

Center for Environmental Health v. Lisa Kline, Inc.

Partial Terms of Mediated Settlement

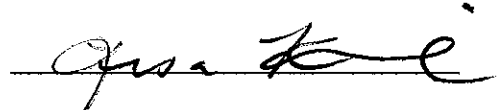

During a mediation before Martin Quinn of JAMS on October 14, 2010, the parties have agreed to a settlement of this lawsuit, the terms of which are embodied in a stipulated Consent Judgment and this agreement. In addition to complying with the terms of the Consent Judgment, Lisa Kline, Inc. agrees to host at its expense in approximately February 2011 an educational event concerning lead in children's products and the challenges and potential solutions facing manufacturers, distributors and retailers in eliminating lead from those products. This event would take place during an evening at the Lisa Kline women's store in Los Angeles, and the discussion would be led by Michael Green of CEH. The target audience for this event would be retailers, representatives of product lines and designers of children's products.
