

60-DAY NOTICE OF VIOLATION
 SENT IN COMPLIANCE WITH CALIFORNIA HEALTH & SAFETY CODE §25249.7(d)

FEBRUARY 14, 2006

To: John W. Chidsey, President (North America) - Burger King Corporation

California Attorney General's Office;
 District Attorney's Office for 58 Counties;
 City Attorneys for San Francisco, San Diego, San Jose, Sacramento and Los Angeles;

FROM: Whitney R. Leeman

I. INTRODUCTION

My name is Whitney R. Leeman. I hold a Doctor of Philosophy degree in Environmental Engineering. I am a citizen of the State of California acting in the interest of the general public. I seek to promote awareness of exposures to toxic chemicals in products sold in California and, if possible, to improve human health by reducing hazardous substances contained in such items. This Notice is provided to the parties listed above pursuant to California Health & Safety Code §25249.6 *et seq.* ("Proposition 65"). As noted above, notice is being provided to the violator, Burger King Corporation (the "Violator"). The violations covered by this Notice consist of the product exposures, routes of exposures, and types of harm potentially resulting from exposure(s) to the following toxic chemicals ("listed chemicals"):

<i>Listed Chemicals</i>	<i>Routes of Exposure</i>	<i>Types of Harm</i>	<i>Product Exposures</i>
Polychlorinated dibenzo- <i>p</i> -dioxins	Ingestion	Cancer	See Section VI. Exhibit A
Polychlorinated biphenyls	Ingestion	Birth Defects and Other Reproductive Harm	See Section VI. Exhibit A
Polychlorinated dibenzofurans	Ingestion	Cancer	See Section VI. Exhibit A
Naphthalene	Ingestion	Cancer	See Section VI. Exhibit A
Benz[a]anthracene	Ingestion	Cancer	See Section VI. Exhibit A
Chrysene	Ingestion	Cancer	See Section VI. Exhibit A
Benzo[a]pyrene	Ingestion	Cancer	See Section VI. Exhibit A
Benzo[b]fluoranthene	Ingestion	Cancer	See Section VI. Exhibit A
Benzo[k]fluoranthene	Ingestion	Cancer	See Section VI. Exhibit A
Indeno [1,2,3-cd]pyrene	Ingestion	Cancer	See Section VI. Exhibit A

II. NATURE OF ALLEGED VIOLATION

A. Consumer Product Exposures

The type of products containing the listed chemicals and exposing California consumers to the listed chemicals are *Flame Cooked Ground Beef Products* (hereafter the “products”). This category of products covered by this notice together with a specific example of this type of product is listed on Exhibit A in section VI below. The Violator’s sales of these flame cooked ground beef products have been occurring from at least February 14, 2005, to the present. As a result of the sales of these products, exposures to the listed chemicals have been occurring without clear and reasonable warnings as required by Proposition 65. Without proper warnings regarding the toxic effects of exposures to the listed chemicals in the products, California citizens lack the information necessary to make informed decisions on whether and how to eliminate (or reduce) the risk of exposure from the reasonably foreseeable consumption of the products.

California citizens, through the act of consuming the products, are exposed to the listed chemicals. By way of example but not limitation, exposures occur when California citizens eat, sample or otherwise ingest the products. These acts cause consumers to be exposed through the routine consumption of the parts or portions of the products containing the listed chemicals. Additionally, exposures can occur through the routine consumption of other food products (*e.g.*, burger buns) that become contaminated with the listed chemicals through contact with the products and are routinely consumed with the products. People likely to be exposed include both children and adults.

B. Employee Product Exposures

Similarly, consumption of the products exposes the Violator’s California employees to the listed chemicals. The employees’ consumption of these flame cooked ground beef products have been occurring from at least February 14, 2005, to the present. As a result of the consumption of these products, exposures to the listed chemicals have been occurring without clear and reasonable warnings as required by Proposition 65. Without proper warnings regarding the toxic effects of exposures to the listed chemicals in the products, California employees of the Violator lack the information necessary to make informed decisions on whether and how to eliminate (or reduce) the risk of exposure from the reasonably foreseeable consumption of the products.

California employees of the Violator, through the act of consuming the products, are exposed to the listed chemicals. By way of example but not limitation, exposures occur when employees eat, sample or otherwise ingest the products. These acts cause employees to be exposed through the routine consumption of the parts or portions of the products containing the listed chemicals. Additionally, exposure can occur through the routine consumption of other food products (*e.g.*, burger buns) that become contaminated with the listed chemicals through contact with the products and are routinely consumed with the products. People likely to be exposed include California employees of the Violator.

This notice alleges the violation of Proposition 65 with respect to occupational exposures governed by the California State Plan for Occupational Safety and Health. The State Plan incorporates the provisions of Proposition 65, as approved by Federal OSHA on June 6, 1997. This approval specifically placed certain conditions with regard to occupational exposures on Proposition 65, including that it does not apply to the conduct of manufacturers occurring outside the State of California. The approval also provides that an

employer may use the means of compliance in the general hazard communication requirements to comply with Proposition 65. It also requires that supplemental enforcement is subject to the supervision of the California Occupational Safety and Health Administration. Accordingly, any settlement, civil complaint, or substantive court orders in this matter must be submitted to the Attorney General.

III. CONTACT INFORMATION

Please direct all questions concerning this notice to my counsel at the following address:

IV. PROPOSITION 65 INFORMATION

For general information concerning the provisions of Proposition 65, please feel free to contact the Office of Environmental Health Hazard Assessment's ("OEHHA") Proposition 65 Implementation Office at (916) 445-6900. For the Violator's reference, I have attached a copy of "Proposition 65: A Summary" which has been prepared by OEHHA.

V. ADDITIONAL NOTICE INFORMATION

THIS INFORMATION IS *NOT* REQUIRED TO BE PROVIDED UNDER CAL. CODE REGS., TITLE 22 § 12903(b)(4).

Identified below is one specific example within the category or type of offending products recently purchased and witnessed as being available for purchase or consumption in California. Based on publicly available information, the retailers, distributors and/or manufacturers of the example within the category or type of products at issue are also provided below. Dr. Leeman believes and alleges that the sale and consumption of the offending products has occurred without the requisite Proposition 65 "clear and reasonable warning" at locations throughout the State of California including transactions made over-the-counter by the Violator.

<i>Products*</i>	<i>Retailer(s)</i>	<i>Manufacturer(s)/Distributors</i>

*Any specifically identified example of the type of products which are subject to this Notice is for the recipient's benefit to assist in its investigation of, among other things, the magnitude of potential exposure to the listed chemicals from other items within the product category listed in Exhibit A. It is important to note that this example is not meant to be an exhaustive or comprehensive identification of each specific offending product of the type listed under "Product Category" in Exhibit A. Further, it is Dr. Leeman's position that the alleged Violator is obligated to continue to conduct in good faith an investigation into other specific products within the type or category described above that may have been manufactured, distributed, sold, shipped, stored (or otherwise within the notice recipient's custody or control) during the relevant period so as to ensure that the requisite toxic warnings are provided to California citizens and employees prior to purchase or consumption.

CERTIFICATE OF MERIT

Health and Safety Code Section 25249.7(d)

I, Clifford A. Chanler, hereby declare:

1. This Certificate of Merit accompanies the attached sixty-day notice in which it is alleged the party identified in the notice has violated Health and Safety Code §25249.6 by failing to provide clear and reasonable warnings.
2. I am the attorney for the noticing party.
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the *alleged* exposure to the listed chemicals that are the subject of this action.
4. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.
5. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including information identified in Health and Safety Code §25249.7(h)(2) (*i.e.*, (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.)

Dated: 2/14/00
