ATTACHED DISTRIBUTION LISTS**

Re: Tattoo Inks and/or Pigments

Dear Sir or Madam:

The American Environmental Safety Institute (the "Noticing Party") serves this Notice of Violation ("Notice") individually upon • Superior Tattoo Equipment Inc. d/b/a Superior Tattoo Equipment Co. • Huck Spaulding Enterprises, Inc. • Spaulding & Rogers Mfg., Inc. • Spaulding Color Corp. • International Body Jewelry and Tattoo Supply, Inc. • Lucky's Tattoo and Medical Supplies, Inc. • National Artist Colors & Tattoo Supplies, Inc. d/b/a National Tattoo Supply Inc. • Papillon Studio Supply and Manufacturing, Inc. • Talon Supply, Inc. d/b/a Talon Tattoo & Piercing Supply • Technical International Supply Corp. d/b/a Technical Tattoo Supply & Manufacturing Corp., and • Unimax Supply Co., Inc. (hereinafter "the Companies") pursuant to and in compliance with California Health and Safety Code ("H&S Code") Section 25249.7(d) and 22 California Code of Regulations ("CCR") Section 12903. This Notice satisfies a prerequisite for Noticing Party to commence an action against the Companies to enforce the Safe Drinking Water and Toxic Enforcement Act of 1986. The violations addressed by this Notice occur in every county and city in California. This Notice is being served upon each violator, the California Attorney General, the district attorney of every California county and the city attorney of every California city with a population (according to the most recent decennial census) of over 750,000. If any of the Companies has a current registration with the California Secretary of State that identifies a Chief Executive Officer, President, or General Counsel, this Notice is being addressed to, and served upon, one of those persons.

**NOTICE OF VIOLATION OF THE SAFE DRINKING WATER AND
TOXIC ENFORCEMENT ACT OF 1986**

(California Health and Safety Code §25249.5 et seq.)

Page 2

Attached as Exhibit A to this Notice is a copy of "The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary." The attached Summary was prepared by the California EPA and provides general information about the Safe Drinking Water and Toxic Enforcement Act of 1986. Copies of the Summary are not required to be, and are not being, provided to the public enforcement agencies.

Description of the Noticing Party, the Alleged Violator, and the Alleged Violations Addressed by this Notice:

- ◆ This Notice is provided by the American Environment Safety Institute. The American Environmental Safety Institute (hereinafter "Institute") is based in Palo Alto and is registered as a California non-profit corporation with the office of the California Secretary of State. The Institute is acting in the public interest pursuant to California Health and Safety Code Section 25249.7(d), and is dedicated to protecting the environment; improving human health and supporting environmentally sound practices.
- ◆ The violators' names and addresses are:
 - Superior Tattoo Equipment Inc. d/b/a Superior Tattoo Equipment Co.
6501 N. Black Canyon Highway, Phoenix, AZ 85015-1049;
 - Huck Spaulding Enterprises, Inc.
Route 85, New Scotland Road, Voorheesville, NY 12186;
 - Spaulding & Rogers Mfg., Inc.
Route 85, New Scotland Road, Voorheesville, NY 12186;
 - Spaulding Color Corp.
Route 85, New Scotland Road, Voorheesville, NY 12186;
 - International Body Jewelry and Tattoo Supply, Inc.
3024 N. Cicero Avenue, Chicago, IL 60641;
 - Lucky's Tattoo and Medical Supplies, Inc.
2868 E. Bay Drive, Largo, FL 33771;
 - National Artist Colors & Tattoo Supplies d/b/a National Tattoo Supply Inc.
465 Business Park Lane, Allentown, PA 18102;
 - Papillon Studio Supply and Manufacturing, Inc.
118 Pearl Street, Enfield, CT 06082;
 - Talon Supply, Inc. d/b/a Talon Tattoo & Piercing Supply
4619 N. Hesperides Street, Suite F, Tampa, FL 33614-6966;
 - Technical International Supply Corp. d/b/a Technical Tattoo Supply & Manufacturing Co. Inc.
68 Cabot Street, West Babylon, NY 11704;
 - Unimax Supply Co., Inc.
365 Canal Street, New York, NY 10013.

NOTICE OF VIOLATION OF THE SAFE DRINKING WATER AND
TOXIC ENFORCEMENT ACT OF 1986

(California Health and Safety Code §25249.5 et seq.)

January 14, 2005

Page 3

- ◆ The violations addressed by this Notice began on February 27, 1988, have occurred on numerous occasions each and every day since February 27, 1988, and are ongoing and continuing. As a result, this Notice therefore applies without exception to the previous, current and ongoing violations that are the subject of this Notice.
- ◆ This Notice of Violation covers the “warning provision” of Proposition 65, which is found at H&S Code §25249.6.
- ◆ The name of each chemical that is listed pursuant to the Safe Drinking Water and Toxic Enforcement Act of 1986 involved in the violations addressed by this Notice is set forth on Exhibit B attached to this Notice and incorporated into this Notice by this reference; (the “Listed Chemicals”). The Listed Chemicals are listed (and have been so listed for more than twelve months) by the Governor of the State of California as being chemicals known to the State of California to cause cancer or reproductive toxicity, or both cancer and reproductive toxicity. See Exhibit B attached hereto.
- ◆ The routes of exposure for the violations addressed by this Notice include inhalation and dermal contact.
- ◆ The type of consumer product causing the exposures addressed by this Notice are the class of products known as tattoo inks and/or pigments, including all tattoo inks and/or pigments manufactured or distributed by or for the Companies and sold for use in California to create a tattoo on and/or under a human being’s skin regardless of the brand. Thus, all tattoo inks and/or pigments manufactured or distributed by or for the Companies and sold for use in California are addressed by this Notice. Each and every Listed Chemical is contained in the tattoo inks and/or pigments manufactured or distributed by or for the Companies and sold for use in California.
- ◆ There are numerous sources of the exposures addressed in this Notice. These exposures occur in homes, the workplace, retail establishments and everywhere else in California where these products are sold and/or used. These exposures occur principally off the property of the Noticed Company.
- ◆ In the course of doing business, the Companies knowingly and intentionally have exposed, and continues to expose, individuals to the Listed Chemicals in its class of products known as tattoo inks and/or pigments. Although the Companies are required to do so by the Safe Drinking Water and Toxic Enforcement Act of 1986, no clear and reasonable warning is or has been provided by the Companies to individuals regarding those individuals’ exposures to the Listed Chemicals and the fact that the Listed Chemicals are known to the State of California to be carcinogens, reproductive toxicants, or both carcinogens and reproductive toxicants.
- ◆ These exposures have gone on since February 27, 1988, and are ongoing and continuing as the Institute believes and so alleges that the Companies has tolled the statute of limitations by fraudulent concealment of the constituents of the ingredients in their products from those persons that required warning in the stores where the Companies products are sold for consumer use in California. The labels on these products are further absent any warning that would meet the definition delineated at Title 22 CCR §12601(b)(1)(A), nor do they comply with section (b)(3) and (b)(4)(B) of that regulation.

NOTICE OF VIOLATION OF THE SAFE DRINKING WATER AND
TOXIC ENFORCEMENT ACT OF 1986

(California Health and Safety Code §25249.5 et seq.)

January 14, 2005

Page 4

- ◆ The chemicals contained in the class of products known as tattoo inks and/or pigments, and subject to the warning requirements of H&S Code §25249.6 and more specifically 22 CCR §12601(b) *et seq.*, for either carcinogens and/or reproductive toxins are listed below (see exhibit B for details):
 1. Antimony (carcinogen)
 2. Arsenic (carcinogen and reproductive toxin)
 3. Beryllium (carcinogen)
 4. Chromium (carcinogen)
 5. Cobalt (carcinogen)
 6. Lead (carcinogen and reproductive toxin)
 7. Nickel (carcinogen and reproductive toxin)
 8. Selenium (carcinogen)

- ◆ The aforementioned carcinogens are on the Governor's list (Prop 65 List) as expressed at 22 CCR §12000. These chemicals are known to the State of California to cause cancer in humans, thus requiring specific warnings and care in handling and use.

- ◆ The principal route of exposure is through a "consumer products exposure" via inhalation occurring during the application of this class of products known as tattoo inks and/or pigments to human skin in the creation of a tattoo. There is a further danger of contacting these carcinogens via a dermal exposure while using this class of products known as tattoo inks and/or pigments in the creation of a tattoo.

- ◆ This notice alleges the violation of Proposition 65 with respect to occupational exposures governed by the California State Plan for Occupational Safety and Health. The State Plan incorporates the provisions of Proposition 65, as approved by Federal OSHA on June 6, 1997. This approval specifically placed certain conditions with regard to occupational exposures on Proposition 65, including that it does not apply to the conduct of manufacturers occurring outside the State of California. The approval also provides that an employer may use the means of compliance in the general hazard communication requirements to comply with Proposition 65. It also requires that supplemental enforcement be subject to the supervision of the California Occupational Safety and Health Administration. Accordingly, any settlement, civil complaint, or substantive court orders in this matter must be submitted to the Attorney General.

- ◆ The location of these alleged exposures are many and varied while occurring within the 58 counties of the state of California as evidenced by the District Attorneys addressed in the enclosed distribution list. The Institute believes and so alleges that at least one of the jurisdictions identified had the Companies products sold within that county by the Companies wholesale or retail distributor, and that sale caused the utilization of the consumer product and subsequent exposure. That usage caused exposures of both an occupational and consumer nature in that jurisdiction to the

constituents of the consumer product as identified herein, and those exposures by the Companies were allowed to take place without the prerequisite warnings as delineated by the applicable statutes specified in this notice.

EXHIBIT A
OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACTION 1986
(PROPOSITION 65): A SUMMARY

The following summary has been prepared by the Office of Environmental Health Hazard Assessment, the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and its implementing regulations (see citations below) for further information.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 22 of the California Code of Regulations, Sections 12000 through 14000.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Governor's List." Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer, or birth defects or other reproductive harm. This list must be updated at least once a year. Over 550 chemicals have been listed as of May 1, 1996. Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release, or otherwise engage in activities involving those chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical. The warning given must be "clear and reasonable." This means that the warning must:(1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Exposures are exempt from the warning requirement if they occur less than twelve months after the date of listing of the chemical.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Discharges are exempt from this requirement if they occur less than twenty months after the date of listing of the chemical.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. The law exempts:

Governmental agencies and public water utilities. All agencies of the federal, State or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees.

Exposures that pose no significant risk of cancer. For chemicals that are listed as known to the State to cause cancer ("carcinogens"), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "no significant risk" levels for more than 250 listed carcinogens.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause birth defects or other reproductive harm (“reproductive toxicants”), a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the “no observable effect level (NOEL), “divided by a 1,000-fold safety or uncertainty factor. The “no observable effect level” is the highest dose level that has not been associated with an observable adverse reproductive or developmental effect.

Discharge that do not result in a “significant amount” of the listed chemical entering into any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a “significant amount” of the list chemical has not, does not, or will not enter any drinking water source, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A “significant amount” means any detectable amount, except an amount that would meet the “no significant risk” or “no observable effect” test if an individual were exposed to such an amount in drinking water.

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys (those in cities with a population exceeding 750,000). Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. A notice must comply with the information and procedural requirements specified in regulations (Title 22, California Code of Regulations, Section 12903). A private party may not pursue an enforcement action directly under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court of law to stop committing the violation.

CERTIFICATE OF MERIT
HEALTH AND SAFETY CODE SECTION 25249.7(d)

- ◆ **ANTIMONY** (carcinogen)
- ◆ **ARSENIC** (carcinogen and reproductive toxin)
- ◆ **BERYLLIUM** (carcinogen)
- ◆ **CHROMIUM** (carcinogen)
- ◆ **COBALT** (carcinogen)
- ◆ **LEAD** (carcinogen and reproductive toxin)
- ◆ **NICKEL** (carcinogen and reproductive toxin)
- ◆ **SELENIUM** (carcinogen)

NOTICED PARTIES:

• Superior Tattoo Equipment Inc. d/b/a Superior Tattoo Equipment Co. • Huck Spaulding Enterprises, Inc. • Spaulding & Rogers Mfg., Inc. • Spaulding Color Corp. • International Body Jewelry and Tattoo Supply, Inc. • Lucky's Tattoo and Medical Supplies, Inc. • National Artist Colors & Tattoo Supplies, Inc. d/b/a National Tattoo Supply Inc. • Papillon Studio Supply and Manufacturing, Inc. • Talon Supply, Inc. d/b/a Talon Tattoo & Piercing Supply • Technical International Supply Corp. d/b/a Technical Tattoo Supply & Manufacturing Corp. • Unimax Supply Co., Inc.

I, Roger Lane Carrick, on behalf of American Environmental Safety Institute hereby declare:

1. This Certificate of Merit accompanies the attached sixty-day notice(s) in which it is alleged that the parties identified in the notices have violated California Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings.

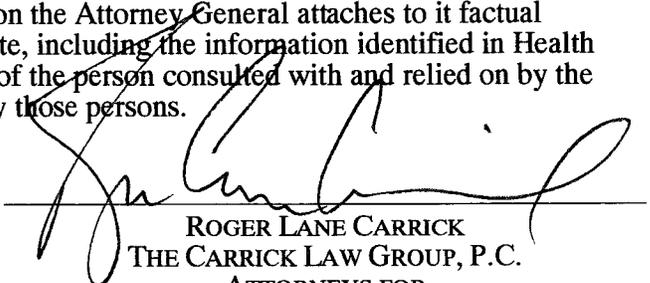

2. I am the attorney for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the exposure to the listed chemical(s) that is the subject of this action.

4. Based upon the information obtained through those consultations, and all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for private action" means that the information provides a credible basis that all the elements of the plaintiffs' case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.

5. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and safety Code section 24249.7(h)(2), *i.e.*, (1) the identity of the person consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.
