PROPOSITION 65 ENFORCEMENT REPORTING
ATTENTION: PROP 65 COORDINATOR
1515 CLAY STREET, SUITE 2000
P.O. BOX 70550
OAKLAND CA 94612-0550

Greetings:

This office and the Mateel Environmental Justice Foundation ("Mateel") give you notice that the private businesses on the attached service ("health clubs") list have been, are, will be and threaten to be in violation of Cal. Health & Safety Code § 25249.6. Both this office and Mateel are private enforcers of Proposition 65, both may be contacted at the below listed address and telephone number, and I am a responsible individual at both Mateel and this office. The above referenced violations occur when patrons and workers at each of the California-located fitness centers owned and operated by the health clubs come into contact with swimming pools and spas, the water for which contains chloroform and bromodichloromethane ("the" or "these" "chemicals"). These chemicals are disinfectant bi-products that result when chlorine is used to treat water. This chlorine reacts with organic matter in the water -- skin, hair, mucous, urine, bacteria and other organic detritus from the human beings who swim, exercise in, play in or sit in the water. The reaction between the chlorine and organic matter creates chloroform and bromodichloromethane. Chlorine and bromodichloromethane are chemicals known to cause cancer, birth defects and other reproductive harm. California residents are exposed to these chemicals when they swim in, exercise in, play in, or sit in the California-located pools and spas owned and operated by the health clubs on the attached service list. While swimming, sitting, exercising and playing in these pools and spas, people ingest these chemicals; the chemicals are absorbed through their skin; they inhale these chemicals and the chemicals enter their bodies through cuts and abrasions. Exposures to these chemicals thus occur via the dermal absorption, subcutaneous, mucus membrane, ingestion and inhalation routes. The listed health clubs did not and do not provide people with clear and reasonable warnings before they expose them to chloroform and bromodichloromethane. These violations have occurred every day since at least August 14, 2011, and will continue every day until a different method is used to disinfect the water in the relevant pools and spas, or until clear and reasonable warnings are given to patrons and workers at the health clubs' California locations. The above-referenced violations pertain to occupational exposures as well as to consumer and environmental exposures. Workers at each of the California locations of the businesses listed on the attached service list are exposed to chloroform and bromodichloromethane in the same ways as are patrons of these health clubs. It is unclear whether exposure to patrons of the health clubs are consumer product or environmental exposures. In any event, people exposed environmentally to these chemicals are exposed in the same way and at the same locations described above. Exposures constituting Proposition 65 environmental exposure violations occur only in the pool and spa areas of the California-located fitness centers owned and operated by the above referenced health clubs. Ergo, environmental exposures do not occur beyond the properties of the health clubs listed on the attached service list.

Cordially,

William Verick

CERTIFICATE OF MERIT

I, William Verick, hereby declare: This Certificate of Merit accompanies the attached notice(s) of violation in which it is alleged the parties identified in the notices have violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings. I am the attorney for the noticing party. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of the action. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiffs' case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and Safety Code section 25249.7(h)(2), i.e., (1) the identity of the person(s) consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: August 14, 2014

William Verick

This notice alleges the violation of Proposition 65 with respect to occupational exposures governed by the California State Plan for Occupational Safety and Health. The State Plan incorporates the provisions of Proposition 65, as approved by Federal OSHA on June 6, 1997. This approval specifically placed certain conditions on Proposition 65, including that it does not apply to the conduct of manufacturers occurring outside the State of California. The approval also provides that an employer may use the means of compliances in the general hazard communication requirements to comply with Proposition 65. It also requires that supplemental enforcement is subject to the supervision of the California Occupational Safety and Health Administration. Accordingly, any settlement, civil complaint, or substantive court orders in this matter must be submitted to the Attorney General.
