SIXTY-DAY NOTICE OF INTENT TO SUE FOR VIOLATION OF THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (Cal. Health & Safety Code § 25249.5, et seq.)

DATE: May 6, 2025

TO: Bali Body, Inc.

Bali Body Pty Ltd

ULTA Beauty Cosmetics, LLC Attorney General's Office

District Attorney's Office for All California Counties; and

City Attorneys for Los Angeles, San Diego, San Jose and San Francisco

FROM: Pure.Clean.Healthy LLC

RE: Violation of California Health & Safety Code § 25249.6 concerning Bali Body Express

Tan Remover Exfoliating Body Scrub containing Coconut Oil Diethanolamine Condensate

(Cocamide DEA) and Diethanolamine ("DEA")

Dear Alleged Violators and Appropriate Public Enforcement Agencies:

Torch & Stone Law, APC represents Pure.Clean.Healthy LLC, a California limited liability company ("PCH"). PCH, acting in the interest of the general public, seeks, among other things, to improve and protect the health of the people of California, protect the environment and consumer rights, and hold corporations accountable.

PCH has identified violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), codified at California Health & Safety Code § 25249.5 *et seq.*, perpetrated by Bali Body, Inc., Bali Body Pty Ltd, ULTA Beauty Cosmetics, LLC (collectively "Alleged Violators"). Pursuant to California Health & Safety Code § 25249.7(d), PCH serves this SIXTY-DAY NOTICE OF INTENT TO SUE FOR VIOLATION OF THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 ("Notice") on the Alleged Violators.

This Notice concerns violations of California Health & Safety Code § 25249.6, which states that "[n]o person in the course of doing business shall knowingly and intentionally expose any individual to a chemical known to the State to cause cancer or reproductive toxicity without first giving a clear and reasonable warning to such individual..." Without proper warnings about the toxic effects of exposures to listed chemicals, residents of California lack the information necessary to make an informed decision as to whether or how to eliminate, or reduce, their risk of exposure from the reasonably foreseeable use of products containing listed chemicals.

The violations addressed by this Notice occurred at numerous locations in each county in California as reflected in the district attorney addresses listed in the attached Distribution List. PCH is serving this Notice upon each person or entity responsible for the alleged violations, the California Attorney General, the district attorney for each county where alleged violations occurred, and the City Attorney for each city with a population (according to the most recent decennial census) of over 750,000 located within counties where the alleged violations occurred.

Noticing Entity, Responsible Individual: The entity giving this Notice is Pure.Clean.Healthy LLC, with a principal address at 2005 Palo Verde Avenue, Suite 202, Long Beach, CA 90815, 562-844-5286. PCH identifies Michele Reynoso as a responsible individual within the entity. Michele Reynoso requests all communications be directed to PCH's attorneys.

<u>Certificate of Merit</u>: Pursuant to California Health & Safety Code § 25249.7(d) and California Code of Regulations, Title 11, § 3100, a Certificate of Merit is attached hereto. A second copy of this Notice and Certificate of Merit is served on the Attorney General with all supporting documentation required by California Code of Regulations, Title 11, § 3102 attached hereto.

<u>Proposition 65: A Summary:</u> A summary of Proposition 65 and its implementation regulations, prepared by the Office of Environmental Health Hazard Assessment ("OEHHA"), the lead agency designated under Proposition 65, is enclosed with the copy of the Notice served on the Alleged Violators. For more information concerning the provisions of Proposition 65, please feel free to contact OEHHA's Proposition 65 Implementation Office at (916) 445-6900.

Alleged Violation: Alleged Violators caused consumer product exposures in violation of Proposition 65 by producing or making available Bali Body Express Tan Remover Exfoliating Body Scrub for distribution or sale in California to consumers, knowingly and intentionally exposing consumers to Coconut Oil Diethanolamine Condensate and Diethanolamine (DEA) without first giving a clear and reasonable warning to these individuals that they are being exposed to chemicals known to the State of California to cause cancer or reproductive toxicity.

Products: The specific type or category of products ("Products") that are the subject of this Notice are as follows:

Products	Violative Chemical	Alleged Violators
Bali Body Express Tan Remover	Coconut Oil Diethanolamine	Bali Body, Inc.
Exfoliating Body Scrub	Condensate (Cocamide DEA)	Bali Body Pty Ltd
UPC: 9354477002229	and	ULTA Beauty Cosmetics, LLC
	Diethanolamine (DEA)	-

The above-identified Products, recently purchased and witnessed as being available for sale or use in the State of California, are within the category of offending products covered by this Notice. The identified retailers, manufacturers and/or distributors of the Products are based on publicly available information.

Listed Chemical: The chemical that is the subject of this Notice is Coconut Oil Diethanolamine Condensate (Cocamide DEA) and Diethanolamine (DEA). Both Cocamide DEA and DEA are known to the State of California to cause cancer, and both chemicals were listed as carcinogens on June 22, 2012.

Routes of Exposure: Exposures occur through the purchase, acquisition, handling, and reasonably foreseeable and intended uses of the Bali Body Express Tan Remover Exfoliating Body Scrub. The primary route of exposure to DEA and Cocamide DEA is through dermal exposure. Some amount of exposure through ingestion can occur by touching and/or use of the Products, and subsequent touching of the user's hand to mouth. These exposures take place throughout the State of California.

Violations and Time Period of Exposure: Alleged Violators knowingly and intentionally exposed, and continue to knowingly and intentionally expose, individuals within the State of California to DEA and Cocamide DEA, without first giving a health hazard warning regarding the chemical's toxic effects, as required by Proposition 65.

Exposures caused by the use of the Products have occurred each day since the Products were introduced into the California marketplace, but, at a minimum, since March 29, 2025. Because the Products lack clear and reasonable warnings regarding the toxic effects of exposures to DEA, each Product sold during this period and not accompanied by a warning constitutes a violation by the Alleged Violators and/or other sellers of the Products, whether sold directly through retailers located in, or with locations in, California, via the internet, or through catalog purchases by customers and individuals located in California. Moreover, these exposures are ongoing and will continue either until clear and reasonable warnings are provided to protect consumers and users or until this known toxic chemical is removed from the Products or reduced to allowable levels.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, PCH is interested in seeking constructive resolution of this matter. Such a resolution will prevent further unwarned consumer exposures to the identified chemical, as well as expensive and time-consuming litigation. Unless Alleged Violators enter into an enforceable written agreement (1) to reformulate the identified products so as to eliminate further exposures to the identified chemical, or provide appropriate warnings on the labels of these products; and (2) pay an appropriate civil penalty, PCH intends to file a private enforcement action against Alleged Violators as provided for in Proposition 65 for the violations described in this Notice.

Please direct all communication regarding this Notice to PCH's attorney, Masumi Patel (masumi@torchstonelaw.com), Torch & Stone Law, APC, 4171 Ball Road, Suite 172, Cypress, CA 90630, 714-356-2645.

Sincerely,

Masumi Patel, Esq.

TORCH & STONE LAW, APC

Attorney for Pure.Clean.Healthy LLC

Cc: Please see attached Certificate of Service and Distribution List.

Attachments:

- 1. Bali Body Express Tan Remover Exfoliating Body Scrub containing Diethanolamine (DEA) and Coconut Oil Diethanolamine Condensate (Cocamide DEA) Certificate of Merit;
- 2. Appendix A: OEHHA Proposition 65: A Summary (to Alleged Violators only);
- 3. Confidential Factual Information Supporting Certificate of Merit (to Attorney General only); and
- 4. Certificate of Service and Distribution List.

Bali Body Express Tan Remover Exfoliating Body Scrub containing Coconut Oil Diethanolamine Condensate (Cocamide DEA) and Diethanolamine (DEA)

CERTIFICATE OF MERIT

Health and Safety Code § 25249.7(d)

I, Masumi Patel, hereby declare:

- 1. This Certificate of Merit accompanies the attached Sixty-Day Notice in which it is alleged the parties identified in the notice have violated California Health & Safety Code section 25249.6 by failing to provide clear and reasonable warnings.
- 2. I am the attorney for the noticing party.
- 3. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the alleged exposure to the listed chemicals that are the subject of the notice.
- 4. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiffs' case can be established and the information did not prove that the alleged violator will be able to establish any of the affirmative defenses set forth in the statute.
- 5. Along with a copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health and Safety Code section 25249.7(h)(2), i.e. (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Date: May 6, 2025

Masumi Patel, Esq.

TORCH & STONE LAW, APC

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute OEHHA implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS. CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: http://oehha.ca.gov/prop65/law/P65law72003.html. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are

found in Title 27 of the California Code of Regulations, sections 25102 through 27001. These implementing regulations are available online at: http://oehha.ca.gov/prop65/law/P65Regs.html.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Proposition 65 List." Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65 list/Newlist.html.

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies. The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

¹ All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: http://www.oehha.ca.gov/prop65/law/index.html.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (http://www.oehha.ca.gov/prop65/law/index.html) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employes a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: http://www.oehha.ca.gov/prop65/getNSRLs.html for a list of NSRLs, and Section 25701 et seq. of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: http://www.oehha.ca.gov/prop65/getNSRLs.html for a list of MADLs, and Section 25801 et seq. of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a "significant amount" of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

HON	V IS PROF	<i>'OSITION</i>	65 ENF	ORCED?
-----	-----------	-----------------	--------	--------

-

² See Section 25501(a)(4).

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off-premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A copy of the notice of special compliance procedure and proof of compliance form is included in Appendix B and can be downloaded from OEHHA's website at: http://oehha.ca.gov/prop65/law/p65law72003.html.

FOR FURTHER INFORMATION ABOUT THE LAW OR REGULATIONS:

Contact the Office of Environmental Health Hazard Assessment's Proposition 65 Implementation Office at (916) 445-6900 or via e-mail at P65Public.Comments@oehha.ca.gov.

NOTE: Authority cited: Section 25249.12, Health and Safety Code. Reference: Sections 25249.5, 25249.6, 25249.7, 25249.9, 25249.10 and 25249.11, Health and Safety Code.

CERTIFICATE OF SERVICE

I, Ricardo Guerrero, am over the age of 18 and am not a party to this action. I am a resident of or employed in the county where the mailing occurred. My address is 11921 Colima Road, Whittier, California 90604.

On May 6, 2025, I served the following documents:

- 1. Sixty-Day Notice of Intent to Sue for Violation of the Safe Drinking Water and Toxic Enforcement Act of 1986;
- 2. Bali Body Express Tan Remover Exfoliating Body Scrub containing Diethanolamine (DEA) Certificate of Merit;
- 3. Appendix A: Office of Environmental Health Hazard Assessment California Environmental Protection Agency The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary (to Alleged Violators only); and
- 4. Confidential Factual Information Supporting Certificate of Merit (to Attorney General only).

on the Alleged Violator(s) listed below via First Class Mail through the United States Postal Service by placing a true and correct copy in a sealed envelope, addressed to the entity listed below and providing such envelope to a United States Postal Service Representative:

Laura Oosterloo or Current	Laura Oosterloo or Current	Kecia Steelman, CEO
President/CEO	President/CEO	ULTA Beauty Cosmetics, LLC
Bali Body, Inc.	Bali Body Pty Ltd	c/o CSC - Lawyers
Attn: Legal Dept.	c/o Heather E. Balmat	Incorporating Service
55 Post	977 Seminole Tr., #342	251 Little Falls Drive
Irvine, CA 92618	Charlottesville, VA 22901	Wilmington, DE 19808

as well as by filing electronically a true and correct copy thereof as permitted through the website of the California Office of the Attorney General via link at oag.ca.gov/prop65:

State of California Department of Justice Office of the Attorney General of California Filing link: oag.ca.gov/prop65

Copies of the notice were provided to the public enforcers by placing a true and correct copy thereof in a sealed envelope, addressed to each of the District Attorney and City Attorney offices the parties listed on the attached Distribution List. The District Attorney and City Attorney offices that have requested electronic service only were served electronically via the email addresses listed on the Distribution List.

I declare under penalty of perjury that under the laws of the State of California that the foregoing is true and correct.

Date: May 6, 2025
