4 1.4 On June 15, 2006, upon noticed motion, the Court amended the Master Consent
5 Judgment by entering an Amended Consent Judgment in the consolidated actions (the "Amended
6 Master Consent Judgment").

7 1.5 On October 20, 2006, CEH provided a "Notice of Violation of Proposition 65" to
8 the California Attorney General, the District Attorneys of every county in California, the City
9 Attorneys of every California city with a population greater than 750,000, and to both Urban
10 Outfitters, Inc. and Urban Outfitters West LLC regarding the presence of lead in jewelry

16 leather wallets, handbags, purses, clutches and totes manufactured, distributed or sold by
17 Defendants.

18 1.7 On February 16, 2007, the Complaint in the *Nadri* Action was amended to name
19 additional defendants, including Urban Outfitters, Inc. and Urban Outfitters West LLC.

20 1.8 Urban Outfitters, Inc. is a corporation, and Urban Outfitters West LLC is a limited
21 liability company, both of which employ ten or more persons, and which manufacture, distribute
22 and/or sell Covered Products in the State of California.

23 1.9 For purposes of this Consent Judgment only, CEH and Defendants (the "Parties")
24 stipulate that this Court has jurisdiction over the allegations of violations contained in the
25 Complaint and personal jurisdiction over Defendants as to the acts alleged in the Complaint, that
26 venue is proper in the County of Alameda, and that this Court has jurisdiction to enter this
27 Consent Judgment as a full and final resolution of all claims which were or could have been raised
28

1 in the Complaint based on the facts alleged therein with respect to Covered Products and/or Recall
2 Products manufactured, distributed, and/or sold by Defendants.

3 1.10 CEH and Defendants enter into this Consent Judgment as a full and final settlement
4 of all claims that were raised in the Complaint, or which could have been raised in the Complaint,
5 arising out of the facts or conduct related to Defendants alleged therein. By execution of this
6 Consent Judgment and agreeing to comply with its terms, the Parties do not admit any facts or
7 conclusions of law, including, but not limited to, any facts or conclusions of law suggesting or
8 demonstrating any violations of Proposition 65 or any other statutory, common law or equitable
9 requirements relating to lead in jewelry. Nothing in this Consent Judgment shall be construed as
10 an admission by the Parties of any fact, conclusion of law, issue of law or violation of law, nor
11 shall compliance with the Consent Judgment constitute or be construed as an admission by the
12 Parties of any fact, conclusion of law, issue of law, or violation of law. Nothing in this Consent
13 Judgment shall prejudice, waive or impair any right, remedy, argument or defense the Parties may
14 have in this or any other or future legal proceedings. This Consent Judgment is the product of
15 negotiation and compromise and is accepted by the Parties for purposes of settling, compromising,
16 and resolving issues disputed in this action.

17 1.11 CEH and Defendants intend, and the Court finds, that the injunctive terms
18 contained in Sections 2, 3.1 through 3.4, and 4 of this Consent Judgment are "substantially
19 identical terms as provided in Sections 2, 3 and 4 of the amended consent judgment," as those

6 described in Sections 3.2.1.8 and 3.2.1.9 from Class 1 Component to a Class 2 Component with a
7 lead standard for such material, if, subsequent to the Effective Date, CEH obtains information that
8 demonstrates that such material contains lead and that the use of the material in any Covered
9 Product exposes users of the Covered Product to lead in an amount greater than 0.5 micrograms
10 per day.

11 **6.3.2 Reopener for Class 3 Components.** Any Party may seek to modify this
12 Consent Judgment by seeking to designate a Class 3 Component as a Class 1 Component or as a
13 Class 2 Component with a lead specification standard.

14 **6.3.3 Required Showing to Obtain Reopeners.** A reopener pursuant to
15 Sections 6.4.1 or 6.4.2 shall be granted if the court finds the following:

16 6.3.3.1 A Class 3 Component shall be redesignated as a Class 1 Component
17 if the moving party demonstrates that such material does not contain lead, or that the use of the
18 material in any Covered Product does not expose users of the Covered Product to lead in an
19 amount greater than 0.5 micrograms per day.

20 6.3.3.2 A Class 3 Component, and the materials described in Sections
21 3.2.1.8 and 3.2.1.9, shall be redesignated as a Class 2 Component with a lead specification
22 standard if the moving party demonstrates that use of such material at or below the standard does
23 not expose average users of the Covered Product to lead in an amount greater than 0.5 micrograms
24 per day.

25 **6.4 Notice; Meet and Confer.** Any Party seeking to modify this Consent Judgment
26 shall attempt in good faith to meet and confer with all affected Parties prior to filing a motion to
27 modify the Consent Judgment.

28 **6.4.1 Notice to Defendants.** The person for Defendants to receive Notices

20 **7. CLAIMS COVERED AND RELEASE**

21 7.1 This Consent Judgment is a full, final, and binding resolution between CEH and
22 Defendants and their parents, shareholders, officers, directors, employees, divisions, subdivisions,
23 subsidiaries, partners, sister companies and their successors and assigns (“Defendant Releasees”),
24 and all entities other than those listed on Exhibit C to this Consent Judgment to whom they
25 distribute or sell Covered Products and Recall Products (collectively, the “Released Products”),
26 including but not limited to distributors, wholesalers, customers, retailers, franchisees, cooperative
27 members, and licensees (“Downstream Defendant Releasees”), of any violation of Proposition 65
28 or any other statutory or common law claims that have been or could have been asserted in the
public interest against Defendants, Defendant Releasees, and Downstream Defendant Releasees,
regarding the failure to warn about exposure to lead arising in connection with Released Products
manufactured, distributed, or sold by Defendant prior to the Effective Date.

7.2 CEH, for itself and acting on behalf of the public interest pursuant to Health and

1 Safety Code §25249.7(d), releases, waives, and forever discharges any and all claims against
2 Defendants, Defendant Releasees, and Downstream Defendant Releasees arising from any
3 violation of Proposition 65 or any other statutory or common law claims that have been or could
4 have been asserted in the public interest regarding the failure to warn about exposure to lead
5 arising in connection with Released Products manufactured, distributed or sold by Defendants
6 prior to the Effective Date.

7 7.3 Compliance with the terms of this Consent Judgment by Defendants and its
8 Defendant Releasees shall constitute compliance with Proposition 65 by Defendants, their
9 Defendant Releasees and their Downstream Defendant Releasees with respect to any alleged
10 failure to warn about lead in Covered Products manufactured, distributed or sold by Defendants
11 after the Effective Date.

12 7.4 CEH represents that as of the date this Consent Judgment is executed by CEH, it
13 does not know of any vinyl and faux leather wallets, handbags, purses, clutches and totes
14 manufactured, distributed or sold by Defendants that contain lead at levels requiring a warning
15 under Proposition 65 other than those specifically identified as Handbag Recall Products in
16 Section 3.5.1. CEH and Defendants intend, and the Court finds, that nothing in this Section 7, the
17 release contained herein, or any other part of this Consent Judgment shall apply to any vinyl and
18 faux leather wallets, handbags, purses, clutches and totes manufactured, distributed or sold by
19 Defendants other than those specifically identified as Handbag Recall Products in Section 3.5.1.
20 Furthermore, it is the understanding of the Parties that should CEH identify in the future any vinyl
21 and faux leather wallets, handbags, purses, clutches and totes manufactured, distributed or sold by
22 Defendants that contain lead or any other Proposition 65 listed chemical and are being sold in
23 violation of Proposition 65, that CEH may enforce Proposition 65 against Defendants as to such
24 products and that nothing in this Consent Judgment shall act to bar or limit in any way such an
25 enforcement action.

26 8. PROVISION OF NOTICE

27 8.1 When any party is entitled to receive any notice under this Consent Judgment, the
28 notice shall be sent by certified mail and electronic mail to the Party(ies) identified in Section 6.4.

1 Any party may modify the person and address to whom the notice is to be sent by sending each
2 other party notice by certified mail and/or other verifiable form of written communication.

3 **9. COURT APPROVAL**

4 9.1 This Consent Judgment shall become effective on the Effective Date, provided
5 however, that CEH shall prepare and file a Motion for Approval of this Consent Judgment and
6 Defendants shall support approval of such Motion.

7 9.2 If this Consent Judgment is not entered by the Court, it shall be of no force or effect
8 and shall not be introduced into evidence or otherwise used in any proceeding for any purpose. In
9 addition, if this Consent Judgment is not entered by the Court, all money paid pursuant to Section
10 5 hereof shall be returned to Defendants.

11 **10. GOVERNING LAW AND CONSTRUCTION**

12 10.1 The terms of this Consent Judgment shall be governed by the laws of the State of
13 California.

14 10.2 The Parties, including their counsel, have participated in the preparation of this
15 Consent Judgment and this Consent Judgment is the result of the joint efforts of the Parties. This
16 Consent Judgment has been accepted and approved as to its final form by all Parties and their
17 counsel. Accordingly, any uncertainty or ambiguity existing in this Consent Judgment shall not be
18 interpreted against any Party as a result of the manner of the preparation of this Consent Judgment.
19 Each party to this Consent Judgment agrees that any statute or rule of construction providing that
20 ambiguities are to be resolved against the drafting party should not be employed in the
21 interpretation of this Consent Judgment and, in this regard, the Parties hereby waive California
22 Civil Code §1654.

23 **11. ATTORNEYS' FEES**

24 11.1 A party who unsuccessfully brings or contests an action arising out of this Consent
25 Judgment shall be required to pay the prevailing party's reasonable attorneys' fees and costs
26 unless the unsuccessful party has acted with substantial justification. For purposes of this Consent
27 Judgment, the term substantial justification shall carry the same meaning as used in the Civil
28 Discovery Act of 1986, Code of Civil Procedure §§2016.010, *et seq.*

1 11.2 Notwithstanding Section 11.1, a party who prevails in a contested enforcement
2 action brought pursuant to Section 4 may seek an award of attorneys' fees pursuant to Code of
3 Civil Procedure §1021.5 against a party that acted with substantial justification. The party seeking
4 such an award shall bear the burden of meeting all of the elements of §1021.5, and this provision
5 shall not be construed as altering any procedural or substantive requirements for obtaining such an
6 award.

7 11.3 Nothing in this Section 11 shall preclude a Party from seeking an award of
8 sanctions pursuant to law.

9 **12. ENTIRE AGREEMENT**

10 12.1 This Consent Judgment contains the sole and entire agreement and understanding
11 of the Parties with respect to the entire subject matter hereof, and any and all prior discussions,
12 negotiations, commitments, or understandings related thereto, if any, are hereby merged herein
13 and therein. There are no warranties, representations, or other agreements between the Parties
14 except as expressly set forth herein. No representations, oral or otherwise, express or implied,
15 other than those specifically referred to in this Consent Judgment have been made by any party
16 hereto. No other agreements not specifically contained or referenced herein, oral or otherwise,
17 shall be deemed to exist or to bind any of the Parties hereto. No supplementation, modification,
18 waiver, or termination of this Consent Judgment shall be binding unless executed in writing by the
19 party to be bound thereby. No waiver of any of the provisions of this Consent Judgment shall be
20 deemed or shall constitute a waiver of any of the other provisions hereof whether or not similar,
21 nor shall such waiver constitute a continuing waiver.

22 **13. RETENTION OF JURISDICTION**

23 13.1 This Court shall retain jurisdiction of this matter to implement or modify the
24 Consent Judgment.

25 **14. AUTHORITY TO STIPULATE TO CONSENT JUDGMENT**

26 14.1 Each signatory to this Consent Judgment certifies that he or she is fully authorized
27 by the party he or she represents to stipulate to this Consent Judgment and to enter into and
28 execute the Consent Judgment on behalf of the party represented and legally to bind that party.

1 **15. NO EFFECT ON OTHER SETTLEMENTS**

2 15.1 Nothing in this Consent Judgment shall preclude CEH from resolving any claim
3 against an entity that is not a Defendant on terms that are different than those contained in this
4 Consent Judgment.

5 **16. EXECUTION IN COUNTERPARTS**

6 16.1 The stipulations to this Consent Judgment may be executed in counterparts and by
7 means of facsimile, which taken together shall be deemed to constitute one document.

EXHIBIT A

(BEST MANAGEMENT PRACTICES FOR PLATING FACILITIES)

PRE-PLATING PROCEDURE

The pieces must be cleaned. Any polishing compound must be removed before plating by cleaning with aqueous cleaning solution or solvent and rinsed with water.

The pieces must be activated.

The pieces must be rinsed in clean water before plating.

PLATING BATH MAINTENANCE

The temperature of each plating bath must be controlled to the appropriate temperature in accordance with the recommendations of the equipment and plating chemical suppliers.

The nickel and nickel-substitute tanks must be agitated or aerated in accordance with the chemical suppliers' recommendations.

All baths must be filtered continuously during plating and filters changed at least than monthly.

pH must be measured each day of plating and adjusted within the chemical supplier's recommendations.

All plating employees must be trained on the use of the equipment in accordance with recommendation of equipment manufacturer and plating chemical suppliers.

The plating baths must be maintained in accordance with the plating chemical suppliers recommendations.

Plating tanks must be swept at least weekly.

Anodes must be inspected monthly in accordance with the anode supplier's recommendations.

Racks must be stripped at least annually.

The electrical equipment must be sized appropriately for each tank in accordance with equipment manufacturer's recommendations and calibrated annually.

1 **PLATING PROCEDURES**

2 Substantial pieces such as pendants, drops, and rings without prongs or other such feature
3 shall be plated with at least 15 minutes combined plating with copper (copper strike and/or acid
4 copper), nickel or nickel substitute, and/or finish coat. The pieces will also be rinsed between
5 plating tanks. Finish decorative coatings include brass, bronze, copper, gold, gun metal, hematite,
6 imitation rhodium, matt finish, palladium, platinum, rhodium, or silver. If desired, plated pieces
7 can be treated to produce other finishes such as matt, oxidized, or smut black finishes.

8 Mechanical, functional (e.g., lobster claws, spacers, mechanical closures, connectors), or
9 fine pieces such as prongs and fine chains may be plated to cover the exposed surface consistent
10 with good manufacturing practices for appearance and function. Components that articulate
11 closely together such as snake chain and tight hinges or that need to be manipulated into position
12 will be plated to prevent binding, stiffness, and cracking of plating.

EXHIBIT B
(TESTING PROTOCOLS)

The following test methods must be used to determine compliance with the lead standards set forth in this Consent Judgment. A material shall not meet the applicable lead standard if the mean lead level of: (1) one or two samples exceeds 300% of the component specification limit; (2) three samples exceeds 200% of the component specification limit; or (3) four or more samples exceeds the component specification limit.

Laboratory sample preparation protocols specific for testing the lead content of jewelry components are not readily available. The sample preparation method used in USEPA Method 3050B or Method 3051 shall be followed, as modified in the following table for use with jewelry samples. The laboratory should make every effort to assure that samples removed from jewelry pieces are representative of the component to be tested, and are free of contamination from extraneous dirt and material not related to the jewelry component to be tested. All jewelry component samples shall be washed prior to testing using standard laboratory detergent, rinsed with laboratory reagent grade deionized water, and dried in a clean ambient environment. If components must be cut or scraped to obtain a sample, then metal snips, scissors, or other cutting tools used must be made of stainless steel and washed and rinsed before each use and between samples.

Samples should be digested in containers that are known to be free of lead using acids that are not contaminated by lead. Analytical Reagent grade digestion acids and reagent grade deionized water are required. Method Blanks, consisting of all reagents used in sample preparation handled, digested and made to volume in the same exact manner and in the same container type as samples, shall be tested with each group of 20 or fewer samples tested. The results for the Method Blank shall be reported with each group of sample results, and shall be below the stated reporting limit for sample results to be considered valid.

All jewelry components samples shall be prepared for testing in accordance with USEPA Method 3050B or 3051, with the following additional notes and exceptions:

COMPONENT	NOTES AND EXCEPTIONS
Metals plated with suitable undercoats and finish coats	Digestion using hot concentrated nitric acid with optional hydrochloric acid and optional hydrogen peroxide. Sample size should be 0.050 g to 1 g. Digested samples may require dilution prior to analysis. Digestion and analysis should achieve a reported detection limit no greater than 0.1% for samples. Any necessary dilutions shall be made to assure that measurements are made within the calibrated range of the analytical instrument.
Unplated metal and metal substrates not defined as Class I Components.	Digestion using hot concentrated nitric acid with optional hydrochloric acid and optional hydrogen peroxide. Sample size should be 0.050 g to 1 g. Digested samples may require dilution prior to analysis. Digestion and analysis should achieve a reported detection limit no greater than 0.01% for samples. Any necessary dilutions shall be made to assure that measurements are made within the calibrated range of the analytical instrument.
Polyvinyl chloride (PVC)	Digestion using hot concentrated nitric acid with optional hydrochloric acid and optional hydrogen peroxide. Sample size should be a minimum of 0.05 g if using microwave digestion or 0.5 if using hot plate digestion, and should be chopped or comminuted prior to digestion. Digested samples may require dilution prior to analysis. Digestion and analysis should achieve a reported detection limit no greater than 0.001% (10 ppm) for samples. Any necessary dilutions shall be made to assure that measurements are made within the calibrated range of the analytical instrument.
Non-PVC Plastic/Rubber (e.g., acrylic, polystyrene, plastic beads/stones).	Digestion using hot concentrated nitric acid with optional hydrochloric acid and optional hydrogen peroxide. Sample size should be a minimum of 0.05 g if using microwave digestion or 0.5 if using hot plate digestion and should be chopped or comminuted prior to digestion. Plastic beads or stones should be crushed prior to digestion. Digested samples may require dilution prior to analysis. Digestion and analysis should achieve a reported detection limit no greater than 0.001% (10 ppm) for samples. Any necessary dilutions shall be made to assure that measurements are made within the calibrated range of the analytical instrument.
Coatings on Glass and Plastic Pearls.	The coating of glass or plastic beads should be scraped onto a surface free of dust, such as a clean weighing paper or pan, using a clean stainless steel razor blade or other clean sharp instrument that will not contaminate the sample with lead. The razor blade or sharp instrument should be rinsed with deionized water, wiped to remove particulate matter, rinsed again, and dried between samples. Weigh the scrapings. A minimum of 50 mg of scraped

If less than 50 mg of scraped coating is obtained from an individual pearl, then multiple pearls from that sample must be scraped and composited to obtain a sufficient sample amount. The number of pearls used to make the composite must be noted. Avoid inclusion of the substrate pearl material in the scrapings. Digest the scrapings according to USEPA Method 3050B or 3051 or equivalent procedure for hot acid digestion in preparation for trace lead analysis. Dilute the digestate in the minimum volume practical for analysis. Analyze the digested sample according to specification of Exhibit C (approved, validated methodology for inductively-coupled plasma mass spectrometry). A reporting limit of 0.001% (10 ppm) in the coating must be obtained for the analysis. The sample result must be reported within the calibrated range of the instrument. If the initial test of the sample is above the highest calibration standard, then the sample must be diluted and re-analyzed within the calibrated range of the instrument.</p>
