	[PROPOSED] CONSENT JUDGMENT AS TO	WATER FILTERS LLC CASE NO. CIV-1104806

1. **INTRODUCTION**

1

1.1 On September 28, 2011, plaintiff the Center for Environmental Health (hereinafter
"CEH"), a non-profit corporation, filed a complaint in Marin County Superior Court entitled *Center for Environmental Health v. Crystal Quest Mfg., et al.*, for civil penalties and injunctive
relief pursuant to the provisions of Cal. Health & Safety Code §25249.5, *et seq.* ("Proposition
65") (the "Action"). CEH's complaint in the Action (the "Complaint") named Water Filters LLC
("Defendant") as a party.

- 8 1.2 The Complaint also names Water Filters Direct LLC and WaterFilters.net as
 9 parties. Defendant represents and warrants that Water Filters Direct LLC and WaterFilters.net are
 10 assumed names of Defendant and are not separate legal entities. Based on such representation,
 11 CEH has agreed to dismiss Water Filters Direct LLC and WaterFilters.net from the Action
 12 without prejudice and Defendant agrees to waive any costs.
- 13 1.3 Defendant is a corporation that employs more than 10 persons and that distributes 14 and/or sells residential and commercial point of entry and point of use drinking water filtration 15 systems utilizing activated carbon filters. Arsenic is alleged to be present in the activated carbon 16 used in the filters and replacement filters used in drinking water filtration systems sold by 17 Defendant. Defendant is a retailer that does not independently manufacture any water filter 18 products, thus certain injunctive relief that is in other consent judgments entered in this and 19 related cases against other defendants such as raw material and validation testing are not included 20 in this Consent Judgment. This Consent Judgment resolves CEH's claims against Defendant, as 21 described further herein, with respect to drinking water filtration systems utilizing activated 22 carbon filters and replacement filters used in such systems (the "Products"). "Private Label 23 Products" are defined in this Consent Judgment as those Products that bear a brand or trademark 24 that is owned or licensed for use by Defendant. A list of the Private Label Products currently 25 offered for sale by Defendant is attached hereto as Exhibit A.
- 1.4 On July 1, 2011, CEH served Defendant and the appropriate public enforcement
 agencies with the requisite 60-day notice (the "Notice") alleging that Defendant is in violation of
 Proposition 65. CEH's Notice and its Complaint allege that Defendant discharges and releases

- 2 -

arsenic (inorganic arsenic compounds) and arsenic (inorganic oxides) (referred to collectively
 herein as "Arsenic"), chemicals known to the State of California to cause cancer and birth defects
 or other reproductive harm, into sources of drinking water through the sale and use of the
 Products, in violation of Health & Safety Code §25249.5. Defendant contends that there has been
 no violation of Proposition 65 or Health & Safety Code §25249.5.

6

7

8

9

1.5 CEH's Notice and its Complaint also allege that Defendant did not provide a clear and reasonable warning to purchasers of the Products regarding the carcinogenicity and reproductive toxicity of Arsenic, in violation of Health & Safety Code §25249.6. Defendant contends that there has been no violation of Health & Safety Code §25249.6.

10 1.6 For purposes of this Consent Judgment only, the Parties stipulate that this Court
11 has jurisdiction over the allegations of violations contained in CEH's Complaint and personal
12 jurisdiction over Defendant as to the acts alleged in CEH's Complaint, that venue is proper in the
13 County of Marin, and that this Court has jurisdiction to enter this Consent Judgment as a full and
14 final resolution of all claims which were or could have been raised in the Complaint against
15 Defendant based on the facts alleged therein.

16 1.7 For the purposes of resolving this dispute by compromise and avoiding prolonged 17 litigation, CEH and Defendant enter into this Consent Judgment as a full and final settlement of 18 all claims that were raised in the Notice and Complaint, or which could have been raised in the 19 Complaint, arising out of the facts or conduct alleged therein. By execution of this Consent 20 Judgment and agreeing to provide the relief and remedies specified herein, Defendant does not 21 admit any issue of fact or law, including but not limited to any violations of Proposition 65 or any 22 other law or legal duty, and in fact deny that any violations whatsoever have occurred. By 23 execution of this Consent Judgment and agreeing to the injunctive relief set forth herein, CEH 24 does not admit any issue of fact or law. Nothing in this Consent Judgment shall prejudice, waive 25 or impair any right, remedy, argument or defense the Parties may have in this or any other or 26 future legal proceedings. This Consent Judgment is the product of negotiation and is accepted by 27 the Parties for purposes of settling and resolving issues disputed in this Action, including future 28 compliance by Defendant with Section 2 of this Consent Judgment, and shall not be used for any

- 3 -

other purpose, or in any other matter. Nothing in this Consent Judgment shall prohibit CEH from seeking, or the Court from ordering, different injunctive or other relief from entities that are not party to this Consent Judgment.

COMPLIANCE

2.1. **Arsenic Reformulation**. As of the date of entry of this Consent Judgment (the "Final Compliance Date"), Defendant shall not manufacture, distribute, sell or ship to any customer, retailer or distributor, or cause to be manufactured, distributed, sold or shipped to any customer, retailer or distributor, any Products that leach Arsenic in concentrations greater than 5 parts per billion ("ppb") using NSF Standard 42, 53 or the appropriate NSF Standard applicable to the Product being tested (in any case, using the latest edition) (the "Test Protocol"). The reformulation requirement of this Section does not require Defendant to recall or otherwise address any inventory of Product that was sold by Defendant prior to the Final Compliance Date.

2.2. **Specification Compliance Date.** No more than ten days after the Effective Date, 14 Defendant shall provide notice regarding the Arsenic Reformulation requirement set forth in 2.1 15 hereof to each of its suppliers of the Products and shall instruct each such supplier to provide 16 Products that comply with such Arsenic Reformulation standard on a nationwide basis. The 17 notice set forth in this Section shall inform the suppliers that arsenic is variable and request that 18 each supplier perform Raw Material Testing pursuant to the test protocol described in Exhibit B 19 attached hereto as well as end of product validation testing using the Test Protocol to ensure 20 compliance with Proposition 65 and the Arsenic Reformulation standard. Defendant shall 21 maintain records of correspondence to and from suppliers regarding this matter and shall within 22 forty-five days of the Effective Date provide a certification to Plaintiff regarding compliance with 23 this Section 2.2. In the event of any good faith dispute regarding compliance with this Section 24 2.2, Defendant shall make relevant documentation regarding compliance with this Section 2.2 25 available to CEH. 26

1

3.

ENFORCEMENT OF CONSENT JUDGMENT

3.1. Any Party may, after meeting and conferring, by motion or application for an order
to show cause before this Court, enforce the terms and conditions contained in this Consent
Judgment. Enforcement of the terms and conditions of Sections 2.1 of this Consent Judgment
shall be brought exclusively pursuant to Sections 3.2.

3.2. If Defendant learns from receiving CEH's or any other person or entity's
laboratory report from a qualified test laboratory showing test results that Defendant has
manufactured, distributed, shipped or sold any Product or caused the manufacture, distribution,
shipment or sale of any Products that are in violation of Paragraph 2.1 above ("Test Results"), it
shall be required to do the following within ten days of first learning of the violation:

3.2.1. Notify CEH of the violation (unless CEH has notified Defendant) and
provide CEH with Test Results and all other documents related to the violation including
identification of models and lot numbers of Products subject to the violation;

14 3.2.2. Stop selling Products from the same SKU and lot and pull such Products15 from all retail channels;

3.2.3. If the Product(s) that were the subject of the violation are Private Label
Products, notify any California customers who have purchased Products bearing the same SKU
and/or lot of Products that the Products may leach excess quantities of arsenic into drinking
water, and agree to exchange the Products for a replacement of equivalent or greater value at no
cost to the customers;

3.2.4. Notify the supplier of such Products of the violation and provide the
supplier with Test Results and all other documents related to the violation including identification
of models and lot numbers of Products subject to the violation;

3.2.5. Provide CEH with all known identification and contact information for the
supplier of the violating Product and related documents regarding the purchase of the Products
from the supplier; and

3.2.6. If the Product(s) that were the subject of the violation are Private Label
 Products, pay to CEH \$2,500 to reimburse CEH for post-judgment enforcement expenses. If the

Product(s) that were the subject of the violation are not Private Label Products, no payment shall be required. For purposes of this provision, manufacture, distribution, sale or shipment to customers, retailers or distributors, or causing the manufacture, distribution, sale or shipment to customers, retailers or distributors, of one or more Products from the same lot that fail to comply with the requirements of this Consent Judgment constitutes one violation.

1

2

3

4

5

6

3.2.7. If CEH presents Test Results to a Defendant that CEH contends constitute 7 8 evidence that Defendant has manufactured, distributed, sold, or shipped to any customer, retailer 9 or distributor any Product, or caused the manufacture, distribution, sale or shipment to any 10 customer, retailer or distributor of any Product that is in violation of Paragraph 2.1 above, CEH 11 shall forthwith provide Defendant a testable sample of the material CEH has tested that it 12 contends supports its contention. Such sample shall be taken from a place as close in proximity 13 as possible to the location of the sample tested by CEH. If Defendant engages the services of a 14 qualified laboratory that tests the split sample and finds no violation, or if Defendant is in 15 16 possession of other evidence that supports a good faith belief that such Product is not in violation, 17 then Defendant may within 15 days send CEH a Notice contesting the violation and in the interim 18 need not stop selling such Products. However, in such circumstance, Defendant shall provide 19 CEH and the supplier of the Product with all Test Results and other evidence supporting 20 Defendant's contention that it is not in violation. The parties shall then resolve the dispute 21 pursuant to Section 3.2.8 hereof. 22

3.2.8. If there is any dispute regarding enforcement of Section 2.1 via the
mechanism set forth in Section 3.2 of this Consent Judgment, prior to bringing any motion or
application to enforce the requirements of Section 2 above, CEH shall provide Defendant with a
Notice of Violation and a copy of test results, if any, which purportedly support CEH's Notice of
Violation. The Parties shall then meet and confer regarding the basis for CEH's anticipated

1	motion or application in an attempt to resolve it informally. Should such attempts at meeting and
2	conferring fail, CEH may, by motion or application for an order to show cause before the
3	Superior Court of the County of Marin, enforce the terms and conditions contained in this
4	Consent Judgment. Should CEH prevail on any motion or application to enforce a material
5 6	violation of this Consent Judgment under this Section, CEH shall be entitled to its reasonable
7	attorneys' fees and costs incurred as a result of such motion or application. Should Defendant
8	prevail on any motion or application under this Section, Defendant may be awarded their
9	reasonable attorneys' fees and costs as a result of such motion or application upon a finding by
10	the court that CEH's prosecution of the motion or application was not in good faith. This
11	Consent Judgment may only be enforced by Defendant, CEH and the California Attorney
12	General.
13 14	
14	4. Settlement Payment
16	4.1. Within five days after Entry of this Consent Judgment, Defendant shall pay
10	\$50,000 as a settlement payment. The payment required under this Section shall be delivered to
17	the offices of Lexington Law Group. Any failure by Defendant to comply with the payment
	terms herein shall be subject to a stipulated late fee in the amount of \$100 for each day after the
19 20	delivery date the payment is received. The late fees required under this Section shall be
20	recoverable, together with reasonable attorneys' fees, in an enforcement proceeding brought
21 22	pursuant to Section 5 of this Consent Judgment. CEH and the Lexington Law Group shall
22	provide completed W-9 forms to Defendant on request and Defendant may issue Form 1099s to
	each of them but only in the amount of the respective payments set forth for each entity below.
24 25	The funds paid by Defendant shall be made payable and distributed as follows:
25 26	4.1.1. <u>Penalty</u> : \$6,530 of Defendant's payment shall be made by check payable
26 27	to the Center For Environmental Health as a penalty pursuant to Health & Safety Code
27	
20	- 7 -
	[PROPOSED] CONSENT JUDGMENT AS TO WATER FILTERS LLC CASE NO. CIV-1104806

\$25249.7(b). CEH shall apportion the penalties in accordance with Health & Safety Code
 \$25249.12.

3	4.1.2. Monetary Payment In Lieu Of Penalty: \$9,800 of Defendant's payment	
4	shall be made by check payable to the Center For Environmental Health as payment to CEH in	
5	lieu of civil penalty pursuant to Health & Safety Code §25249.7(b), and California Code of	
6	Regulations, title 11, §3203(b). CEH will use such funds to continue its work educating and	
7	protecting people from exposures to toxic chemicals, including heavy metals. In addition, as part	
8	of its Community Environmental Action and Justice Fund, CEH will use four percent of such	
9	funds to award grants to grassroots environmental justice groups working to educate and protect	
10	people from exposures to toxic chemicals. The method of selection of such groups can be found	
11	at the CEH web site at www.ceh.org/justicefund.	
12	4.1.3. <u>Attorneys' Fees And Costs</u> : \$33,670 of Defendant's payment shall be	
13	made by check payable to the Lexington Law Group as reimbursement of a portion of CEH's	
14	reasonable investigation fees and costs, attorneys' fees, and any other costs incurred as a result of	
15	investigating, bringing this matter to Defendant's attention, litigating and negotiating a settlement	
16	in the public interest.	
17	5. MODIFICATION OF CONSENT JUDGMENT	
18	5.1. This Consent Judgment may be modified by written agreement of CEH and	
19		
20	Defendant, after noticed motion, and upon entry of an amended consent judgment by the Court	
21	thereon, or upon motion of CEH or Defendant and upon entry of an amended consent judgment	
22	by the Court.	
23	6. APPLICATION OF CONSENT JUDGMENT	
24	6.1. This Consent Judgment shall apply to and be binding upon the Parties hereto, their	
25	divisions, subdivisions and subsidiaries, and the successors or assigns of any of them.	
26	7. Release	
27		
28	7.1. This Consent Judgment is a full, final and binding resolution among:	
	- 8 -	
	[PROPOSED] CONSENT JUDGMENT AS TO WATER FILTERS LLC CASE NO. CIV-1104806	

1	⁻ CEH, acting in the public interest pursuant to Health & Safety Code
2	§25249.7(d);
3	- Defendant;
4 5	 Defendant's parents, subsidiaries, affiliates, directors, officers, employees, agents, shareholders and their successors and assigns ("Defendant Releasees"); and
6	⁻ Defendant's customers, distributors, wholesalers or retailers, or any other
7	person within Defendant's downstream chain of distribution which may in the course of doing business use, maintain, distribute or sell Products and
8	Components which are manufactured, distributed or sold by Defendant (including Products and Components which are privately labeled by persons
9	other than Defendant) (hereinafter "Downstream Entity," and collectively
10	"Downstream Entities"),
11	of any violation of Proposition 65 that was or could have been asserted in the Complaint against
12	Defendant, Defendant Releasees or Downstream Entities based on alleged failure to warn about
13	exposure to Arsenic contained in the Products, as well as any alleged discharge of Arsenic into a
14	source of drinking water from the Products, with respect to any Products manufactured,
15	distributed or sold by Defendant on or prior to the Final Compliance Date (hereinafter "Released
16	Products").
17	7.2. CEH, acting for itself and in the public interest pursuant to Health & Safety Code
18	§25249.7(d), hereby releases, waives and forever discharges any and all claims for violations of
19	Proposition 65 against Defendant, Defendant Releasees and Downstream Entities based on
20	alleged failure to warn about exposure to Arsenic contained in any Released Products, as well as
21	any alleged discharge of Arsenic into a source of drinking water from any Released Products.
22	7.3. Compliance with the terms of this Consent Judgment by Defendant shall constitute
23	compliance with Proposition 65 by Defendant, Defendant Releasees and Downstream Entities
24	with respect to any alleged failure to warn about exposure to Arsenic contained in the Products
25	and Components as well as any alleged discharge of Arsenic into a source of drinking water from
26	such Products and Components, with respect to any Products and Components manufactured,
27	distributed or sold by Defendant (including such Products and Components privately labeled by

EXHIBIT B

Raw Material Sampling And Monitoring Protocol

1.1 Definitions

1.1.1 A "continuous sample" is defined as a spot sample obtained from a pipeline conveying the product in such a manner as to give a representative average of the stream throughout the period of transit.

1.1.2 A "lot" is defined as a discrete quantity of material from one manufacturing batch and must be identified as such by the manufacturer.

1.1.3 A "thief sample" is a sample taken at a specific time and location using a sampling tube or special thief, either as a core sample or spot sample from a specific point in a container.

1.2 Sample Collection and Sampling Frequency

1.2.1 In the case where carbon from a single lot is received in multiple discrete packages, such as bags or drums, a single thief sample shall be taken from a random location within each package. If the number of samples required pursuant to step 1.2.2 below exceeds the number of discrete packages received, then multiple thief samples shall be taken from random locations in the packages being sampled. If the number of samples required pursuant to step 1.2.2 below is less than the number of discrete packages received, then a single thief sample shall be taken from a random location from a sufficient number of randomly selected packages to satisfy step 1.2.2 below.

1.2.2 A minimum of one random thief sample shall be taken for each 5,000 lbs of carbon in each lot.

1.2.3 The thief samples may be tested individually or made into a representative composite sample.

1.2.4 If the carbon from a lot is not already in discrete packages or containers, refer to step 1.2.2 above for the number of random thief samples to be taken within the lot.

1.2.5 Samples will be collected and analyzed for testing in accordance with Sections 1.4, 1.5 or 1.6 below as applicable.

1.2.6 No portion of any lot of carbon shall be further processed or changed in a way that could increase the arsenic leaching characteristics of the carbon, including but not limited to grinding to change the particle size distribution, after the sample from that lot of carbon passes the raw material test unless the carbon is retested after such processing or change.

1.3 Selection of Raw Material Extraction Test Method

1.3.1 Raw material extraction testing shall be conducted on each sample collected in accordance with Section 1.2 above. The entity undertaking the raw material extraction testing shall use one of the three methods described below, provided that the beaker test described in Section 1.6 may only be used as an option for carbon used in block filters.

1.4 Column Test Method

1.4.1 Measure a sample of carbon in a graduated cylinder. Vibrate or tamp down to a minimum volume of 100 ± 5 cc (1 cc + 1 mL). Place the carbon in a glass or plastic column with a glass or plastic frit or glass wool plug to retain the carbon in the column. The column should have a Teflon stopcock or other means to control release of water and to accommodate connection for vacuum filtration.

1.4.2 Add deionized water meeting the specifications for Type II water set forth in Section 1.1 of ASTM D1193-91 Standard Specification for Reagent Water (@ $20 \pm 5^{\circ}$ C) (hereinafter "Deionized Water") to the column. Place a tight fitting rubber stopper in the top of the column and invert the column several times to fluidize the carbon and release any air bubbles. Flush the carbon bed by drawing off no more than 10 bed volumes (1000 ± 50 mL) of water in no more than twenty (20) minutes. After flushing has been completed, invert the column several more times to assure all the air bubbles have been released. Note: Vacuum suction may be needed to achieve the required flow rate if fine mesh carbon is tested. Discard the flush water.

1.4.3 After drawing off the flush, let 50 ± 5 mL remain above the carbon bed in the column. Allow the column to sit stagnant for 24 hours.

1.4.4 After the 24-hr stagnation time, draw off by gravity flow or by vacuum suction all the water from the column. If carbon fines are visible in the water sample, filter through an appropriately sized filter (*e.g.*, Whatman 934AH glass fiber filter paper disc or equivalent such as Gelman type A/E, Millipore type AP40). Collect the water sample in an acid-washed glass container and preserve the sample by adding concentrated nitric acid to achieve a 1 % (v/v) acid solution.

1.4.5 Add Deionized Water to the column until there is 50 ± 5 mL present above the carbon bed. If air bubbles are present in the column, repeat the process of inverting the column as described in 1.4.2. Continue with steps 1.4.2 through 1.4.4 until a total of three stagnation samples have been collected.

1.4.6 Combine the three stagnation samples as one composite sample and analyze for arsenic in accordance with the EPA methods referenced in NSF Standard 53 (latest edition).

1.5 Beaker Test Method

1.5.1 Place a 50 cc sample of carbon in 125 mL of Deionized Water (as defined in Section 1.4.2 above) in a container. Using a glass rod gently stir the carbon/water mixture until any trapped air bubbles have been released. Cover the sample and soak for 6 hours.

1.5.2 Decant or vacuum filter sample using a filter appropriate for carbon particle size.

1.5.3 Transfer filtered extract into sample bottle. Preserve the sample by adding concentrated nitric acid to achieve a 1 % (v/v) acid solution.

1.5.4 Analyze samples in accordance with those EPA Analytical Methods referenced in NSF Standard 53 (latest edition).

1.6 Beaker Test Method – Option for Carbon Used in Block Filters Only

1.6.1 The version of the Beaker Test Method described in this Section 1.6 is an optional test method for carbon to be used in block filters. While each test method set forth in the protocol may be used to test carbon used in block filters, the test set forth in Section 1.6 may not be used unless the carbon to be tested is to be used in block filters.

1.6.2 Place a 50 cc sample of carbon in 125 mL of Deionized Water (as defined in Section 1.4.2 above) in a container. Cover the container and let soak for three hours.

1.6.3 After the soak, decant or vacuum filter the sample. If vacuum filtration is used, transfer carbon to the original container. Add 125 ml of Deionized Water to the carbon. Using a glass rod gently stir the carbon/water mixture until any trapped air bubbles have been released. Cover the sample and soak for 24 hours.

1.6.4 Decant or vacuum filter sample using a filter appropriate for carbon particle size.

1.6.5 Transfer filtered extract into sample bottle. Preserve the sample by adding concentrated nitric acid to achieve a 1 % (v/v) acid solution.

1.6.6 Analyze samples in accordance with those EPA Analytical Methods referenced in NSF Standard 53 (latest edition).

1.7 Test Results

1.7.1 Irrespective of the method used (*i.e.* column or beaker), the arsenic limit shall be 5 parts per billion ("ppb").

1.7.2 Should a lot of raw material exceed 5 ppb, the entity undertaking the raw material testing and/or the manufacturer shall be entitled to undertake further processing of the lot so as to reduce the levels of extractable arsenic. If the entity undertaking the raw material testing and/or the manufacturer chooses to undertake any such further processing, it shall assign a new lot number to the lot, and, following such further processing, shall subject the lot to raw material testing in accordance with the applicable testing procedure described above. The entity undertaking any such further processing shall document steps taken to further process the raw material and shall make any such documentation available to CEH upon request.
