

60 Day Notice of Violation

California Safe Drinking Water and Toxic Enforcement Act of 1986

BISPHENOL S IN COMPRESSION PANTYHOSE

October 20, 2026

Center for Consumer Safety LLC (“CCS”) gives notice under California Health and Safety Code section 25249.7(d) of alleged violations of Proposition 65. This Notice is directed to the alleged violators identified below and the public enforcement officials identified in the service lists.

The Office of Environmental Health Hazard Assessment’s summary of Proposition 65, Appendix A to title 27, section 25903, accompanies the copies served on the alleged violators.

Noticing party and prospective plaintiff: Center for Consumer Safety LLC (“CCS”), 2001 Addison Street, Suite 300, Berkeley, CA 94704. CCS acts in the public interest to protect consumers from toxic chemical exposures. Jillian Kaiser is an attorney employed by CCS and serves as its in-house counsel and responsible individual for this Notice. She may be contacted at the CCS office address above, by telephone at (341) 220-0375, or by email at legal@centerforconsumersafety.com.

CCS alleges that the identified businesses have knowingly and intentionally exposed California consumers to bisphenol S through the products described below without first providing a clear and reasonable warning as required by Health and Safety Code section 25249.6.

Nature and Scope of the Alleged Violations

Provision violated: This Notice concerns the warning requirement in California Health and Safety Code section 25249.6.

Violation period: The alleged violations began no later than March 4, 2026, and, on information and belief, continue through the date of this Notice.

Listed chemical or chemicals: bisphenol S.

Product category: compression pantyhose. The table below identifies representative examples within this specific category; it does not extend this Notice to unrelated product categories.

Exposure pathway: Ordinary and reasonably foreseeable use of compression pantyhose exposes consumers to bisphenol S through dermal absorption. These consumer exposures occur throughout California where the products are purchased and used.

Warning deficiency: Consumers are not provided a clear and reasonable Proposition 65 warning before the alleged exposures to bisphenol S.

Proposed Resolution and Intended Enforcement

CCS intends to pursue a private enforcement action after the statutory notice period has expired, subject to Health and Safety Code section 25249.7(d), if this matter remains unresolved and no authorized public prosecutor has commenced and is diligently prosecuting an action against the violations. CCS seeks a binding resolution that addresses products already sold, including recall where appropriate; prevents future unwarned exposures through compliant warnings or reformulation; and provides an appropriate civil penalty under section 25249.7(b).

Please contact Jillian Kaiser to discuss the allegations and corrective measures. Any resolution of CCS's claims remains subject to applicable statutory requirements and does not bind the Attorney General or any other public prosecutor.

Preservation of Evidence

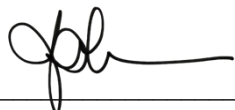

Please preserve documents, electronically stored information, test results, communications, and representative product samples relevant to the alleged exposures. This request includes product composition and sourcing records; manufacturing, purchasing, distribution, and sales records; warning and labeling materials; advertising; and Proposition 65 compliance efforts. Preserve relevant materials for the alleged violation period and any continuing violations, and suspend routine destruction of those materials pending resolution of this matter.

Identification of Upstream Businesses

Under title 27, California Code of Regulations, section 25600.2(g), each retail seller receiving this Notice is requested to provide the names and contact information of the manufacturers, producers, packagers, importers, suppliers, and distributors of the identified products, to the extent that information is available to the retail seller.

Certificate of Merit

California Health and Safety Code section 25249.7(d)

I, Jillian Kaiser, declare as follows:

1. This Certificate of Merit accompanies the 60 Day Notice of Violation alleging that the businesses identified in the Notice violated Health and Safety Code section 25249.6 by failing to provide clear and reasonable warnings.
2. I am an attorney employed by Center for Consumer Safety LLC, the noticing party and prospective plaintiff. I serve as CCS's in-house counsel and represent CCS in this matter.
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of the action.
4. Based on the information obtained through those consultations, and on all other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and the information did not prove that the alleged violators will be able to establish any of the affirmative defenses set forth in the statute.
5. The copy of this Certificate of Merit served on the Attorney General attaches to it factual information sufficient to establish the basis for this certificate, including the information identified in Health and Safety Code section 25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.
