SIXTY-DAY NOTICE OF VIOLATION

The Supplement Authority
9122 Griffin Road
Cooper City, FL 33328

Dear Sir/Madam:

California's Proposition 65 (which can be found at Sections 25249.6 et seq. of the Health & Safety Code) is designed to promote awareness of potential exposures to toxic chemicals and improve human health by reducing or eliminating hazardous substances contained in consumer products or produced by industrial activities. Attached to this letter is a copy of "Proposition 65: A Summary", which has been prepared by the State of California, Office of Environmental Health Hazard Assessment ("OEHHA"). OEHHA may be contacted at 916-445-6900. OEHHA's web site pertaining to Proposition 65 may be found at: <http://www.oehha.ca.gov/prop65.html>.

Ropers, Majeski, Kohn & Bentley ("RMKB") and Ms. Julie Choi and Ms. Kit Lau ("Plaintiff") hereby give you notice that The Supplement Authority has been, is currently, and threatens to be in violation of California Health & Safety Code § 25249.6; this sixty-day notice is sent to you in compliance with § 25249.7(d) California Health & Safety Code. Both RMKB and Plaintiffs are private enforcers of Proposition 65, as provided by California Health & Safety Code § 25249.7(d). You may contact both RMKB and Plaintiffs at the above listed address and telephone number; I am counsel for and represent Plaintiffs in this matter.

The above-referenced violations occur when California consumers purchase and ingest your Biocalth® Calcium L-threonate® Dietary Supplement ("Tablets"). The Tablets contain lead and lead compounds ("lead"), chemicals known to the State of California to cause reproductive toxicity. California residents are exposed to lead when they ingest the Tablets. This lead is then absorbed into the body through the gastrointestinal tract wherein it causes the harm noted.

Your business did not and does not provide California consumers with clear and reasonable warnings before it exposes them to lead, as required by Health & Safety Code § 25249.6. These violations have occurred every day for at least the last four years, and will

**ATTORNEY GENERAL COPY CONTAINS OFFICIAL INFORMATION
PURSUANT TO EVIDENT CODE § 1040**

SIXTY-DAY NOTICE OF VIOLATION

Page 2

continue every day until the lead is removed from the Tablets or until clear and reasonable warnings are given. The Proposition 65 violations noted herein occur in each of California's 58 counties, or in such Counties as your Tablets are sold or consumed.

Sincerely,

Thomas H. Clarke, Jr.

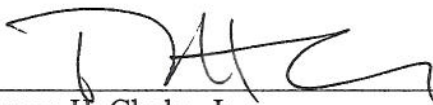

THC/njl

CERTIFICATE OF MERIT
Health & Safety Code Section 25249.7(d)

I, Thomas H. Clarke, Jr., hereby declare:

1. This Certificate of Merit accompanies the attached sixty-day notice(s) in which it is alleged the parties identified in the notices have violated Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.
2. I am the attorney for the noticing parties.
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the alleged exposure to the listed chemical that is the subject of the action.
4. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiffs' case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.
5. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health & Safety Code Section 25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: October 17, 2005

Thomas H. Clarke, Jr.

Office of Environmental Health
Hazard Assessment
California Environmental Protection Agency

The Safe Drinking Water and Toxic
Enforcement Act of 1986
(Proposition 65): A Summary

The following summary has been prepared by the Office of Environmental Health Hazard Assessment, the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and its implementing regulations (see citations below) for further information.

Proposition 65 appears in California law as Health & Safety Code Sections 25249.5 through 25249.13. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 22 of the California Code of Regulations, Sections 12000 through 14000.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Governor's List." Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer, or birth defects or other reproductive harm. This list must be updated at least once a year. Over 735 chemical listings have been included as of November 16, 2001. Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving those chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical. The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Exposures are exempt from the warning requirement if they occur less than twelve months after the date of listing of the chemical.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Discharges are exempt from this requirement if they occur less than twenty months after the date of listing of the chemical.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. The law exempts:

Governmental agencies and public water utilities. All agencies of the federal, State or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees.

Exposures that pose no significant risk of cancer. For chemicals that are listed as known to the State to cause cancer ("carcinogens"), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "no significant risk" levels for more than 250 listed carcinogens.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause birth defects or other reproductive harm ("reproductive toxicants"), a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level (NOEL)," divided by a 1,000-fold safety or uncertainty factor. The "no observable effect level" is the highest dose level which has not been associated with an observable adverse reproductive or developmental effect.

Discharges that do not result in a "significant amount" of the listed chemical entering into any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not enter any drinking water source, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" or "no observable effect" test if an individual were exposed to such an amount in drinking water.

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys (those in cities with a population exceeding 750,000). Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. A notice must comply with the information and procedural requirements specified in regulations (Title 22, California Code of Regulations, Section 12903). A private party may not pursue an enforcement action directly under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$ 2,500 per day for each violation. In addition, the business may be ordered by a court of law to stop committing the violation.

FOR FURTHER INFORMATION. . .

Contact the Office of Environmental Health Hazard Assessment's Proposition 65 Implementation Office at (916) 445-6900.

1 **PROOF OF SERVICE**

2 I am a citizen of the United States. My business address is 333 Market Street, Suite 3150,
3 San Francisco, CA 94105. I am employed in the County of San Francisco where this service
4 occurs. I am over the age of 18 years, and not a party to the within cause. I am readily familiar
5 with my employer's normal business practice for collection and processing of correspondence for
6 ailing with the U.S. Postal Service, and that practice is that correspondence is deposited with the
7 U.S. Postal Service the same day as the day of collection in the ordinary course of business.

8 On the date set forth below, following ordinary business practice, I served a true copy of
9 the foregoing document(s) described as:

- 10 • **Sixty-Day Notice of Violation;**
- 11 • **Certificate of Merit;**
- 12 • **The Safe Drinking Water and Toxic Enforcement Act of 1986**
13 **(Proposition 65): A Summary**

14 (BY MAIL) I caused such envelope(s) with postage thereon fully prepaid to be
15 placed in the United States mail at San Francisco, California.
