Re: Notice of Violation

Dear Prosecutors:

I represent Communities for a Better Environment ("CBE"), a non-profit California corporation with over 27 years experience in working to prevent and reduce toxic hazards to human health and the environment. This letter constitutes notification that Owens-Corning Fiberglass located at 1501 N. Tamarind Ave., Compton, CA 90023 has violated the warning requirement of Proposition 65, the Safe Drinking Water and Toxic Enforcement Act (commencing with section 25249.5 of the Health and Safety Code).

In particular, this company has exposed and continues to expose numerous individuals within the surrounding area to the following chemicals subject to Proposition 65: Benzene listed as a chemical known to the State of California to cause cancer on February 27, 1987 and as a chemical known to the State of California to cause reproductive toxicity (developmental toxicity) on December 26, 1997; 2,3,7,8-Tetrachlorodibenzo-para-dioxin (TCDD) listed as a chemical known to the State of California to cause cancer on January 1, 1988 and as a chemical known to the State of California to cause reproductive toxicity (developmental toxicity) on April 1, 1991; Furan listed as a chemical known to the State of California to cause cancer on October 1, 1993; Chromium (hexavalent compounds) listed as a chemical known to the State of California to cause cancer on February 27, 1987; and lead listed as a chemical known to the State of California to cause developmental toxicity, and male and female reproductive toxicity on February 27, 1987 and as a chemical known to the State of California to cause cancer on October 1, 1992. The time period of this violation commenced one year after the date the chemical was listed. The route of exposure has been primarily through inhalation of these chemicals; however additional exposures may arise through dermal contact with, or ingestion of, these chemicals. The general

geographic location of the unlawful exposure to the residential community and occupational area lies within a radius of approximately one-half mile from the facility.

Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to certain listed chemicals. Owens-Corning Fiberglass is in violation of Proposition 65 because it failed to provide a warning to persons residing and working in the area surrounding the facility that they have been and continue to be exposed to chromium (hexavalent compounds). (22 C.C.R. section 12601.) While in the course of doing business, the company is knowingly and intentionally exposing people to these chemicals, without first providing clear and reasonable warning. (Health and Safety Code section 25249.6.) Moreover, based on the exposure involved, we believe the method of warning should be "... a notice mailed or otherwise delivered to each occupant in the affected area. Such notice shall be provided at least once in any three-month period." (22 C.C.R. section 12601 (d) (1) (B)).

Proposition 65 requires that notice and intent to sue be given to a violator 60-days before the suit is filed. With this letter, CBE gives notice of the alleged violation to the noticed party and the appropriate governmental authorities. This notice covers all violations of Proposition 65 that are currently known to CBE from information now available to us. CBE is continuing its investigation that may reveal further violations. A summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, and referenced as Appendix A, has been provided to the noticed party.

The noticing party is Communities for a Better Environment, 5610 Pacific Blvd., Suite 203, Huntington Park, CA 90255 and 1440 Broadway, Suite 701, Oakland, CA 94612. CBE can be contacted through my office at 1915 Addison Street, Berkeley, CA 94704. Telephone: (510) 540-1992.

If you have any questions, please contact my office at your earliest convenience.

Sincerely,

Michael Freund

cc: Shana Lazerow, Esq., CBE

CERTIFICATE OF MERIT

Health and Safety Code Section 25249.7 (d)

I, Michael Freund hereby declare:

1. This Certificate of Merit accompanies the attached Notice of Violation in which it is alleged that the party identified in the Notice has violated Health and Safety Code Section 25249.6 by failing to provide clear and reasonable warnings to those persons exposed to benzene, cadmium, dioxins and furans, chromium (hexavalent compounds), and lead in and around its facility.
2. I am the attorney for the noticing party Communities for a Better Environment (“CBE”).
3. CBE is a non-profit California corporation with over 27 years experience in working to prevent and reduce toxic hazards to human health and the environment.
4. The Notice of Violation alleges that the party identified emits the above named chemicals into the atmosphere such that nearby residences and workers are exposed to the chemicals at levels that require a warning pursuant to Proposition 65. Benzene was listed as a chemical known to the State of California to cause cancer on February 27, 1987 and as a chemical known to the State of California to cause reproductive toxicity (developmental toxicity) on December 26, 1997; Cadmium and cadmium compounds were listed as chemicals known to the State of California to cause cancer on October 1, 1987 and as a chemical known to the State of California to cause reproductive toxicity (developmental toxicity) on May 1, 1997; 2,3,7,8-Tetrachlorodibenzo-para-dioxin (TCDD) was listed as a chemical known to the State of California to cause cancer on January 1, 1988 and as a chemical known to the State of California to cause reproductive

toxicity (developmental toxicity) on April 1, 1991; Furan was listed as a chemical known to the State of California to cause cancer on October 1, 1993; Chromium (hexavalent compounds) was listed as a chemical known to the State of California to cause cancer on February 27, 1987; and lead was listed as a chemical known to the State of California to cause developmental toxicity, and male and female reproductive toxicity on February 27, 1987 and as a carcinogen on October 1, 1992. Please refer to the Notice of Violation for additional details regarding the alleged violations.

5. I have consulted with a scientist with 22 years of regulatory and private-sector experience in air quality issues. The consultant has the appropriate experience and expertise regarding the exposure issues in this case. The consultant has reviewed facts, studies or other data regarding the exposure to the listed chemicals that are the subject of this action. These facts, studies or other data overwhelmingly demonstrate that the party identified in the Notice exposes residents and workers in and around the facility to chemicals known to the State of California to cause cancer and reproductive toxicity.

6. Based on my consultation with an experienced consultant in this field and especially the results of the exposure assessment, it is clear that there is sufficient evidence that human exposures exist from the emissions of benzene, cadmium, chlorodioxins and dibenzofurans, hexavalent chromium and lead from the noticed party's facility.

Furthermore, as a result of the above, I have concluded that there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and the information did not prove that

the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.

7. The copy of this Certificate of Merit served on the California Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health & Safety Code Section 25249.7 (h) (2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies or other data reviewed by those persons.

Dated: March 13, 2006

Michael Freund
Attorney for Communities for a Better
Environment

CERTIFICATE OF SERVICE

I am a citizen of the United States and a resident of the County of Alameda. I am over the age of eighteen years and not a party to the within entitled action; my business address is 1915 Addison Street, Berkeley, California 94704. On March 13, 2006 I served the within:

Notice of Violation and Certificate of Merit (Supporting documentation pursuant to 11 CCR section 3102 sent to Attorney General only)

on the parties in said action, by placing a true copy thereof enclosed in a sealed envelope with postage thereon fully prepaid, in the United States Post Office mail box in Berkeley, California and/or by hand delivery to said parties addressed as follows:

Attorney General's Office
Attn: Prop 65 Coordinator
1515 Clay Street, Suite 2000
Oakland, CA 94612

Josh Igoe
Owens-Corning Fiberglass
1501 N. Tamarind Ave.
Compton, CA 90223

Steve Cooley, District Attorney
Los Angeles District Attorney's Office
210 West Temple Street
Room 18-709
Los Angeles, CA 90012

I, Michael Freund, declare under penalty of perjury that the foregoing is true and correct.

Executed on March 13, 2006 at Berkeley, California.

Michael Freund
