 *Monographs on the Evaluation of Carcinogenic Risks to Humans, No. 101.)*
22 *DIETHANOLAMINE, available at:* [*https://www.ncbi.nlm.nih.gov/books/NBK373177/*](https://www.ncbi.nlm.nih.gov/books/NBK373177/) [last visited
23 June 10, 2025].)

24 16. Animal studies have reported effects on various organ systems from long-term topical
25 administration of DEA. For example, a study conducted by the National Toxicology Program
26 (hereinafter, the "NTP study") showed that dermal exposure to DEA amplified the development of
27 tumors in the liver and kidney tubules. (*See National Toxicology Program, NTP Toxicology and*
28 *Carcinogenesis Studies of Diethanolamine (CAS No. 111-42-2) in F344/N Rats and B6C3F1 Mice*

1 (Dermal Studies). Natl Toxicol Program Tech Rep Ser. 1999 Jul; 478:1-212. PMID: 12571685.,
2 available at: <https://pubmed.ncbi.nlm.nih.gov/12571685/> [last visited June 10, 2025].)

3 17. The Office of Environmental Health Hazard Assessment (“OEHHA”) has established
4 specific safe harbor levels for many of the chemicals listed under Proposition 65. For cancer-causing
5 chemicals in particular, a safe harbor level is called a “No Significant Risk Level,” or “NSRL.” An
6 NSRL is the daily intake level calculated to result in one excess case of cancer in an exposed human
7 population of 100,000, assuming lifetime exposure at the level in question. (*See* OEHHA’s Proposition
8 65 Process for Developing Safe Harbor Numbers (February 2001), *available* at
9 <https://oehha.ca.gov/media/downloads/crnr/2001safeharborprocess.pdf> [last visited June 10, 2025].)

The State of California has not yet established an NSRL for DEA. However, research suggests that an NSRL of 5.6 micrograms/day of DEA is appropriate, where dermal absorption is the route of exposure. (See Wang B, Amacher DE, Whittaker MH. Derivation of a No-Significant-Risk-Level (NSRL) for diethanolamine (DEA). *Regul Toxicol Pharmacol*. 2014 Feb;68(1):76-84. doi: 10.1016/j.yrtph.2013.11.009. Epub 2013 Nov 23. PMID: 24275050 [last visited June 10, 2025].) This NSRL is derived from the NTP study described above, using a benchmark dose modeling method based on the incidence of hepatocellular carcinomas in female mice, in accordance with the guidelines of the California Environmental Protection Agency.

18 18. In order to ensure that the injunctive relief sought herein confers a public benefit upon
19 California consumers, EHA adopts the NSRL of 5.6 micrograms/day for DEA derived from the NTP
20 study.

V.

CAUSES OF ACTION

FIRST CAUSE OF ACTION

(Violation of Proposition 65 – Against all Defendants)

24 ||| 19. Plaintiff incorporates by reference each and every allegation contained above.

25 20. Proposition 65 mandates that citizens be informed about exposures to chemicals that
26 cause cancer, birth defects, and other reproductive harm.

27 | ///
28 | ///

1 21. Defendants manufactured, imported, sold, and/or distributed Products containing DEA
2 in violation of Health and Safety Code, section 25249.6 et seq. Plaintiff is informed and believes such
3 violations have continued after receipt of the Notices and will continue to occur into the future.

4 22. In manufacturing, importing, selling, and/or distributing Products, Defendants failed to
5 provide a clear and reasonable warning to consumers and individuals in California who may be exposed
6 to DEA through reasonably foreseeable use of the Products.

7 23. Products expose individuals to DEA through dermal absorption. This exposure is a
8 natural and foreseeable consequence of Defendants placing Products into the stream of commerce. As
9 such, Defendants intend that consumers will use Products, exposing them to DEA.

10 24. Defendant's Products exceed the NSRL of 5.6 micrograms/day, which was derived from
11 the NTP study.

12 25. Defendants knew or should have known that the Products contained DEA and exposed
13 individuals to DEA in the ways provided above. The Notice informed Defendants of the presence of
14 DEA in the Products. Likewise, media coverage concerning DEA and related chemicals in consumer
15 products provided constructive notice to Defendants.

16 26. Defendants' actions in this regard were deliberate and not accidental.

17 27. More than sixty days prior to naming each defendant in this lawsuit, Plaintiff issued a
18 60-Day Notice of Violation upon each Defendant as required by and in compliance with Proposition 65.
19 Plaintiff provided the Notice to the various required public enforcement agencies along with a certificate
20 of merit. The Notice alleged that Defendants violated Proposition 65 by failing to sufficiently warn
21 consumers in California of the health hazards associated with exposures to DEA contained in the
22 Products.

23 28. The appropriate public enforcement agencies provided with the Notice failed to
24 commence and diligently prosecute a cause of action against Defendants.

25 29. Individuals exposed to DEA contained in Products through dermal absorption resulting
26 from reasonably foreseeable use of the Products have suffered and continue to suffer irreparable harm.
27 There is no other plain, speedy, or adequate remedy at law.

28 //

1 30. Defendants are liable for a maximum civil penalty of \$2,500 per day for each violation
2 of Proposition 65 pursuant to Health and Safety Code, section 252497(b). Injunctive relief is also
3 appropriate pursuant to Health and Safety Code, section 25249.7(a).

PRAAYER FOR RELIEF

5 Wherefore, Plaintiff prays for judgment against Defendants as follows:

6 1. Civil penalties in the amount of \$2,500 per day for each violation. Plaintiff alleges that
7 damages total a minimum of \$1,000,000;

8 2. A preliminary and permanent injunction against Defendants from manufacturing,
9 importing, selling, and/or distributing Products in California without providing a clear and reasonable
10 warning as required by Proposition 65 and related Regulations;

11 ||| 3. Reasonable attorney's fees and costs of suit; and

12 4. Such other and further relief as may be just and proper.

14 || Respectfully submitted:

15 || Dated: June 10, 2025
