ON RECYCLED PAPER	CONSENT JUDGMENT RE: COAST PLATING AND VALENCE TECHNOLOGIES – CASE NO. 23STCV24545		

1 23STCV24545 (the "Action"). CEH and Settling Defendant are referred to collectively as the 2 "Parties." 3 1.2. Valence Surface Technologies LLC is the parent corporation of Coast Plating, Inc. 4 Coast Plating, Inc. is a corporation that employed ten (10) or more persons and operated the 5 Facility. 6 1.3. On October 11, 2019, the California State Water Resources Control Board 7 (SWRCB) issued a letter to chrome plating facilities, including Settling Defendants, to submit 8 site-specific chrome plating work plans to determine the presence of per- and polyfluoroalkyl 9 Substances (PFAS) at California facilities. 10 1.4. On June 1, 2021, Settling Defendants submitted the PFAS Report and work plan to 11 the SWRCB in accordance with Order WQ 2019-0045-DWQ. 12 1.5. The PFAS Report indicated that the incoming public water, groundwater, 13 wastewater, and stormwater contained levels of PFAS, without attributing such levels to any 14 source. 15 1.6. On June 30, 2023, CEH served a 60-Day Notice of Violation (the "Notice") 16 relating to the California Safe Drinking Water and Toxic Enforcement Act of 1986, California 17 Health & Safety Code § 25249.5, et seq. ("Proposition 65") on Settling Defendants, the California 18 Attorney General, the District Attorney for the County of Los Angeles and City Attorney for the 19 City of Los Angeles. The Notice alleges violations of Proposition 65 with respect to releases and 20 discharges of certain PFAS chemicals, Perfluorooctanoic Acid (PFOA) and Perfluorooctane 21 Sulfonate (PFOS) allegedly emanating from Settling Defendants' facility located 417 W 164th 22 Street, Carson, CA 90248 (the "Facility") into sources of drinking water, violations which 23 Settling Defendants deny. 24 1.7. On October 9, 2023, CEH filed the Action naming Settling Defendants as defendants therein. As in the Notice, CEH's complaint alleges that through their operation of the 25 26 Facility, Settling Defendants discharge and release PFAS into the groundwater and other sources 27 of drinking water. These allegations rest, in part, on CEH's contention that the Facility has been 28

DOCUMENT PREPARED ON RECYCLED PAPER significantly contaminated with PFAS by Settling Defendants' use of PFAS-containing chemicals
and that the exterior portions of the Facility and soil surrounding it are also contaminated. CEH
contends that this contamination results in significant amounts of PFAS in the stormwater
emanating from the Facility and in the soil that led to contamination of the groundwater as
evidenced by significant amounts of PFAS measured in the groundwater. Settling Defendants
deny all material allegations in CEH's complaint.

7

8

**1.8.** Settling Defendants have engaged in remediation of the Facility and have done so in accordance with the supervision of the Los Angeles Regional Water Quality Control Board.

9 1.9. As part of these remediation efforts, Settling Defendants conducted on-site power
10 washing of all exterior surfaces at the Facility. Settling Defendants also voluntarily removed
11 process lines as part of these remediation efforts.

12 **1.10.** In February 2024, Capitol Environmental removed and transported 140 yards of 13 potentially contaminated soil and concrete taken from beneath the former anodizing line to an 14 appropriate hazardous waste disposal facility for treatment and disposal. Following completion 15 of ongoing chromium remediation activities, Settling Defendants intend to backfill the resulting 16 void with clean soil and replace the concrete. Additionally, Settling Defendants have capped the 17 Facility's wastewater discharge point and forfeited the permit to the regulator. As of the date of 18 this Settlement, Settling Defendants have incurred costs investigating, characterizing, and 19 remediating potential environmental issues at the Facility.

1.11. On December 21, 2023, Settling Defendants collected additional stormwater
samples at three locations to test for PFAS. The results of this sampling and testing indicated that
the PFAS concentrations in the stormwater significantly decreased since Coast Plating, Inc.
ceased operations.

24 1.12. Settling Defendants are continuing to comply with ongoing regulatory oversight of
25 the Facility.

1.13. For purposes of this Consent Judgment only, the Parties stipulate that: (i) this
Court has jurisdiction over the allegations of violations contained in the Notice and Complaint

28 Document Prepared on Recycled Paper 1 and personal jurisdiction over Settling Defendants as to the acts alleged in the Complaint; (ii) 2 venue is proper in the County of Los Angeles; and (iii) this Court has jurisdiction to enter this 3 Consent Judgment as a full and final resolution of all claims which were or could have been 4 raised in the Complaint based on the facts alleged in the Notice and Complaint with respect to 5 discharges and/or releases of PFAS from the Facility.

6 **1.14.** The Parties enter into this Consent Judgment as a full and final settlement of all 7 claims which were or could have been raised in the Complaint arising out of the facts or conduct 8 related to Settling Defendants alleged therein. By execution of this Consent Judgment and 9 agreeing to comply with its terms, the Parties do not admit any fact, conclusion of law, or 10 violation of law, nor shall compliance with the Consent Judgment constitute or be construed as an 11 admission by the Parties of any fact, conclusion of law, or violation of law. Settling Defendants 12 deny the material, factual, and legal allegations in the Notice and Complaint and expressly deny 13 any wrongdoing whatsoever. Except as specifically provided herein, nothing in this Consent 14 Judgment shall prejudice, waive, or impair any right, remedy, argument, or defense any of the 15 Parties may have in this or any other pending or future legal proceedings. This Consent Judgment 16 is the product of negotiation and compromise and is accepted by the Parties solely for purposes of 17 settling, compromising, and resolving issues disputed in this Action.
