

# 60 DAY NOTICE OF VIOLATION

*SENT IN COMPLIANCE WITH CALIFORNIA HEALTH & SAFETY CODE §25249.7(d)*

---

DATE: June 18, 2013

To: All Parties Listed On Attachment "A"

and

California Attorney General's Office:

District Attorney's Office for 58 counties:

City Attorney's for San Francisco, San Diego, San Jose, Sacramento and Los Angeles;

From: Ms. Maureen Parker

---

- I. My name is Maureen Parker. I am a citizen of the State of California acting in the interest of the general public. I seek to promote awareness of exposures to toxic chemicals in products sold in California and, if possible, to improve human health by reducing hazardous substances contained in such items. This Notice is provided to the parties listed above pursuant to California Health & Safety Code §25249.6 et seq. ("Proposition 65"). The violations covered by this Notice consist of the product exposures, routes of exposures, and types of harm potentially resulting from exposure to the toxic chemical ("listed chemical") identified below, as follows:

<b>Product Exposure:</b>	<b>See Section VII. Exhibit A</b>
<b>Listed Chemical:</b>	<b>Lead and Lead Compounds</b>
<b>Routes of Exposure:</b>	<b>Dermal absorption, Ingestion, Inhalation.</b>
<b>Types of Harm:</b>	<b>Carcinogen, Causes Birth Defects and Other Reproductive Harm</b>

## II. NATURE OF ALLEGED VIOLATION (PRODUCT EXPOSURE)

The specific type of product that is causing consumer and occupational exposures in violation of Proposition 65, and that is covered by this Notice, is listed under "Product Category/Type" in Exhibit A in Section VII below. All products within the type covered by this Notice shall be referred to hereinafter as the "products." The sales of these products in California dating at least as far back as March 15, 2013 are subject to this notice. As a result of the sales of these products, exposures to the listed chemical have been occurring without clear and reasonable warnings as required by Proposition 65. Without proper warnings regarding the toxic effects of exposures to the listed chemical, resulting from contact with the products, California citizens lack the information necessary to make informed decisions on whether and how to eliminate (or reduce) the risk of exposure to the toxic chemical from the reasonably foreseeable use of the products.

California citizens, through the act of buying, acquiring or utilizing the products, are exposed to the listed chemical in homes, workplaces and everywhere else throughout California where these products are used. By way of example but not limitation, exposures occur when consumers handle these products, lead comes off on the hands and is then absorbed through the skin or ingested via inhalation, hand to mouth behavior, hand to food to mouth behavior, or through hand to cigarette to lung behavior. Exposure may continue to occur for a significant period after the initial contact. These activities cause women, pregnant women, and women of child bearing age to be exposed directly through migration of the listed chemical from the products. People likely to be exposed are

women, men, infants and children. These violations and threatened violations pertain to Proposition 65 chemicals that are listed as carcinogens and as reproductive toxins.

### **III. CONTACT INFORMATION**

Please direct all questions concerning this notice to me through my counsel's office at the following address:

Ms. Maureen Parker  
c/o Mr. Stephen Ure  
Law Offices of Stephen Ure, PC.  
1518 Sixth Avenue  
San Diego, CA 92101  
Tel: 619-235-5400

### **IV. PROPOSITION 65 INFORMATION**

For general information concerning the provisions of Proposition 65, please feel free to contact the Office of Environmental Health hazard Assessment's ("OEHHA") Proposition 65 Implementation Office at (916) 445-6900. For the Violator's reference, I have attached a copy of "Proposition 65: A Summary" which has been prepared by OEHHA.

### **V. RESOLUTION OF NOTICED CLAIMS**

Based on the allegations set forth in this Notice, I intend to file a citizen enforcement lawsuit against the alleged Violator unless such Violator enters into a binding written agreement to: (1) recall products already sold or undertake best efforts to ensure that the requisite health hazard warnings are provided to those whom have received such products; (2) provide clear and reasonable warnings for products sold in the future or reformulate such products to eliminate the Lead exposures; and (3) pay an appropriate civil penalty based on the factors enumerated in California Health & Safety Code §25249.7(b). If the alleged Violator is interested in resolving this dispute without resort to time-consuming and expensive litigation, please feel free to contact my counsel identified in Section III above. It should be noted that neither my counsel nor I can: (1) finalize any settlement until after the 60-day notice period has expired; nor (2) speak for the Attorney General or any District or City Attorney who received this Notice. Therefore, while reaching an agreement with me will resolve my claims, such agreement may not satisfy the public prosecutors.

### **VI. ADDITIONAL INFORMATION**

*THIS INFORMATION IS NOT REQUIRED TO BE PROVIDED UNDER TITLE 22 CAL. CODE REGS., §12903 (b)(4).*

Identified below is a specific example of a product recently purchased and witnessed as being available for purchase or use in California that is within the category or type of offending product covered by this Notice. Based on publicly available information, the retailers, distributors and/or manufacturers of the example within the category or type of product are also provided below. I believe and allege that the sale of the offending products also has occurred without the requisite Proposition 65 "clear and reasonable warnings" at one or more locations and/or via other means including, but not limited to, transactions made over-the-counter, business to business, through the internet, and or via catalog by the Violator and other distributors and retailers of the manufacturer.

Product**	Retailer(s)	Manufacturer(s)/Distributor(s)

### **VII. EXHIBIT A**

Product Category Type  
Horseback Riding Accessory

Such As\*  
Stud Chain 24

Toxins  
Lead

\*The specifically identified example of the type of product which is subject to this Notice is for the recipient's benefit to assist in its investigation of, among other things, the magnitude of potential exposure to the listed chemical from other items within the product category/type listed in Exhibit A. It is important to note that this example is not meant to be an exhaustive or comprehensive identification of each specific offending product of the type listed under "Product Category/Type" in Exhibit A. Further, it is this citizen's position that the alleged Violator is obligated to continue to conduct in good faith an investigation into other specific products within the type or category described above that may have been manufactured, distributed, sold, shipped, stored (or otherwise within the notice recipient's custody or control) during the relevant period so as to ensure that the requisite toxic warnings are provided to California citizens prior to purchase.

# CERTIFICATE OF MERIT

## Health and Safety Code Section 25249.7(d)

I, Stephen Ure, hereby declare:

1. This Certificate of Merit accompanies the attached sixty-day notice in which it is alleged the party identified in the notice has violated Health and Safety Code §25249.6 by failing to provide clear and reasonable warnings.
2. I am the attorney for the noticing party.
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the *alleged* exposure to the listed chemical that is the subject of this action.
4. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.
5. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including information identified in Health and Safety Code §25249.7(h)(2) (*i.e.*, (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.)

Dated: June 18, 2013

  
\_\_\_\_\_  
Stephen Ure

## PROOF OF SERVICE

I, the undersigned, declare under penalty of perjury:

I am a citizen of the United States, over the age of 18 years, and not a party to the within action; my business address is 1518 Sixth Avenue, San Diego, CA 92101.

On June 18, 2013, I served the following documents:

**60-DAY NOTICE OF VIOLATION SENT IN COMPLIANCE WITH  
HEALTH & SAFETY CODE §25249.7(d);**

**PROPOSITION 65: A SUMMARY;**

**CERTIFICATE OF MERIT; AND**

**CERTIFICATE OF MERIT ATTACHMENTS (SERVED ONLY ON THE  
ATTORNEY GENERAL)**

on the Violator listed below via First Class Certified Mail through the United States Postal Service by placing a true and correct copy in a sealed envelope, addressed to the Violator and providing such envelope to a United States Postal Service Representative:

Violators: Those Parties Listed on Attachment "A".

as well as providing copies of the notice to the public enforcers by placing a true and correct copy in a sealed envelope, addressed to each party listed below and served as follows:

By Posting on " <a href="http://oag.ca.gov">http://oag.ca.gov</a> "	The Attorney General of the State of California
By placing each envelope in a United States Postal Service Box, first class postage pre-paid	The District Attorneys for each of the 58 California Counties and:  The City Attorneys for Los Angeles, San Diego, San Jose, San Francisco, Sacramento, Anaheim, Burbank, Torrance, and Oakland

A list of addresses for each of the recipient's is attached.

Executed on June 18, 2013, San Diego, California

## Appendix A

### OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

#### THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACTION 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the Office of Environmental Health Hazard Assessment, the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and its implementing regulations (see citations below) for further information.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, Sections 25000 through 27000.

#### WHAT DOES PROPOSITION 65 REQUIRE?

**The "Governor's List."** Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer, or birth defects or other reproductive harm. This list must be updated at least once a year. Over 735 chemicals have been listed as of November 16, 2001. Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release, or otherwise engage in activities involving those chemicals must comply with the following:

**Clear and Reasonable Warnings.** A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical. The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is

exposed. Exposures are exempt from the warning requirement if they occur less than twelve months after the date of listing of the chemical.

**Prohibition from discharges into drinking water.** A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Discharges are exempt from this requirement if they occur less than twenty months after the date of listing of the chemical.

#### DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. The law exempts:

**Governmental agencies and public water utilities.** All agencies of the federal, State or local government, as well as entities operating public water systems, are exempt.

**Businesses with nine or fewer employees.** Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees.

**Exposures that pose no significant risk of cancer.** For chemicals that are listed as known to the State to cause cancer ("carcinogens"), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "no significant risk" levels for more than 250 listed carcinogens.

**Exposures that will produce no observable reproductive effect at 1,000 times the level in question.** For chemicals known to the State to cause birth defects or other reproductive harm ("reproductive toxicants"), a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000

times the level in question. In other words, the level of exposure must be below the "no observable effect level (NOEL)," divided by a 1,000-fold safety or uncertainty factor. The "no observable effect level" is the highest dose level which has not been associated with an observable adverse reproductive or developmental effect.

*Discharge that do not result in a "significant amount" of the listed chemical entering into any source of drinking water.* The prohibition from discharges into drinking water does not apply If the discharger is able to demonstrate that a "significant amount" of the list chemical has not, does not, or will not enter any drinking water source, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" or "no observable effect" test if an individual were exposed to such an amount in drinking water.

## HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys(those in cities with a population exceeding 750,000). Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. A notice must comply with the information and procedural requirements specified in regulations (Title 27, California Code of Regulations, Section 25903). A private party may not pursue an enforcement action directly under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court of law to stop committing the violation.

## FOR FURTHER INFORMATION...

Contact the Office of Environmental Health Hazard Assessment's Proposition 65 Implementation Office at (916) 445-6900.

## § 27000.

### **Chemicals Required by State or Federal Law to Have been Tested for Potential to Cause Cancer or Reproductive Toxicity, but Which Have Not Been Adequately Tested As Required.**

(a) The Safe Drinking Water and Toxic Enforcement Act of 1986 requires the Governor to publish a list of chemicals formally required by state or federal agencies to have testing for carcinogenicity or reproductive toxicity, but that the state's qualified experts have not found to have been adequately tested as required [Health and Safety Code 25249.8)c)].

Readers should note a chemical that already has been designated as known to the state to cause cancer or reproductive toxicity is not included in the following listing as requiring additional testing for that particular toxicological endpoint. However, the "data gap" may continue to exist, for purposes of the state or federal agency's requirements. Additional information on the requirements for testing may be obtained from the specific agency identified below.

(b) Chemicals required to be tested by the California Department of Pesticide Regulation.

The Birth Defect Prevention Act of 1984(SB 950) mandates that the California Department of Pesticide Regulation (CDPR) review chronic toxicology studies supporting the registration of pesticidal active ingredients. Missing or unacceptable studies are identified as data gaps. The studies are conducted to fulfill generic data requirements of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), which is administered by the United States Environmental Protection Agency (U.S. EPA). The studies are reviewed by CDPR according to guidelines and standards promulgated under FIFRA. Thus, older studies may not meet current guidelines.

The existence of a data gap for a compound does not indicate a total lack of information on the carcinogenicity or reproductive toxicity of the compound. In some cases, information exists in the open scientific literature, but SB 950 requires specific, additional information. A data gap does not necessarily indicate that an oncogenic or reproductive hazard exists. For the purposes of this list, a data gap is still considered to be present until the study is reviewed and found to be acceptable.

Following is a listing of SB 950 data gaps for oncogenicity, reproduction, and teratology studies for the non-200 pesticidal active ingredients. This list will change as data gaps are filled by additional data or replacement studies.

[Final Paragraph and List Ommitted].
