16 Attorneys for Defendant Life Time, Inc., individually and dba LTH

17 **SUPERIOR COURT OF THE STATE OF CALIFORNIA**
18 **COUNTY OF ALAMEDA**

19 **ENVIRONMENTAL RESEARCH
20 CENTER, INC., a California non-profit
21 corporation**

22 Plaintiff,
23 vs.

24 **LIFE TIME, INC., individually and dba
25 LTH; and DOES 1-100**

26 **Defendants.**

27 **CASE NO. 25CV137153**

28 **AMENDED [PROPOSED]
STIPULATED CONSENT
JUDGMENT**

Health & Safety Code § 25249.5 *et seq.*

Action Filed: August 14, 2025
Trial Date: None set

29 **1. INTRODUCTION**

30 **1.1** On August 14, 2025, Plaintiff Environmental Research Center, Inc. ("ERC"), a
31 non-profit corporation, as a private enforcer and in the public interest, initiated this action by
32 filing a Complaint for Injunctive and Declaratory Relief and Civil Penalties (the "Complaint")
33 pursuant to the provisions of California Health and Safety Code section 25249.5 *et seq.*

1 (“Proposition 65”), against Life Time, Inc., individually and dba LTH (“Life Time”) and Does
2 1-100. In this action, ERC alleges that a number of products manufactured, distributed, or sold
3 by Life Time contain lead, a chemical listed under Proposition 65 as a carcinogen and
4 reproductive toxin, and expose consumers to this chemical at a level requiring a Proposition 65
5 warning. These products (referred to hereinafter individually as a “Covered Product” or
6 collectively as “Covered Products”) are: (1) LTH Vegan + All-In-One Naturally Flavored
7 Chocolate with Other Natural Flavors Fuel, (2) LTH Vegan + All-In-One Naturally Flavored
8 Vanilla with Other Natural Flavors Fuel, (3) Life Time Fitness Life Greens Naturally Flavored
9 Café Mocha, (4) LTH Life Greens Naturally Flavored Double Chocolate with Other Natural
10 Flavors, (5) LTH Vegan Protein Limited Edition Naturally Flavored Raspberry-Lemon Cake,
11 (6) LTH Vegan Protein Naturally Flavored Chocolate with Other Natural Flavors Vital, (7)
12 LTH Grass-Fed Collagen Peptides Naturally Flavored Chocolate with other natural flavors
13 Prime, (8) LTH Grass-Fed Collagen Peptides Naturally Flavored Vanilla with Other Natural
14 Flavors Prime, (9) LTH Grass-Fed Whey Protein Naturally Flavored Chocolate with Other
15 Natural Flavors Whey, and (10) LTH Grass-Fed Whey+ All-In-One Naturally Flavored
16 Chocolate with Other Natural Flavors Build.

17 **1.2** ERC and Life Time may hereinafter be referred to individually as a “Party” or
18 collectively as the “Parties.”

19 **1.3** ERC is a 501 (c)(3) California non-profit corporation dedicated to, among other
20 causes, helping safeguard the public from health hazards by reducing the use and misuse of
21 hazardous and toxic chemicals, facilitating a safe environment for consumers and employees,
22 and encouraging corporate responsibility.

23 **1.4** For purposes of this Amended Proposed Stipulated Consent Judgment (“Consent
24 Judgment”), the Parties agree that Life Time is a business entity that has employed ten or more
25 persons at all times relevant to this action and qualifies as a “person in the course of doing
26 business” within the meaning of Proposition 65. Life Time manufactures, distributes, and/or sells
27 the Covered Products.

28 ///

1 **1.5** The Complaint is based on allegations contained in ERC’s Notices of Violation
2 dated March 26, 2025, April 11, 2025, and June 13, 2025, that were served on the California
3 Attorney General, other public enforcers, and Life Time (the “First Three Notices”). True and
4 correct copies of the First Three Notices are attached hereto as **Exhibits A, B, and C**, and each
5 is incorporated herein by reference. More than 60 days have passed since the First Three
6 Notices were served on the Attorney General, public enforcers, and Life Time and no
7 designated governmental entity has filed a complaint against Life Time with regard to the
8 Covered Products or the alleged violations.

9 **1.6** On September 3, 2025, ERC served a Fourth Notice of Violation on the California
10 Attorney General, other public enforcers, and Life Time (“Fourth Notice”). A true and correct
11 copy of the Fourth Notice is attached hereto as **Exhibit D** and incorporated by reference. The
12 parties stipulate that the Complaint be deemed amended as of November 5, 2025 to include the
13 products set forth in ERC’s Fourth Notice. This Consent Judgment shall apply to all Covered
14 Products set forth in Paragraph 1.1, effective 60 days after September 3, 2025, provided no
15 public enforcer is diligently pursuing the allegations set forth in ERC’s Fourth Notice. On
16 November 5, 2025 more than 60 days will have passed since ERC’s Fourth Notice was served on
17 the Attorney General, public enforcers, and Life Time. The First Three Notices and the Fourth
18 Notice are hereafter collectively referred to as “Notices.”

19 **1.7** ERC’s Notices and Complaint allege that use of the Covered Products by
20 California consumers exposes them to lead without first receiving clear and reasonable
21 warnings from Life Time, which is in violation of California Health and Safety Code section
22 25249.6. Life Time denies all material allegations contained in the Notices and Complaint.

23 **1.8** The Parties have entered into this Consent Judgment in order to settle,
24 compromise, and resolve disputed claims and thus avoid prolonged and costly litigation.
25 Nothing in this Consent Judgment nor compliance with this Consent Judgment shall constitute
26 or be construed as an admission by any of the Parties or by any of their respective officers,
27 directors, shareholders, employees, agents, parent companies, subsidiaries, divisions,
28 ///

1 franchisees, licensees, customers, suppliers, distributors, wholesalers, or retailers of any fact,
2 issue of law, or violation of law.

3 **1.9** Except as expressly set forth herein, nothing in this Consent Judgment shall
4 prejudice, waive, or impair any right, remedy, argument, or defense the Parties may have in
5 any current or future legal proceeding unrelated to these proceedings.

6 **1.10** The Effective Date of this Consent Judgment is the date on which it is entered
7 as a Judgment by this Court.

8 **2. JURISDICTION AND VENUE**

9 For purposes of this Consent Judgment and any further court action that may become
10 necessary to enforce this Consent Judgment, the Parties stipulate that this Court has subject matter
11 jurisdiction over the allegations of violations contained in the Complaint and personal jurisdiction
12 over Life Time as to the acts alleged in the Complaint, that venue is proper in Alameda County,
13 and that this Court has jurisdiction to enter this Consent Judgment as a full and final resolution of
14 all claims up through and including the Effective Date that were or could have been asserted in
15 this action based on the facts alleged in the Notices and Complaint.

16 **3. INJUNCTIVE RELIEF, REFORMULATION, TESTING AND WARNINGS**

17 **3.1** Beginning on the Effective Date, Life Time shall be permanently enjoined from
18 manufacturing for sale in the State of California, “Distributing into the State of California,” or
19 directly selling in the State of California, any Covered Product that knowingly and
20 intentionally exposes a person to a “Daily Lead Exposure Level” of more than 0.5 micrograms
21 of lead per day unless it meets the warning requirements under Section 3.2.

22 **3.1.1** As used in this Consent Judgment, the term “Distributing into the State
23 of California” shall mean to directly ship a Covered Product into California for sale in
24 California or to sell a Covered Product to a distributor that Life Time knows or has reason to
25 know will sell the Covered Product in California.

26 **3.1.2** For purposes of this Consent Judgment, the “Daily Lead Exposure
27 Level” shall be measured in micrograms, and shall be calculated using the following formula:
28 micrograms of lead per gram of product, multiplied by grams of product per serving of the

1 product (using the largest serving size appearing on the product label), multiplied by servings
2 of the product per day (using the largest number of recommended daily servings appearing on
3 the label), which equals micrograms of lead exposure per day. If the label contains no
4 recommended daily servings, then the number of recommended daily servings shall be one.

5 **3.2 Clear and Reasonable Warnings**

6 If Life Time is required to provide a warning pursuant to Section 3.1, it shall provide one
7 of the following warnings (“Warning”):

8 **OPTION 1:**

9 **WARNING:** Consuming this product can expose you to chemicals including lead which is
10 known to the State of California to cause [cancer and] birth defects or other reproductive
11 harm. For more information go to www.P65Warnings.ca.gov/food.

12 OR

13 **OPTION 2:**

14  **WARNING:** [Cancer and] Reproductive Harm. www.P65Warnings.ca.gov/.

15 OR

16 **OPTION 3:**

17 **WARNING:** Can expose you to lead, a [carcinogen and] reproductive toxicant. See
18 www.P65Warnings.ca.gov/food.

19 For all Warning options, the Warning shall begin either with the word “**WARNING**,” as
20 indicated above, or the words “**CA WARNING**” or “**CALIFORNIA WARNING**,” in all capital
21 letters and bold print. Life Time shall use the phrase “cancer and” in the Option 1 and Option 2
22 Warnings or “carcinogen and” in the Option 3 Warning (each phrase referred to individually as a
23 “Cancer Phrase”) if Life Time has reason to believe that the “Daily Lead Exposure Level” is greater
24 than 15 micrograms of lead as determined pursuant to the quality control methodology set forth in
25 Section 3.4 or if Life Time has reason to believe that another Proposition 65 chemical is present at a
26 level requiring a cancer warning. If there is a chemical present at a level that requires a cancer
27 warning, the chemical requiring use of the Cancer Phrase in the Warning shall always be identified.

1 The Option 2 Warning may only be used until January 1, 2028. Any Covered Product that
2 is manufactured and labeled prior to January 1, 2028, may use the Option 2 Warning regardless of
3 when the product is sold to a consumer. For the Option 2 Warning, a symbol consisting of a black
4 exclamation point in a yellow equilateral triangle with a bold black outline shall be placed to the
5 left of the text of the Warning, in a size no smaller than the height of the word “**WARNING**.”
6 Where the sign, label or shelf tag for the product is not printed using the color yellow, the symbol
7 may be printed in black and white.

8 The Warning shall be provided by one of the following methods:

- 9 (1) A product-specific Warning provided on a posted sign, shelf tag, or shelf sign, for the
10 Covered Product at each point of display of the product,
- 11 (2) A product-specific Warning provided via any electronic device or process that
12 automatically provides the Warning to the purchaser prior to or during the purchase of
13 the Covered Product, without requiring the purchaser to seek out the Warning. This
14 warning method does not apply to internet purchases, or
- 15 (3) A Warning that is securely affixed to or printed upon the label of each Covered
16 Product. The Warning must be set off from other surrounding information and
17 enclosed in a box and, for Options 2 and 3, shall not appear in a type-size smaller than
18 6-point type.

19 In addition, for any Covered Product sold over the internet, the Warning shall be provided (1) on
20 the Covered Product’s primary display page; (2) via a hyperlink using the word “**WARNING**” or
21 the words “**CA WARNING**” or “**CALIFORNIA WARNING**,” in all capital and bold letters, on
22 the Covered Product’s primary display page that links to a page prominently displaying the
23 Warning without content that detracts from the Warning; (3) on the checkout page when a
24 California delivery address is indicated for any purchase of any Covered Product, or (4) by
25 otherwise prominently displaying the Warning to the purchaser prior to completing the purchase.
26 A Warning is not prominently displayed if the purchaser has to search for it in the general content
27 of the website. If the warning is provided on the checkout page, an asterisk or other identifying
28 method must be utilized to identify which product on the checkout page is subject to the Warning.

1 The Warning shall be at least the same size as the largest of any other health or safety warnings
2 also appearing on the website or on the label and, for the Options 2 and 3 Warnings, in no event
3 less than 6-point type. No statements intended to or likely to have the effect of diminishing the
4 impact of the Warning on the average lay person shall accompany the Warning. Further, no
5 statements may accompany the Warning that state or imply that the source of the listed chemical
6 has an impact on or results in a less harmful effect of the listed chemical.

7 Life Time must display the Warning with such conspicuously, as compared with other
8 words, statements or designs on the label, or on its website, if applicable, to render the Warning
9 likely to be read and understood by an ordinary individual under customary conditions of
10 purchase or use of the product. Where a sign or label used to provide the Warning for a Covered
11 Product includes consumer information about the Covered Product in a language other than
12 English, the Warning must also be provided in that language in addition to English.

13 For purposes of this Consent Judgment, the term “label” means a display of written,
14 printed or graphic material that is printed on or affixed to a Covered Product or its immediate
15 container or wrapper.

16 **3.2.1 Changes to Proposition 65**

17 The requirements for Warnings, set forth in Section 3.2, are imposed pursuant to the terms
18 of this Consent Judgment. The Parties agree that Life Time shall be deemed to be in compliance
19 with the Warning obligations of this Consent Judgment by either adhering to Sections 3.1 and 3.2
20 of the Consent Judgment or by complying with warning regulations adopted by the State of
21 California’s Office of Environmental Health Hazard Assessment (“OEHHA”) and made
22 applicable to the Covered Products pursuant to entry of a modified Consent Judgment in
23 accordance with Section 5. In the event that the OEHHA promulgates one or more new or revised
24 regulations requiring or permitting Proposition 65 warning text and/or methods of transmission
25 applicable to the Covered Products and the chemical at issue, which are different from those set
26 forth in Section 3.2, Life Time shall be entitled seek a modification of this Consent Judgment
27 pursuant to Section 5, and such modification shall not be unreasonably withheld by ERC.

28 If final regulations or legislation are enacted providing that Proposition 65 warnings are no

1 longer required with respect to lead in the Covered Products, or should new safe harbor warning
2 exposure thresholds be promulgated and become final, such that a lack of warning by Life Time
3 will arguably not thereafter be a breach of this Consent Judgment, Life Time shall be entitled to
4 seek to modify this Consent Judgment pursuant to Section 5 of this Consent Judgment. ERC's
5 agreement to permit modification of the Consent Judgment shall not be unreasonably withheld.

6 **3.3 Conforming Covered Products**

7 A Conforming Covered Product , for violations of Proposition 65 based on lead only, is a
8 Covered Product for which the "Daily Lead Exposure Level" is no greater than 0.5 micrograms of
9 lead per day as determined by the exposure methodology set forth in Section 3.1.2 and the quality
10 control methodology described in Section 3.4.

11 **3.4 Testing and Quality Control Methodology**

12 **3.4.1** Beginning within one year of the Effective Date, Life Time shall arrange
13 for continued lead testing of the Covered Products once a year for three consecutive years by
14 arranging for testing of three (3) randomly selected samples of each of the Covered Products,
15 in the form intended for sale to the end-user, which Life Time intends to sell or is
16 manufacturing for sale in California, directly selling to a consumer in California or
17 "Distributing into the State of California." However, if during the three-year testing period,
18 Life Time changes ingredient suppliers for any of the Covered Products and/or reformulates
19 any of the Covered Products, Life Time shall test that Covered Product annually for two (2)
20 consecutive years after such change is made. In no event, however, shall the total period for
21 testing be less than three years or more than four years.

22 **3.4.2** For purposes of measuring the "Daily Lead Exposure Level," the highest
23 lead detection result of the three (3) randomly selected samples of the Covered Products will
24 be controlling.

25 **3.4.3** All testing pursuant to this Consent Judgment shall be performed using a
26 laboratory method that complies with the performance and quality control factors appropriate
27 for the method used, including limit of detection and limit of quantification, sensitivity,
28 accuracy and precision that meets the following criteria: Inductively Coupled Plasma-Mass

1 Spectrometry (“ICP-MS”) achieving a limit of quantification of less than or equal to 0.005
2 mg/kg.

3 **3.4.4** All testing pursuant to this Consent Judgment shall be performed by an
4 independent third party laboratory certified by the California Environmental Laboratory
5 Accreditation Program or an independent third-party laboratory that is registered with the
6 United States Food & Drug Administration.

7 **3.4.5** Nothing in this Consent Judgment shall limit Life Time’s ability to
8 conduct, or require that others conduct, additional testing of the Covered Products, including
9 the raw materials used in their manufacture.

10 **3.4.6** Within thirty (30) days of ERC’s written request, Life Time shall deliver
11 lab reports obtained pursuant to Section 3.4 to ERC. Life Time shall retain all test results and
12 documentation for a period of five years from the date of each test.

13 **3.5** Nothing in Section 3 of this Consent Judgment shall prevent or preclude ERC
14 from obtaining and relying upon its own testing for purposes of enforcement, so long as such
15 testing meets the requirements of Sections 3.4.3 and 3.4.4. Nothing in Section 3.4 of this Consent
16 Judgment is intended by either party to set a precedent for the level of lead or other chemicals
17 that is permissible in consumer products under Proposition 65.

18 **4. SETTLEMENT PAYMENT**

19 **4.1** In full satisfaction of all potential civil penalties, additional settlement
20 payments, attorney’s fees, and costs, Life Time shall make a total payment of \$80,000.00
21 (“Total Settlement Amount”) to ERC within 10 days of the Effective Date (“Due Date”). Life
22 Time shall make this payment by wire transfer to ERC’s account, for which ERC will give Life
23 Time the necessary account information. The Total Settlement Amount shall be apportioned as
24 follows:

25 **4.2** \$10,000.00 shall be considered a civil penalty pursuant to California Health and
26 Safety Code section 25249.7(b)(1). ERC shall remit 75% (\$7,500.00) of the civil penalty to the
27 Office of Environmental Health Hazard Assessment (“OEHHA”) for deposit in the Safe
28 Drinking Water and Toxic Enforcement Fund in accordance with California Health and Safety

1 Code section 25249.12(c). ERC will retain the remaining 25% (\$2,500.00) of the civil penalty.

2 **4.3** \$10,576.41 shall be distributed to ERC as reimbursement to ERC for reasonable
3 costs incurred in bringing this action.

4 **4.4** \$6,784.12 shall be distributed to ERC as an Additional Settlement Payment
5 (“ASP”), which shall be subject to the Court’s ongoing judicial oversight pursuant to
6 California Code of Regulations, title 11, section 3204. ERC will utilize the ASP for activities
7 that address the same public harm as allegedly caused by Defendant in this matter. These
8 activities are detailed below and support ERC’s overarching goal of reducing and/or
9 eliminating hazardous and toxic chemicals in dietary supplement products in California. ERC’s
10 activities have had, and will continue to have, a direct and primary effect within the State of
11 California because California consumers will be benefitted by the reduction and/or elimination
12 of exposure to lead in dietary supplements and/or by providing clear and reasonable warnings
13 to California consumers prior to ingestion of the products.

14 Based on a review of past years’ actual budgets, ERC is providing the following list of
15 activities ERC engages in to protect California consumers through Proposition 65 citizen
16 enforcement, along with a breakdown of how ASP funds will be utilized to facilitate those
17 activities: (1) ENFORCEMENT (up to 65-80%): obtaining, shipping, analyzing, and testing
18 dietary supplement products that may contain lead and are sold to California consumers. This
19 work includes continued monitoring and enforcement of past consent judgments and
20 settlements to ensure companies are in compliance with their obligations thereunder, with a
21 specific focus on those judgments and settlements concerning lead. This work also includes
22 investigation of new companies that ERC does not obtain any recovery through settlement or
23 judgment; (2) VOLUNTARY COMPLIANCE PROGRAM (up to 10-20%): maintaining
24 ERC’s Voluntary Compliance Program by acquiring products from companies, developing and
25 maintaining a case file, testing products from these companies, providing the test results and
26 supporting documentation to the companies, and offering guidance in warning or implementing
27 a self-testing program for lead in dietary supplement products; and (3) “GOT LEAD”
28 PROGRAM (up to 5%): maintaining ERC’s “Got Lead?” Program which reduces the numbers

1 of contaminated products that reach California consumers by providing access to free testing
2 for lead in dietary supplement products (Products submitted to the program are screened for
3 ingredients which are suspected to be contaminated, and then may be purchased by ERC,
4 catalogued, sent to a qualified laboratory for testing, and the results shared with the consumer
5 that submitted the product).

6 ERC shall be fully accountable in that it will maintain adequate records to document
7 and will be able to demonstrate how the ASP funds will be spent and can assure that the funds
8 are being spent only for the proper, designated purposes described in this Consent Judgment.
9 ERC shall provide the Attorney General, within thirty days of any request, copies of
10 documentation demonstrating how such funds have been spent.

11 **4.5** \$52,639.47 shall be distributed to ERC for its in-house legal fees. Except as
12 explicitly provided herein, each Party shall bear its own fees and costs.

13 **4.6** In the event that Life Time fails to remit the Total Settlement Amount owed under
14 Section 4 of this Consent Judgment on or before the Due Date, Life Time shall be deemed to be
15 in material breach of its obligations under this Consent Judgment. ERC shall provide written
16 notice of the delinquency to Life Time via electronic mail. If Life Time fails to deliver the Total
17 Settlement Amount within five (5) days from the written notice, the Total Settlement Amount
18 shall accrue interest at the statutory judgment interest rate provided in the California Code of
19 Civil Procedure section 685.010, and Life Time shall forfeit any release provisions in Section 8
20 that are for the benefit of Life Time and the Released Parties (as defined in Section 8.1) until
21 such time as the Total Settlement Amount is paid in full. Additionally, Life Time agrees to pay
22 ERC's reasonable attorneys' fees and costs for any efforts to collect the payment due under this
23 Consent Judgment.

24 **5. MODIFICATION OF CONSENT JUDGMENT**

25 This Consent Judgment may be modified only as to injunctive terms (i) by written stipulation
26 of the Parties and upon entry by the Court of a modified consent judgment or (ii) by motion of
27 either Party pursuant to Section 5.3, and based upon an agreement to modify the Consent
28 Judgment, and upon entry by the Court of a modified consent judgment.

1 **5.1** If Life Time seeks to modify this Consent Judgment under Section 5.1, then Life
2 Time must provide written notice to ERC of its intent (“Notice of Intent”). If ERC seeks to
3 meet and confer regarding the proposed modification in the Notice of Intent, then ERC must
4 provide written notice to Life Time within thirty (30) days of receiving the Notice of Intent. If
5 ERC notifies Life Time in a timely manner of ERC’s intent to meet and confer, then the Parties
6 shall meet and confer in good faith as required in this Section. The Parties shall meet in
7 person, via remote meeting, or by telephone within thirty (30) days of ERC’s notification of its
8 intent to meet and confer. Within thirty (30) days of such meeting, if ERC disputes the
9 proposed modification, ERC shall provide to Life Time a written basis for its position. The
10 Parties shall continue to meet and confer for an additional thirty (30) days in an effort to
11 resolve any remaining disputes. Should it become necessary, the Parties may agree in writing
12 to different deadlines for the meet-and-confer period.

13 **5.2** In the event that Life Time initiates or otherwise requests a modification under
14 Section 5.1, and the meet and confer process leads to an agreed upon motion or stipulation for
15 a modification of the Consent Judgment, Life Time shall reimburse ERC its costs and
16 reasonable attorney’s fees for the time spent in the meet-and-confer process and filing and
17 arguing the motion or application.

18 **6. RETENTION OF JURISDICTION, ENFORCEMENT OF CONSENT
19 JUDGMENT**

20 **6.1** This Court shall retain jurisdiction of this matter to enforce, modify, or
21 terminate this Consent Judgment.

22 **6.2** If ERC alleges that any Covered Product fails to qualify as a Conforming
23 Covered Product (for which ERC alleges that no Warning has been provided), then ERC shall
24 inform Life Time in a reasonably prompt manner of its test results, including information
25 sufficient to permit Life Time to identify the Covered Products at issue. Life Time shall, within
26 thirty (30) days following such notice, provide ERC with testing information, from an
27 independent third-party laboratory meeting the requirements of Sections 3.4.3 and 3.4.4,
28 demonstrating Life Time’s compliance with the Consent Judgment. The Parties shall first

1 attempt to resolve the matter prior to ERC taking any further legal action.

2 **7. APPLICATION OF CONSENT JUDGMENT**

3 This Consent Judgment may apply to, be binding upon, and benefit the Parties and their
4 respective officers, directors, shareholders, employees, agents, parent companies, subsidiaries,
5 divisions, franchisees, licensees, customers (excluding private labelers), distributors, wholesalers,
6 retailers, predecessors, successors, and assigns. This Consent Judgment shall have no
7 application to any Covered Product that is distributed or sold exclusively outside the State of
8 California and that is not used by California consumers.

9 **8. BINDING EFFECT, CLAIMS COVERED AND RELEASED**

10 **8.1** This Consent Judgment is a full, final, and binding resolution between ERC, on
11 behalf of itself and in the public interest, and Life Time and its respective officers, directors,
12 shareholders, employees, agents, parent companies, subsidiaries, divisions, suppliers,
13 franchisees, licensees, customers (not including private label customers of Life Time),
14 distributors, wholesalers, retailers, and all other upstream and downstream entities in the
15 distribution chain of any Covered Product, and the predecessors, successors, and assigns of any
16 of them (collectively, “Released Parties”).

17 **8.2** ERC, acting in the public interest, releases the Released Parties from any and all
18 claims for violations of Proposition 65 up to and including the Effective Date based on
19 exposure to lead from the Covered Products as set forth in the Notices of Violation. ERC, on
20 behalf of itself only, hereby fully releases and discharges the Released Parties from any and all
21 claims, actions, causes of action, suits, demands, liabilities, damages, penalties, fees, costs, and
22 expenses asserted, or that could have been asserted from the handling, use, or consumption of
23 the Covered Products, as to any alleged violation of Proposition 65 or its implementing
24 regulations arising from the failure to provide Proposition 65 warnings on the Covered
25 Products regarding lead up to and including the Effective Date.

26 **8.3** ERC on its own behalf only, and Life Time on its own behalf only, further
27 waive and release any and all claims they may have against each other for all actions or
28 statements made or undertaken in the course of seeking or opposing enforcement of

1 Proposition 65 in connection with the Notices and Complaint up to and including the Effective
2 Date, provided, however, that nothing in Section 8 shall affect or limit any Party's right to seek
3 to enforce the terms of this Consent Judgment.

4 **8.4** It is possible that other claims not known to the Parties, arising out of the facts
5 alleged in the Notices and Complaint, and relating to the Covered Products, will develop or be
6 discovered. ERC on behalf of itself only, and Life Time on behalf of itself only, acknowledge
7 that this Consent Judgment is expressly intended to cover and include all such claims up to and
8 including the Effective Date, including all rights of action therefor. ERC and Life Time
9 acknowledge that the claims released in Sections 8.2 and 8.3 above may include unknown
10 claims and nevertheless waive California Civil Code section 1542 as to any such unknown
11 claims. California Civil Code section 1542 reads as follows:

12 A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS THAT THE
13 CREDITOR OR RELEASING PARTY DOES NOT KNOW OR SUSPECT TO
14 EXIST IN HIS OR HER FAVOR AT THE TIME OF EXECUTING THE RELEASE
15 AND THAT, IF KNOWN BY HIM OR HER, WOULD HAVE MATERIALLY
16 AFFECTED HIS OR HER SETTLEMENT WITH THE DEBTOR OR RELEASED
17 PARTY.

18 ERC on behalf of itself only, and Life Time on behalf of itself only, acknowledge and
19 understand the significance and consequences of this specific waiver of California Civil Code
20 section 1542.

21 **8.5** Compliance with the terms of this Consent Judgment shall be deemed to
22 constitute compliance with Proposition 65 by any of the Released Parties regarding alleged
23 exposures to lead in the Covered Products as set forth in the Notices and Complaint.

24 **8.6** Nothing in this Consent Judgment is intended to apply to any occupational or
25 environmental exposures arising under Proposition 65, nor shall it apply to any of Life Time's
26 products other than the Covered Products.

27 **9. SEVERABILITY OF UNENFORCEABLE PROVISIONS**

28 In the event that any of the provisions of this Consent Judgment are held by a court to be
29 unenforceable, the validity of the remaining enforceable provisions shall not be adversely
30 affected.

1 **10. GOVERNING LAW**

2 The terms and conditions of this Consent Judgment shall be governed by and construed in
3 accordance with the laws of the State of California.

4 **11. PROVISION OF NOTICE**

5 All notices required to be given to either Party to this Consent Judgment by the other shall
6 be in writing and sent to the following agents listed below via first-class mail or via electronic
7 mail where required. Courtesy copies via email may also be sent.

37 ///

1 **12. COURT APPROVAL**

2 **12.1** Upon execution of this Consent Judgment by the Parties, ERC shall notice a
3 Motion for Court Approval. The Parties shall use their best efforts to support entry of this
4 Consent Judgment.

5 **12.2** If the California Attorney General objects to any term in this Consent Judgment,
6 the Parties shall use their best efforts to resolve the concern in a timely manner, and if possible
7 prior to the hearing on the motion.

8 **12.3** If this [Proposed] Stipulated Consent Judgment is not approved by the Court, it
9 shall be void and have no force or effect.

10 **13. EXECUTION AND COUNTERPARTS**

11 This Consent Judgment may be executed in counterparts, which taken together shall be
12 deemed to constitute one document. A facsimile or .pdf signature shall be construed to be as valid
13 as the original signature.

14 **14. DRAFTING**

15 The terms of this Consent Judgment have been reviewed by the respective counsel for
16 each Party prior to its signing, and each Party has had an opportunity to fully discuss the terms
17 and conditions with legal counsel. The Parties agree that, in any subsequent interpretation and
18 construction of this Consent Judgment, no inference, assumption, or presumption shall be drawn,
19 and no provision of this Consent Judgment shall be construed against any Party, based on the fact
20 that one of the Parties and/or one of the Parties' legal counsel prepared and/or drafted all or any
21 portion of the Consent Judgment. It is conclusively presumed that all of the Parties participated
22 equally in the preparation and drafting of this Consent Judgment.

23 **15. GOOD FAITH ATTEMPT TO RESOLVE DISPUTES**

24 If a dispute arises with respect to either Party's compliance with the terms of this Consent
25 Judgment entered by the Court, the Parties shall meet and confer in person, via remote meeting,
26 by telephone, and/or in writing and endeavor to resolve the dispute in an amicable manner. No
27 action or motion may be filed in the absence of such a good faith attempt to resolve the dispute
28 beforehand.

1 **16. ENFORCEMENT**

2 Either Party may, by motion or order to show cause before the Superior Court of
3 Alameda County, enforce the terms and conditions contained in this Consent Judgment. In any
4 action brought by either Party to enforce this Consent Judgment, the Party may seek whatever
5 fines, costs, penalties, or remedies as are provided by law for failure to comply with the
6 Consent Judgment.

7 To the extent the failure to comply with the Consent Judgment constitutes a violation of
8 Proposition 65 or other laws, ERC shall not be limited to enforcement of this Consent
9 Judgment, but may seek in another action whatever fines, costs, penalties, or remedies as are
10 provided by law for failure to comply with Proposition 65 or other laws.

11 **17. ENTIRE AGREEMENT, AUTHORIZATION**

12 **17.1** This Consent Judgment contains the sole and entire agreement and
13 understanding of the Parties with respect to the entire subject matter herein, including any and
14 all prior discussions, negotiations, commitments, and understandings related thereto. No
15 representations, oral or otherwise, express or implied, other than those contained herein have
16 been made by any Party. No other agreements, oral or otherwise, unless specifically referred to
17 herein, shall be deemed to exist or to bind any Party.

18 **17.2** Each signatory to this Consent Judgment certifies that he or she is fully
19 authorized by the Party he or she represents to stipulate to this Consent Judgment.

20 **18. REQUEST FOR FINDINGS, APPROVAL OF SETTLEMENT AND ENTRY OF
21 CONSENT JUDGMENT**

22 This Consent Judgment has come before the Court upon the request of the Parties. The
23 Parties request the Court to fully review this Consent Judgment and, being fully informed
24 regarding the matters which are the subject of this action, to:

25 (1) Find that the terms and provisions of this Consent Judgment represent a fair and
26 equitable settlement of all matters raised by the allegations of the Complaint that the matter has
27 been diligently prosecuted, and that the public interest is served by such settlement; and
28 (2) Make the findings pursuant to California Health and Safety Code section

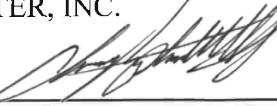

1 25249.7(f)(4), approve the Settlement, and approve this Consent Judgment.

2 (3) Retain jurisdiction, pursuant to Section 664.6 of the Code of Civil Procedure, after
3 the Consent Judgment is entered in order to enforce, modify, or terminate this Consent Judgment.

NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 *ET SEQ.* (PROPOSITION 65)

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I am the In-House Counsel for Environmental Research Center, Inc. (“ERC”). ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California’s Safe Drinking Water and Toxic Enforcement Act of 1986 (“Proposition 65”), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with this product. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

General Information about Proposition 65. A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violator identified below.

Alleged Violator. The name of the company covered by this notice that violated Proposition 65 (hereinafter the “Violator”) is:

Life Time, Inc., individually and dba LTH

Consumer Product and Listed Chemical. The product that is the subject of this notice and the chemical in that product identified as exceeding allowable levels are:

March 26, 2025

Page 2

- **LTH Vegan + All-In-One Naturally Flavored Chocolate with Other Natural Flavors Fuel – Lead**

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

Route of Exposure. The consumer exposures that are the subject of this notice result from the recommended use of this product. Consequently, the route of exposure to this chemical has been and continues to be through ingestion.

Approximate Time Period of Violations. Ongoing violations have occurred every day since at least March 26, 2022, as well as every day since the product was introduced into the California marketplace and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until this known toxic chemical is either removed from or reduced to allowable levels in the product. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemical. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons ingesting this product with appropriate warnings that they are being exposed to this chemical.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified product so as to eliminate further exposures to the identified chemical, or provide appropriate warnings on the labels of these products; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above product in the last three years. Such a resolution will prevent further unwarned consumer exposures to the identified chemical, as well as expensive and time-consuming litigation.

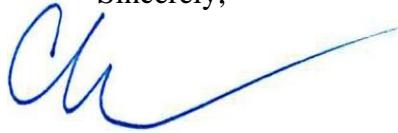

Notice of Violations of California Health & Safety Code §25249.5 *et seq.*

March 26, 2025

Page 3

Please direct all questions concerning this notice to my attention, or Chris Heptinstall, Executive Director of ERC, at the above listed address and telephone number.

Sincerely,

A handwritten signature in blue ink, appearing to read "Ch", is written over a blue curved line.

CERTIFICATE OF MERIT

Health and Safety Code Section 25249.7 (d)

Re: Environmental Research Center, Inc.'s Notice of Proposition 65 Violations by Life Time, Inc., individually and dba LTH

I, Charles Poss, hereby declare:

1. This Certificate of Merit accompanies the attached sixty-day notice(s) in which it is alleged the parties identified in the notices have violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings.
2. I am the attorney for the noticing party, Environmental Research Center.
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the alleged exposure to the listed chemical that is the subject of the action.
4. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiffs' case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.
5. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and Safety Code section 25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: March 26, 2025

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as “Proposition 65”). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The “Proposition 65 List.” Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before “knowingly and intentionally” exposing that person to a listed chemical unless an exemption applies. The warning given must be “clear and reasonable.” This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses “no significant risk.” This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific “No Significant Risk Levels” (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the “no observable effect level” divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a “significant amount” of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a “significant amount” of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A “significant amount” means any detectable amount, except an amount that would meet the “no significant risk” level for chemicals that cause cancer or that is 1,000 times below the “no observable effect” level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

² See Section 25501(a)(4).

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off-premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A copy of the notice of special compliance procedure and proof of compliance form is included in Appendix B and can be downloaded from OEHHA's website at: <http://oehha.ca.gov/prop65/law/p65law72003.html>.

NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 *ET SEQ.* (PROPOSITION 65)

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I am the In-House Counsel for Environmental Research Center, Inc. (“ERC”). ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California’s Safe Drinking Water and Toxic Enforcement Act of 1986 (“Proposition 65”), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

General Information about Proposition 65. A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violator identified below.

Alleged Violator. The name of the company covered by this notice that violated Proposition 65 (hereinafter the “Violator”) is:

Life Time, Inc., individually and dba LTH

Consumer Products and Listed Chemical. The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

April 11, 2025

Page 2

- 1. LTH Vegan + All-In-One Naturally Flavored Vanilla with Other Natural Flavors Fuel - Lead**
- 2. Life Time Fitness Life Greens Naturally Flavored Café Mocha - Lead**
- 3. LTH Life Greens Naturally Flavored Double Chocolate with Other Natural Flavors - Lead**

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

Route of Exposure. The consumer exposures that are the subject of this notice result from the recommended use of these products. Consequently, the route of exposure to this chemical has been and continues to be through ingestion.

Approximate Time Period of Violations. Ongoing violations have occurred every day since at least April 11, 2022, as well as every day since the products were introduced into the California marketplace and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until this known toxic chemical is either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemical. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons ingesting these products with appropriate warnings that they are being exposed to this chemical.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemical, or provide appropriate warnings on the labels of these products; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above products in the last three years. Such a resolution will prevent further unwarned consumer exposures to the identified chemical, as well as expensive and time-consuming litigation.

Notice of Violations of California Health & Safety Code §25249.5 *et seq.*

April 11, 2025

CERTIFICATE OF MERIT

Health and Safety Code Section 25249.7 (d)

Re: Environmental Research Center, Inc.'s Notice of Proposition 65 Violations by Life Time, Inc., individually and dba LTH

I, Charles Poss, hereby declare:

1. This Certificate of Merit accompanies the attached sixty-day notice(s) in which it is alleged the parties identified in the notices have violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings.
2. I am the attorney for the noticing party, Environmental Research Center.
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the alleged exposure to the listed chemical that is the subject of the action.
4. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiffs' case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.
5. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and Safety Code section 25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: April 11, 2025

Charles Poss

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as “Proposition 65”). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The “Proposition 65 List.” Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before “knowingly and intentionally” exposing that person to a listed chemical unless an exemption applies. The warning given must be “clear and reasonable.” This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses “no significant risk.” This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific “No Significant Risk Levels” (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the “no observable effect level” divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a “significant amount” of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a “significant amount” of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A “significant amount” means any detectable amount, except an amount that would meet the “no significant risk” level for chemicals that cause cancer or that is 1,000 times below the “no observable effect” level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

² See Section 25501(a)(4).

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off-premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A copy of the notice of special compliance procedure and proof of compliance form is included in Appendix B and can be downloaded from OEHHA's website at: <http://oehha.ca.gov/prop65/law/p65law72003.html>.

NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 *ET SEQ.* (PROPOSITION 65)

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I am the In-House Counsel for Environmental Research Center, Inc. (“ERC”). ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California’s Safe Drinking Water and Toxic Enforcement Act of 1986 (“Proposition 65”), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

General Information about Proposition 65. A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violator identified below.

Alleged Violator. The name of the company covered by this notice that violated Proposition 65 (hereinafter the “Violator”) is:

Life Time, Inc., individually and dba LTH

Consumer Products and Listed Chemical. The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

- 1. LTH Vegan Protein Limited Edition Naturally Flavored Raspberry-Lemon Cake - Lead**

June 13, 2025

Page 2

- 2. LTH Vegan Protein Naturally Flavored Chocolate with Other Natural Flavors
Vital - Lead**
- 3. LTH Grass-Fed Collagen Peptides Naturally Flavored Chocolate with other
natural flavors Prime - Lead**
- 4. LTH Grass-Fed Collagen Peptides Naturally Flavored Vanilla with Other
Natural Flavors Prime - Lead**

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

Route of Exposure. The consumer exposures that are the subject of this notice result from the recommended use of these products. Consequently, the route of exposure to this chemical has been and continues to be through ingestion.

Approximate Time Period of Violations. Ongoing violations have occurred every day since at least June 13, 2022, as well as every day since the products were introduced into the California marketplace and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until this known toxic chemical is either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemical. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons ingesting these products with appropriate warnings that they are being exposed to this chemical.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemical, or provide appropriate warnings on the labels of these products; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above products in the last three years. Such a resolution will prevent further unwarned consumer exposures to the identified chemical, as well as expensive and time-consuming litigation.

Notice of Violations of California Health & Safety Code §25249.5 *et seq.*

June 13, 2025

CERTIFICATE OF MERIT

Health and Safety Code Section 25249.7 (d)

Re: Environmental Research Center, Inc.'s Notice of Proposition 65 Violations by Life Time, Inc., individually and dba LTH

I, Charles Poss, hereby declare:

1. This Certificate of Merit accompanies the attached sixty-day notice(s) in which it is alleged the parties identified in the notices have violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings.
2. I am the attorney for the noticing party, Environmental Research Center.
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the alleged exposure to the listed chemical that is the subject of the action.
4. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiffs' case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.
5. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and Safety Code section 25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: June 13, 2025

Charles Poss

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as “Proposition 65”). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The “Proposition 65 List.” Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before “knowingly and intentionally” exposing that person to a listed chemical unless an exemption applies. The warning given must be “clear and reasonable.” This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses “no significant risk.” This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific “No Significant Risk Levels” (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the “no observable effect level” divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a “significant amount” of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a “significant amount” of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A “significant amount” means any detectable amount, except an amount that would meet the “no significant risk” level for chemicals that cause cancer or that is 1,000 times below the “no observable effect” level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

² See Section 25501(a)(4).

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off-premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A copy of the notice of special compliance procedure and proof of compliance form is included in Appendix B and can be downloaded from OEHHA's website at: <http://oehha.ca.gov/prop65/law/p65law72003.html>.

NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 *ET SEQ.* (PROPOSITION 65)

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I am the In-House Counsel for Environmental Research Center, Inc. (“ERC”). ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California’s Safe Drinking Water and Toxic Enforcement Act of 1986 (“Proposition 65”), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

General Information about Proposition 65. A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violator identified below.

Alleged Violator. The name of the company covered by this notice that violated Proposition 65 (hereinafter the “Violator”) is:

Life Time, Inc., individually and dba LTH

September 3, 2025

Page 2

Consumer Products and Listed Chemical. The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

1. **LTH Grass-Fed Whey Protein Naturally Flavored Chocolate with Other Natural Flavors Whey - Lead**
2. **LTH Grass-Fed Whey+ All-In-One Naturally Flavored Chocolate with Other Natural Flavors Build – Lead**

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

Route of Exposure. The consumer exposures that are the subject of this notice result from the recommended use of these products. Consequently, the route of exposure to this chemical has been and continues to be through ingestion.

Approximate Time Period of Violations. Ongoing violations have occurred every day since at least September 3, 2022, as well as every day since the products were introduced into the California marketplace and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until this known toxic chemical is either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemical. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons ingesting these products with appropriate warnings that they are being exposed to this chemical.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemical, or provide appropriate warnings on the labels of these products; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above products in the last three years. Such a resolution will prevent further unwarned consumer exposures to the identified chemical, as well as expensive and time-consuming litigation.

Notice of Violations of California Health & Safety Code §25249.5 *et seq.*

CERTIFICATE OF MERIT

Health and Safety Code Section 25249.7 (d)

Re: Environmental Research Center, Inc.'s Notice of Proposition 65 Violations by Life Time, Inc., individually and dba LTH

I, Charles Poss, hereby declare:

1. This Certificate of Merit accompanies the attached sixty-day notice(s) in which it is alleged the parties identified in the notices have violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings.
2. I am the attorney for the noticing party, Environmental Research Center.
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the alleged exposure to the listed chemical that is the subject of the action.
4. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiffs' case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.
5. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and Safety Code section 25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: September 3, 2025

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as “Proposition 65”). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The “Proposition 65 List.” Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before “knowingly and intentionally” exposing that person to a listed chemical unless an exemption applies. The warning given must be “clear and reasonable.” This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses “no significant risk.” This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific “No Significant Risk Levels” (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the “no observable effect level” divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a “significant amount” of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a “significant amount” of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A “significant amount” means any detectable amount, except an amount that would meet the “no significant risk” level for chemicals that cause cancer or that is 1,000 times below the “no observable effect” level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

² See Section 25501(a)(4).

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off-premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A copy of the notice of special compliance procedure and proof of compliance form is included in Appendix B and can be downloaded from OEHHA's website at: <http://oehha.ca.gov/prop65/law/p65law72003.html>.
