Attorneys for Noticing Parties CLAIRE BOTHWELL
and BRUCE BOTHWELL

**NOTICE OF VIOLATION OF HEALTH AND SAFETY CODE SECTION 25249.6;
CERTIFICATE OF MERIT**

Notice is hereby given that CLAIRE BOTHWELL and BRUCE BOTHWELL ("Noticing Parties") intend to bring an action against the entities identified below ("Proposed Defendants") for violations of Health and Safety Code § 25249.6 ("Proposition 65"). The address and telephone number of Plaintiffs Bruce and Claire Bothwell, are: 3850 Chestnut Ave., Long Beach, CA 90807, (562)595-9134. However, please be advised that any communication, whether verbal, written, electronic, or otherwise, must be directed at the above-captioned law firms.

Proposition 65 requires that a "clear and reasonable warning" be given to individuals before they are exposed to chemicals listed by the State of California as chemicals known to cause cancer or birth defects (or other reproductive harm).

Noticing Parties allege that the companies listed below (hereinafter "Companies") have violated, and continue to violate, the warning requirement of Proposition 65 by

manufacturing and/or distributing and/or marketing and/or selling and/or offering for sale and/or designing and/or otherwise placing in the stream of commerce products that contain mercury, mercury compounds, and/or methylmercury compounds (collectively referred to as “Toxic Chemicals”). The primary source of the Toxic Chemicals is Thimerosal (“TM”) or Phenylmercuric Acetate (“PMA”) or Mercuric Nitrate (“MN”), or Phenylmercuric Nitrate (“PMN”) which the Companies use in their subject products. The names of the Companies and the subject mercury-containing products are listed below. The Companies’ relevant information as required under 22 Cal. Code of Regulations section 12903 is attached to the certificate of service which accompanies this notice.

These Companies have been and are currently manufacturing and/or distributing and/or marketing and/or selling and/or offering for sale and/or designing and/or otherwise placing in the stream of commerce products, which products have exposed and continue to expose individuals to said Toxic Chemicals through the use of such products. These Toxic Chemicals have been listed as carcinogens and/or reproductive and developmental toxins. As such, violations of Proposition 65 are ongoing and continuous.

Unlawful exposures to the Toxic Chemicals began one year after each was identified under Proposition 65 as a “chemical known to the state to cause cancer or reproductive toxicity.” Therefore, the duration of exposure to each chemical is as follows:

CARCINOGENS

1. Methylmercury compounds May 1, 1997

DEVELOPMENTAL TOXINS

1. Mercury and mercury compounds July 1, 1991
2. Methyl mercury July 1, 1988

The routes of exposure are ingestion, injection, inhalation, and absorption of the subject products. Individuals are exposed to the Toxic Chemicals by ingestion, injection, inhalation, and absorption of the mercury-based chemicals present in the subject products as described herein, including the Toxic Chemicals.

As such, while in the course of doing business, these Companies have in the past, and continue to, knowingly and intentionally expose members of the consuming public to the Toxic Chemicals without first giving clear and reasonable warning to such persons pursuant to Health & Safety Code §25249.6.

Noticing Parties allege that the following manufacturers violated Proposition 65 in connection with the products identified below:
