NOV 22 2019

CLERK OF THE SUPERIOR COURT
By [Signature] Deputy

1. INTRODUCTION

1.1 On August 22, 2019, Plaintiff Environmental Research Center, Inc. ("ERC"), a non-profit corporation, as a private enforcer and in the public interest, initiated this action by filing a Complaint for Injunctive and Declaratory Relief and Civil Penalties (the "Complaint") pursuant to the provisions of California Health and Safety Code section 25249.5 *et seq.*

1 ("Proposition 65"), against Uni Key Health Systems, Inc. and Uni Key Health Systems
2 (collectively "Uni Key") and Does 1-100. In this action, ERC alleges that a number of products
3 manufactured, distributed, or sold by Uni Key contain lead, a chemical listed under Proposition
4 65 as a carcinogen and reproductive toxin, and expose consumers to this chemical at a level
5 requiring a Proposition 65 warning. These products (referred to hereinafter individually as a
6 "Covered Product" or collectively as "Covered Products") are: (1) Uni Key Fat Flush Whey
7 Protein All-Natural Non-Denatured Whey Protein Natural Vanilla Flavor, (2) Uni Key Fat
8 Flush Body Protein All-Natural GMO-Free Pea & rice Protein Natural Vanilla Flavor, (3) Uni
9 Key Health Daily Greens Formula, (4) Uni Key Health Super-GI Cleanse, (5) Uni Key Health
10 Para-Key, (6) Uni Key Health Liver-Lovin Formula, (7) Uni Key Health Osteo-Key, and (8)
11 Uni Key Health Female Multiple.

12 1.2 ERC and Uni Key are hereinafter referred to individually as a "Party" or
13 collectively as the "Parties."

14 1.3 ERC is a 501 (c)(3) California non-profit corporation dedicated to, among other
15 causes, helping safeguard the public from health hazards by reducing the use and misuse of
16 hazardous and toxic chemicals, facilitating a safe environment for consumers and employees,
17 and encouraging corporate responsibility.

18 1.4 For purposes of this Consent Judgment, the Parties agree that each defendant is a
19 business entity each of which has employed ten or more persons at least some times relevant to
20 this action, and qualifies as a "person in the course of doing business" within the meaning of
21 Proposition 65. Uni Key manufactures, distributes, and/or sells the Covered Products.
22 The Complaint is based on allegations contained in ERC's Notices of Violation dated May 13,
23 2019 and June 11, 2019 that were served on the California Attorney General, other public
24 enforcers, and Uni Key ("Notices"). True and correct copies of the 60-Day Notices dated May
25 13, 2019 and June 11, 2019 are attached hereto as **Exhibits A and B** and each is incorporated
26 herein by reference. More than 60 days have passed since the Notices were served on the
27 Attorney General, public enforcers, and Uni Key and no designated governmental entity has
28 filed a Complaint against Uni Key with regard to the Covered Products or the alleged

1 violations.

2 **1.5** ERC's Notices and Complaint allege that use of the Covered Products exposes
3 persons in California to lead without first providing clear and reasonable warnings in violation
4 of California Health and Safety Code section 25249.6. Uni Key denies material allegations
5 contained in the Notices and Complaint.

6 **1.6** The Parties have entered into this Consent Judgment in order to settle,
7 compromise, and resolve disputed claims and thus avoid prolonged and costly litigation.
8 Nothing in this Consent Judgment nor compliance with this Consent Judgment shall constitute
9 or be construed as an admission by any of the Parties or by any of their respective officers,
10 directors, shareholders, employees, agents, parent companies, subsidiaries, divisions,
11 franchisees, licensees, customers, suppliers, distributors, wholesalers, or retailers of any fact,
12 issue of law, or violation of law.

13 **1.7** Except as expressly set forth herein, nothing in this Consent Judgment shall
14 prejudice, waive, or impair any right, remedy, argument, or defense the Parties may have in
15 any current or future legal proceeding unrelated to these proceedings.

16 **1.8** The Effective Date of this Consent Judgment is the date on which it is entered
17 as a Judgment by this Court.

18 **2. JURISDICTION AND VENUE**

19 For purposes of this Consent Judgment and any further court action that may become
20 necessary to enforce this Consent Judgment, the Parties stipulate that this Court has subject matter
21 jurisdiction over the allegations of violations contained in the Complaint, personal jurisdiction
22 over Uni Key as to the acts alleged in the Complaint, that venue is proper in Alameda County, and
23 that this Court has jurisdiction to enter this Consent Judgment as a full and final resolution of all
24 claims up through and including the Effective Date which were or could have been asserted in this
25 action based on the facts alleged in the Notices and Complaint.

26 **3. INJUNCTIVE RELIEF, REFORMULATION, TESTING AND WARNINGS**

27 **3.1** Beginning on the Effective Date, Uni Key shall be permanently enjoined from
28 manufacturing for sale in the State of California, "Distributing into the State of California," or

1 directly selling in the State of California, any Covered Products which expose a person to a
2 "Daily Lead Exposure Level" of more than 0.5 micrograms of lead per day unless it meets the
3 warning requirements under Section 3.2 and, at the same time, employs ten (10) or more
4 persons.

5 **3.1.1** As used in this Consent Judgment, the term "Distributing into the State
6 of California" shall mean to directly ship a Covered Product into California for sale in
7 California or to sell a Covered Product to a distributor that Uni Key knows or has reason to
8 know will sell the Covered Product in California.

9 **3.1.2** For purposes of this Consent Judgment, the "Daily Lead Exposure
10 Level" shall be measured in micrograms, and shall be calculated using the following formula:
11 micrograms of lead per gram of product, multiplied by grams of product per serving of the
12 product (using the largest serving size appearing on the product label), multiplied by servings
13 of the product per day (using the largest number of recommended daily servings appearing on
14 the label), which equals micrograms of lead exposure per day. If the label contains no
15 recommended daily servings, then the number of recommended daily servings shall be one.

16 **3.2 Clear and Reasonable Warnings**

17 If Uni Key is required to provide a warning pursuant to Section 3.1, the following warning
18 must be utilized ("Warning"):

19 **WARNING:** Consuming this product can expose you to chemicals including lead which is
20 [are] known to the State of California to cause [cancer and] birth defects or other
reproductive harm. For more information go to www.P65Warnings.ca.gov/food.

21 Uni Key shall use the phrase "cancer and" in the Warning if Uni Key has reason to believe
22 that the the "Daily Lead Exposure Level" is greater than 15 micrograms of lead as determined
23 pursuant to the quality control methodology set forth in Section 3.4 or if Uni Key has reason to
24 believe that another Proposition 65 chemical is present which may require a cancer warning.

25 The Warning shall be securely affixed to or printed upon the container or label of each
26 Covered Product. If the Warning is provided on the label, it must be set off from other
27 surrounding information and enclosed in a box. In addition, for any Covered Product sold over
28 the internet, the Warning shall appear on the checkout page when a California delivery address

1 is indicated for any purchase of any Covered Product. An asterisk or other identifying method
2 must be utilized to identify which products on the checkout page are subject to the Warning.

3 In no event shall any internet or website Warning be contained in or made through a link.

4 The Warning shall be at least the same size as the largest of any other health or safety
5 warnings also appearing on the website or on the label or container of Uni Key's product
6 packaging and the word "WARNING" shall be in all capital letters and in bold print. No
7 statements intended to or likely to have the effect of diminishing the impact of the Warning on the
8 average lay person shall accompany the Warning. Further, no statements may accompany the
9 Warning that state or imply that the source of the listed chemical has an impact on or results in a
10 less harmful effect of the listed chemical.

11 Uni Key must display the above Warning with such conspicuousness, as compared with
12 other words, statements or designs on the label or container, or on its website, if applicable, to
13 render the Warning likely to be read and understood by an ordinary individual under customary
14 conditions of purchase or use of the product.

15 3.3 Conforming Covered Products

16 A Conforming Covered Product is a Covered Product for which the "Daily Lead Exposure
17 Level" is no greater than 0.5 micrograms of lead per day as determined by the quality control
18 methodology described in Section 3.4.

19 3.4 Remedy and Testing and Quality Control Methodology

20 The remedy for the aforementioned deficiencies of the Covered Products is the addition of a
21 Clear and Reasonable Warning on the container or package of each of the Covered Products along
22 with similar Warnings on the Uni Key web site, and, if applicable, testing and reporting as outlined
23 in this Section 3.4. Uni Key has implemented all of the above changes as of May 21, 2019, and is
24 currently displaying Warnings on both the Covered Products and their associated web pages. For a
25 period of five (5) years from the Effective Date, Uni Key will not consider any of the Covered
26 Products to be Conforming Covered Products.

27 3.4.1 The testing and reporting requirements of Sections 3.4.2 and 3.4.7 do not
28 apply to any Covered Product for which Uni Key has provided the Warning specified in Section 3.2

continuously and uninterrupted after the Effective Date; however, in the event Uni Key ceases to provide the Warning specified in Section 3.2, Uni Key shall be required to comply with the testing and reporting requirements of this Section 3.4 beginning immediately after the date the Warning ceases to be provided or one year after the Effective Date, whichever date is later.

3.4.2 To the extent testing and reporting are required pursuant to Section 3.4.1, then beginning within one year of the Effective Date, or later as outlined in Section 3.4.1, Uni Key shall arrange for lead testing of the Covered Products at least once a year for a minimum of five consecutive years by arranging for testing of five randomly selected samples of each of the Covered Products, in the form intended for sale to the end-user, which Uni Key intends to sell or is manufacturing for sale in California, directly selling to a consumer in California or "Distributing into the State of California." If tests conducted pursuant to this Section demonstrate that no Warning is required for a Covered Product during each of five consecutive years, then the testing requirements of this Section will no longer be required as to that Covered Product. However, if during the five-year testing period, Uni Key changes ingredient suppliers for any of the Covered Products and/or reformulates any of the Covered Products, Uni Key shall test that Covered Product annually for at least four (4) consecutive years after such change is made.

3.4.3 For purposes of measuring the "Daily Lead Exposure Level," the highest lead detection result of the five (5) randomly selected samples of the Covered Products will be controlling.

3.4.4 All testing pursuant to this Consent Judgment shall be performed using a laboratory method that complies with the performance and quality control factors appropriate for the method used, including limit of detection, qualification, accuracy, and precision that meets the following criteria: Inductively Coupled Plasma-Mass Spectrometry ("ICP-MS") achieving a limit of quantification of less than or equal to 0.010 mg/kg.

3.4.5 All testing pursuant to this Consent Judgment shall be performed by an independent third party laboratory certified by the California Environmental Laboratory Accreditation Program or an independent third-party laboratory that is registered with the United States Food & Drug Administration.

1 **3.4.6** Nothing in this Consent Judgment shall limit Uni Key's ability to conduct,
2 or require that others conduct, additional testing of the Covered Products, including the raw
3 materials used in their manufacture.

4 **3.4.7** If testing and reporting are required pursuant to Section 3.4.1, then within
5 thirty (30) days of ERC's written request, Uni Key shall deliver lab reports obtained pursuant to
6 Section 3.4 to ERC. Uni Key shall retain all test results and documentation for a period of five
7 years from the date of each test.

8 **4. SETTLEMENT PAYMENT**

9 **4.1** In full satisfaction of all potential civil penalties, additional settlement
10 payments, attorney's fees, and costs, Uni Key shall make a total payment of \$62,500.00
11 ("Total Settlement Amount") to ERC within 5 days of the Effective Date ("Due Date"). Uni
12 Key shall make this payment by wire transfer to ERC's account, for which ERC will give Uni
13 Key the necessary account information. The Total Settlement Amount shall be apportioned as
14 follows:

15 **4.2** \$30,000.00 shall be considered a civil penalty pursuant to California Health and
16 Safety Code section 25249.7(b)(1). ERC shall remit 75% (\$22,500.00) of the civil penalty to
17 the Office of Environmental Health Hazard Assessment ("OEHHA") for deposit in the Safe
18 Drinking Water and Toxic Enforcement Fund in accordance with California Health and Safety
19 Code section 25249.12(c). ERC will retain the remaining 25% (\$7,500.00) of the civil penalty.

20 **4.3** \$2,928.15 shall be distributed to ERC as reimbursement to ERC for reasonable
21 costs incurred in bringing this action.

22 **4.4** \$22,245.11 shall be distributed to ERC as an Additional Settlement Payment
23 ("ASP"), pursuant to California Code of Regulations, title 11, sections 3203, subdivision (d)
24 and 3204. ERC will utilize the ASP for activities that address the same public harm as
25 allegedly caused by Defendant in this matter. These activities are detailed
26 below and support ERC's overarching goal of reducing and/or eliminating hazardous and toxic
27 chemicals in dietary supplement products in California. ERC's activities have had, and will
28 continue to have, a direct and primary effect within the State of California because California

1 consumers will be benefitted by the reduction and/or elimination of exposure to lead in dietary
2 supplements and/or by providing clear and reasonable warnings to California consumers prior
3 to ingestion of the products.

4 Based on a review of past years' actual budgets, ERC is providing the following list of
5 activities ERC engages in to protect California consumers through Proposition 65 citizen
6 enforcement, along with a breakdown of how ASP funds will be utilized to facilitate those
7 activities: (1) ENFORCEMENT (65-80%): obtaining, shipping, analyzing, and testing dietary
8 supplement products that may contain lead and are sold to California consumers. This work
9 includes continued monitoring and enforcement of past consent judgments and settlements to
10 ensure companies are in compliance with their obligations thereunder, with a specific focus on
11 those judgments and settlements concerning lead. This work also includes investigation of new
12 companies that ERC does not obtain any recovery through settlement or judgment; (2)
13 VOLUNTARY COMPLIANCE PROGRAM (10-20%): maintaining ERC's Voluntary
14 Compliance Program by acquiring products from companies, developing and maintaining a
15 case file, testing products from these companies, providing the test results and supporting
16 documentation to the companies, and offering guidance in warning or implementing a self-
17 testing program for lead in dietary supplement products; and (3) "GOT LEAD" PROGRAM
18 (up to 5%): maintaining ERC's "Got Lead?" Program which reduces the numbers of
19 contaminated products that reach California consumers by providing access to free testing for
20 lead in dietary supplement products (Products submitted to the program are screened for
21 ingredients which are suspected to be contaminated, and then may be purchased by ERC,
22 catalogued, sent to a qualified laboratory for testing, and the results shared with the consumer
23 that submitted the product).

24 ERC shall be fully accountable in that it will maintain adequate records to document
25 and will be able to demonstrate how the ASP funds will be spent and can assure that the funds
26 are being spent only for the proper, designated purposes described in this Consent Judgment.
27 ERC shall provide the Attorney General, within thirty days of any request, copies of
28 documentation demonstrating how such funds have been spent.

1 **4.5** \$7,326.74 shall be distributed to ERC for its in-house legal fees. Except as
2 explicitly provided herein, each Party shall bear its own fees and costs.

3 **4.6** In the event that Uni Key fails to remit the Total Settlement Amount owed
4 under Section 4 of this Consent Judgment on or before the Due Date, Uni Key shall be deemed
5 to be in material breach of its obligations under this Consent Judgment. ERC shall provide
6 written notice of the delinquency to Uni Key via electronic mail. If Uni Key fails to deliver the
7 Total Settlement Amount within five (5) days from the written notice, the Total Settlement
8 Amount shall accrue interest at the statutory judgment interest rate provided in the California
9 Code of Civil Procedure section 685.010. Additionally, Uni Key agrees to pay ERC's
10 reasonable attorney's fees and costs for any efforts to collect the payment due under this
11 Consent Judgment.

12 **5. MODIFICATION OF CONSENT JUDGMENT**

13 **5.1** This Consent Judgment may be modified only as to injunctive terms (i) by
14 written stipulation of the Parties and upon entry by the Court of a modified consent judgment
15 or (ii) by motion of either Party pursuant to Section 5.3 or 5.4 and upon entry by the Court of a
16 modified consent judgment.

17 **5.2** If Uni Key seeks to modify this Consent Judgment under Section 5.1, then Uni
18 Key must provide written notice to ERC of its intent ("Notice of Intent"). If ERC seeks to
19 meet and confer regarding the proposed modification in the Notice of Intent, then ERC must
20 provide written notice to Uni Key within thirty (30) days of receiving the Notice of Intent. If
21 ERC notifies Uni Key in a timely manner of ERC's intent to meet and confer, then the Parties
22 shall meet and confer in good faith as required in this Section. The Parties shall meet in person
23 or via telephone within thirty (30) days of ERC's notification of its intent to meet and confer.
24 Within thirty (30) days of such meeting, if ERC disputes the proposed modification, ERC shall
25 provide to Uni Key a written basis for its position. The Parties shall continue to meet and
26 confer for an additional thirty (30) days in an effort to resolve any remaining disputes. Should
27 it become necessary, the Parties may agree in writing to different deadlines for the meet-and-
28 confer period.

1 **5.3** In the event that Uni Key initiates or otherwise requests a modification under
2 Section 5.1, and the meet and confer process leads to a joint motion or application for a
3 modification of the Consent Judgment, Uni Key shall reimburse ERC its costs and reasonable
4 attorney's fees for the time spent in the meet-and-confer process and filing and arguing the
5 motion or application.

6 **5.4** Where the meet-and-confer process does not lead to a joint motion or
7 application in support of a modification of the Consent Judgment, then either Party may seek
8 judicial relief on its own. In any such contested court proceeding, ERC may seek costs and any
9 attorney's fees incurred in opposing the motion pursuant to California Code of Civil Procedure
10 section 1021.5.

11 **6. RETENTION OF JURISDICTION, ENFORCEMENT OF CONSENT**
12 **JUDGMENT**

13 **6.1** This Court shall retain jurisdiction of this matter to enforce, modify, or
14 terminate this Consent Judgment.

15 **6.2** If ERC alleges that any Covered Product fails to provide adequate Warning,
16 then ERC shall inform Uni Key in a reasonably prompt manner of its failure to do so, including
17 information sufficient to permit Uni Key to identify the Covered Products at issue. Uni Key
18 shall, within thirty (30) days following such notice, provide ERC with testing information,
19 from an independent third party laboratory meeting the requirements of Sections 3.4.3, 3.4.4
20 and 3.4.5, demonstrating Uni Key's compliance with the Consent Judgment. The Parties shall
21 first attempt to resolve the matter prior to ERC taking any further legal action.

22 **7. APPLICATION OF CONSENT JUDGMENT**

23 This Consent Judgment may apply to, be binding upon, and benefit the Parties and their
24 respective officers, directors, shareholders, employees, agents, parent companies, subsidiaries,
25 divisions, franchisees, licensees, customers (excluding private labelers), distributors, wholesalers,
26 retailers, predecessors, successors, and assigns. This Consent Judgment shall have no
27 application to any Covered Product which is distributed or sold exclusively outside the State of
28 California and which is not used by California consumers.

1 **8. BINDING EFFECT, CLAIMS COVERED AND RELEASED**

2 **8.1** This Consent Judgment is a full, final, and binding resolution between ERC,
3 on behalf of itself and in the public interest, and Uni Key and its respective officers, directors,
4 shareholders, employees, agents, parent companies, subsidiaries, divisions, suppliers,
5 franchisees, licensees, customers (not including private label customers of Uni Key),
6 distributors, wholesalers, retailers, and all other upstream and downstream entities in the
7 distribution chain of any Covered Product, and the predecessors, successors, and assigns of any
8 of them (collectively, "Released Parties"). ERC, on behalf of itself and in the public interest,
9 hereby fully releases and discharges the Released Parties from any and all claims, actions,
10 causes of action, suits, demands, liabilities, damages, penalties, fees, costs, and expenses
11 asserted, or that could have been asserted from the handling, use, or consumption of the
12 Covered Products, as to any alleged violation of Proposition 65 or its implementing regulations
13 arising from the failure to provide Proposition 65 warnings on the Covered Products regarding
14 lead up to and including the Effective Date.

15 **8.2** ERC on its own behalf only, and Uni Key on its own behalf only, further
16 waive and release any and all claims they may have against each other for all actions or
17 statements made or undertaken in the course of seeking or opposing enforcement of
18 Proposition 65 in connection with the Notices and Complaint up through and including the
19 Effective Date, provided, however, that nothing in Section 8 shall affect or limit any Party's
20 right to seek to enforce the terms of this Consent Judgment.

21 **8.3** It is possible that other claims not known to the Parties, arising out of the facts
22 alleged in the Notices and Complaint, and relating to the Covered Products, will develop or be
23 discovered. ERC on behalf of itself only, and Uni Key on behalf of itself only, acknowledge
24 that this Consent Judgment is expressly intended to cover and include all such claims up
25 through and including the Effective Date, including all rights of action therefore. ERC and Uni
26 Key acknowledge that the claims released in Sections 8.1 and 8.2 above may include unknown
27 claims, and nevertheless waive California Civil Code section 1542 as to any such unknown
28 claims. California Civil Code section 1542 reads as follows:

1 A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS THAT THE
2 CREDITOR OR RELEASING PARTY DOES NOT KNOW OR SUSPECT TO
3 EXIST IN HIS OR HER FAVOR AT THE TIME OF EXECUTING THE RELEASE
4 AND THAT, IF KNOWN BY HIM OR HER, WOULD HAVE MATERIALLY
AFFECTED HIS OR HER SETTLEMENT WITH THE DEBTOR OR RELEASED
PARTY.

5 ERC on behalf of itself only, and Uni Key on behalf of itself only, acknowledge and
6 understand the significance and consequences of this specific waiver of California Civil Code
7 section 1542.

8 **8.4** Compliance with the terms of this Consent Judgment shall be deemed to
9 constitute compliance with Proposition 65 by any releasee regarding alleged exposures to lead
10 in the Covered Products as set forth in the Notices and Complaint.

11 **8.5** Nothing in this Consent Judgment is intended to apply to any occupational or
12 environmental exposures arising under Proposition 65, nor shall it apply to any of Uni Key's
13 products other than the Covered Products.

14 **9. SEVERABILITY OF UNENFORCEABLE PROVISIONS**

15 In the event that any of the provisions of this Consent Judgment are held by a court to be
16 unenforceable, the validity of the remaining enforceable provisions shall not be adversely
17 affected.

18 **10. GOVERNING LAW**

19 The terms and conditions of this Consent Judgment shall be governed by and construed in
20 accordance with the laws of the State of California.

21 **11. PROVISION OF NOTICE**

22 All notices required to be given to either Party to this Consent Judgment by the other shall
23 be in writing and sent to the following agents listed below via first-class mail or via electronic
24 mail where required. Courtesy copies via email may also be sent.

22 **12. COURT APPROVAL**

23 **12.1** Upon execution of this Consent Judgment by the Parties, ERC shall notice a
24 Motion for Court Approval. The Parties shall use their best efforts to support entry of this
25 Consent Judgment.

26 **12.2** If the California Attorney General objects to any term in this Consent Judgment,
27 the Parties shall use their best efforts to resolve the concern in a timely manner, and if possible
28 prior to the hearing on the motion.

12.3 If this Stipulated Consent Judgment is not approved by the Court, it shall be
void and have no force or effect.

13. EXECUTION AND COUNTERPARTS

This Consent Judgment may be executed in counterparts, which taken together shall be
deemed to constitute one document. A facsimile or .pdf signature shall be construed to be as valid

1 as the original signature.

2 **14. DRAFTING**

3 The terms of this Consent Judgment have been reviewed by the respective counsel for
4 each Party prior to its signing, and each Party has had an opportunity to fully discuss the terms
5 and conditions with legal counsel. The Parties agree that, in any subsequent interpretation and
6 construction of this Consent Judgment, no inference, assumption, or presumption shall be drawn,
7 and no provision of this Consent Judgment shall be construed against any Party, based on the fact
8 that one of the Parties and/or one of the Parties' legal counsel prepared and/or drafted all or any
9 portion of the Consent Judgment. It is conclusively presumed that all of the Parties participated
10 equally in the preparation and drafting of this Consent Judgment.

11 **15. GOOD FAITH ATTEMPT TO RESOLVE DISPUTES**

12 If a dispute arises with respect to either Party's compliance with the terms of this Consent
13 Judgment entered by the Court, the Parties shall meet and confer in person, by telephone, and/or
14 in writing and endeavor to resolve the dispute in an amicable manner. No action or motion may
15 be filed in the absence of such a good faith attempt to resolve the dispute beforehand.

16 **16. ENFORCEMENT**

17 ERC may, by motion or order to show cause before the Superior Court of Alameda
18 County, enforce the terms and conditions contained in this Consent Judgment. In any action
19 brought by ERC to enforce this Consent Judgment, ERC may seek whatever fines, costs,
20 penalties, or remedies as are provided by law for failure to comply with the Consent Judgment.
21 To the extent the failure to comply with the Consent Judgment constitutes a violation of
22 Proposition 65 or other laws, ERC shall not be limited to enforcement of this Consent
23 Judgment, but may seek in another action whatever fines, costs, penalties, or remedies as are
24 provided by law for failure to comply with Proposition 65 or other laws.

25 **17. ENTIRE AGREEMENT, AUTHORIZATION**

26 **17.1** This Consent Judgment contains the sole and entire agreement and
27 understanding of the Parties with respect to the entire subject matter herein, and any and all
28 prior discussions, negotiations, commitments, and understandings related hereto. No

1 representations, oral or otherwise, express or implied, other than those contained herein have
2 been made by any Party. No other agreements, oral or otherwise, unless specifically referred to
3 herein, shall be deemed to exist or to bind any Party.

4 17.2 Each signatory to this Consent Judgment certifies that he or she is fully
5 authorized by the Party he or she represents to stipulate to this Consent Judgment.

6 **18. REQUEST FOR FINDINGS, APPROVAL OF SETTLEMENT AND ENTRY OF**
7 **CONSENT JUDGMENT**

8 This Consent Judgment has come before the Court upon the request of the Parties. The
9 Parties request the Court to fully review this Consent Judgment and, being fully informed
10 regarding the matters which are the subject of this action, to:

11 (1) Find that the terms and provisions of this Consent Judgment represent a fair and
12 equitable settlement of all matters raised by the allegations of the Complaint that the matter has
13 been diligently prosecuted, and that the public interest is served by such settlement; and

14 (2) Make the findings pursuant to California Health and Safety Code section
15 25249.7(f)(4), approve the Settlement, and approve this Consent Judgment.

**NOTICE OF VIOLATIONS OF
CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 *ET SEQ.*
(PROPOSITION 65)**

Dear Alleged Violators and the Appropriate Public Enforcement Agencies:

I am the Executive Director of Environmental Research Center, Inc. ("ERC"). ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violators identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violators and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

General Information about Proposition 65. A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violators identified below.

Alleged Violators. The names of the companies covered by this notice that violated Proposition 65 (hereinafter the "Violators") are:

**Uni Key Health Systems, Inc.
Uni Key Health Systems**

Consumer Products and Listed Chemical. The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

Notice of Violations of California Health & Safety Code §25249.5 *et seq.*

May 13, 2019

Page 2

1. **Uni Key Fat Flush Whey Protein All-Natural Non-Denatured Whey Protein Natural Vanilla Flavor - Lead**
2. **Uni Key Fat Flush Body Protein All-Natural GMO-Free Pea & rice Protein Natural Vanilla Flavor - Lead**
3. **Uni Key Health Daily Greens Formula - Lead**
4. **Uni Key Health Super-GI Cleanse - Lead**
5. **Uni Key Health Para-Key - Lead**
6. **Uni Key Health Liver-Lovin Formula - Lead**

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

Route of Exposure. The consumer exposures that are the subject of this notice result from the recommended use of these products. Consequently, the route of exposure to this chemical has been and continues to be through ingestion.

Approximate Time Period of Violations. Ongoing violations have occurred every day since at least May 13, 2016, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until this known toxic chemical is either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemical. The method of warning should be a warning that appears on the product label. The Violators violated Proposition 65 because they failed to provide persons ingesting these products with appropriate warnings that they are being exposed to this chemical.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violators to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemical, or provide appropriate warnings on the labels of these products; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above products in the last three years. Such a resolution will prevent further unwarned consumer exposures to the identified chemical, as well as an expensive and time-consuming litigation.

Notice of Violations of California Health & Safety Code §25249.5 *et seq.*

CERTIFICATE OF MERIT

Re: Environmental Research Center, Inc.'s Notice of Proposition 65 Violations by Uni Key Health Systems, Inc. and Uni Key Health Systems

I, Chris Heptinstall, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged the parties identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am the Executive Director for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violators will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: May 13, 2019

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Proposition 65 List." Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies. The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at:

<http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 et seq. of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 et seq. of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a "significant amount" of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

² See Section 25501(a)(4).

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off-premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A copy of the notice of special compliance procedure and proof of compliance form is included in Appendix B and can be downloaded from QEHA's website at:
<http://oehha.ca.gov/prop65/law/p65law72003.html>.

June 11, 2019

NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 *ET SEQ.* (PROPOSITION 65)

Dear Alleged Violators and the Appropriate Public Enforcement Agencies:

I am the Executive Director of Environmental Research Center, Inc. ("ERC"). ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violators identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violators and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

General Information about Proposition 65. A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violators identified below.

Alleged Violators. The names of the companies covered by this notice that violated Proposition 65 (hereinafter the "Violators") are:

Uni Key Health Systems, Inc.
Uni Key Health Systems

Consumer Products and Listed Chemical. The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

1. Uni Key Health Osteo-Key - Lead
2. Uni Key Health Female Multiple - Lead

Notice of Violations of California Health & Safety Code §25249.5 *et seq.*
June 11, 2019
Page 2

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

Route of Exposure. The consumer exposures that are the subject of this notice result from the recommended use of these products. Consequently, the route of exposure to this chemical has been and continues to be through ingestion.

Approximate Time Period of Violations. Ongoing violations have occurred every day since at least June 11, 2016, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until this known toxic chemical is either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemical. The method of warning should be a warning that appears on the product label. The Violators violated Proposition 65 because they failed to provide persons ingesting these products with appropriate warnings that they are being exposed to this chemical.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violators to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemical, or provide appropriate warnings on the labels of these products; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above products in the last three years. Such a resolution will prevent further unwarned consumer exposures to the identified chemical, as well as an expensive and time-consuming litigation.

Please direct all questions concerning this notice to ERC at the above listed address and telephone number.

Sincerely,

Chris Heptinstall
Executive Director
Environmental Research Center

CERTIFICATE OF MERIT

Re: Environmental Research Center, Inc.'s Notice of Proposition 65 Violations by Uni Key Health Systems, Inc. and Uni Key Health Systems

I, Chris Heptinstall, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged the parties identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am the Executive Director for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violators will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: June 11, 2019

CERTIFICATE OF SERVICE PURSUANT TO 27 CCR § 25903

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States and over the age of 18 years of age. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On June 11, 2019, between 8:00 a.m. and 5:00 p.m. Eastern Time, I served the following documents: **NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; "THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY"** on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to each of the parties listed below and depositing it in a U.S. Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

Current President or CEO
Uni Key Health Systems, Inc.
181 W Commerce Dr
Hayden Lake, ID 83835

Current President or CEO
Uni Key Health Systems
PO Box 27740
Las Vegas, NV 89126

Current President or CEO
Uni Key Health Systems, Inc.
PO Box 27740
Las Vegas, NV 89126

James W. Templeton
(Registered Agent for Uni Key Health Systems, Inc.)

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCYTHE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986
(PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Proposition 65 List." Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies. The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a "significant amount" of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

² See Section 25501(a)(4).

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off-premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A copy of the notice of special compliance procedure and proof of compliance form is included in Appendix B and can be downloaded from OEHHA's website at:
<http://oehha.ca.gov/prop65/law/p65law72003.html>.
