**60-Day Notice of Violation**

**Sent in Compliance with California Health & Safety Code § 25249.7(d)**

To: Zesty Naturals, LLC, Amazon.com Services LLC, Amazon.com Inc., and the public prosecutors listed on the proof of service attached hereto:

**I. INTRODUCTION**

Brown Bear Law, APC represents Citizens of California Safety Corp, a California Corporation with an interest in protecting the general public, which includes promoting awareness of exposure to toxic chemicals, reducing exposure to hazardous substances found in consumer products, and the promotion and improvement of human health. This correspondence shall serve as a 60 day notice Zesty Naturals, LLC, Amazon.com Services LLC, and Amazon.com Inc. (hereinafter "Violators") are in violation of the California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), which codified at Cal. Health & Safety Code §25249.5 et seq.

Cal. Health & Safety Code §25249 states in relevant part "No person in the course of doing business shall knowingly and intentionally expose any individual to a chemical known to the state to cause cancer or reproductive toxicity without first giving clear and reasonable warning to such individual"

This correspondence serves to provide notification that the Violators and elected prosecutors. Unless, notice is provided that the appropriate public enforcement agencies are diligently prosecuting said violations, Brown Bear Law, APC intends to bring an enforcement action on behalf of Citizens of California Safety Corp sixty days or more after service of said notice.

## II. VIOLATIONS

Product Types/Categories: The specific types or categories of products that are causing consumer exposures in violation of Proposition 65, and that are covered by this Notice, include the following:

Product Name	UPC
Organic Ground Ginger Powder USDA Certified Guaranteed Freshness by Spice Monger	851171006144

The products listed above are products recently purchased and/or are available for purchase for use in California. Although, attempts have been made to diligently search for each and every product offered by the Violators, the list above may not be exhaustive.

Each of the products listed involve exposures to the Proposition 65-listed chemical “lead” through ingestion, and exposure to the skin (dermal) such as touching the product. Lead is listed pursuant to Proposition 65 as a chemical known to cause birth defects or other reproductive harm. Lead is hereinafter referred to as the “Listed Chemical”. As a result of the Violators failing to provide reasonable warnings, individuals in California have been exposed to the listed chemical since March 2018 without the proper warning. Thus, California citizens lacked the information necessary to make an informed decision to reduce the risk of the listed chemical from reasonable and foreseeable use.

## III. PROPOSITION 65 INFORMATION

For the Violators’ reference, attached is a copy of "Proposition 65: A Summary" which has been prepared by Office of Environmental Health Hazard Assessment (“OEHHA”). For more information concerning the provisions of Proposition 65, contact OEHHA or visit their website.

## IV. RESOLUTION OF NOTICED CLAIMS

Brown Bear Law, APC, intends to file a private enforcement action pursuant to Proposition 65 on behalf of Citizens of California Safety Corp unless the Violators agree to enter into a binding enforceable written instrument to (1) recall the listed products to avoid continued exposure or undertake diligent efforts to ensure that the requisite health hazard warnings are provided to those who already received such products; (2) (3) pay an appropriate civil penalty based on the factors enumerated in California Health & Safety Code §25249.7(b). In order to avoid costly litigation, if the alleged Violators are interested in resolving this dispute, please feel free to contact counsel Shant Vayvayan, Brown Bear Law, APC, PO Box 573423, Tarzana, CA 91357, (818)-457-1543, shant@brownbearlaw.com. It should be noted pursuant to Proposition 65 a Private Enforcer cannot: (1) finalize any settlement until after the 60-day notice period has expired; or (2) speak for the Attorney General or any District or City Attorney who

received this Notice. Therefore, while reaching an agreement will resolve my claims, such agreement may not satisfy the public prosecutors.

#### V. PRESERVATION OF EVIDENCE

This Notice also serves as a demand that the Notice Recipients preserve and maintain all relevant evidence, including all electronic documents and data, pending resolution of this matter. Such relevant evidence includes but is not limited to all documents relating to the presence or potential presence of the Listed Chemical in the Covered Products; purchase and sales information for Covered Products; efforts to comply with Proposition 65 with respect to the Covered Products; communications with any person relating to the presence or potential presence of the Listed Chemical in Covered Products; and representative exemplars of each specific model falling within the Covered Products. This demand applies to all relevant evidence for Covered Products sold in the State of California, as far back as March 1, 2018, through the date of any trial of the claims alleged in this Notice.

#### VI. CONTACT INFORMATION

Plaintiff has retained me as legal counsel in this matter. Please direct all communications related to this Notice of Violation to the following:

Shant Vayvayan, Esq.  
Brown Bear Law, APC  
P.O. Box 573423  
Tarzana, CA 91357  
[shant@brownbearlaw.com](mailto:shant@brownbearlaw.com)

Sincerely,

Shant Vayvayan

cc: California Attorney General's Office; District Attorney's Office for 58 Counties; and City Attorneys for San Francisco, San Diego, San Jose and Los Angeles

Attachments: Certificate of Merit; Proof of Service; The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65); A Summary (Zesty Naturals, LLC, Amazon.com Services LLC, and Amazon.com Inc); and Confidential Information in Support of Certificate of Merit (Attorney General Only)

**CERTIFICATE OF MERIT**  
Health and Safety Code Section 25249.7(d)

I, Shant Vayvayan, hereby declare:

1. This Certificate of Merit accompanies the attached sixty-day notice in which it is alleged that the parties identified in the notice have violated Health and Safety Code § 25249.6 by failing to provide clear and reasonable warnings.
2. I am the attorney for the noticing party.
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the alleged exposure to the listed chemical that is the subject of this action.
4. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that “reasonable and meritorious case for the private action” means that the information provides a credible basis that all elements of the plaintiff’s case can be established and the information did not prove that the alleged violators will be able to establish any of the affirmative defenses set forth in the statute.
5. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including information identified in Health and Safety Code § 25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) certain facts, studies, or other data reviewed by those persons.

## APPENDIX A

### OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

#### THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.<sup>1</sup> These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

#### *WHAT DOES PROPOSITION 65 REQUIRE?*

***The "Proposition 65 List."*** Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to

---

<sup>1</sup> All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: [http://www.oehha.ca.gov/prop65/prop65\\_list/Newlist.html](http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html).

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

**Clear and reasonable warnings.** A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies. The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

**Prohibition from discharges into drinking water.** A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

#### **DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?**

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

**Grace Period.** Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

**Governmental agencies and public water utilities.** All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

**Businesses with nine or fewer employees.** Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

**Exposures that pose no significant risk of cancer.** For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures that will produce no observable reproductive effect at 1,000 times the level in question.** For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures to Naturally Occurring Chemicals in Food.** Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant<sup>2</sup> it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

**Discharges that do not result in a "significant amount" of the listed chemical entering any source of drinking water.** The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

---

<sup>2</sup> See Section 25501(a)(4).

## *HOW IS PROPOSITION 65 ENFORCED?*

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off-premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A copy of the notice of special compliance procedure and proof of compliance form is included in Appendix B and can be downloaded from OEHHA's website at: <http://oehha.ca.gov/prop65/law/p65law72003.html>.
