Re: 60-DAY NOTICE OF INTENT TO SUE

*For violation of the Safe Drinking Water and Toxic Enforcement Act of 1986
(California Health and Safety Code Section 25249.5 et seq.)*

ALLEGED VIOLATOR(S)
Mike Wirth Chevron Corporation 1400 Smith Street Houston, TX 77002

NOTICE SENT TO ALLEGED VIOLATORS ABOVE AND THE PUBLIC PROSECUTORS LISTED ON THE DISTRIBUTION LIST ACCOMPANYING THE ATTACHED CERTIFICATE OF SERVICE

To Whom it May Concern:

This Notice of Violation (the “Notice”) is provided to you pursuant to and in compliance with California Health & Safety Code 25249.7(d).

Sentinel Law APC represents the Center for Consumer Safety, LLC (“CCS”), a limited liability company in the State of California acting in the public interest related to protecting consumers and the environment from chemical exposures (defined as a “person” within the meaning of California Health & Safety Code 25249.11(a)). CCS’ responsible individual within the entity is Mike White (email: mike@centerforconsumersafety.com | phone: (510) 636-5051), at 2001 Addison St Ste 300 #834, Berkeley, CA 94704. CCS has retained Sentinel Law APC in this matter, and therefore all communication should be directed to the contact information in this Notice’s header.

This letter serves as notice that the parties listed above are in violation of Proposition 65, the Safe Drinking Water and Toxic Enforcement Act, commencing with section 25249.5 of the Health and Safety Code (“Proposition 65”). The violation has occurred and continues to occur because the alleged Violator(s) failed to provide a clear and reasonable health hazard warning at the service station or stations owned and/or operated by the alleged Violator(s) identified in (“Location(s)”). People who enter the Location(s) are exposed to the Listed Chemical while at the Location(s).

This Notice satisfies a prerequisite for CCS to commence an action against the Violator(s) in any Superior Court of California.

DESCRIPTION OF THE VIOLATION

1. **Enforcer:** Center for Consumer Safety, LLC. 2001 Addison St Ste 300, Berkeley, CA 94704.
2. **Alleged Violator(s):**
 - a. Chevron Corporation
3. **Location of Exposure:** { Gas Station Name – Gas Station Address }
4. **Time Period of Exposure:** Violations have been occurring since at least June 17th, 2025 and are continuing to this day.
5. **Listed Chemical(s):**
 - Unleaded Gasoline (Wholly Vaporized). Unleaded Gasoline (Wholly Vaporized) is listed under Proposition 65 as a chemical known to the State of California to cause Cancer. Unleaded Gasoline (Wholly Vaporized) was listed on 4/1/1988, more than 12 months before CCS served this notice.

6. Location(s):

Name of Alleged Violator(s)	Non-Exhaustive Example(s) of the Location
Chevron	10808 Beverly Blvd, Whittier, CA 90601

Note: The identified Location(s) above are identified to assist the recipient's investigation into, among other things, the breadth of potential exposures to the Listed Chemical from other items within the Location Type(s). This is not intended to be a comprehensive identification of each offending Location. CCS maintains the position that alleged Violator(s) is/are obligated to conduct a good faith investigation into other Locations that may have provided similar services during the period to ensure full compliance.

- 7. Route(s) of Exposure:** Exposures that are the subject of this Notice result from the purchase, acquisition, handling and normal use of this product. Exposures from the Product(s) include:
- a. Inhalation of the Product(s) under normal use**
- 8. Warnings Provided:** As the Location(s) is a Service Station, as defined under Proposition 65 regulation, per 25607.26(a), Proposition 65-compliant, clear and reasonable warnings must be made on each gas pump that complies with the content requirements of in 25607.27.
- a.** The Location(s) **DO NOT** contain Proposition 65-compliant, clear and reasonable warnings on each gas pump

RESOLUTION OF THE CLAIMS

Based on the allegations set forth in this Notice, [I/we] intend to file a citizen enforcement lawsuit on behalf of CCS against the alleged Violator(s) unless such Violator(s) agree in a binding written agreement to:

1. Close Location(s) operating in California; or
2. Provide Proposition 65 compliant exposure warnings for Location(s) in the future; and
3. Pay an appropriate civil penalty based on the factors enumerated in Health & Safety Code 25249.7(b)

REQUEST TO PRESERVE EVIDENCE ADDITIONAL EXPECTATIONS PURSUANT TO THIS NOTICE

Alleged Violator(s) are hereby requested to preserve any and all evidence relating to the violations described herein. This includes, without limitation, preserving any and all:

- Warning materials concerning exposure
- Testing reports related to the Locations(s)
- Advertising and marketing material related to the Location(s)
- Sales information related to the Location(s)
- Efforts to comply with Proposition 65 with respect to the Location(s)
- Communications with any person relating to the presence or potential presence of the Listed Chemical(s) at the Location(s)

While CCP is interested in seeking resolution of the claim(s) in this Notice without engaging in costly and protracted litigation, CCP stands ready to file a civil complaint in superior court should no appropriate governmental authority take action and should resolution not be reached by November 3, 2025.

CCP has retained me as legal counsel in connection with this Notice. Please direct all communications regarding this notice to Shannon Wilhite via:

- Email: shannon@sentinellaw.co
- Phone: (707) 599-5420
- USPS PO Box 82, Bayside, CA 95524

Sincerely,

A handwritten signature in black ink, reading "Shannon C. Wilhite". The signature is written in a cursive style with a prominent initial "S".

Shannon C. Wilhite, Attorney at Law

CERTIFICATE OF MERIT

I, Shannon C. Wilhite, hereby declare:

1. This Certificate of Merit accompanies the attached sixty-day notice(s) in which it is alleged the parties identified in the notices have violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings.
2. I am the attorney for the noticing party.
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the alleged exposure to the listed chemical(s) that is/are the subject of the action.
4. Based on the information obtained through these consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that “reasonable and meritorious case for the private action” means that the information provides a credible basis that all elements of the plaintiffs’ case can be established and the information did not prove that the alleged violator(s) will be able to establish any of the affirmative defenses set forth in the statute.
5. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including information identified in Health & Safety Code Section 25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certified, and (2) the facts, studies, or other data reviewed by those persons.

Date: September 4, 2025

Shannon C. Wilhite
Attorney at Law

CERTIFICATE OF SERVICE

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

1. I am a citizen of the United States.
2. I am over the age of 18
3. I am not a party to this case or action.
4. My business address is 4152 Old Railroad Grade Rd., McKinleyville CA 95519. I am a resident of and employed in Humboldt County, California, where the mailing occurred

On September 4, 2025, I served the following documents:

1. 60-Day Notice Of Intent To Sue for Violation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (California Health and Safety Code Section 25249.5 et seq.)
2. Certificate of Merit: Health & Safety Code 25249.7(d)
3. Certificate of Merit (Attorney General Copy): Factual information sufficient to establish the basis of the certificate of merit (*only sent to Attorney General*)
4. The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary

The above referenced documents were served as follows:

To the below parties by placing a true and correct copy thereof in a sealed envelope, addressed to each party at the party's last known address, with the U.S. Postal Service for delivery by First Class Certified Mail with the postage thereon fully prepaid:

ALLEGED VIOLATOR(S)
Mike Wirth Chevron Corporation 1400 Smith Street Houston, TX 77002

To District and City Attorneys, who have specifically authorized electronic mail service, by electronic mail of a true and correct copy thereof. To District and City Attorneys, who have not specifically authorized electronic mail service, by placing a true and correct copy thereof in a sealed envelope, addressed to each party at the party's last known address, with the U.S. Postal Service for delivery by First Class Mail with the postage thereon fully prepaid. To the California Attorney General by uploading a true and correct copy thereof at oag.ca.gov/prop65.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

Dated: September 4, 2025

APPENDIX A

OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.¹ These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

WHAT DOES PROPOSITION 65 REQUIRE?

The "Proposition 65 List." Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html.

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

Clear and reasonable warnings. A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies. The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

Prohibition from discharges into drinking water. A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

Grace Period. Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

Governmental agencies and public water utilities. All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

Businesses with nine or fewer employees. Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

Exposures that pose no significant risk of cancer. For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 et seq. of the regulations for information concerning how these levels are calculated.

Exposures that will produce no observable reproductive effect at 1,000 times the level in question. For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL).

See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 et seq. of the regulations for information concerning how these levels are calculated.

Exposures to Naturally Occurring Chemicals in Food. Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant² it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

Discharges that do not result in a "significant amount" of the listed chemical entering any source of drinking water. The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

HOW IS PROPOSITION 65 ENFORCED?

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off-premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A copy of the notice of special compliance procedure and proof of compliance form is included in Appendix B and can be downloaded from OEHHA's website at: <http://oehha.ca.gov/prop65/law/p65law72003.html>.
