

SUPPLEMENTAL SIXTY-DAY NOTICE OF VIOLATION

SENT IN COMPLIANCE WITH CALIFORNIA HEALTH & SAFETY CODE §25249.7(d)

DATE: September 8, 2023

TO: Andy Jassy, CEO – Amazon.com, Inc.
California Attorney General’s Office
District Attorneys and Certain City Attorneys Throughout California

FROM: Paul Wozniak

My name is Paul Wozniak. I am a citizen of the State of California acting in furtherance of the public interest. I seek to promote awareness of exposure to certain toxic chemicals in products sold in California and, if possible, to improve human health by reducing hazardous substances contained in such items. This notice supplements the Sixty-Day Notice of Violation sent on June 1, 2022 (2022-01123, 2022-01124, 2022-01125, and 2022-01126) and on October 19, 2022 (2022-02531 and 2022-02532), and is provided to the public agencies listed above pursuant to California Health & Safety Code §25249.6 *et seq.* (Proposition 65). As noted above, this letter is also being provided to the alleged violator, Amazon.com, Inc., which is a person in the course of doing business in California (Violator). The violations covered by this notice consist of the product exposure, routes of exposure and types of harm potentially resulting from exposure to the hazardous substance identified below (listed chemicals), as follows:

Product Categories: Padded armrests and other vinyl upholstered components used for wheelchairs;
Grips and other vinyl upholstered components used for wheelchairs;
Wheelchairs with padded armrests and/or other accessible vinyl components;
Rollators with accessible vinyl upholstered components

Listed Chemicals: Diisononyl phthalate (“DINP”)
Di(2-ethylhexyl)phthalate (“DEHP”)

Routes of Exposure: Ingestion and Dermal

Types of Harm: Cancer as to DINP; and Cancer, Birth Defects and Other Reproductive Harm as to DEHP

I. NATURE OF ALLEGED VIOLATION (PRODUCT EXPOSURE)

The specific types of products that are causing consumer exposures and potentially occupational exposures, in violation of Proposition 65, and that are covered by this letter shall be referred to hereinafter as the “Products.” Exposures to the listed chemicals from the use of the Products have been occurring without the “clear and reasonable warning” required by Proposition 65, dating as far back as June 1, 2019. Without proper warnings regarding the toxic effects of exposures to the listed chemicals resulting from the use of the Products, California citizens lack the information necessary to make informed decisions on whether and how to eliminate (or reduce) the risk of exposure to the listed chemicals from the reasonably foreseeable use of the Products.

California citizens, through the act of buying, acquiring, receiving or utilizing the Products, are exposed to the listed chemicals. By way of example, consumers, and other individuals, including women of

childbearing age, ingest the listed chemicals when they, among other activities, touch the Products and transfer the listed chemicals from the Products to their mouths through hand-to-mouth activities that may continue to occur for a significant period after one or more contacts with the Products ceases.

Additionally, consumers and other individuals, including women of childbearing age, are exposed to the listed chemicals through direct dermal contact when they, among other activities, handle, touch or otherwise use the Products. Further, there are reasonably foreseeable uses of the Products that result in direct ingestion.

The California State Plan for Occupational Safety and Health incorporates the provisions of Proposition 65, as approved by Federal OSHA on June 6, 1997. This approval specifically placed certain conditions with regard to occupational exposures on Proposition 65, including that it does not apply to the conduct of manufacturers occurring outside the State of California so long as they are based in the United States. The approval also provides that a United States employer may use the means of compliance in the general hazard communication requirements to comply with Proposition 65. It also requires that supplemental enforcement be subject to the supervision of the California Occupational Safety and Health Administration.

Any settlement, civil complaint or substantive court orders in this matter must be submitted to the state Attorney General. It is important to note that the sale of the Products through online means of transaction must provide the customer with a clear and reasonable warning for the risk of reproductive toxicity pursuant to Proposition 65 and its implementing regulations, even if the Violator's role is limited that of an online retail seller.¹

II. CONTACT INFORMATION

Please direct all questions concerning this notice to me through my counsel's office at the following address, email and/or telephone number:

Paul Wozniak
c/o Clifford A. Chanler
Chanler, LLC
72 Huckleberry Hill Road
New Canaan, CT 06840-3801
clifford@chanlerllc.com
Telephone: (203) 594-9246

¹ The claims excluded in this notice includes those releases covered in recent resolutions with Karman Healthcare, Inc., Alco Sales & Service Co. and Compass Health Brands Corp. provided that alleged violative sales were sent to California addresses on or before the "compliance date" in the respective settlement agreements.

III. PROPOSITION 65 INFORMATION

For general information concerning the provisions of Proposition 65, please feel free to contact the Office of Environmental Health Hazard Assessment's (OEHHA) Proposition 65 Implementation Office at (916) 445-6900. For the Violator's reference, I have attached a copy of "The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary" which has been prepared by OEHHA.

IV. POTENTIAL RESOLUTION OF NOTICED CLAIMS

Based on the assertions set forth in this notice, I intend to file a citizen enforcement action (or amend any existing one that was filed before the expiration of this sixty-day letter) against the Violator unless such alleged person in the course of doing business enters into a binding written agreement (and/or upstream party such as a supplier enters into an agreement which would resolve one or more of the products at issue shipped to the Violator) to: (a) recall Products already sold; (b) provide "clear and reasonable warnings" for Products to be sold in the future or, preferably, reformulate such Products to eliminate the DEHP and DINP exposures (or undertake best efforts to ensure upstream selling entities in the chain of commerce such as manufacturers, exporters, importers or distributors do so); and (c) pay an appropriate civil fine, if any, based on the factors enumerated in California Health & Safety Code §25249.7(b). If the alleged Violator is particularly interested in resolving this dispute without resorting to litigation, please feel free to contact my counsel identified in Section II above. It should be noted that neither my counsel nor I can finalize any settlement with the Violator until after the statutory sixty-day notice period has expired for the covered products; nor speak for the state Attorney General, any state district attorney or the five city attorneys who received this notice.

V. ADDITIONAL NOTICE INFORMATION

Examples of Products that were recently purchased and witnessed as being available for purchase or use in California that are within the product categories covered by this notice are identified on Exhibit A. (An asterisk is placed on the Product Column to illustrate that the items on Exhibit A are only examples of the Product at issue.) Based on publicly available information, any other vendor, supplier, seller, exporter, importer or other person in the course of doing business for each exemplar that was identified, if any, is also listed on Exhibit A. I allege that the sale of the offending Products has also occurred without the requisite Proposition 65 “clear and reasonable warning” including, but not limited to, transactions made through the internet.^{2 3}

The examples on the attachments are for the recipient’s benefit to assist in its investigation of, among other things, the magnitude of potential exposures to the listed chemicals from other items within the definition of Products. These examples are not meant to be an exhaustive or comprehensive identification of each specific offending Product. Further, it is this citizen’s position that the alleged Violator is obligated to continue to conduct in good faith an investigation into other specific Products within the type or category described above that may have been manufactured, imported, distributed, facilitated for sale, sold, shipped, stored, or was otherwise within the notice recipient’s custody or control during the relevant period so as to ensure that the requisite toxic warnings were and continue to be provided to California citizens prior to purchase, especially if the upstream vendor (i.e., party with whom the Violator entered into a contract to sell the products at issue) is exempt from a duty to warn or enforcement under Proposition 65.

² If an applicable manufacturer, supplier, seller, exporter and/or importer of one or more of the Products does not have a known agent for process of service in California and/or employs less than ten people as defined by the operative regulation, then Amazon is alleged to have heightened regulatory responsibilities beyond 27 CCR §25600.2(d) especially if it is also an importer and/or fulfills additional roles in the commercial marketplace such as being a “drop shipper” of the Product.

³ In accordance with 27 CCR §25600.2(g), please “promptly” answer the questions on **Exhibit B**, and return with receipt confirmation to Paul Wozniak c/o Clifford Chanler, Chanler, LLC, 72 Huckleberry Hill Road, New Canaan, CT 06840, or via email to clifford@chanlerllc.com on or before **September 27, 2023**.

CERTIFICATE OF MERIT

California Health & Safety Code Section 25249.7(d)

I, Clifford A. Chanler, hereby declare:

1. This Certificate of Merit accompanies the attached sixty-day notice in which it is alleged that the party identified in the notice has violated Health and Safety Code §25249.6 by failing to provide clear and reasonable warnings;
2. I am the attorney for the noticing party;
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the *alleged* exposure to the listed chemicals that are the subject of this action and/or the listed chemicals in substantially similar products and exposes individuals through the same potential routes;
4. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that “reasonable and meritorious case for the private action” means that the information provides a credible basis that all elements of the plaintiff’s case can be established and the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute;
5. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate under Health and Safety Code §25249.7(h)(2) including (i) the identity of the persons consulted with and relied on by the certifier, and (ii) certain facts, studies, or other data reviewed by those persons.
