

# SIXTY-DAY NOTICE OF VIOLATION

SENT IN COMPLIANCE WITH CALIFORNIA HEALTH & SAFETY CODE §25249.7(d)

**DATE:** June 1, 2026

**TO:** Sandy Mattinson, President – Zoro Tools, Inc.  
California Attorney General’s Office;  
District Attorneys and Certain City Attorneys Throughout California

**FROM:** Jay Epps

My name is Jay Epps. I am a citizen of the State of California acting in furtherance of the public interest. I seek to promote awareness of exposures to certain toxic chemicals in products sold in California and, if possible, to improve human health by reducing hazardous substances contained in such items. This notice is provided to the public agencies listed above pursuant to California Health & Safety Code §25249.6 *et seq.* (Proposition 65). As noted above, this letter is also being provided to the alleged violator, Zoro Tools, Inc. (in its role as an online retailer), which is a person in the course of doing business in California (Violator). The violations covered by this notice consist of the product exposure, routes of exposure and type of harm potentially resulting from exposure to the hazardous substances identified below (listed chemical), as follows:

Products:	Nickel-Based Welding Rods
Listed Chemicals:	Nickel and Nickel Compounds
Routes of Exposure:	Inhalation, Ingestion and Dermal
Type of Harm:	Cancer

## **I. NATURE OF ALLEGED VIOLATIONS (CONSUMER PRODUCT EXPOSURE)**

The specific products that are causing consumer exposures, in violation of Proposition 65, and that are covered by this letter shall be referred to hereinafter as the “Products.” Exposures to nickel and nickel compounds (“listed chemical” or “nickel”) from the use of the Products have been occurring without the “clear and reasonable warning” being prominently displayed (if at all) at the point of online sale as required by Proposition 65. Without proper warnings regarding the toxic effects of exposures to the listed chemical resulting from the use of the Products, California citizens lack the information necessary to make informed decisions on whether and how to eliminate (or reduce) the risk of exposure to the listed chemical from a reasonably foreseeable use of the Products. This notice expressly excludes any sales made in stores.

California citizens, through the act of buying, acquiring, receiving and/or utilizing the Products, are exposed to the listed chemical. By way of example, consumers and other individuals ingest the listed chemical when they, during as well as after use, touch the Products and transfer the listed chemical to their lips and/or into their mouths. Further, a reasonably foreseeable use of the Products can result in significant nickel exposure through the pathway of inhalation which will likely continue to occur for a significant period of time after dermal contact with the Product ceases.

Additionally, consumers and other individuals are exposed to the listed chemical through: (a) direct dermal contact when they, among other activities, touch the Products; as well as (b) direct ingestion when nickel transfer from their hands to their lips or into their mouth directly.

The California State Plan for Occupational Safety and Health incorporates the provisions of Proposition 65, as approved by Federal OSHA on October 1, 1989. This approval specifically placed certain conditions with regard to occupational exposures on Proposition 65, including that it does not apply to the conduct of manufacturers, by which the Products are branded (e.g., manufacturer's name appears on Product label), occurring outside the State of California so long as the named manufacturer is in the United States. The approval also provides that a United States employer may use the means of compliance in the general hazard communication requirements to comply with Proposition 65. It also requires that supplemental enforcement be subject to the supervision of the California Occupational Safety and Health Administration.

Any settlement, civil complaint or substantive court orders in this matter must be submitted to the state Attorney General. It is important to note that the sale of the Products through online sales means each transactions must provide the customer with a clear and reasonable warning for the risk of cancer pursuant to Proposition 65 and its implementing regulations.

## **III. PROPOSITION 65 INFORMATION**

For general information concerning the provisions of Proposition 65, please feel free to contact the Office of Environmental Health Hazard Assessment's (OEHHA) Proposition 65 Implementation Office at (916) 445-6900. For the Violator's reference, I have attached a copy of "The Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): A Summary" which has been prepared by OEHHA.

---

<sup>1</sup> Should your attempt to contact me through my counsel be unsuccessful, I can be reached by mail at 2386 Valley Street, Oakland, CA 94612, or by phone at (415) 849-6181.

#### **IV. POTENTIAL RESOLUTION OF NOTICED CLAIMS**

Based on the assertions set forth in this notice, I intend to file a citizen enforcement action against the Violator unless it enters into a binding written agreement to: (a) recall Products already sold; (b) provide “clear and reasonable warnings” for Products to be sold online in the future; or delist the offending Products from the Violator’s website until a “clear and reasonable warnings” is provided for Products to be sold online; and (c) pay an appropriate civil fine, if any, based on the factors enumerated in California Health & Safety Code §25249.7(b). If the alleged Violator is particularly interested in resolving this dispute without resorting to litigation, please feel free to contact my counsel identified in Section II above. It should be noted that neither my counsel nor I can finalize any settlement with any Violator until after the statutory sixty-day notice period has expired for the covered Products; nor speak for the state Attorney General, any state district attorney or the city attorneys whom received this notice.

#### **V. ADDITIONAL NOTICE INFORMATION**

An example of the Products which was recently purchased by California citizens and remains available for purchase or use in California is identified on Exhibit A. I allege that the sale of the offending Products through online transactions has also occurred without the requisite Proposition 65 “clear and reasonable warning,” during the relevant period under the law.

The example on the attachment is for the recipients’ benefit to assist in its investigation of, among other things, the magnitude of potential exposures to the listed chemical from other items within the product category at issue. To reiterate, the exemplar noted on Exhibit A is not meant to be a list of each offending Product containing the listed chemical.

The alleged Violator is obligated to conduct a good faith investigation into Products in addition to the exemplar that was offered for sale especially since the notice recipient has had actual or constructive notice of the nickel content, during all pertinent times, to determine whether a clear and reasonable warning was provided for the applicable toxic endpoint. The requisite warning shall be provided prominently on the product display pages prior to each Product purchased by a California citizen. Further, such investigation should also ensure that all online offering pages for the Products going forward contain the requisite conspicuous placement of, and clear language for, the risk of cancer associated with exposure to the listed chemical.

# CERTIFICATE OF MERIT

California Health & Safety Code §25249.7(d)

I, Clifford A. Chanler, hereby declare:

1. This Certificate of Merit accompanies the attached sixty-day notice in which it is alleged that the party identified in the notice has violated Health and Safety Code §25249.6 by failing to provide clear and reasonable warnings;
2. I am the attorney for the noticing party;
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who has reviewed facts, studies, or other data regarding the alleged exposure to the listed chemical that are the subject of this action and/or the listed chemical in substantially similar products and exposes individuals through the same potential routes;
4. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that “reasonable and meritorious case for the private action” means that the information provides a credible basis that all elements of the plaintiff’s case can be established and the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute;
5. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate under Health and Safety Code §25249.7(h)(2) including (i) the identity of the persons consulted with and relied on by the certifier, and (ii) certain facts, studies, or other data reviewed by those persons.

Dated: June 1, 2026
