Re: **Kellogg's Cereal Products**
- Corn Flakes, Corn Pops, Frosted Flakes, Frosted Mini-Wheats, Raisin Bran,
Rice Krispies

Dear Sir or Madam:

Environmental World Watch, Inc. (the "Noticing Party") serves this Notice of Violation ("Notice") upon Kellogg Company and Kellogg USA Inc. (hereinafter "Kellogg's") pursuant to and in compliance with California Health and Safety Code ("H&S Code") §25249.7(d) and 22 California Code of Regulations ("CCR") §12903. This Notice satisfies a prerequisite for Noticing Party to commence an action against Kellogg's to enforce the Safe Drinking Water and Toxic Enforcement Act of 1986. The violations addressed by this Notice occur in every county and city in California. This Notice is being served upon each violator, the California Attorney General, the district attorney of every California county and the city attorney of every California city with a population (according to the most recent decennial census) of over 750,000. If Kellogg's has a current registration with the California Secretary of State that identifies a Chief Executive Officer, President, or General Counsel, this Notice is being addressed to, and served upon, one of those persons.

Attached as Exhibit A to this Notice is a copy of "The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary." The attached Summary was prepared by the California EPA and provides general information about the Safe Drinking Water and Toxic Enforcement Act of 1986. Copies of the Summary are not required to be, and are not being, provided to the public enforcement agencies.

Description of the Noticing Party, the Alleged Violator, and the Alleged Violations Addressed by this Notice:

- ◆ This Notice is provided by Environmental World Watch, Inc. Environmental World Watch, Inc. (hereinafter "EWW"), is based in Los Angeles and is registered as a Delaware corporation with the office of the California Secretary of State. EWW is acting in the public interest pursuant to H&S Code §25249.7(d), and is dedicated to protecting the environment, improving human health and supporting environmentally sound practices.

- ◆ The violators' names and addresses are: Kellogg Company
Kellogg USA Inc.
One Kellogg Square
Battle Creek, MI 49016
- ◆ The violations addressed by this Notice began on or after January 1, 1991, have occurred on numerous occasions each and every day since January 1, 1991, and are ongoing and continuing.
- ◆ This Notice of Violation covers the "warning provision" of Proposition 65, which is found at H&S Code §25249.6.
- ◆ The name of each chemical that is listed pursuant to the Safe Drinking Water and Toxic Enforcement Act of 1986 involved in the violations addressed by this Notice is Acrylamide; (the "Listed Chemical"). The Listed Chemical is listed (and has been so listed for more than twelve months) by the Governor of the State of California as being a chemical known to the State of California to cause cancer or reproductive toxicity, or both cancer and reproductive toxicity. See Exhibit B attached hereto.
- ◆ The route of exposure for the violations addressed by this Notice is ingestion. There is also a danger of a dermal exposure while preparing the product for consumption.
- ◆ The type of consumer products causing the exposures addressed by this Notice are breakfast cereals, including but not limited to, the following illustrative products:

TABLE A

Kellogg's Corn Flakes
Kellogg's Corn Pops
Kellogg's Frosted Flakes
Kellogg's Frosted Mini-Wheats
Kellogg's Raisin Bran
Kellogg's Rice Krispies

- ◆ There are numerous sources of the exposures addressed in this Notice. These exposures occur in homes, the workplace and everywhere else in California where these products are consumed. These exposures occur principally off the property of the Noticed Company.
- ◆ In the course of doing business, Kellogg's has knowingly and intentionally exposed, and continues to expose, individuals (especially pregnant and post-partum women) to the Listed Chemical. No clear and reasonable warning is or has been provided by Kellogg's to individuals regarding exposure to the Listed Chemical or regarding the fact that the Listed Chemical is known to the State of California to be a carcinogen, reproductive toxicant, or both a carcinogen and reproductive toxicant.
- ◆ These exposures have gone on from 1991 and are ongoing and continuing as EWW believes and so alleges that Kellogg's has tolled the statute of limitations by fraudulent concealment of the constituents of the ingredients in their products from those persons that required warning in the stores where Kellogg's products are sold for consumer consumption in California. The labels on these products are further absent any warning that would meet the definition delineated at Title 22 CCR §12601(b)(1)(A), nor do they comply with section (b)(3) and (b)(4)(B) of that regulation.

- ◆ The carcinogen, contained in the ingredients of the products, and subject to the warning requirements of H&S Code §25249.6 and more specifically 22 CCR §12601(b) *et seq.* are listed below:
 1. Acrylamide
- ◆ The aforementioned carcinogen is on the Governor's list (Prop 65 List) as expressed at 22 CCR §12000. These chemicals are known to the State of California to cause carcinogenic harm to humans requiring special warning labels and care in handling and use. The concentrations of these toxins in the subject consumer food product exceed the No Significant Risk Level ("NSRL") threshold of 0.2 microgram per day and require a warning of the existence of this chemical danger by the manufacture.
- ◆ The principal route of exposure is through a "consumer products exposure" via ingestion and inhalation. There is a further danger of contacting these carcinogens via a dermal exposure while using the food product as intended by the manufacture. This exposure has gone on since January 1, 1991, and are ongoing and continuing at every place in California that the products listed in TABLE A are offered for sale and consumption. All references to "exposure" in this notice shall be understood to be exposures to the specific product lines in said TABLE and the ingredients of those products. The sale of these products constitutes a transfer of a known carcinogenic chemical into the populous and the normal consumption of the product by the purchaser or others will cause the exposure without a clear and reasonable warning.
- ◆ The location of these alleged exposures are many and varied while occurring within the 58 counties of the state of California as evidenced by the District Attorneys addressed in the enclosed distribution list. EWW believes and so alleges that at least one of the jurisdictions identified had Kellogg's products sold within that county by a Kellogg's retail distributor and that sale caused the utilization of the consumer food product and subsequent exposure. Further that usage caused exposures in that jurisdiction to the constituents of the consumer food product as identified herein, and those exposures by Kellogg's were allowed to take place without the prerequisite warnings as delineated by the applicable statutes specified in this notice.
