

NOTICE OF VIOLATION

California Safe Drinking Water and Toxic Enforcement Act

Arsenic from Drinking Water Filtration Systems and Replacement Filters

November 22, 2006

This Notice of Violation is provided to you pursuant to and in compliance with California Health and Safety Code Section 25249.7(d).

- For general information regarding the California Safe Drinking Water and Toxic Enforcement Act, see the attached summary provided by the California EPA (copies not provided to public enforcement agencies).
- This Notice of Violation is provided by the Center for Environmental Health, 528 61st Street, Suite A, Oakland, CA 94609, (510) 594-9864. CEH is a nonprofit corporation dedicated to protecting the environment, improving human health and supporting environmentally sound practices. Michael Green is the Executive Director of and a responsible individual within CEH.

Description of Violation:

- The name and address of the violators are attached hereto as Exhibit 1.
- The violations have been occurring since at least November 22, 2003 and are continuing to this day.
- This Notice of Violation covers both the "discharge provision" of Proposition 65 and the "warning provision" of Proposition 65, which are found at California Health and Safety Code Sections 25249.5 and 25249.6 respectively.
- The name of the listed chemical involved in these violations is Arsenic. Arsenic, as used herein, refers to arsenic (inorganic arsenic compounds) and arsenic (inorganic arsenic oxides). Discharges of Arsenic and exposures to Arsenic occur from use of the products identified in this notice.
- The specific types of products causing these violations are drinking water filtration systems utilizing activated carbon filters and replacement filters used in such systems. A list of non-exclusive examples of this specific type of products is attached hereto as Exhibit 2. The Arsenic is contained in the activated carbon filters of these products.
- Discharge Violations: Use of these products results in discharges or releases of Arsenic into a source of drinking water. Specifically, the drinking water filtration systems that are the subject of this Notice of Violation contain sufficient quantities of Arsenic such that Arsenic will leach from the filtration systems into water that passes through them. Arsenic is contained, for example, in the activated carbon used as a filter in these systems. As the products connect to the plumbing system of homes and workplaces before the faucet, they are sources of drinking water under Proposition 65. The water in these filtration systems is a source of drinking water. These discharges occur in homes, workplaces and everywhere else throughout California where these filtration systems are used.
- Warning Violations: Use of the products identified in this notice also results in human exposures to Arsenic. The filtration systems are constructed of materials that contain Arsenic. Arsenic is contained, for example, in the activated carbon

used as a filter in these systems. The route of exposure for the violations is ingestion of water discharged through the filters. These exposures occur in homes, workplaces and everywhere else throughout California where these filtration systems are used. No clear and reasonable warning is provided with these products regarding the carcinogenic or reproductive hazards of Arsenic.

Resolution of Noticed Claims:

- Based on the allegations set forth in this Notice, CEH intends to file a citizen enforcement lawsuit unless the alleged violators agree in a binding written instrument to remedy the violations alleged herein by recall of products already sold and by reformulation of products in the future, and to pay an appropriate civil penalty based on the factors enumerated in California Health and Safety Code Section 25249.7(b). If any of the alleged violators is interested in resolving this dispute without resort to expensive and time-consuming litigation, please contact CEH through its counsel identified below. It should be noted that CEH cannot: (1) finalize any settlement until after the 60-day notice period has expired; nor (2) speak for the Attorney General or any District or City Attorney who received CEH's 60-day Notice. Therefore, while reaching an agreement with CEH will resolve its claims, such agreement may not satisfy the public prosecutors.

2. I am an attorney with the Lexington Law Group, LLP, and I represent the noticing party, the Center for Environmental Health (“CEH”).
