Date: June 27, 2006

To: David Lieberstein, President – Wine Things Unlimited, Inc.

California Attorney General's Office;  
District Attorney's Office for 58 Counties;

From: Russell Brimer

## I. INTRODUCTION

My name is Russell Brimer. I am a citizen of the State of California acting in the interest of the general public. I seek to promote awareness of exposures to toxic chemicals in products sold in California and, if possible, to improve human health by reducing hazardous substances contained in such items. This Notice is provided to the parties listed above pursuant to California Health & Safety Code §25249.6 *et seq.* ("Proposition 65") and supplements the notice sent on September 9, 2005. As noted above, notice is being provided to the violator, Wine Things Unlimited, Inc. (the "Violator"). The violations covered by this Notice consist of the product exposures, routes of exposures, and types of harm potentially resulting from exposure to the toxic chemicals ("listed chemicals") identified below, as follows:

Product Exposure: See Section VI. Exhibit A  
Listed Chemicals: Lead; Cadmium  
Routes of Exposure: Ingestion, Dermal  
Types of Harm: Birth Defects and Other Reproductive Harm

## II. NATURE OF ALLEGED VIOLATION (PRODUCT EXPOSURE)

The specific type or types of products (hereafter the "products") that are causing consumer and occupational exposures in violation of Proposition 65 (and that are covered by this Notice) are listed in Exhibit A in section VI below. The Violator's sales of these glassware and ceramic products have been occurring from at least June 27, 2005, to the present. As a result of the sales of these products, exposures to the listed chemicals have been occurring without clear and reasonable warnings as required by Proposition 65. Without proper warnings regarding the toxic effects of exposures to the listed chemicals produced by the products, California citizens lack the information necessary to make informed decisions on whether and how to eliminate (or reduce) the risk of exposure to the toxic chemicals from the reasonably foreseeable use of the products.

## **A. CONSUMER PRODUCT EXPOSURE**

California consumers, through the act of buying, acquiring or utilizing the products, are exposed to the listed chemicals. By way of example, but not limitation, exposures occur when California citizens use (such as drink from the vessel), display, clean, repair, pack, unpack, arrange, store or otherwise handle the products. These tasks cause consumers to be exposed directly or indirectly through the routine touching of the parts or portions of the products containing readily available surface amounts of the listed chemicals. Additionally, exposure can occur through the routine touching and ingesting of other materials that become contaminated with the listed chemicals from the products as a result of these tasks. People likely to be exposed include both children and adults.

## **B. OCCUPATIONAL EXPOSURE**

Similarly, men and women in California use the products as a part of their jobs and are, therefore, subject to occupational exposures to the listed chemicals. Employees are exposed at the California business locations of the apparent manufacturer, distributor and retailer (and their agents, assigns and divisions) as well as all other California locations where the products, or the component parts thereof that include the listed chemicals are, by way of example but not limitation, used (such as drank from the vessel), packed, unpacked, labeled, arranged, displayed, cleaned, stocked, stored, repaired or otherwise handled. These tasks cause employee exposure directly or indirectly though the routine touching of the parts or portions of the products containing readily available surface amounts of the listed chemicals. Additionally, exposure can occur through the routine touching and ingesting of other materials that are contaminated with the listed chemicals from the products as a result of these tasks. These products are also used by sole proprietors and other persons in settings not covered by the Occupational Safety Health Act ("OSH Act"). This Notice alleges the violation of Proposition 65 with respect to occupational exposure governed by the California State Plan for Occupational Safety and Health. The State Plan incorporates the provisions of Proposition 65, as approved by Federal OSHA on June 6, 1997. This approval specifically placed certain conditions with regard to occupational exposures on Proposition 65, including that it does not apply to the conduct of manufacturers occurring outside the State of California. The approval also provides that an employer may use the means of compliance contained in the general hazard communication requirement to comply with Proposition 65. It also requires that supplemental enforcement is subject to the supervision of the California Occupational Safety and Health Administration. Accordingly, any settlement, civil complaint, or substantive court orders in this matter must be submitted to the California Attorney General.

It is important to note that these examples are not meant to be an exhaustive or comprehensive identification of each specific offending product of the types listed under "Product Category" in Exhibit A. Further, it is this citizen's position that the alleged Violator is obligated to continue to conduct in good faith an investigation into other specific products within the types or categories described above that may have been manufactured, distributed, sold, shipped, stored (or otherwise within the notice recipient's custody or control) during the relevant period so as to ensure that the requisite toxic warnings are provided to California citizens prior to purchase.

# CERTIFICATE OF MERIT

Health and Safety Code Section 25249.7(d)

I, Clifford A. Chanler, hereby declare:

1. This Certificate of Merit accompanies the attached sixty-day notice in which it is alleged the party identified in the notice has violated Health and Safety Code §25249.6 by failing to provide clear and reasonable warnings.
2. I am the attorney for the noticing party.
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the *alleged* exposure to the listed chemicals that is the subject of this action.
4. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.
