## I. INTRODUCTION

My name is Russell Brimer. I am a citizen of the State of California acting in the interest of the general public. I seek to promote awareness of exposures to toxic chemicals in products sold in California and, if possible, to improve human health by reducing hazardous substances contained in such items. This Notice is provided to the parties listed above pursuant to California Health & Safety Code §25249.6 *et seq.* ("Proposition 65") and supplements the 60-Day Notice of Violation sent on January 13, 2006. As noted above, notice is being provided to the violator, Bacardi U.S.A., Inc. (the "Violator"). The violations covered by this Notice consist of the product exposures, routes of exposures, and types of harm potentially resulting from exposure to the toxic chemicals ("listed chemicals") identified below, as follows:

Product Exposure: See Section VI. Exhibit A  
Listed Chemicals: Lead, Cadmium  
Routes of Exposure: Ingestion, Dermal  
Types of Harm: Birth Defects and Other Reproductive Harm

## II. NATURE OF ALLEGED VIOLATION (PRODUCT EXPOSURE)

The specific types of products that are causing consumer and occupational exposures in violation of Proposition 65, and that are covered by this Notice, are listed under "Product Category/Type" in Exhibit A in section VI below. All such products within the types covered by this Notice shall hereinafter be referred to as the "products." The Violator's sales of these glassware products have been occurring from at least August 11, 2005, to the present. As a result of the sales of these products, exposures to the listed chemicals have been occurring without clear and reasonable warnings as required by Proposition 65. Without proper warnings regarding the toxic effects of exposures to the listed chemicals resulting from contact with the products, California citizens lack the information necessary to make informed decisions on whether and how to eliminate (or reduce) the risk of exposure to the toxic chemicals from the reasonably foreseeable use of the products.

## A. CONSUMER PRODUCT EXPOSURE

California consumers, through the act of buying, acquiring or utilizing the products, are exposed to the listed chemicals. By way of example but not limitation, exposures occur when California citizens use, display, clean, repair, pack, unpack, arrange, store or otherwise handle the products. These tasks cause consumers to be exposed directly and/or indirectly to the listed chemicals through the routine touching of the parts or portions of the products containing readily available amounts of the listed chemicals on the surface. Additionally, exposure can occur through the routine touching and ingesting of other materials (such as food items consumed while handling the products) that become contaminated with the listed chemicals from the products. People likely to be exposed include both children and adults.

## B. OCCUPATIONAL EXPOSURE

Similarly, men and women in California use or otherwise handle the products as a part of their jobs and are, therefore, subject to occupational exposures to the listed chemicals. Employees are exposed at any California business locations of the apparent manufacturer, distributor and retailer (and their agents, assigns and divisions) as well as all other California locations where the products, or the component parts thereof that include the listed chemicals are, by way of example but not limitation, used, packed, unpacked, labeled, arranged, displayed, cleaned, stocked, stored, repaired or otherwise handled. These tasks cause employee exposure directly and/or indirectly to the listed chemicals through the routine touching of the parts or portions of the products containing readily available amounts of the listed chemicals on the surface. Additionally, exposure can occur through the routine touching and ingesting of other materials that are contaminated with the listed chemicals from the products as a result of these tasks. These products are also used by sole proprietors and other persons in settings not covered by the Occupational Safety Health Act ("OSH Act"). This Notice alleges the violation of Proposition 65 with respect to occupational exposure governed by the California State Plan for Occupational Safety and Health. The State Plan incorporates the provisions of Proposition 65, as approved by Federal OSHA on June 6, 1997. This approval specifically placed certain conditions with regard to occupational exposures on Proposition 65, including that it does not apply to the conduct of manufacturers occurring outside the State of California. The approval also provides that an employer may use the means of compliance contained in the general hazard communication requirement to comply with Proposition 65. It also requires that supplemental enforcement is subject to the supervision of the California Occupational Safety and Health Administration. Accordingly, any settlement, civil complaint, or substantive court orders in this matter must be submitted to the California Attorney General.

For general information concerning the provisions of Proposition 65, please feel free to contact the Office of Environmental Health Hazard Assessment's ("OEHHA") Proposition 65 Implementation Office at (916) 445-6900. For the Violator's reference, I have attached a copy of "Proposition 65: A Summary" which has been prepared by OEHHA.

#### V. ADDITIONAL NOTICE INFORMATION

*THIS INFORMATION IS NOT REQUIRED TO BE PROVIDED UNDER CAL. CODE REGS., TITLE 22 §12903(b)(4).*

Identified below are specific examples of products recently purchased and witnessed as being available for purchase or use in California that are within the categories or types of offending products covered by this Notice. Based on publicly available information, the retailers, distributors and/or manufacturers of the examples within the categories or types of products are also provided below. I believe and allege that the sale of the offending products also has occurred without the requisite Proposition 65 "clear and reasonable warnings" at other locations and by other means including, but not limited to, transactions made over-the-counter, business-to-business, through the internet and/or via a catalog by the Violator and other retailers and distributors of the manufacturer.

\*The specifically identified examples of the types of products which are subject to this Notice are for the recipient's benefit to assist in their investigation of, among other things, the magnitude of potential exposure to the listed chemicals from other items within the product categories listed in Exhibit A. It is important to note that these examples are not meant to be an exhaustive or comprehensive identification of each specific offending product of the types listed under "Product Category/Type" in Exhibit A. Further, it is this citizen's position that the alleged Violator is obligated to continue to conduct in good faith an investigation into other specific products within the types or categories described above that may have been manufactured, distributed, sold, shipped, stored (or otherwise within the notice recipient's custody or control) during the relevant period so as to ensure that the requisite toxic warnings are provided to California citizens prior to purchase.

# CERTIFICATE OF MERIT

Health and Safety Code Section 25249.7(d)

I, D. Joshua Voorhees, hereby declare:

1. This Certificate of Merit accompanies the attached sixty-day notice in which it is alleged the party identified in the notice has violated Health and Safety Code §25249.6 by failing to provide clear and reasonable warnings.
2. I am the attorney for the noticing party.
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the *alleged* exposure to the listed chemicals that are the subject of this action.
4. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.
5. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including information identified in Health and Safety Code §25249.7(h)(2) (*i.e.*, (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.)

Dated: 8/11/06
