RE: Cadmium, lead and lead compounds
in Delicias Import Inc. product

April 10, 2025

THIS IS A FOURTH NOTICE OF INTENT TO SUE
FIRST RELATED NOTICE: [2023-02218](#) as of 7.22.23
SECOND RELATED NOTICE: [2023-02029](#) as of 7.11.23
THIRD RELATED NOTICE: [2023-02029.pdf](#) as of 7.11.23

for violations of the Safe Drinking Water and Toxic Enforcement Act of 1986

Dear alleged violators and public enforcement agencies,

The undersigned counsel represents The Chemical Toxin Working Group, Inc., a California non-profit corporation, doing business as Healthy Living Foundation Inc., (“HLF,” “Noticing Party”). David Steinman is a Chief Officer and a responsible individual within the Noticing Party, located at 1801 Chart Trail, Topanga, California 90290, telephone number 310 403 6995. The undersigned counsel is specifically designated to resolve this issue. **Please contact the undersigned counsel immediately** via email: contact@poulsenlaw.org, telephone +1 646 766 5999; address 15303 Ventura Blvd, 9th floor, Los Angeles, California 91403.

HLF implements measures to reduce the amount of chemical toxins in consumer products posing targeted dangers to fetuses, children, pregnant women, and women of childbearing age; acts in the interest of the people with a mission to bring truth and transparency to consumer product labeling and advertising; improves safety for workers by reducing their exposure to chemicals; publishes consumer health articles, periodicals, books, comparative test results and educates the public. HLF has achieved reformulation and removal of egregiously carcinogenic products from the market.

HLF has enforced a large number of Cal. Health & Safety Code violations in the public interest and developed an extensive expertise in prosecuting manufacturers and distributors of food and consumer products for violations of health and consumer safety laws. These cases have resulted in significant public benefit, including reformulation of products to remove toxic chemicals to make them safer, and putting label and online warnings on products tested as contaminated with lead cadmium, acrylamide, dioxane, or removing them from the California market.

The Safe Drinking Water and Toxic Enforcement Act of 1986, codified in the California Health & Safety Code sections 25249.5, et seq. (“Proposition 65”), requires that a 60-day notice of intent to sue be provided to a violator of Cal. Health & Safety Code § 25249.6.

With this notice of violation (Notice) HLF gives a written notice of the alleged violation, bringing this action in the public interest, as defined under the Cal. Health & Safety Code §

25249.7(d), seeking to prosecute the alleged continuing noncompliance, and to warn consumers about their exposure to the violative chemical(s), or reduce and/or eliminate consumer exposures from product(s) (collectively, the “Specified Products” and each a “Specified Product”) listed in the table below, which are manufactured, distributed and/or sold by Delicias Import Inc.. (referred to as the “Noticed Party[ies]”).

This Notice covers the violations of Proposition 65 that are currently known to the Noticing Party from information now available as specifically related to the violating products listed below and manufactured, distributed or/and sold by and through the Noticed Parties. HLF is continuing its investigation that may reveal further violations.

The Specified Product(s) subject to this Notice, the chemical(s) in the Specified Product(s) identified as exceeding allowable levels, and the Noticed Parties responsible for sales of the Specified Products, are as follows:

Specified Products	Violative chemical	Noticed Party
Ria De Arosa Mussels in Escabache Sauce with Olive Oil	Cadmium, lead, and lead compounds	Delicias Import Inc.

Cadmium is listed pursuant to Proposition 65 as a chemical known to the State of California to cause developmental toxicity, reproductive toxicity and cancer.\

Lead and lead compounds (“lead”) are listed pursuant to Proposition 65 as a chemical known to the State of California to cause developmental toxicity, reproductive toxicity and cancer.

Noticed Parties have manufactured, produced, marketed, distributed and/or sold the Specified Products which, according to the test results, have exposed and continue to expose consumers within the State of California to cadmium and lead.

The primary route of exposure has been through ingestion.

Cal. Health & Safety Code § 25249.6 requires that a “clear and reasonable” warning be provided prior to exposure to chemicals listed under Proposition 65. The Noticed Parties are in violation of Proposition 65 because the Noticed Parties have failed to provide a warning to consumers that they are being exposed to cadmium and lead.

HLF alleges that while in the course of doing business, the Noticed Parties are knowingly and intentionally exposing consumers to lead without first providing a “clear and reasonable” warning.

The method of warning should be a warning that appears on the product’s label. See Cal. Code Regs. tit. 27, § 25602, subd. (a)(3), and subd. (b) for internet purchases also at the point of sale, as applicable. The Noticed Parties have not provided any Proposition 65 warnings as required by law or any other appropriate warnings that persons handling, ingesting and/or otherwise using the Specified Products are being exposed to cadmium and lead.

With respect to the Specified Products listed above, the violation commenced on the latter of the date that the Specified Product was first offered for sale in California, or April 21, 2020; has continued every day since the relevant date the violation commenced; and will continue every day henceforth until cadmium and lead are removed from the Specified Products, reduced to allowable levels, or until a “clear and reasonable” warning is provided to consumers by the Noticed Parties, as applicable, in accordance with the law.

Pursuant to Title 27, C.C.R. § 25903(b), copies of the following documents are attached hereto for reference by the Noticed Parties:

- (i) "The Safe Drinking Water and Toxic Enforcement act of 1986 (Proposition 65): A Summary."

Pursuant to Title 11, C.C.R. § 3100, the "Certificate of Merit" is attached hereto.

HLF intends to file a lawsuit after 60 days based on the facts set forth in this Notice. Meanwhile we encourage a prompt resolution of this matter within the said period of 60 days where the Noticed Parties agree in a written agreement to (1) eliminate or reduce lead and lead compounds to an allowable level in the Specified Products or, or remove the Specified Product(s) from the California market or, as an alternative, (2) provide a Proposition 65-compliant warning on the label of the Specified Products and online, where applicable, and/or at the point of sale; and (3) pay applicable civil penalties and costs of bringing this action.

Demand to Preserve Evidence

HLF intends to file a lawsuit, in which Noticed Party[ies] will be named as defendants. When a lawsuit is anticipated, California requires a prospective party to take all reasonable steps to preserve documents, tangible things, and electronically stored information (ESI) that are potentially relevant to the anticipated lawsuit and that are in the prospective party's possession, custody, or control. The duty applies equally to hard copy documents, other tangible things and to ESI.

1. Electronically Stored Information

As ESI can be easily deleted, corrupted, or modified in the normal operations of a business, preservation measures must be implemented immediately. These measures include, but are not limited to, those explained herein.

ESI that may be subject to a duty to preserve includes information electronically, digitally, magnetically, or optically stored. Magnetic, optical and other storage media, including archival and backup media, are also potential locations of ESI.

ESI that is potentially relevant to the contemplated action, and that the Noticed Party[ies] should preserve, includes ESI generated during the relevant time period of alleged violations and relating to the allegations in this Notice.

To satisfy its preservation duties, the Noticed Party[ies] must take all reasonable measures to preserve all hard copy documents, tangible things, and ESI that are potentially relevant to the aforementioned anticipated lawsuit, including the ESI described above. These measures include:

- Halting the Noticed Party[ies]'s routine document preservation or retention policies and its backup recycling policies.
- Instituting a litigation hold and monitoring compliance with the hold on an ongoing basis until this legal matter is fully resolved. A litigation hold ensures that all sources of potentially relevant information are identified and preserved.
- Documents and tangible things must be preserved in their original, unmodified condition. ESI must be preserved in the form in which it is normally maintained (its native format) with all metadata, both system metadata and application metadata, intact.

- Preserving all hardware, portable and personal storage devices, and any other electronic storage devices that contain potentially relevant information. Such devices need not be in current use. They may include devices no longer in use and legacy hardware if there is no other way to view potentially relevant legacy data. The Noticed Party[ies]'s shall not replace, destroy, or modify such hardware and other electronic storage devices in any manner that could delete, damage, or alter the ESI they store.
- Preserving all support information needed to access potentially relevant ESI. Support information includes, but is not limited to, operating systems, installation disks, legacy and other software, operating and user manuals, user IDs, passwords, security and license keys, and encryption/decryption information.

2. Preservation Duties Extend to Departing Employees

The Noticed Party[ies]'s preservation duties extend to potentially relevant information in the possession of officers, directors, and employees who depart from employment by the Noticed Party[ies]. Caution should be taken to preserve the ESI of departing officers, directors, and employees whose data is subject to litigation hold requirements.

3. Preservation Duties Extend to Information Controlled, but Not Actually Possessed by the Noticed Party[ies]

Since a potential party “controls” documents or information when it has the legal right to obtain them on demand, The Noticed Party[ies]'s preservation duties extend to ESI possessed by its current and former attorneys, accountants, third party information technology vendors, business service providers, and other agents and contractors, and may extend to its subsidiaries, affiliates, and divisions.

Prompt action of the Noticed Parties on this Notice will prevent further consumer exposures to a highly dangerous chemical without warning, therefore rectifying these alleged ongoing violations of the California law, and will afford the Noticed Parties the opportunity to avoid increasing costs associated with noncompliance and costly litigation.

Please contact this office as soon as possible, and direct all communications regarding this Notice to this office.

Sincerely,

Aida Poulsen | Managing attorney | NY | CA

Notice of Violation: April 10, 2025
Noticing Party: Chemical Toxin Working Group Inc. dba Healthy Living Foundation Inc.
Noticed Parties: Delicias Import Inc.

April 10, 2025

CERTIFICATE OF MERIT
Health and Safety Code Section 25249.7(d)
To the Notice of Violation

I, Aida Poulsen, attorney at law, hereby declare:

This Certificate of Merit accompanies the attached sixty-day notice(s) in which it is alleged the parties identified in the notices have violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings.

I am the attorney for the Noticing Party.

I have reviewed the facts of this case and have consulted with one or more persons with relevant and appropriate experience and expertise who have reviewed facts, studies, and/or other data regarding the alleged exposures to the listed chemical that is the subject of the attached Notice of Violation dated April 10, 2025 (the "Notice").

I have reviewed the laboratory testing results for the chemical subject to the Notice and rely on these results. The testing was conducted by a reputable accredited testing laboratory and by experienced scientists with doctoral and other degrees in relevant sciences. The facts, studies and other data derived through this investigation overwhelmingly demonstrate that the alleged violators have exposed persons to the listed chemical that is the subject of the Notice and is known to the State of California to cause reproductive and/or developmental harm, and/or cancer.

NOTICE OF VIOLATION/CERTIFICATE OF SERVICE

DELICIAS IMPORT INC.

Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that “reasonable and meritorious case for the private action” means that the information provides a credible basis that all elements of the plaintiffs' case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.

The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and Safety Code section 25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: April 10, 2025
