

SUPPLEMENTAL 60-DAY NOTICE OF VIOLATION

SENT IN COMPLIANCE WITH CALIFORNIA HEALTH & SAFETY CODE § 25249.7(d)

DATE: August 29, 2011

TO: Robert J. Keller, Chief Executive Officer – ACCO Brands Corporation
California Attorney General's Office;
District Attorney's Office for 58 Counties; and
City Attorneys for San Francisco, San Diego, San Jose, Sacramento and Los Angeles

FROM: Russell Brimer

I. INTRODUCTION

My name is Russell Brimer. I am a citizen of the State of California acting in the interest of the general public. I seek to promote awareness of exposures to toxic chemicals in products sold in California and, if possible, to improve human health by reducing hazardous substances contained in such items. This Notice is provided to the public agencies listed above pursuant to California Health & Safety Code § 25249.6 *et seq.* ("Proposition 65"). As noted above, notice is also being provided to the alleged violator, ACCO Brands Corporation (the "Violator"). The violations covered by this Notice consist of the product exposures, routes of exposure, and types of harm potentially resulting from exposure to the toxic chemicals ("listed chemicals") identified below, as follows:

Product Exposure:	See Section VI. Exhibit A
Listed Chemicals:	Lead; Di(2-ethylhexyl)phthalate ("DEHP"); Di-n-butyl phthalate ("DBP"); Butyl benzyl phthalate ("BBP")
Routes of Exposure:	Ingestion, Dermal
Types of Harm:	Birth Defects and Other Reproductive Harm

II. NATURE OF ALLEGED VIOLATION (PRODUCT EXPOSURE)

The specific types of products that are causing consumer and occupational exposures in violation of Proposition 65, and that are covered by this Notice, are listed under "Product Category/Type" in Exhibit A in Section VI below. All products within the types covered by this Notice shall be referred to hereinafter as the "products." The sales of these products in California dating as far back as August 29, 2008 are subject to this Notice. As a result of the sales of these products, exposures to the listed chemicals have been occurring without clear and reasonable warnings as required by Proposition 65. Without proper warnings regarding the toxic effects of exposure to the listed chemicals resulting from contact with the products, California citizens lack the information necessary to make informed decisions on whether and how to eliminate (or reduce) the risk of exposure to the toxic chemicals from the reasonably foreseeable use of the products.

A. CONSUMER PRODUCT EXPOSURE (LEAD)

California consumers, through the act of buying, acquiring or utilizing the products, are exposed to the listed chemical. By way of example but not limitation, exposures occur when California citizens use, display, clean, repair, pack, unpack, arrange, store or otherwise handle the products. These tasks cause consumers to be exposed directly or indirectly through the routine touching of the parts or portions of the products containing readily available surface amounts of the listed chemical. Additionally, exposure can occur through the routine touching and ingesting of other materials that are contaminated with the listed chemical from the products as a result of these tasks. People likely to be exposed include both children and adults.

B. CONSUMER PRODUCT EXPOSURE (DEHP, DBP, BBP)

California citizens, through the act of buying, acquiring or utilizing the products, are exposed to the listed chemical. Infants, children and/or women of childbearing age ingest the listed chemical when they, among other activities, place the product, or a portion thereof, into their mouth, or otherwise suck, lick, teethe and/or bite the product thereby allowing the listed chemical to leach out of the substrate directly into their mouths. Infants, children and/or women of childbearing age ingest the listed chemical when they, among other activities, touch the products and transfer the listed chemical from the products to their mouths through hand-to-mouth activities that may continue to occur for a significant period after contact with the products stops. Infants, children and/or women of childbearing age are exposed to the listed chemical through direct dermal contact when they, among other activities, handle, touch or otherwise use the products.

C. OCCUPATIONAL EXPOSURE (LEAD)

Similarly, men and women in California use or otherwise handle the products as a part of their jobs and are, therefore, subject to occupational exposures to the listed chemical. Employees are exposed at any California business locations of the apparent manufacturer, distributor and retailer (and their agents, assigns and divisions) as well as all other California locations where the products, or the component parts thereof that include the listed chemical are, by way of example but not limitation, used, packed, unpacked, labeled, arranged, displayed, cleaned, stocked, stored, repaired or otherwise handled. These tasks cause employee exposure directly and/or indirectly to the listed chemical through the routine touching of the parts or portions of the products containing readily available amounts of the listed chemical on the surface. Additionally, exposure can occur through the routine touching and ingesting of other materials that are contaminated with the listed chemical from the products as a result of these tasks. These products are also used by sole proprietors and other persons in settings not covered by the Occupational Safety Health Act ("OSHA"). This Notice alleges the violation of Proposition 65 with respect to occupational exposure governed by the California State Plan for Occupational Safety and Health (the "State Plan"). The State Plan incorporates the provisions of Proposition 65, as approved by Federal OSHA on June 6, 1997. This approval specifically placed certain conditions with regard to occupational exposures on Proposition 65, including that it does not apply to the conduct of manufacturers occurring outside the State of California. The approval also provides that an employer may use the means of compliance contained in the general hazard

communication requirement to comply with Proposition 65. It also requires that supplemental enforcement is subject to the supervision of the California Occupational Safety and Health Administration. Accordingly, any settlement, civil complaint, or substantive court orders in this matter must be submitted to the California Attorney General.

V. ADDITIONAL NOTICE INFORMATION

Based on publicly available information, the retailers, distributors and/or manufacturers of the examples within the categories or types of products are also provided below. I believe and allege that the sale of the offending products also has occurred without the requisite Proposition 65 "clear and reasonable warnings" at one or more locations and/or via other means including, but not limited to, transactions made over-the-counter, business-to-business, through the internet and/or via a catalog by the Violator and other distributors and retailers of the manufacturer.

*The specifically identified examples of the types of products that are subject to this Notice are for the recipient's benefit to assist in its investigation of, among other things, the magnitude of potential exposure to the listed chemicals from other items within the product categories/types listed in Exhibit A. It is important to note that these examples are not meant to be an exhaustive or comprehensive identification of each specific offending product of the types listed under "Product Category/Type" in Exhibit A. CERTIFICATE OF MERIT

Health and Safety Code Section 25249.7(d)

I, Clifford A. Chanler, hereby declare:

1. This Certificate of Merit accompanies the attached sixty-day notice in which it is alleged the party identified in the notice has violated Health and Safety Code § 25249.6 by failing to provide clear and reasonable warnings;
2. I am the attorney for the noticing party;
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the *alleged* exposure to the listed chemicals that is the subject of this action;
4. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute;
5. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including information identified in Health and Safety Code § 25249.7(h)(2) (*i.e.*, (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons).
