SENT IN COMPLIANCE WITH CALIFORNIA HEALTH & SAFETY CODE §25249.7(d)

Date: November 23, 2005

To: Tu Bui, Owner – Khan Hing Supermarket
Tu Bui, Owner – Khan Hing Tong, Corp.

California Attorney General's Office;
District Attorney's Office for 58 Counties;
City Attorneys for San Francisco, San Diego, San Jose, Sacramento and Los Angeles;

From: Russell Brimer

I. INTRODUCTION

My name is Russell Brimer. I am a citizen of the State of California acting in the interest of the general public. I seek to promote awareness of exposures to toxic chemicals in products sold in California and, if possible, to improve human health by reducing hazardous substances contained in such items. This Notice is provided to the parties listed above pursuant to California Health & Safety Code §25249.6 et seq. ("Proposition 65"). As noted above, notice is being provided to the violators, Khan Hing Supermarket and Khan Hing Tong, Corp. (the "Violators"). The violations covered by this Notice consist of the product exposures, routes of exposures, and types of harm potentially resulting from exposure to the toxic chemical ("listed chemical") identified below, as follows:

Product Exposure: See Section VI. Exhibit A
Listed Chemical: Lead
Routes of Exposure: Ingestion, Dermal
Types of Harm: Birth Defects and Other Reproductive Harm

II. NATURE OF ALLEGED VIOLATION (PRODUCT EXPOSURE)

The specific type or types of products (hereafter the "products") that are causing consumer and occupational exposures in violation of Proposition 65 (and that are covered by this Notice) are listed in Exhibit A in section VI below. The Violators' sales of these ceramic products have been occurring from at least November 23, 2004 to the present. As a result of the sales of these products, exposures to the listed chemical have been occurring without clear and reasonable warnings as required by Proposition 65. Without proper warnings regarding the toxic effects of exposures to the listed chemical produced by the products, California citizens lack the information necessary to make informed decisions on whether and how to eliminate (or reduce) the risk of exposure to the toxic chemical from the reasonably foreseeable use of the products.

A. CONSUMER PRODUCT EXPOSURE

California consumers, through the act of buying, acquiring or utilizing the products, are exposed to the listed chemical. By way of example but not limitation, exposures occur when California citizens use (such as drink from the vessel), display, clean, repair, pack, unpack, arrange, store or otherwise handle the products. These tasks cause consumers to be exposed directly or indirectly through the routine touching of the parts or portions of the products containing readily available surface amounts of the listed chemical. Additionally, exposure can occur through the routine touching and ingesting of other materials that become contaminated with the listed chemical from the products as a result of these tasks. People likely to be exposed include both children and adults.

B. OCCUPATIONAL EXPOSURE

Similarly, men and women in California use the products as a part of their jobs and are, therefore, subject to occupational exposures to the listed chemical. Employees are exposed at the California business locations of the apparent manufacturer, distributor and retailer (and their agents, assigns and divisions) as well as all other California locations where the products, or the component parts thereof that include the listed chemical are, by way of example but not limitation, used (such as drank from the vessel), packed, unpacked, labeled, arranged, displayed, cleaned, stocked, stored, repaired or otherwise handled. These tasks cause employee exposure directly or indirectly though the routine touching of the parts or portions of the products containing readily available surface amounts of the listed chemical. Additionally, exposure can occur through the routine touching and ingesting of other materials that are contaminated with the listed chemical from the products as a result of these tasks. These products are also used by sole proprietors and other persons in settings not covered by the Occupational Safety Health Act ("OSH Act"). This Notice alleges the violation of Proposition 65 with respect to occupational exposure governed by the California State Plan for Occupational Safety and Health. The State Plan incorporates the provisions of Proposition 65, as approved by Federal OSHA on June 6, 1997. This approval specifically placed certain conditions with regard to occupational exposures on Proposition 65, including that it does not apply to the conduct of manufacturers occurring outside the State of California. The approval also provides that an employer may use the means of compliance contained in the general hazard communication requirement to comply with Proposition 65. It also requires that supplemental enforcement is subject to the supervision of the California Occupational Safety and Health Administration. Accordingly, any settlement, civil complaint, or substantive court orders in this matter must be submitted to the California Attorney General.

V. ADDITIONAL NOTICE INFORMATION

THIS INFORMATION IS NOT REQUIRED TO BE PROVIDED UNDER CAL. CODE REGS., TITLE 22 §12903(b)(4).

Identified below is a specific example of the category or type of offending products recently purchased and witnessed as being available for purchase or use in California. Based on publicly available information, the retailers, distributors and/or manufacturers of this example of the category or type of products are also provided below. Brimer believes and alleges that the sale of the offending products also has occurred without the requisite Proposition 65 "clear and reasonable warnings" at other locations including, but not limited to, transactions made over-the-counter, business-to-business, through the internet and/or via a catalog by the Violators.

*The specifically identified example of the type of products which are subject to this Notice is for the recipients' benefit to assist in their investigation of, among other things, the magnitude of potential exposure to the listed chemical from other items within the product category listed in Exhibit A. It is important to note that this example is not meant to be an exhaustive or comprehensive identification of each specific offending product of the type listed under "Product Category" in Exhibit A. Further, it is this citizen's position that the alleged Violators are obligated to continue to conduct in good faith an investigation into other specific products within the type or category described above that may have been manufactured, distributed, sold, shipped, stored (or otherwise within the notice recipients' custody or control) during the relevant period so as to ensure that the requisite toxic warnings are provided to California citizens prior to purchase.
