# SECOND SUPPLEMENTAL 60-DAY NOTICE OF VIOLATION

SENT IN COMPLIANCE WITH CALIFORNIA HEALTH & SAFETY CODE §25249.7(d)

---

February 14, 2005

To: California Attorney General's Office;  
District Attorney's Office for 58 Counties;  
City Attorneys for San Francisco, San Diego, San Jose, Sacramento and Los Angeles;  
Joan Baker, President – Joan Baker Designs, Inc.

From: Dr. Whitney R. Leeman

---

## INTRODUCTION

---

My name is Whitney R. Leeman. I hold a Doctor of Philosophy degree in Environmental Engineering. I am a citizen of California acting in the interest of the general public. I seek to promote awareness of exposures to toxic chemicals in products sold in California and, if possible, to improve human health by reducing hazardous substances contained in such items. This letter is provided to the parties listed above pursuant to California Health & Safety Code §25249.6 et seq. ("Proposition 65") and supplements the 60-Day Notice of Violations sent on September 12, 2003 and November 24, 2004. As required, notice is also being provided to the violator, Joan Baker Designs, Inc. (the "Violator"). The violations covered by this notice consist of the routes of exposures and type of harm potentially resulting from such exposure to the following toxic chemical or chemicals ("listed chemicals" or "lead"):

LISTED CHEMICALS

Lead and lead compounds

ROUTES OF EXPOSURE

Ingestion, Dermal

TYPES OF HARM

Birth Defects and Other  
Reproductive Harm

---

## NATURE OF ALLEGED VIOLATION (PRODUCT EXPOSURE)

---

The specific type or types of products (hereafter the "products") that are causing consumer and occupational exposures in violation of Proposition 65 (and that are covered by this notice) are listed on Exhibit A. The Violator's sales of these glass and metal home decorative products have been occurring from February 14, 2001 to the present. As a result of the sales of these products, exposures to the listed

chemicals have been occurring without clear and reasonable warnings as required by Proposition 65. Without proper warnings regarding the toxic effects of exposures to the listed chemicals produced by the products, California citizens lack the information necessary to make informed decisions on whether and how to eliminate (or reduce) the risk of exposure to the toxic chemicals from reasonably foreseeable use of the products.

### *CONSUMER PRODUCT EXPOSURE*

California consumers, through the act of buying, acquiring or utilizing the products, are exposed to the listed chemicals. For example, exposures occur when California citizens use, display, clean, repair, pack, unpack, assemble, store or otherwise handle the products. These tasks cause consumers to be exposed through the routine touching of the parts or portions of the products containing readily available surface lead/lead compounds. Additionally, exposure can occur through the routine touching of other materials that are contaminated with the lead/lead compounds as a result of these tasks. People likely to be exposed include both children and adults.

### *OCCUPATIONAL EXPOSURE*

Similarly, men and women in California use the products as a part of their jobs and are, therefore, subject to occupational exposures to the listed chemicals. Employees are exposed at the California business locations of the apparent manufacturer, distributor and retailer (and their agents, assigns and divisions) as well as all other California locations where the products, or the component parts thereof that include the listed chemicals, are used, packed, unpacked, labeled, assembled, disassembled, arranged, displayed, cleaned, stocked, stored, repaired or otherwise handled. These tasks cause employee exposure through the routine touching of the parts or portions of the products containing readily available surface lead/lead compounds. Additionally, exposure can occur through the routine touching of other materials that are contaminated with the lead/lead compounds as a result of these tasks. These products are also used by sole proprietors and other persons in settings not covered by the OSH Act. This notice alleges the violation of Proposition 65 with respect to occupational exposure governed by the California State Plan for Occupational Safety and Health. The State Plan incorporates the provisions of Proposition 65, as approved by Federal OSHA on June 6, 1997. This approval specifically placed certain conditions with regard to occupational exposures on Proposition 65, including that it does not apply to the conduct of manufacturers occurring outside the State of California. The approval also provides that an employer may use the means of compliance in the general hazard

communication requirement to comply with Proposition 65. It also requires that supplemental enforcement is subject to the supervision of the California Occupational Safety and Health Administration. Accordingly, any settlement, civil complaint, or substantive court orders in this matter must be submitted to the Attorney General.

### **ADDITIONAL NOTICE INFORMATION**

---

*THIS INFORMATION IS NOT REQUIRED TO BE PROVIDED UNDER CAL. CODE REGS., TITLE 22 § 12903(b)(4).*

Specific examples of the types of offending products identified herein (#787853041854/NL338, #787853045852/NL303, #787853048075/NL107, #787853050115/NL307, #787853051051/NL420, #787853018399/NL426, #787853047337/NL203) were recently purchased and witnessed being available for purchase or use in California at retail stores owned or controlled by Pea Soup Andersen's in Merced County, Northern California. Based on publicly available information, the Violator is the manufacturer and Pea Soup Andersen's is a retailer of the products at issue. A specific example of the types of offending products identified herein (#787853052171/VL117) was recently purchased and witnessed being available for purchase or use in California at retail stores owned or controlled by Noritake Factory Store in Santa Clara County, Northern California. Based on publicly available information, the Violator is the manufacturer and Noritake Factory Store is a retailer of the products at

issue. Leeman believes and alleges that the sale of the offending products has also occurred without the requisite warning at other locations including, but not limited to, transactions made over-the-counter, between business-to-business, through the internet and/or via a catalogue by the Violator and other distributors and retailers of the manufacturer.

# CERTIFICATE OF MERIT

Health and Safety Code Section 25249.7(d)

I, Clifford A. Chanler, hereby declare:

1. This Certificate of Merit accompanies the attached supplemental sixty-day notice in which it is alleged the party identified in the notice has violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings.
2. I am the attorney for the noticing party.
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the *alleged* exposure to the listed chemicals that are the subject of this action.
4. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.
5. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including information identified in Health and Safety Code §25249.7(h)(2) (i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.)

Dated: 2/14/05
