AND THE PUBLIC PROSECUTORS LISTED ON THE DISTRIBUTION LIST ACCOMPANYING
THE ATTACHED CERTIFICATE OF SERVICE

Re: Notice of Violation of California Health & Safety Code §25249.5, *et seq.*

To Whom It May Concern:

Brodsky & Smith, LLC (“Brodsky Smith”) represents Anthony Ferreiro (“Ferreiro”), a citizen of the State of California acting in the interest of the general public to promote awareness of exposures to toxic chemicals in products sold in California and to improve human health by reducing hazardous substances contained in such items.

With respect to the product identified below, Ferreiro has identified a violation of California’s Safe Drinking Water and Toxic Enforcement Act of 1986 (“Proposition 65”), which is codified at Cal. Health & Safety Code §25249.5, *et seq.* This violation has occurred and continues to occur because the alleged Violator(s) identified below failed to provide required clear and reasonable warnings with this product. Section 25249.6 of the statute provides that “[n]o person in the course of doing business shall knowingly and intentionally expose any individual to a chemical known to the State to cause cancer or reproductive toxicity without first providing a clear and reasonable warning to such individual ...” Without proper warnings regarding the toxic effects of exposures to this listed chemical that results from contact with this product, California citizens lack the information necessary to make an informed decision on whether and/or how to eliminate (or reduce) their risk of exposure to the listed chemical from the reasonably foreseeable use of the product.

Please allow this letter to serve as notice of this violation to the alleged Violators and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, Brodsky Smith intends to file a private enforcement action on behalf of Ferreiro sixty (60) days after effective service of this notice unless the public enforcement agencies¹ have commenced and are earnestly prosecuting an action to redress these violations.

¹ The public enforcement agencies that have been served with copies of this notice of violations are identified in the attached distribution list accompanying the Certificate of Service.

Alleged Violator(s): The name of the company covered by this notice that Violated Proposition 65 (hereinafter “the Violators”) are:

Standard Sales, Inc.
Walmart, Inc.

Product Category/Type: The specific type of product causing this violation is:

<i>Product²</i>	<i>Retailer(s)</i>	<i>Manufacturer(s)/Distributor(s)</i>
Stansport Waterproof Fire Starter Sticks UPC# 0 11319 21065 3 Item#179 SF-000821 TEX-15550 2-L3-5-3	Walmart, Inc.	Standard Sales, Inc.

Listed Chemicals: These products sold to California residents by Violators are the subject of this Notice and Violators failed to clearly and reasonably warn consumers that carbon monoxide is a chemical known to the State of California to cause reproductive toxicity. On July 1, 1989 the Office of Environmental Health Hazard Assessment (OEHHA) of the California Environmental Protection Agency added carbon monoxide to the Proposition 65 list.

Violations: The alleged Violators knowingly and intentionally have exposed and continue to knowingly and intentionally expose consumers within the State of California to carbon monoxide without providing clear and reasonable warning of this exposure. In particular, the products do not warn that they contain chemicals known to the State of California to cause reproductive toxicity.

Route of Exposure: The exposures that are the subject of this notice result from the combustion and inhalation of the products. The products are used primarily for cooking, in order to promote fast and easy charcoal ignition. Combustion of charcoal produces and exposes people to carbon monoxide. Because the combustion of charcoal causes carbon monoxide to be released in the air, people using charcoal-burning grills, and others standing near the products when charcoal is burning in or on the products, inhale carbon monoxide. Consequently, a primary route of exposure to the chemicals contained in these products is through inhalation. Inhalation exposure occur when persons using these products, or persons nearby when the products are being used, inhale that which is emitted during its use. These products cause carbon monoxide exposures to occur in people’s yards and everywhere else throughout California where these products are used. These violations occur during the foreseeable use of the products and when the product is used as intended. These violations are alleged for consumer and environmental exposures.

Duration of the Violations: Each of these ongoing violations has occurred on every day since at least February 16, 2018; as well as every day since the product was introduced to the California marketplace and following the one-year anniversary date of the listing at issue; and will continue every day

² The specifically identified example of the type of product that is subject to this Notice is for the recipient’s benefit to assist in its investigation of, among other things, the magnitude of potential exposures to the listed chemical from other items within the product category. It is important to note that this example is not meant to be an exhaustive or comprehensive identification of each specific offending product of the type listed under “Product.” Further, it is Ferreiro’s position that the alleged Violators are obligated to continue to conduct in good faith an investigation into other specific products within the type or category described above that may have been manufactured, distributed, sold, shipped, stored (or otherwise within the notice recipient’s custody or control) during the relevant period so as to ensure that the requisite toxic warnings were and are provided to California citizens prior to purchase.

until clear and reasonable warnings are provided to product purchasers and users or until this known toxic chemical is removed from the products.

Pursuant to Title 11, C.C.R. §3100, a certificate of merit is attached hereto. Pursuant to Title 27, C.C.R. §25903(b), a copy of "The Safe Drinking Water and Toxic Enforcement Action of 1986 (Proposition 65): A Summary" is also enclosed.

Consistent with the public interest goals of Proposition 65 and desire to have these ongoing violations of California law quickly rectified, Ferreiro is interested in seeking a constructive resolution of this matter without engaging in costly and protracted litigation.

Mr. Ferreiro has retained me as legal counsel in connection with this matter. **Please direct all communications regarding this Notice of Violations to my attention at the law office address and telephone number indicated on the letterhead.**

Sincerely,

Evan J. Smith

Certificate of Service

The Safe Drinking Water and Toxic Enforcement Action of 1986 (Proposition 65): A Summary

CERTIFICATE OF SERVICE

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States, over the age of 18 years of age, and am not a party to the within action. My business address is 2 Bala Plaza, Suite 510, Bala Cynwyd, Pennsylvania. I am employed in Montgomery County where the mailing occurred.

On May 31, 2018, I served the following documents: **Notice of Violation of California Health & Safety Code §25249.5, et seq.; Certificate of Merit; The Safe Drinking Water and Toxic Enforcement Action of 1986 (Proposition 65): A Summary** on the following entities and individuals listed below by placing a true and correct copy thereof in a sealed envelope, addressed to the person or entity listed below and depositing it in a US Postal Service Office with postage fully prepaid for delivery by Certified Mail:

President/CEO Standard Sales, Inc. c/o Victor Preisler 2801 E. 12 th Street Los Angeles, CA 90023	President/CEO Walmart, Inc. c/o CT Corporation System 818 West Seventh Street, Suite 930 Los Angeles, CA 90017
--	--

On May 31, 2018, I served the following documents: **Notice of Violation of California Health & Safety Code §25249.5, et seq.; Certificate of Merit; The Safe Drinking Water and Toxic Enforcement Action of 1986 (Proposition 65): A Summary** on each of the individuals on the service list attached hereto as Appendix B by placing a true and correct copy thereof in a sealed envelope, addressed to the person or entity listed below and depositing it in a US Postal Service Office with postage fully prepaid for delivery by Priority Mail.

Executed on May 31, 2018, in Bala Cynwyd, Pennsylvania.

Evan J. Smith

CERTIFICATE OF MERIT
Health & Safety Code Section 25249.7(d)

I, Evan J. Smith, hereby declare:

- (1) This Certificate of Merit accompanies the attached sixty-day notice in which it is alleged the parties identified in the notice have violated Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.
- (2) I am the attorney for the noticing parties, Anthony Ferreiro.
- (3) I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies or other data regarding the alleged exposure to the listed chemicals that are the subject of the action.
- (4) Based on the information obtained through these consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for private action" means that the information provides a credible basis that all elements of the plaintiffs' case can be established and the information did not prove that the alleged violator(s) will be able to establish any of the affirmative defenses set forth in the statute.
- (5) The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including information identified in Health & Safety Code Section 25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: May 31, 2018

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT
CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986
(PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. Please refer to the statute and OEHHA's implementing regulations (see citations below) for further information. FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 ([Health and Safety Code Sections 25249.5 through 25249.13](http://www.oehha.ca.gov/prop65/law/P65law72003.html)) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001. These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Proposition 65 List." Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies. The warning given must be "clear and reasonable." This means that the warning must: (1) clearly say that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Periods. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 et seq. of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 et seq. of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant, it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a "significant amount" of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if

one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off- premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form

A private party may not file an action against the alleged violator for these exposures, or recover in a settlement any payment in lieu of penalties any reimbursement for costs and attorney's fees, if the notice was served on or after October 5, 2013, and the alleged violator has done all of the following within 14 days of being served notice:

- Corrected the alleged violation;
- Agreed to pay a civil penalty of \$500 (subject to change as noted below) to the private party within 30 days; and
- Notified the private party serving the notice in writing that the violation has been corrected.

The written notification to the private party must include a notice of special compliance procedure and proof of compliance form completed by the alleged violator as directed in the notice. On April 1, 2019, and every five years thereafter, the dollar amount of the civil penalty will be adjusted by the Judicial Council based on the change in the annual California Consumer Price Index. The Judicial Council will publish the dollar amount of the adjusted civil penalty at each five-year interval, together with the date of the next scheduled adjustment.

An alleged violator may satisfy these conditions only one time for a violation arising from the same exposure in the same facility or on the same premises. The satisfaction of these conditions does not prevent the Attorney General, a district attorney, a city attorney of a city of greater than 750,000 population, or any full-time city prosecutor with the consent of the district attorney, from filing an enforcement action against an alleged violator. The amount of any civil penalty for a violation shall be reduced to reflect any payment made by the alleged violator for the same alleged violation to a private party.

A copy of the notice of special compliance procedure and proof of compliance form is included with this notice and can be downloaded from CEHHA's website at: <http://cehha.ca.gov/prop65/law/p65law72003.html>. The notice is reproduced here:

Date:

Name of Noticing Party or attorney for Noticing Party:

Address:

Phone number:

SPECIAL COMPLIANCE PROCEDURE
PROOF OF COMPLIANCE

You are receiving this form because the Noticing Party listed above has alleged that you are violating California Health and Safety Code §25249.6 (Prop 65).

The Noticing Party may not bring any legal proceedings against you for the alleged violation checked below if

1. You have actually taken the corrective steps that you have certified in this form
2. The Noticing Party has received this form at the address shown above, accurately completed by you, postmarked within 14 days of your receiving this notice
3. The Noticing Party receives the required \$500 penalty payment from you at the address shown above postmarked within 30 days of your receiving this notice.
4. This is the first time you have submitted a Proof of Compliance for a violation arising from the same exposure in the same facility on the same premises

PART 1: TO BE COMPLETED BY THE NOTICING PARTY OR ATTORNEY FOR THE NOTICING PARTY

The alleged violation is for an exposure to: (check one)

- Alcoholic beverages that are consumed on the alleged violator's premises to the extent on-site consumption is permitted by law.
- A chemical known to the state to cause cancer or reproductive toxicity in a food or beverage prepared and sold on the alleged violator's premises for immediate consumption on or off premises to the extent: (1) the chemical was not intentionally added; and (2) the chemical was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination.
- Environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises.
- Chemicals known to the State to cause cancer or reproductive toxicity in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking noncommercial vehicles.

IMPORTANT NOTES:

1. You have no potential liability under California Health and Safety Code §25249.6 if your business has nine (9) or fewer employees.
2. Using this form will NOT prevent the Attorney General, a district attorney, a city attorney, or a prosecutor in whose jurisdiction the violation is alleged to have occurred from filing an action over the same alleged violations, and that in any such action, the amount of civil penalty shall be reduced to reflect any payment made at this time.
