Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I represent Environmental Research Center ("ERC"), 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. (619) 500-3090. ERC's Executive Director is Chris Heptinstall. ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

General Information about Proposition 65. A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is an attachment with the copy of this letter served on the alleged Violator identified below.

Alleged Violator. The name of the companies covered by this notice that violated Proposition 65 (hereinafter "the Violator") are:

Aloe Vera of America, Inc.
Forever Living Products International, LLC
Forever Living Products U.S., Inc.
Forever Living.Com, L.L.C.
Forever Living Products, L.L.C.

Consumer Products and Listed Chemicals. The products that are the subject of this notice and the chemicals in those products identified as exceeding allowable levels are:

Aloe Vera of America Inc. Forever Living Products Forever Lite Ultra with Aminotein Vanilla Shake Mix - Lead

Aloe Vera of America Inc. Forever Living Products Forever Lean – Lead

Forever Living Products Sonya 310 Caramel Aloe Mineral Makeup – Lead

Forever Living Products Sonya 308 Natural Aloe Mineral Makeup – Lead

Forever Living Products Sonya 309 Amber Aloe Mineral Makeup - Lead

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

Route of Exposure. The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and recommended use of these products. Consequently, the primary route of exposure to the chemical lead in the first two listed products has been and continues to be through ingestion, but may have also occurred and may continue to occur through inhalation and/or dermal contact. The primary route of exposure for the chemical lead in the makeup products, has and continues to be through dermal contact, but may also occur and may continue to occur through inhalation and/or ingestion.

Approximate Time Period of Violations. Ongoing violations have occurred every day since at least May 9, 2009, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until these known toxic chemicals are either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemicals. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons handling and/or using these products with appropriate warnings that they are being exposed to these chemicals.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemicals, or provide appropriate warnings on the labels of these products; and (2) pay an appropriate civil penalty. Such a resolution will prevent further unwarned consumer exposures to the identified chemicals, as well as an expensive and time consuming litigation.
