NOTICE OF VIOLATION OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.

Dear Public Enforcement Agencies:

As You Sow is a non-profit foundation organized under the State of California's Non-Profit Public Benefit Corporation Law. As You Sow is dedicated to, among other causes, the protection of the environment, the promotion of human health, the improvement of worker and consumer safety, and environmental education.

As You Sow has documented violations of California's Safe Drinking Water & Toxic Enforcement Act of 1986 ("Proposition 65"), codified at Health & Safety Code §25249.5 *et seq.* This letter serves to provide As You Sow's notification of these violations to the public enforcement agencies and to the violator. Pursuant to §25249.7(d) of the statute, As You Sow intends to bring an enforcement action sixty (60) days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations. A summary of the statute and its implementing regulations, which was prepared by the lead agency designated under the statute, is enclosed with the copy of this notice served upon the violator. The specific details of the violations that are the subject of this notice are provided below.

The noticing party is As You Sow. The name of the violator covered by this notice is **KENKO UTILITY SUPPLY, INC.** ("Kenko"). These violations involve discharges of, and exposures to, lead and lead compounds from a variety of products manufactured, distributed and/or sold by Kenko as described more fully below.

These products are specifically copper alloy (both bronze and brass) curb stops (or curb valves), meter stops (or meter valves or service valves), main stops, corporation stops, tail pieces, couplings, compression tees (or service tees), and elbows that come into contact with drinking water in drinking water distribution systems, including but not limited to the products listed in Exhibit A attached hereto (the "Products"). The copper alloys used in these products contain high levels of **lead and lead compounds** that are discharged to sources of drinking water.

On February 27, 1987, the State of California officially listed lead as a chemical known to cause reproductive toxicity (Title 22 California Code of Regulations §12000, *et seq.*). On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer (Title 22 California Code of Regulations §12000, *et seq.*).

Curb stops (or curb valves) are valves used to open and/or close the water flow, often at the curb, near the water meter. These are typically accessed by the public water supplier to regulate the flow of water to an individual building. Meter stops (or meter valves or service valves) are valves used to open and close the water flow immediate upstream of a water meter. Main stops and corporation stops are

valves used to open and close the flow of water, typically at a point adjacent to the water main. Tail pieces are used to connect the water meter and/or curb stop to the supply line to a building. Couplings are used to connect two sections of drinking water supply lines. Compression tees (or service tees) are a "T" shaped device used to split the flow of water into two directions. Elbows are used to alter the direction of the flow of water.

Discharge into a source of drinking water. Kenko is knowingly and intentionally discharging or releasing lead and lead compounds, chemicals known to the State of California to cause cancer and reproductive toxicity, into a source of drinking water, in violation of Health & Safety Code §25249.5. The discharges and releases occur from the leaching of lead and lead compounds from the Products into all sources of drinking water, including residential and commercial tap water, that come into contact with the Products.

Exposure without a clear and reasonable warning. In violation of Health & Safety Code §25249.6, Kenko is knowingly and intentionally exposing individuals in the State of California to lead and lead compounds without providing a clear and reasonable warning. These toxic exposures have occurred and continue to occur primarily through ingestion of drinking water but also through dermal contact and inhalation exposure to water. A Certificate of Merit in support of these violations is being served concurrently on the Attorney General for the State of California. (Title 11 C.C.R. §3100 *et seq.*)

Individuals exposed. Persons consuming or using drinking water that has passed through or otherwise come into contact with the Products as described above.

Duration of violations. These ongoing violations of the statute have occurred every day since at least January 6, 1999, and will continue every day until clear and reasonable warnings are provided and until the ongoing discharges to sources of drinking water are terminated. Under Proposition 65, each discharge or release and exposure constitutes a separate violation. Health & Safety Code §25249.7(b). The maximum civil penalty for each such violation is \$2,500. *Id.* These same facts constitute a violation of Business and Professions Code §17200 *et seq.*

In keeping with its public interest mission and to expeditiously rectify these ongoing violations of California law, As You Sow is interested in seeking a constructive resolution of this matter without engaging in costly and protracted litigation. Please direct all communications regarding this notice to As You Sow's counsel in this matter:

CERTIFICATE OF MERIT
**(for As You Sow's Notice of Proposition 65 Violation
on KENKO UTILITY SUPPLY, INC.)**

I, Andrew L. Packard, declare:

1. This Certificate of Merit accompanies the attached sixty-day notice in which it is alleged that **KENKO UTILITY SUPPLY, INC.** has violated Health & Safety Code §25249.6 by failing to provide clear and reasonable warnings.

2. I am an attorney for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the exposure to the listed chemicals that are the subject of the action.

4. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiffs' case can be established and that the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.

5. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: January 3, 2003
