ATTACHED CERTIFICATE OF SERVICE

Re: Violations of Proposition 65 concerning **Perfectone® Color Crème (including Very Light
Golden Blonde)**

Dear Ms. Edward, Mr. Hostalery, or Current CEO(s)/President(s):

Consumer Advocacy Group, Inc. (“CAG”), the noticing entity, serves this Notice of Violation (“Notice”) upon Wella Personal Care of North America, The Wella Corporation, and Wella Laboratories (“Violators”) pursuant to and in compliance with Proposition 65. Violators may contact CAG concerning this Notice through its designated person within the entity, its attorney, Reuben Yeroushalmi, Esq., 3700 Wilshire Boulevard, Suite 480, Los Angeles, CA 90010, telephone no. (213) 382-3183, facsimile no. (213) 382-3430. This Notice satisfies a prerequisite for CAG to commence an action against Violator in any Superior Court of California to enforce Proposition 65. The violations addressed by this Notice occurred at numerous locations in each county in California as reflected in the district attorney addresses listed in the attached distribution list. CAG is serving this Notice upon each person or entity responsible for the alleged violations, the California Attorney General, the district attorney for each county where alleged violations occurred, and the City Attorney for each city with a population (according to the most recent decennial census) of over 750,000 located within counties where the alleged violations occurred.

- CAG is a registered corporation based in California. By sending this Notice, CAG is acting “in the public interest” pursuant to Proposition 65. CAG is a nonprofit entity dedicated to protecting the environment, improving human health, and supporting environmentally sound practices.
- This Notice concerns violations of the warning prong of Proposition 65, which states that “[n]o person in the course of doing business shall knowingly and intentionally expose any individual to a chemical known to the state to cause cancer or reproductive toxicity without first giving clear and reasonable warning to such individual . . .” *Cal. Health & Safety Code § 25249.5.*

- **Perfectone® Color Crème (including Very Light Golden Blonde)** contains Diaminotoluene (mixed) (specifically 2,5-Diaminotoluene), a chemical known to the State of California to cause cancer. On January 1, 1990, which was more than twenty (20) months before CAG served this Notice, the Governor of California added Diaminotoluene (Mixed) to the list of chemicals known to the State to cancer.
- This Notice addresses consumer products exposures. A “[c]onsumer products exposure” is an exposure which results from a person’s acquisition, purchase, storage, consumption, or other reasonably foreseeable use of a consumer good, or any exposure that results from receiving a consumer service.” *Cal. Code Regs. 27 § 25602(b)*.

Violators caused consumer product exposures in violation of Proposition 65 by producing or making available for distribution or sale in California to consumers **Perfectone® Color Crème (including Very Light Golden Blonde)** (“**Perfectone**”). The packaging for **Perfectone** (meaning any label or other written, printed or graphic matter affixed to or accompanying the product or its container or wrapper) contains no Proposition 65-compliant warning. Nor did Violators, with regard to **Perfectone**, provide a system of signs, public advertising identifying the system and toll-free information services, or any other system, which provided clear and reasonable warnings. Nor did Violators, with regard to **Perfectone**, provide identification of the product at retail outlets in a manner that provided a warning through shelf labeling, signs, menus, or a combination thereof. **Perfectone** is designed for personal cosmetic use as a hair coloring treatment.

- This Notice also concerns occupational exposures. An “[o]ccupational exposure” means an exposure to any employee in his or her employer’s workplace.” *Cal. Code Regs. 27 § 25602(f)*.

Violators caused occupational exposures in violation of Proposition 65 by allowing employees to handle **Perfectone** without having first given clear and reasonable warnings to such employees that by handling **Perfectone** such employees would suffer exposures to Diaminotoluene (mixed). Violators’ employees were exposed to Diaminotoluene (mixed) by touching the chemical containing vessels within **Perfectone** with their bare skin in the course of packaging, inspecting, distributing, selling, or using **Perfectone** at Violators’ premises located at 6109 De Soto Avenue, Woodland Hills, California, 91367-3709, among other locations where these activities take place. Violators did not provide any Proposition 65-compliant warnings on either the product or substance present or any sign or system of signs in the workplace.

This notice alleges the violation of Proposition 65 with respect to occupational exposures governed by the California State Plan for Occupational Safety and Health. The State Plan incorporates the provisions of Proposition 65, as approved by Federal OSHA on June 6, 1997.

This approval specifically placed certain conditions with regard to occupational exposures on Proposition 65, including that it does not apply to (a) the conduct of manufacturers occurring outside the State of California; and (b) employers with less than ten (10) employees. The approval also provides that an employer may use any means of compliance in the general hazard communication requirements to comply with Proposition 65. It also requires that supplemental enforcement be subject to the supervision of the California Occupational Safety and Health Administration. Accordingly, any settlement, civil complaint, or substantive court orders in this matter must be submitted to the California Attorney General.

- This Notice also addresses environmental exposures. An “[e]nvironmental exposure” is an exposure which may foreseeably occur as the result of contact with an environmental medium, including, but not limited to, ambient air, indoor air, drinking water, standing water, running water, soil vegetation, or

manmade or natural substances, either through inhalation, ingestion, skin contact or otherwise. Environmental exposures include all exposures which are not consumer products exposures, or occupational exposures.” *Cal. Code Regs. 27 § 25602(c)*.

Violators caused environmental exposures by not providing any Proposition 65-compliant warnings at their facilities located at 6109 De Soto Avenue, Woodland Hills, California, 91367-3709, among other locations where such exposures could foreseeably occur, to persons who could foreseeably come into contact with Diaminotoluene (mixed) contained in an environmental medium such as water or ambient air. Such exposures also occurred beyond the property owned or controlled by Violators.

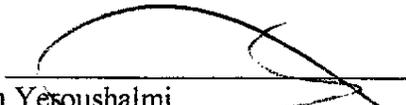

These violations occurred each day between March 26, 2007 and March 26, 2010, and are continuing hereafter.

The principal routes of exposure were and are through dermal contact, ingestion, and inhalation caused when users of **Perfectone**, while wearing colorist gloves per the product's instructions or not wearing colorist gloves, pour the contents of the color cream tube into cream developer applicator bottle, replace the applicator cap securely on the cream developer bottle, shake developer bottle well until contents were thoroughly mixed, apply color to their hair, or that of another, and left on for approximately ten (10) to twenty-five (25) minutes depending on the type of color coverage (all over color or root application), before rinsing thoroughly. In doing so, users permit bare skin, including scalp, and in some instances eyes and hands, to touch the product containing Diaminotoluene (mixed). Additionally when users rinse the product from their hair, users permit the product containing Diaminotoluene (mixed) to come into contact with the bare skin on the user's face and body and in some instances the user's mouth. In doing so, users also breathe in fumes emanating from **Perfectone**. The foregoing assumes use of **Perfectone** according to instructions.

Proposition 65 requires that notice of intent to sue be given to the violator(s) at least sixty (60) days before the suit is filed. *Cal. Health & Safety Code § 252549.7(d)(1)*. With this letter, CAG gives notice of the alleged violations to Violators and the appropriate governmental authorities. In absence of any action by the appropriate governmental authorities within sixty (60) calendar days of the sending of this notice (plus ten (10) calendar days because the place of address is beyond the State of California but within the United States), CAG may file suit. *See Cal. Civ. Proc. Code § 1013; Cal. Health & Safety Code § 25249.7(d)(1); and Cal. Code Regs. tit. 27, § 25903(d)(1)*. CAG remains open to discussing the possibility of resolving its grievances in the public interest short of formal litigation.

With the copy of this notice submitted to the Violator, a copy of the following is attached: The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary.

Perfectone® Color Crème (including Very Light Golden Blonde)

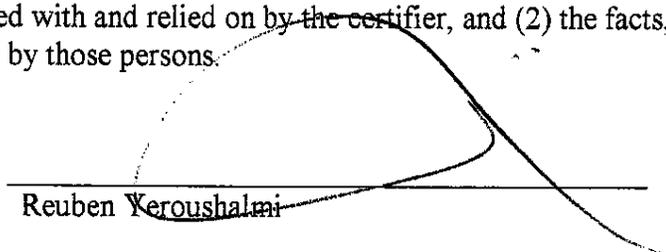

CERTIFICATE OF MERIT

Health & Safety Code § 25249.7(d)

I, Reuben Yeroushalmi, hereby declare:

1. This Certificate of Merit accompanies the attached sixty-day notice(s) in which it is alleged the party(s) identified in the notice(s) has violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings.
2. I am the attorney for the noticing party.
3. I have consulted with at least one person with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of the action.
4. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiffs' case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.
5. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and Safety Code section 25249.7(h)(2), *i.e.*, (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: March 26, 2010
