

NOTICE OF VIOLATION

California Safe Drinking Water and Toxic Enforcement Act

Unwarned Bystander Exposures to 1,3-Dichloropropene from Use of Soil Fumigants

November 10, 2023

This Notice of Violation (the "Notice") is provided to you pursuant to and in compliance with California Health and Safety Code section 25249.7(d).

- For general information regarding the California Safe Drinking Water and Toxic Enforcement Act, see the attached summary provided by the California EPA (copies not provided to public enforcement agencies).
- This Notice is provided by the Center for Environmental Health ("CEH"), 2201 Broadway, Suite 508, Oakland, CA 94612, (510) 655-3900. CEH is a nonprofit corporation dedicated to protecting the environment, improving human health, and supporting environmentally sound practices. Kaya Sugerman is the Illegal Toxic Threats Program Director and a responsible individual within CEH.

Description of Violation:

- Violator: The name and address of each violator is:

The Dow Chemical Company
2211 H.H. Dow Way
Midland, MI 48674

Teleos Ag Solutions, Inc.
120 Applecross Road
Pinehurst, NC 28374

TriCal, Inc.
8100 Arroyo Circle
Gilroy, CA 95020

Nutrien Ag Solutions, Inc.
3005 Rocky Mountain Avenue
Loveland, CO 80538

Simplot AB Retail, Inc.
1099 W. Front Street
Boise, ID 83702

- Provision of Proposition 65: This Notice covers California Health and Safety Code Section 25249.6.

- Chemical(s) Involved: The name of the listed chemical involved in these violations is 1,3-Dichloropropene (“1,3-D”). 1,3-D is the active ingredient in soil fumigants manufactured, distributed, and/or applied by the alleged violators.
- Description of Exposure: This Notice addresses environmental exposures to 1,3-D. The exclusive source of these exposures is Telone II™ (“Telone”), a soil fumigant that is composed almost entirely of 1,3-D. The Dow Chemical Company (“Dow”) is the exclusive manufacturer of Telone sold in California. Teleos Ag Solutions, Inc. (“Teleos”) is the exclusive distributor of Telone used in California. In California, use of Telone is regulated by placing annual caps on the amount of Telone that can be used in each township in the state. Dow (historically) and Teleos (presently) pre-approve every application of Telone in California, and are responsible for tracking, reporting, and ensuring township use limits are observed.

The use of Telone to control pests in agricultural fields, which are manufactured by Dow and distributed by Teleos, results in human exposures to 1,3-D. 1,3-D is released into the air when Telone is applied to agricultural fields in accordance with Telone’s labels. TriCal, Inc. (“TriCal”), Nutrien Ag Solutions, Inc. (“Nutrien”), and Simplot AB Retail, Inc. (“Simplot”) each apply Telone to agricultural fields. No clear and reasonable warning is provided regarding the carcinogenic hazards of 1,3-D to bystanders. This Notice does not challenge the sufficiency of the labeling of Telone.

- Time Period of Exposure: The exposures are caused by applications of Telone on the specific dates identified on the attached Exhibit 1. Future violations caused by the same conduct are likely because Telone continues to be applied on a regular basis. The exposures themselves occur after Telone is applied to fields. CEH is not seeking to hold Teleos responsible for any exposures that occurred prior to January 1, 2021. CEH is only seeking to hold TriCal, Nutrien, and Simplot responsible for exposures caused by each company’s respective applications as indicated on Exhibit 1.
- Route of Exposure: The route of exposure for the violations is inhalation when individuals breathe the 1,3-D emitted in the air following applications of Telone to the soil in agricultural fields.
- Location of Source of Exposures: The locations of the source of the exposures are identified on the attached Exhibit 1, which documents the Township, Range, Section, and Site ID for the locations of the source of the exposures. Township, Range, and Section identify where Telone was applied within an approximately 1x1 square mile area, in accordance with the Public Land Survey System’s division of land. Site ID, which is a code assigned by the local County Agricultural Commissioner, identifies the field where Telone was applied. These exposures occur beyond any property owned or controlled by the alleged violators.

Resolution of Noticed Claims:

Based on the allegations set forth in this Notice, CEH intends to file a citizen enforcement lawsuit against each alleged violator unless such violator agrees in

a binding written instrument to remedy the violations alleged herein and to pay an appropriate civil penalty in accordance with the factors set forth in Health and Safety Code Section 25249.7. CEH is not seeking any changes to the labels of Telone. If any alleged violator is interested in resolving this dispute without resorting to expensive and time-consuming litigation, please contact CEH through its counsel identified below. It should be noted that CEH cannot: (1) finalize any settlement until after the 60-day notice period has expired; nor (2) speak for the Attorney General or any District or City Attorney who received CEH's 60-day Notice. Therefore, while reaching an agreement with CEH will resolve its claims, such agreement may not satisfy the public prosecutors.

Preservation of Relevant Evidence:

This Notice also serves as a demand that each alleged violator preserve and maintain all relevant evidence, including all electronic documents and data, pending resolution of this matter. Such relevant evidence includes but is not limited to all documents relating to exposures to 1,3-D caused by applications of Telone by each alleged violator; efforts to comply with Proposition 65 with respect to such applications; and communications with any person relating to exposures to 1,3-D from such applications.

Please direct any inquiries regarding this Notice to CEH's counsel Joseph Mann at Lexington Law Group, 503 Divisadero Street, San Francisco, CA 94117, (415) 913-7800, jmann@lexlawgroup.com.

CERTIFICATE OF MERIT
Health & Safety Code § 25249.7(d)

I, Joseph Mann, hereby declare:

1. This Certificate of Merit accompanies the attached sixty-day notice in which it is alleged that the parties identified in the notice have violated Health & Safety Code § 25249.6 by failing to provide clear and reasonable warnings.

2. I am an attorney with the Lexington Law Group, and I represent the noticing party, the Center for Environmental Health.

3. Members of my firm and I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the exposures to the listed chemical that is the subject of the action.

4. Based on the information obtained through those consultations, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that “reasonable and meritorious case for the private action” means that the information provides a credible basis that all elements of the plaintiff’s case can be established and the information did not prove that the alleged violators will be able to establish any of the affirmative defenses set forth in the statute.

5. The copy of the Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health & Safety Code § 25249.7(h)(2), *i.e.*, (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.
