**Re: Second Notice of Violations of Proposition 65, California Health & Safety Code
Section 25249.5 et seq.**

Dear Addressees:

I represent Global Community Monitor (“GCM”) and Sunshine Park LLC (“SP”) in connection with this Second Notice of Violations of California’s Safe Drinking Water and Toxic Enforcement Act of 1986, which is codified at California Health & Safety Code Section 25249.5 *et seq.* and also referred to as Proposition 65.

GCM is a California non-profit corporation, founded in 2001, that trains and supports communities in the use of environmental monitoring tools to understand the impact of air and water pollution on their health and the environment, and to take legal and community-based action to reduce that pollution.

SP is a California limited liability company established, among other things, to promote awareness of exposures to toxic chemicals in certain products sold in California and, if possible, to improve public health and safety by reducing the hazardous substances contained in such items.

The name of the companies covered by this notice that violated Proposition 65 (hereinafter “the Violators”) are:

Lumber Liquidators, Inc.
Lumber Liquidators Holdings, Inc.
Lumber Liquidators Leasing, LLC
Lumber Liquidators Services, LLC

On April 11, 2014, GCM and SP previously sent two of the Violators – Lumber Liquidators, Inc. and Lumber Liquidators Holdings, Inc. – a notice of violations of Proposition 65 for eleven Lumber Liquidators’ products and have since filed a lawsuit in Alameda County Superior Court in Oakland, California. *Global Community Monitors, Inc., et al. v. Lumber Liquidators, Inc., et al.*, Case No. RG14733979. This Second Notice serves to notify Lumber Liquidators Services, LLC and Lumber Liquidators Leasing, LLC that they also are Violators for the Products included in the April 11, 2014 notice of violations and listed in Table 1 and, upon the expiration of the notice period, GCM and SP intend to add them as parties to the ongoing lawsuit against Lumber Liquidators, Inc. and Lumber Liquidators Holdings, Inc.

Table 1

Product	Chemical
8 mm Bristol County Cherry Laminate Flooring	Formaldehyde (gas)
8 mm Dream Home Nirvana French Oak Laminate Flooring	Formaldehyde (gas)

12 mm Dream Home Kensington Manor Cape Doctor Laminate Flooring	Formaldehyde (gas)
12 mm Dream Home St. James Cumberland Mountain Oak	Formaldehyde (gas)

This Second Notice also notifies all four Violators identified above that they are exposing numerous individuals in California to Formaldehyde (gas) without the clear and reasonable warning required by Proposition 65 from the Violators' manufacture, marketing, distribution, and/or sale of the following sixteen products listed in Table 2.

Table 2

Product	Chemical

12 mm Dream Home St. James Nantucket Beech Laminate Flooring	Formaldehyde (gas)

On January 1, 1988, the State of California officially listed Formaldehyde (gas) as a chemical known to cause cancer.

This letter is a notice to each of the Violators and the appropriate governmental authorities of the Proposition 65 violations concerning the products listed in Table 2 above. This letter is also a notice to each of Lumber Liquidators Services, LLC and Lumber Liquidators Leasing, LLC and the appropriate governmental authorities of the Proposition 65 violations concerning the products listed in Table 1 above. This notice, as well as the previous April 11, 2014 notice of violation, covers all violations of Proposition 65 involving the Violators currently known to GCM and SP from the information now available. GCM and SP are continuing to investigate other products that may reveal further violations. A summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached to this letter sent to each of the Violators.

Each of the Violators has manufactured, marketed, distributed, and/or sold the listed products, which have exposed and continue to expose numerous individuals within California to the identified chemicals. The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and/or recommended use of these products by consumers. The primary route of exposure to these chemicals has been through inhalation. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemicals. The method of warning should be a warning that the consumer likely will read and understand prior to purchasing any of the products as well as on the product's label. Each of the Violators violated Proposition 65 because they failed to provide an appropriate warning to persons using and/or handling these products that they are being exposed to the identified chemicals. Each of these ongoing violations has occurred on every day since September 22, 2011, as well as every day since the products were introduced in the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users.

Pursuant to Section 25249.7(d) of the statute, GCM and SP intend to file a citizen enforcement action, or amend the pleadings in Case No. RG14733979 to include the additional Violators and the above listed products, sixty days after effective service of this notice unless each of the Violators agrees in an enforceable written instrument to: (1) provide legally sufficient warnings to past, current, and future purchasers of the products; (2) where requested by previous purchasers, fund the removal and replacement of flooring sold without the requisite warning; (3) reformulate the listed products so as to eliminate further exposures to the identified chemicals; and (4) pay an appropriate civil penalty. Consistent with the public interest goals of Proposition 65 and my clients' objectives in pursuing this notice, GCM and SP are interested in seeking a

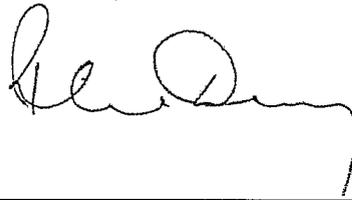

September 22, 2014

Page 5

constructive resolution to this matter. Such resolution will avoid both further unwarned consumer exposures to the identified chemicals and expensive and time consuming litigation.

GCM's address is P.O. Box 1784, El Cerrito, CA 94530. Denny Larson is the responsible individual for GCM in regard to this matter and he can be telephoned at (510) 233-1870. SP's address is 2019 Century Park E, Suite 2400, Los Angeles, California, 90067. I, Richard Drury, am the responsible individual for SP in regard to this matter and I can be telephoned at (510) 836-4200. GCM and SP have retained Lozeau Drury LLP in connection with this matter. Please also direct all communications regarding this Notice of Violations to my attention at the above listed law office address and telephone number.

Sincerely,

Richard Drury
Lozeau Drury LLP on behalf of Global
Community Monitor and Sunshine Park

CERTIFICATE OF MERIT

Re: Global Community Monitor and Sunshine Park LLC's Notice of Proposition 65 Violations by Lumber Liquidators, Inc., Lumber Liquidators Holdings, Inc., Lumber Liquidators Leasing, LLC, and Lumber Liquidators Services, LLC

I, Richard Drury, declare:

1. This Certificate of Merit accompanies the attached sixty-day notice in which it is alleged the parties identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.
2. I am an attorney for the noticing parties.
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of the notice.
4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiffs' case can be established and that the information did not prove that the alleged violators will be able to establish any of the affirmative defenses set forth in the statute.
5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: September 22, 2014

Richard Drury

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. The statute is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Governor's List." Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. This means that chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to female or male reproductive systems or to the developing fetus. This list

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at:

http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before “knowingly and intentionally” exposing that person to a listed chemical unless an exemption applies; for example, when exposures are sufficiently low (see below). The warning given must be “clear and reasonable.” This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed as known to the State to cause cancer (“carcinogens”), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses “no significant risk.” This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific “No Significant Risk Levels” (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA’s website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the “no observable effect level” divided by a 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA’s website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in a Food. Certain exposures to chemicals that occur in foods naturally (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a “significant amount” of the listed chemical entering into any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a “significant amount” of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A “significant amount” means any detectable amount, except an amount that would meet the “no significant risk” level for chemicals that cause cancer or that is 1,000 times below the “no observable effect” level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

² See Section 25501(a)(4)

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of the regulations and in Title 11, sections 3100-3103. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

FOR FURTHER INFORMATION ABOUT THE LAW OR REGULATIONS...

Contact the Office of Environmental Health Hazard Assessment's Proposition 65 Implementation Office at (916) 445-6900 or via e-mail at P65Public.Comments@oehha.ca.gov.
